Medal of Honor Warfighter Hits Stores Worldwide Today to Deliver the Most Authentic Military Shooter This Year

Powered by the Award-Winning Frostbite 2 Game Engine, Medal of Honor Warfighter Set to Unleash Innovative Gameplay Inspired by Real Warriors, Real Operations and Real Hotspots

REDWOOD CITY, Calif.--(BUSINESS WIRE)-- Step into the boots of the most elite Tier 1 Operators to hunt down terror. Danger Close™ Games, a studio of Electronic Arts Inc. (NASDAQ: EA), today announced that *Medal of Honor™ Warfighter* is now available at retail stores in North America and will be released on October 26 in Europe. The award-winning *Medal of Honor* franchise has sold over 50M copies in its illustrious history, with *Medal of Honor Warfighter* set to deliver this year's only true modern military shooter experience. Introducing 12 Tier 1 units from 10 different nations including the Polish GROM, German KSK, Canadian JTF-2 and U.S. Navy SEAL, *Medal of Honor Warfighter* will deliver one of the premier multiplayer experiences of the year. Powered by the advanced technology of the *Frostbite™ 2* game engine, IGN.com says the game "looks and feels far better than its predecessor."

The *Medal of Honor Warfighter* innovative multiplayer design allows players to represent their nation as gamers go head-to-head pitting the best-of-the-best soldiers from around the world in online competition. The game also introduces a new multiplayer co-operative feature called Fireteams, which gives players a competitive advantage and rewards them for teaming up with a friend on the battlefield. Players will be able to represent their global warfighters and experience Fireteams in eight real-world maps including Sarajevo Stadium in Bosnia and five unique modes like the nerve-rattling "Hotspot" and fast-paced "Home Run" Sport mode.

Written by actual U.S. Tier 1 Operators while deployed overseas, *Medal of Honor Warfighter* features a dotted line to real world events and provides players a view into globally recognized threats and situations letting them experience the action as it might have unfolded. From rescuing hostages in Abu Sayyaf's stronghold in Basilan, Philippines to assaulting Al-Shabaab's "Pirate Town" on the Somali Coast, the single player campaign allows players to step behind the iron sights of Tier 1 Operators as they hunt down a terrorist mastermind and the global threat of the distribution of a deadly explosive chemical called PETN.

Medal of Honor Warfighter is available for the Xbox 360® video game and entertainment system, PlayStation®3 computer entertainment system and the PC. The *Medal of Honor Warfighter Limited Edition** includes the *Medal of Honor Warfighter Zero Dark Thirty Map Pack* in North America and *Medal of Honor Warfighter The Hunt Map Pack* in Europe at no extra charge. The pack will be available for sale for $9.99 in conjunction with the theatrical debut of *Zero Dark Thirty* when the film releases the week of December 17.
