# Comtech Telecommunications Corp. Awarded $5.6 Million in Orders for High Power Amplifiers

MELVILLE, N.Y., Nov 29, 2007 (BUSINESS WIRE) -- Comtech Telecommunications Corp. (NASDAQ: CMTL) announced today that its Melville, New York-based subsidiary, Comtech PST Corp., has received $5.6 million in orders from a domestic prime contractor to supply broadband, solid state, high power radio signal jamming amplifiers.

These amplifiers, which include the latest solid state transistor technology and provide for very broad frequency coverage, are key components in jamming systems manufactured by our customer.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "We are proud of our RF microwave amplifier segment's continuing success and recognition as a premier supplier of solid state, high power amplifiers to the electronic warfare marketplace."

Comtech PST Corp. (www.comtechpst.com) is a leading independent supplier of broadband high power, high performance RF microwave amplifiers for use in a broad spectrum of applications including defense, high power instrumentation, medical and satellite communications systems.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable or ineffective. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.
