DynCorp International Awarded Contract Valued at up to $198 Million to Provide Operations Support Services to Joint Special Operations Task Force in Philippines

FALLS CHURCH, Va. - (June 7, 2012) - Naval Facilities Engineering Command-Pacific has awarded DynCorp International (DI) a contract to provide operations support services within the designated Joint Operation Area and Manila, Republic of the Philippines.

"We are proud and honored that Naval Facilities Engineering Command has chosen DI to continue to provide quality support services to the men and women of the Joint Special Operations Task Force- Philippines," said Kenneth Juergens, group vice president, Global Logistics and Development Solutions, DynCorp International.

DI team members will provide services including management and administration, command and staff, public safety, air operations, port operations, supply, morale, welfare and recreation support, galley, facility support, utilities, base support vehicles and equipment and environmental services.

The competitively-awarded, cost-plus-incentive-fee contract has one base year with four, one-year options and a total contract value of $198 million if all options are exercised. DI was the incumbent on this contract, previously providing support services under a contract awarded in March 2008.

About DynCorp International
DynCorp International is a global government services provider working in support of U.S. national security and foreign policy objectives, delivering support solutions for defense, diplomacy and international development. DI operates major programs in logistics, platform support, contingency operations and training and mentoring to reinforce security, community stability and the rule of law.
