About Lam Research:
Lam Research Corp. is a major supplier of innovative wafer fabrication equipment and services to the worldwide semiconductor industry. For more than 30 years, the Company has driven continuous improvements in chip performance, power consumption, and cost, contributing to the global proliferation of smartphones, computers, tablets, and other electronic products. Lam Research has been the leading supplier of high-throughput plasma etch equipment for more than a decade and expanded its product offerings in 2008 to include single-wafer clean systems. The Company added thin-film deposition and wafer surface preparation technologies to its product portfolio in 2012 with the acquisition of Novellus Systems, Inc. Headquartered in Fremont, Calif., Lam Research maintains a global network of service facilities throughout North America, Asia, and Europe to rapidly meet the needs of its global customer base. It is an S&P 500® company and NASDAQ-100® company whose common stock trades on the NASDAQ Global Select Market(SM) under the symbol LRCX.
