

## **AnalogicTech Sees No Impact to Its Business from Recent ITC Ruling**

SANTA CLARA, Calif., March 24, 2010 /PRNewswire via COMTEX News Network/ -- Advanced Analogic Technologies, Inc. ("AnalogicTech" or the "Company") (Nasdaq: AATI), commented today on the recent Initial Determination issued by the United States International Trade Commission (ITC) with respect to patent proceedings with Linear Technology Corporation (Linear) on U.S. Patent No. 6,580,258 ('258 Patent). Although the latest ruling broadens the group of affected products, the majority of products impacted by the ITC's Limited Exclusion Order use older designs or technologies and more than one-third of these products have had no associated revenue for the last three years. As AnalogicTech continues to focus its sales efforts on non-U.S. markets, the total U.S. revenue for the products in this case is approximately one-tenth of one-percent of AnalogicTech's worldwide revenue for the same products. The Company continues to anticipate no significant impact to its business.

"While we disagree with this recent ruling, the effect to our business remains unchanged," stated Joseph Hollinger, Counsel of AnalogicTech. "We are pleased that the Judge has recommended no change to the current Limited Exclusion Order which applies only to AnalogicTech and its agents and does not prevent our customers from importing their downstream products that may contain our switching regulators."

AnalogicTech remains focused on innovation and has identified several new switching regulator topologies that it plans to pursue in spite of the impending expiration of the Linear Tech Patent.

### **About AnalogicTech**

Advanced Analogic Technologies (AATI) develops advanced semiconductor system solutions that play a key role in the continuing evolution of feature-rich, energy efficient electronic devices. The company focuses on addressing the application-specific power management needs of consumer devices such as mobile handsets, digital cameras, and netbooks/notebooks, as well as devices in a broad range of industrial, medical and telecom applications. AATI also licenses device, process, package, and application-related technologies. Headquartered in Silicon Valley, AATI has design centers in Santa Clara and Shanghai, and Asia-based operations and logistics. ### **"Safe Harbor" Statement Under the Private Securities Litigation Reform Act of 1995**

Statements contained in this release that are not historical facts are forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements, including financial projections and forecasts, involve risks and uncertainties that could cause AnalogicTech's actual results to differ materially from our current expectations. Factors that could cause AnalogicTech's results to differ materially from those set forth in these forward-looking statements include customers' cancellation or modification of their orders; our failure to accurately forecast demand for our products; the loss of, or a significant reduction in orders from, any of our significant customers; consumer demand for cellular phones and other mobile consumer electronic devices; worldwide economic and political conditions, particularly in Asia; our ability to manage inventory levels, fluctuations in our operating results; our inability to develop and sell new products; defects in or failures of our products; the expense and uncertainty involved in our customer design-win efforts; the financial viability of the distributors of our products; fluctuations in our costs to manufacture our products; our reliance on third parties to manufacture, test, assemble and ship our products; our ability to retain and attract key personnel; our ability to compete with our competitors; and our ability to protect our intellectual property rights and not infringe the intellectual property rights of others. Other factors that may cause our actual results to differ from those set forth in the forward-looking statements contained in this press release and that may affect our prospects in general are described in our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K/A for the year ended December 31, 2009. AnalogicTech undertakes no obligation to update or revise forward-looking statements to reflect subsequent events or changed assumptions or circumstances.
