ABOUT THE COVER

The front cover is a representation of a geometric shape known as a fractal. A fractal is divisible into parts, each of which is a smaller copy of the whole. Similarly, Quality Systems' electronic-based solutions for the healthcare industry, such as practice management, patient records and revenue cycle management applications, can be customized into parts to meet the specific needs of medical, dental and ambulatory group practices as well as rural and community hospitals. Currently used by more than 70,000 physicians and dentists nationwide, Quality Systems' solutions have been tested, trusted and proven and can be scaled to handle the impending nationwide demand for a unified transition to electronic health records.
