QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended March 31, 2017

Or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 1-6639

MAGELLAN HEALTH, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

**4800 N. Scottsdale Rd, Suite 4400
Scottsdale, Arizona**

(Address of principal executive offices)

58-1076937

(IRS Employer
Identification No.)

85251

(Zip code)

(602) 572-6050

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definition of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if a
smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of the registrant's Ordinary Common Stock outstanding as of March 31, 2017 was 23,717,121 .

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March, 31 2017

(Unaudited)

NOTE A—General

Basis of Presentation

The accompanying unaudited consolidated financial statements of Magellan Health, Inc., a Delaware corporation (“Magellan”), include Magellan and its subsidiaries (together with Magellan, the “Company”). The financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the Securities and Exchange Commission’s (the “SEC”) instructions to Form 10-Q. Accordingly, the financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring adjustments considered necessary for a fair presentation, have been included. The results of operations for the three months ended March 31, 2017 are not necessarily indicative of the results to be expected for the full year. All significant intercompany accounts and transactions have been eliminated in consolidation.

These unaudited consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2016 and the notes thereto, which are included in the Company’s Annual Report on Form 10-K filed with the SEC on February 24, 2017.

Business Overview

The Company is engaged in the healthcare management business, and is focused on managing the fastest growing, most complex areas of health, including special populations, complete pharmacy benefits and other specialty areas of healthcare. The Company develops innovative solutions that combine advanced analytics, agile technology and clinical excellence to drive better decision making, positively impact health outcomes and optimize the cost of care for the members we serve. The Company provides services to health plans and other managed care organizations (“MCOs”), employers, labor unions, various military and governmental agencies and third party administrators (“TPAs”).

Healthcare

Healthcare includes the Company’s: (i) management of behavioral healthcare services and employee assistance program (“EAP”) services, (ii) management of other specialty areas including diagnostic imaging and musculoskeletal management, and (iii) the integrated management of physical, behavioral and pharmaceutical healthcare for special populations, delivered through Magellan Complete Care (“MCC”). These special populations include individuals with serious mental illness (“SMI”), dual eligibles, long-term services and supports and other populations with unique and often complex healthcare needs.

The Company’s coordination and management of these healthcare services are provided through its comprehensive network of medical and behavioral health professionals, clinics, hospitals and ancillary service providers. This network of credentialed and privileged providers is integrated with clinical and quality improvement programs to improve access to care and enhance the healthcare experience for individuals in need of care, while at the same time making the cost of these services more affordable for our customers. The Company generally does not directly provide or own any provider of treatment services, although it does employ licensed behavioral health counselors to deliver non-medical counseling under certain government contracts.

The Healthcare segment’s commercial division serves a variety of customers, with services, inclusive of special population management, provided under contracts with health plans and accountable care organizations for some or all of their commercial, Medicaid and Medicare members, as well as with employers. The government division contracts with local, state and federal governmental agencies to provide services to recipients under Medicaid, Medicare and other government programs.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

The Company provides its management services primarily through: (i) risk-based products, where the Company assumes all or a substantial portion of the responsibility for the cost of providing treatment services in exchange for a fixed per member per month fee and (ii) administrative services only (“ASO”) products, where the Company provides services such as utilization review, claims administration and/or provider network management, but does not assume responsibility for the cost of the treatment services.

Pharmacy Management

The Pharmacy Management segment (“Pharmacy Management”) comprises products and solutions that provide clinical and financial management of pharmaceuticals paid under medical and pharmacy benefit programs. Pharmacy Management’s services include: (i) pharmacy benefit management (“PBM”) services; (ii) pharmacy benefit administration (“PBA”) for state Medicaid and other government sponsored programs; (iii) pharmaceutical dispensing operations; (iv) clinical and formulary management programs; (v) medical pharmacy management programs; and (vi) programs for the integrated management of specialty drugs across both the medical and pharmacy benefit that treat complex conditions, regardless of site of service, method of delivery, or benefit reimbursement.

Pharmacy Management’s services are provided under contracts with health plans, employers, MCOs, state Medicaid programs, Medicare Part D and other government agencies, and encompass risk-based and fee-for-service (“FFS”) arrangements. In addition, Pharmacy Management has subcontract arrangements to provide PBM services for certain Healthcare customers.

Corporate

This segment of the Company is comprised primarily of amounts not allocated to the Healthcare and Pharmacy Management segments that are largely associated with costs related to being a publicly traded company.

Summary of Significant Accounting Policies

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, “Revenue from Contracts with Customers (Topic 606)” (“ASU 2014-09”), which is a new comprehensive revenue recognition standard that will supersede virtually all existing revenue guidance under GAAP. In March 2016, the FASB issued ASU 2016-08, “Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)” (“ASU 2016-08”), which clarifies the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU No. 2016-10, “Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing” (“ASU 2016-10”), which clarifies the performance obligations and licensing implementation guidance of ASU 2014-09. In July 2015, the FASB deferred the effective date of ASU 2014-09. In December 2016, the FASB issued ASU No. 2016-20, “Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers” (“ASU 2016-20”), which amends various aspects of ASU 2014-09. The amendments in these ASUs are effective for annual and interim reporting periods of public entities beginning after December 15, 2017. The Company has identified its major revenue streams and is in the process of completing formal contract reviews. While the Company continues to assess all of the potential impacts of these ASUs, the Company does not expect implementation of these ASUs will have a significant impact on the Company’s consolidated results of operations, financial position and cash flows. The Company continues to assess the disclosure requirements prescribed by these ASUs and it may be required to expand its disclosures. The Company intends to adopt the new standard on a modified retrospective basis.

In July 2015, the FASB issued ASU No. 2015-11, “Inventory (Topic 330): Simplifying the Measurement of Inventory” (“ASU 2015-11”). The amendment under this ASU requires that an entity measure inventory at the lower of cost or net realizable value. This guidance is effective for annual and interim reporting periods of public entities

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

beginning after December 15, 2016 and was adopted by the Company in the quarter ended March 31, 2017. The effect of this guidance was immaterial to the Company's consolidated results of operations, financial position and cash flows.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" ("ASU 2016-02"). This ASU amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets. This guidance is effective for annual and interim reporting periods of public entities beginning after December 15, 2018, with early adoption permitted. The Company is currently assessing the impact of adoption, but believes the effect of this ASU will have a material effect on the Company's consolidated balance sheets. The Company is currently assessing the potential impact this ASU will have on the Company's consolidated results of operations, financial position and cash flows.

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" ("ASU 2016-13"). This ASU amends the accounting on reporting credit losses for assets held at amortized cost basis and available for sale debt securities. This guidance is effective for annual and interim periods of public entities beginning after December 15, 2019, with early adoption permitted for fiscal years beginning after December 31, 2018. The Company is currently assessing the potential impact this ASU will have on the Company's consolidated results of operation, financial position and cash flows.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments" ("ASU 2016-15"). This ASU makes eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. This guidance is effective for annual and interim periods of public entities beginning after December 15, 2017, with early adoption permitted. The Company is currently assessing the potential impact this ASU will have on the Company's consolidated results of operation, financial positions and cash flows.

In December 2016, the FASB issued ASU 2016-19, "Technical Corrections and Improvements" ("ASU 2016-19"). The amendments in this ASU cover a wide range of Topics in the Accounting Standard Codification, including internal use software covered under Subtopic 350-40. This guidance is effective for annual and interim periods of public entities beginning after December 15, 2017, with early adoption permitted. The Company is currently assessing the potential impact this ASU will have on the Company's consolidated results of operations, financial position and cash flows.

In January 2017, the FASB issued ASU No. 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business" ("ASU 2017-01"). The amendments in this ASU clarify whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. This guidance is effective for annual and interim periods of public entities beginning after December 15, 2017, with early adoption permitted. The Company is currently assessing the potential impact this ASU will have on the Company's consolidated results of operations, financial position and cash flows.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment" ("ASU 2017-04"). The amendments in this ASU eliminate the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge. This guidance is effective for annual and interim periods of public entities beginning after December 15, 2019, with early adoption permitted for interim periods after January 1, 2017. The Company is currently assessing the potential impact this ASU will have on the Company's consolidated results of operations, financial position and cash flows.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates of the Company include, among other things, accounts receivable realization, valuation allowances for deferred tax assets, valuation of goodwill and intangible assets, medical claims payable, other medical liabilities, contingent consideration, stock compensation assumptions, tax contingencies and legal liabilities. Actual results could differ from those estimates.

Managed Care and Other Revenue

Managed Care Revenue. Managed care revenue, inclusive of revenue from the Company's risk, EAP and ASO contracts, is recognized over the applicable coverage period on a per member basis for covered members. The Company is paid a per member fee for all enrolled members, and this fee is recorded as revenue in the month in which members are entitled to service. The Company adjusts its revenue for retroactive membership terminations, additions and other changes, when such adjustments are identified, with the exception of retroactivity that can be reasonably estimated. The impact of retroactive rate amendments is generally recorded in the accounting period in which terms to the amendment are finalized, and that the amendment is executed. Any fees paid prior to the month of service are recorded as deferred revenue. Managed care revenues approximated \$545.0 million and \$559.1 million for the three months ended March 31, 2016 and 2017, respectively.

Fee-For-Service, Fixed Fee and Cost-Plus Contracts. The Company has certain contracts with customers under which the Company recognizes revenue as services are performed and as costs are incurred. This includes revenues received in relation to the Patient Protection and Affordable Care Act health insurer fee ("HIF fee") billed on a cost reimbursement basis. The Consolidated Appropriations Act of 2016 imposed a one-year moratorium on the HIF fee, suspending its application for 2017. Revenues from these contracts approximated \$103.0 million and \$143.7 million for the three months ended March 31, 2016 and 2017, respectively.

Rebate Revenue. The Company administers a rebate program for certain clients through which the Company coordinates the achievement, calculation and collection of rebates and administrative fees from pharmaceutical manufacturers on behalf of clients. Each period, the Company estimates the total rebates earned based on actual volumes of pharmaceutical purchases by the Company's clients, as well as historical and/or anticipated sharing percentages. The Company earns fees based upon the volume of rebates generated for its clients. The Company does not record as rebate revenue any rebates that are passed through to its clients. Total rebate revenues approximated \$19.8 million and \$22.3 million for the three months ended March 31, 2016 and 2017, respectively.

In relation to the Company's PBM business, the Company administers rebate programs through which it receives rebates from pharmaceutical manufacturers that are shared with its customers. The Company recognizes rebates when the Company is entitled to them and when the amounts of the rebates are determinable. The amount recorded for rebates earned by the Company from the pharmaceutical manufacturers is recorded as a reduction of cost of goods sold.

PBM and Dispensing Revenue

Pharmacy Benefit Management Revenue. The Company recognizes PBM revenue, which consists of a negotiated prescription price (ingredient cost plus dispensing fee), co-payments collected by the pharmacy and any associated administrative fees, when claims are adjudicated. The Company recognizes PBM revenue on a gross basis (i.e. including drug costs and co-payments) as it is acting as the principal in the arrangement and is contractually obligated to its clients and network pharmacies, which is a primary indicator of gross reporting. In addition, the Company is solely responsible for the claims adjudication process, negotiating the prescription price for the pharmacy, collection of payments from the client for drugs dispensed by the pharmacy, and managing the total prescription drug

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

March, 31 2017

(Unaudited)

relationship with the client's members. If the Company enters into a contract where it is only an administrator, and does not assume any of the risks previously noted, revenue will be recognized on a net basis. PBM revenues approximated \$344.5 million and \$432.9 million for the three months ended March 31, 2016 and 2017, respectively.

Dispensing Revenue. The Company recognizes dispensing revenue, which includes the co-payments received from members of the health plans the Company serves, when the specialty pharmaceutical drugs are shipped. At the time of shipment, the earnings process is complete; the obligation of the Company's customer to pay for the specialty pharmaceutical drugs is fixed, and, due to the nature of the product, the member may neither return the specialty pharmaceutical drugs nor receive a refund. Revenues from the dispensing of specialty pharmaceutical drugs on behalf of health plans were \$55.3 million and \$55.2 million for the three months ended March 31, 2016 and 2017, respectively.

Medicare Part D. The Company is contracted with the Centers for Medicare and Medicaid ("CMS") as a Prescription Drug Plan ("PDP") to provide prescription drug benefits to Medicare beneficiaries. Net revenues include premiums earned by the PDP, which includes a direct premium paid by CMS and a beneficiary premium paid by the PDP member. In cases of low-income members, the beneficiary premium may be subsidized by CMS. The Company recognizes premium revenues on a monthly basis on a per member basis for covered members. In addition to these premiums, net revenue includes certain payments from the members based on the members' actual prescription claims, including co-payments, coverage gap benefits, deductibles and co-insurance (collectively, "Member Responsibilities"). The Company receives a prospective subsidy payment from CMS each month to subsidize a portion of the Member Responsibilities for low-income members. If the prospective subsidy differs from actual prescription claims, the difference is recorded as either a receivable or payable on the consolidated balance sheets. The Company assumes no risk for the Member Responsibilities, including the portion subsidized by CMS. The Company recognizes revenues for Member Responsibilities, including the portion subsidized by CMS, on a gross basis as claims are adjudicated. CMS also provides an annual risk corridor adjustment which compares the Company's actual drug costs incurred to the premiums received. Based on the risk corridor adjustment, the Company may receive additional premiums from CMS or may be required to refund CMS a portion of previously received premiums. The Company calculates the risk corridor adjustment on a quarterly basis and the amount is included in net revenues with a corresponding receivable or payable on the consolidated balance sheets. Medicare Part D revenues approximated \$50.3 million and \$111.6 million for the three months ended March 31, 2016 and 2017, respectively, including co-payments, which are included in PBM revenues above, of \$9.5 million and \$23.4 million for the three months ended March 31, 2016 and 2017, respectively. As of December 31, 2016 and March 31, 2017, the Company had \$117.5 million and \$126.7 million, respectively, in net receivables associated with Medicare Part D from CMS and other parties related to this business.

Significant Customers

Customers exceeding ten percent of the consolidated Company's net revenues

The Company has a contract with the State of Florida to provide integrated healthcare services to Medicaid enrollees in the state of Florida ("the Florida Contract"). The Florida Contract began on February 4, 2014 and extends through December 31, 2018, unless sooner terminated by the parties. The State of Florida has the right to terminate the Florida Contract with cause, as defined, upon 24 hour notice and upon 30 days notice for any reason or no reason at all. The Florida Contract generated net revenues of \$130.8 million and \$145.7 million for the three months ended March 31, 2016 and 2017, respectively.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

Customers exceeding ten percent of segment net revenues

In addition to the Florida Contract, previously discussed, the following customers generated in excess of ten percent of net revenues for the respective segment for the three months ended March 31, 2016 and 2017 (in thousands):

Segment	Term Date	2016	2017
Healthcare			
None			
Pharmacy Management			
Customer A	December 31, 2016 (1)	\$ 99,959	\$ 1,730 *
Customer B	June 30, 2019	—	92,712

* Revenue amount did not exceed 10 percent of net revenues for the respective segment for the year presented. Amount is shown for comparative purposes only.

(1) A vast majority of this customer's revenues were generated from drug acquisition costs related to PBM services which terminated on September 1, 2016. The Company continues to provide specialty distribution services to the customer and is in negotiations with the customer to extend this contract.

Concentration of Business

The Company also has a significant concentration of business with various counties in the State of Pennsylvania (the "Pennsylvania Counties") which are part of the Pennsylvania Medicaid program, with members under its contract with CMS and with various agencies and departments of the United States federal government. Net revenues from the Pennsylvania Counties in the aggregate totaled \$110.0 million and \$109.9 million for the three months ended March 31, 2016 and 2017, respectively. Net revenues from members in relation to its contract with CMS in aggregate totaled \$50.3 million and \$111.6 million for the three months ended March 31, 2016 and 2017, respectively. Net revenues from contracts with various agencies and departments of the United States federal government in aggregate totaled \$42.5 million and \$88.0 million for the three months ended March 31, 2016 and 2017, respectively.

The Company's contracts with customers typically have terms of one to three years, and in certain cases contain renewal provisions (at the customer's option) for successive terms of between one and two years (unless terminated earlier). Substantially all of these contracts may be immediately terminated with cause and many of the Company's contracts are terminable without cause by the customer or the Company either upon the giving of requisite notice and the passage of a specified period of time (typically between 60 and 180 days) or upon the occurrence of other specified events. In addition, the Company's contracts with federal, state and local governmental agencies generally are conditioned on legislative appropriations. These contracts generally can be terminated or modified by the customer if such appropriations are not made.

Fair Value Measurements

The Company has certain assets and liabilities that are required to be measured at fair value on a recurring basis. These assets and liabilities are to be measured using inputs from the three levels of the fair value hierarchy, which are as follows:

Level 1—Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2—Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

March, 31 2017

(Unaudited)

observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3—Unobservable inputs that reflect the Company’s assumptions about the assumptions that market participants would use in pricing the asset or liability. The Company develops these inputs based on the best information available, including the Company’s data.

In accordance with the fair value hierarchy described above, the following table shows the fair value of the Company’s assets and liabilities that are required to be measured at fair value as of December 31, 2016 and March 31, 2017 (in thousands):

	December 31, 2016

(1) Excludes \$127.0 million of cash held in bank accounts by the Company.

(2) Includes investments in notes issued by the Federal Home Loan Bank, Federal Farm Credit Banks and Federal National Mortgage Association.

(3) Excludes \$160.6 million of cash held in bank accounts by the Company.

For the three months ended March 31, 2017, the Company has not transferred any assets between fair value measurement levels.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

The carrying values of financial instruments, including accounts receivable, accounts payable and revolving loan borrowings, approximate their fair values due to their short-term maturities. The estimated fair value of the Company's term loans of \$612.5 million as of March 31, 2017 was based on current interest rates for similar types of borrowings and is in Level 2 of the fair value hierarchy. The estimated fair values may not represent actual values of the financial instruments that could be realized as of the balance sheet date or that will be realized in the future.

All of the Company's investments are classified as "available-for-sale" and are carried at fair value.

The contingent consideration liability reflects the fair value of potential future payments related to the Cobalt Therapeutics, LLC ("Cobalt"), The Management Group, LLC ("TMG") and Armed Forces Services Corporation ("AFSC") acquisitions. The Cobalt, TMG and AFSC purchase agreements provide for potential contingent payments of up to a maximum of \$6.0 million, \$15.0 million and \$10.0 million, respectively. As of March 31, 2017, there are remaining potential future payments of \$5.0 million, \$15.0 million and \$10.0 million for Cobalt, TMG and AFSC, respectively.

As of the balance sheet date, the fair value of contingent consideration is determined based on probabilities of payment, projected payment dates, discount rates, projected operating income, member engagement and new contract execution. The Company used a probability weighted discounted cash flow method to arrive at the fair value of the contingent consideration. As the fair value measurement for the contingent consideration is based on inputs not observed in the market, these measurements are classified as Level 3 measurements as defined by fair value measurement guidance. The unobservable inputs used in the fair value measurement include the discount rate, probabilities of payment and projected payment dates.

As of December 31, 2016 and March 31, 2017, the Company estimated undiscounted future contingent payments of \$12.7 million and \$12.2 million, respectively. The net decrease was mainly due to changes in operational forecasts and probabilities of payment. As of March 31, 2017, the aggregate amounts and projected dates of future potential contingent consideration payments were \$10.2 million in 2017 and \$2.0 million in 2020.

As of December 31, 2016, the fair value of the short-term and long-term contingent consideration was \$9.4 million and \$1.8 million, respectively, and is included in short-term contingent consideration and long-term contingent consideration, respectively, in the consolidated balance sheets. As of March 31, 2017, the fair value of the short-term and long-term contingent consideration was \$9.8 million and \$1.3 million, respectively, and is included in short-term contingent consideration and long-term contingent consideration, respectively, in the consolidated balance sheets.

The change in the fair value of the contingent consideration was \$(0.3) million and \$(0.1) million for the three months ended March 31, 2016 and 2017, respectively, which were recorded as direct service costs and other operating expenses in the consolidated statements of income. The decreases were mainly a result of changes in present value and the estimated undiscounted liability.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

The following table summarizes the Company's liability for contingent consideration for the three months ended March 31, 2017 (in thousands):

	March 31, 2017
Balance as of beginning of period	\$ 11,153
Changes in fair value	(49)
Payments	—
Balance as of end of period	<u>\$ 11,104</u>

Cash and Cash Equivalents

Cash equivalents are short-term, highly liquid interest-bearing investments with maturity dates of three months or less when purchased, consisting primarily of money market instruments. At March 31, 2017, the Company's excess capital and undistributed earnings for the Company's regulated subsidiaries of \$121.5 million are included in cash and cash equivalents.

Investments

If a debt security is in an unrealized loss position and the Company has the intent to sell the debt security, or it is more likely than not that the Company will have to sell the debt security before recovery of its amortized cost basis, the decline in value is deemed to be other-than-temporary and is recorded to other-than-temporary impairment losses recognized in income in the consolidated statements of income. For impaired debt securities that the Company does not intend to sell or it is more likely than not that the Company will not have to sell such securities, but the Company expects that it will not fully recover the amortized cost basis, the credit component of the other- than-temporary impairment is recognized in other-than-temporary impairment losses recognized in income in the consolidated statements of income and the non-credit component of the other-than-temporary impairment is recognized in other comprehensive income.

As of December 31, 2016 and March 31, 2017, there were no unrealized losses that the Company determined to be other-than-temporary. No realized gains or losses were recorded for the three months ended March 31, 2016 or 2017. The following is a summary of short-term and long-term investments at December 31, 2016 and March 31, 2017 (in thousands):

	December 31, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
U.S. Government and agency securities	\$ 5,832	\$ —	\$ (15)	\$ 5,817

(1) Includes investments in notes issued by the Federal Home Loan Bank, Federal National Mortgage Association and Federal Farm Credit Banks.

The maturity dates of the Company's investments as of March 31, 2017 are summarized below (in thousands):

	Amortized Cost	Estimated Fair Value
2017	\$ 237,361	\$ 237,174
2018	76,253	76,120
2019	406	406
Total investments at March 31, 2017	<u>\$ 314,020</u>	<u>\$ 313,700</u>

Income Taxes

The Company's effective income tax rates were 47.3 percent and 40.3 percent for the three months ended March 31, 2016 and 2017, respectively. These rates differ from the federal statutory income tax rate primarily due to state income taxes, permanent differences between book and tax income, and changes to recorded tax contingencies and valuation allowances. The Company also accrues interest and penalties related to uncertain tax positions in its provision for income taxes. The effective income tax rate for the three months ended March 31, 2017 is lower than the effective rate for the three months ended March 31, 2016 mainly due to the suspension for 2017 of the non-deductible HIF Fees.

The Company files a consolidated federal income tax return with most of its eighty-percent or more controlled subsidiaries. The Company files a separate consolidated federal income tax return for AlphaCare of New York, Inc. ("AlphaCare") and its parent, AlphaCare Holdings, Inc. The Company and its subsidiaries also file income tax returns in various state and local jurisdictions. The Company is no longer subject to federal, state or local income tax assessments for years ended prior to 2013.

Net Operating Loss Carryforwards

The Company has \$1.8 million of federal net operating loss carryforwards ("NOLs") available to reduce its federal consolidated taxable income in 2017 and subsequent years. These NOLs will expire in 2018 and 2019 if not used and are subject to examination and adjustment by the Internal Revenue Service ("IRS"). AlphaCare has \$41.0 million of federal NOLs available to reduce its consolidated taxable income in 2017 and subsequent years. These NOLs will expire in 2033 through 2036 if not used and are subject to examination and adjustment by the IRS. The Company and its subsidiaries also have \$103.6 million of state NOLs available to reduce state taxable income at certain subsidiaries in 2017 and subsequent years. Most of these state NOLs will expire in 2017 through 2035 if not used and are subject to examination and adjustment by the respective state tax authorities.

Deferred tax assets as of December 31, 2016 and March 31, 2017 are shown net of valuation allowances of \$17.1 million and \$17.7 million, respectively. These valuation allowances mostly relate to uncertainties regarding the eventual realization of the AlphaCare federal NOLs and certain state NOLs. Determination of the amount of deferred tax assets considered realizable requires significant judgment and estimation regarding the forecasts of future taxable

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

March, 31 2017

(Unaudited)

income which are consistent with the plans and estimates the Company uses to manage the underlying businesses. Although consideration is also given to potential tax planning strategies which might be available to improve the realization of deferred tax assets, none were identified which were both prudent and reasonable. Future changes in the estimated realizable portion of deferred tax assets could materially affect the Company's financial condition and results of operations.

Health Care Reform

The Patient Protection and the Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010 (collectively, the "Health Reform Law"), imposes a mandatory annual fee on health insurers for each calendar year beginning on or after January 1, 2014. The Company has obtained rate adjustments from customers which the Company expects will cover the direct costs of these fees and the impact from non-deductibility of such fees for federal and state income tax purposes. To the extent the Company has such a customer that does not renew, there may be some impact due to taxes paid where the timing and amount of recoupment of these additional costs is uncertain. In the event the Company is unable to obtain rate adjustments to cover the financial impact of the annual fee, the fee may have a material impact on the Company. The Consolidated Appropriations Act of 2016 imposed a one-year moratorium on the HIF fee, suspending its application for 2017. The HIF fee is scheduled to go back into effect for 2018. For 2016 the HIF fees were \$26.5 million which has been paid. Of this amount, \$7.1 million was expensed in the three months ended March 31, 2016, which was included in direct service costs and other operating expenses in the consolidated statements of income. The Company recorded revenues of \$11.3 million in the three months ended March 31, 2016, associated with the accrual for the reimbursement of the economic impact of the HIF fees from its customers. As of March 31, 2017, the Company has a \$13.3 million receivable related to a terminated contract that the customer has expressed their unwillingness to pay, however the Company believes the amount is collectible and has not established a reserve.

Stock Compensation

At December 31, 2016 and March 31, 2017, the Company had equity-based employee incentive plans, which are described more fully in Note 6 in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, which was filed with the SEC on February 24, 2017. The Company recorded stock compensation expense of \$8.9 million and \$10.1 million for the three months ended March 31, 2016 and 2017, respectively. Stock compensation expense recognized in the consolidated statements of income for the three months ended March 31, 2016 and 2017 has been reduced for forfeitures, estimated at between zero and four percent for both periods.

The weighted average grant date fair value of all stock options granted during the three months ended March 31, 2017 was \$17.10 as estimated using the Black-Scholes-Merton option pricing model, which also assumed an expected volatility of 27.8 percent based on the historical volatility of the Company's stock price.

For the three months ended March 31, 2016, the benefit of tax deductions in excess of recognized stock compensation expense (net of deficiencies) was \$0.3 million, which was reported as a change to additional paid-in capital. For the three months ended March 31, 2017, the benefit of tax deductions in excess of recognized stock compensation expense (net of deficiencies) was \$0.9 million. Due to the adoption of ASU 2016-09 in the 4th quarter of 2016, this net benefit is reported as a reduction to income tax expense rather than as a change in additional paid-in-capital. Consistent with the adoption of this standard, the net tax benefit is reflected as an operating cash flow rather than a financing cash flow.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

Summarized information related to the Company's stock options for the three months ended March 31, 2017 is as follows:

	<u>Options</u>	<u>Weighted Average Exercise Price</u>
Outstanding, beginning of period	2,843,177	\$ 57.42
Granted	408,096	69.21
Forfeited	(4,750)	61.85
Exercised	(100,054)	50.81
Outstanding, end of period	<u>3,146,469</u>	<u>\$ 59.16</u>
Vested and expected to vest at end of period	<u>3,114,864</u>	<u>\$ 59.09</u>
Exercisable, end of period	<u>2,016,716</u>	<u>\$ 55.90</u>

All of the Company's options granted during the three months ended March 31, 2017 vest ratably on each anniversary date over the three years subsequent to grant and have a ten year life.

Summarized information related to the Company's nonvested restricted stock awards ("RSAs") for the three months ended March 31, 2017 is as follows:

	<u>Shares</u>	<u>Weighted Average Grant Date Fair Value</u>
Outstanding, beginning of period	615,472	\$ 58.71
Awarded	—	—
Vested	—	—
Forfeited	—	—
Outstanding, ending of period	<u>615,472</u>	58.71

Summarized information related to the Company's nonvested restricted stock units ("RSUs") for the three months ended March 31, 2017 is as follows:

	<u>Shares</u>	<u>Weighted Average Grant Date Fair Value</u>
Outstanding, beginning of period	200,178	\$ 61.65
Awarded	105,280	68.50
Vested	(117,069)	60.52
Forfeited	(3,295)	63.26
Outstanding, ending of period	<u>185,094</u>	66.23

The vesting period for RSAs ranges from 12 months to 42 months. In general, RSUs vest ratably on each anniversary over the three years subsequent to grant.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

Summarized information related to the Company's nonvested restricted performance stock units ("PSUs") for the three months ended March 31, 2017 is as follows:

	Shares	Weighted Average Grant Date Fair Value
Outstanding, beginning of period	102,977	\$ 93.03
Awarded	101,989	76.24
Vested	—	—
Forfeited	—	—
Outstanding, end of period	<u>204,966</u>	<u>84.67</u>

The weighted average estimated fair value of the PSUs granted in the three months ended March 31, 2017 was \$76.24, which was derived from a Monte Carlo simulation. Significant assumptions utilized in estimating the value of the awards granted include an expected dividend yield of 0%, a risk free rate of 1.54%, and expected volatility of 18% to 61% (average of 33%). The PSUs granted in the three months ended March 31, 2017, will entitle the grantee to receive a number of shares of the Company's common stock determined over a three-year performance period ending on December 31, 2019 and vesting on March 3, 2020, the settlement date, provided the grantee remains in the service of the Company on the settlement date. The Company expenses the cost of these awards ratably over the requisite service period. The number of shares for which the PSUs will be settled will be a percentage of shares for which the award is targeted and will depend on the Company's total shareholder return (as defined below), expressed as a percentile ranking of the Company's total shareholder return as compared to the Company's peer group (as defined below). The number of shares for which the PSUs will be settled vary from zero to 200 percent of the shares specified in the grant. Total shareholder return is determined by dividing the average share value of the Company's common stock over the 30 trading days preceding January 1, 2020 by the average share value of the Company's common stock over the 30 trading days beginning on January 1, 2017, with a deemed reinvestment of any dividends declared during the performance period. The Company's peer group includes 51 companies which comprise the S&P Health Care Services Industry Index, which was selected by the compensation committee of the Company's board of directors and includes a range of healthcare companies operating in several business segments.

Long Term Debt and Capital Lease Obligations

On July 23, 2014, the Company entered into a \$500.0 million Credit Agreement with various lenders that provides for Magellan Rx Management, Inc. (a wholly owned subsidiary of Magellan Health, Inc.) to borrow up to \$250.0 million of revolving loans, with a sublimit of up to \$70.0 million for the issuance of letters of credit for the account of the Company, and a term loan in an original aggregate principal amount of \$250.0 million (the "2014 Credit Facility"). On December 2, 2015, the Company entered into an amendment to the 2014 Credit Facility under which Magellan Pharmacy Services, Inc. (a wholly owned subsidiary of Magellan Health, Inc.) became a party to the \$500.0 million Credit Agreement as the borrower and assumed all of the obligations of Magellan Rx Management, Inc. The 2014 Credit Facility is guaranteed by substantially all of the non-regulated subsidiaries of the Company and will mature on July 23, 2019; however, the Company holds an option to extend the 2014 Credit Facility for an additional one year period.

Under the 2014 Credit Facility, the annual interest rate on revolving and term loan borrowings is equal to (i) in the case of base rate loans, the sum of a borrowing margin ranging from 0.50 percent to 1.00 percent plus the higher of the prime rate, one-half of one percent in excess of the overnight "federal funds" rate, or the Eurodollar rate for one month plus 1.00 percent, or (ii) in the case of Eurodollar rate loans, the sum of a borrowing margin ranging from 1.50 percent to 2.00 percent plus the Eurodollar rate for the selected interest period. The Company has the option to borrow in base rate loans or Eurodollar rate loans at its discretion, with the borrowing margin for these loans adjusted from time to time based on the Company's total leverage ratio. Letters of credit issued bear interest equal to the borrowing margin for

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

March, 31 2017

(Unaudited)

Eurodollar loans that ranges from 1.50 percent to 2.00 percent, with the commitment commission on the unused revolving loan commitment ranging from 0.20 percent to 0.35 percent. These letter of credit and commitment commission rates are adjusted from time to time based on the Company's total leverage ratio.

Under the 2014 Credit Facility, on September 30, 2014, the Company completed a draw-down of the \$250.0 million term loan (the "2014 Term Loan"). The borrowings have been maintained as a Eurodollar loan. The 2014 Term Loan is subject to certain quarterly amortization payments. As of March 31, 2017 the remaining balance on the 2014 Term Loan was \$212.5 million. The 2014 Term Loan will mature on July 23, 2019. As of March 31, 2017, the 2014 Term Loan bore interest at a rate of 1.625 percent plus the London Interbank Offered Rate ("LIBOR"), which was equivalent to a total interest rate of approximately 2.607 percent. For the three months ended March 31, 2017, the weighted average interest rate was approximately 2.404 percent.

On June 27, 2016, the Company entered into a \$200.0 million Credit Agreement with various lenders that provides for a \$200.0 million term loan (the "2016 Term Loan") to Magellan Pharmacy Services, Inc. (the "2016 Credit Facility"). The 2016 Credit Facility is guaranteed by substantially all of the non-regulated subsidiaries of the Company and will mature on December 29, 2017.

Under the 2016 Credit Facility, the annual interest rate on the term loan is equal to (i) in the case of base rate loans, the sum of a borrowing margin ranging from 0.25 percent to 0.75 percent plus the higher of the prime rate, one-half of one percent in excess of the overnight "federal funds" rate, or the Eurodollar rate for one month plus 1.00 percent, or (ii) in the case of Eurodollar rate loans, the sum of a borrowing margin ranging from 1.25 percent to 1.75 percent plus the Eurodollar rate for the selected interest period. The Company has the option to borrow in base rate loans or Eurodollar rate loans at its discretion, with the borrowing margin for these loans adjusted from time to time based on the Company's total leverage ratio.

The borrowings under the 2016 Term Loan have been maintained as a Eurodollar loan. As of March 31, 2017 the remaining balance on the 2016 Term Loan was \$200.0 million and bore interest at a rate of approximately 1.375 percent plus the LIBOR, which was equivalent to a total interest rate of approximately 2.357 percent. For the three months ended March 31, 2017, the weighted average interest rate was approximately 2.154 percent.

On January 10, 2017, the Company entered into a Credit Agreement with various lenders that provides for a \$200.0 million delayed draw term loan (the "2017 Term Loan") to Magellan Pharmacy Services, Inc. (the "2017 Credit Facility"). The 2017 Credit Facility is guaranteed by substantially all of the non-regulated subsidiaries of the Company and will mature on December 29, 2017.

Under the 2017 Credit Facility, the annual interest rate on the term loan borrowing is equal to (i) in the case of base rate loans, the sum of an initial borrowing margin of 0.625 percent plus the higher of the prime rate, one-half of one percent in excess of the overnight "federal funds" rate, or the Eurodollar rate for one month plus 1.00 percent, or (ii) in the case of Eurodollar rate loans, the sum of an initial borrowing margin of 1.625 percent plus the Eurodollar rate for the selected interest period. The borrowing margin is subject to adjustment based on the leverage ratio of the Company. The Company has the option to borrow in base rate loans or Eurodollar rate loans at its discretion. The commitment commission on the 2017 Credit Facility is 0.25 percent of the unused commitment, which rate shall be adjusted from time to time based on the Company's total leverage ratio.

On January 10, 2017, the Company completed a \$100.0 million draw of its available \$200.0 million delayed draw term loan under the 2017 Credit Facility. An additional \$100.0 million draw under the 2017 Credit Facility was completed on March 14, 2017. As of March 31, 2017 the remaining balance on the 2017 Term Loan was \$200.0 million and bore interest at a rate of approximately 1.625 percent plus the LIBOR, which was equivalent to a total interest rate of approximately 2.516 percent. During the period the term loan was outstanding, from January 10, 2017 through March 31, 2017, the weighted average interest rate was approximately 2.436 percent.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

As of March 31, 2017, the contractual maturities of the term loans under the 2014 Credit Facility, 2016 Credit Facility and the 2017 Credit Facility (collectively, the “Credit Facilities”) were as follows: 2017—\$418.8 million; 2018—\$25.0 million; and 2019—\$168.7 million. The Company had \$33.7 million and \$27.7 million of letters of credit outstanding at December 31, 2016 and March 31, 2017, respectively. Beginning in April 2016, due to the timing of working capital needs, the Company has periodically borrowed from the revolving loan under the 2014 Credit Facility. The revolving loan borrowings have been in the form of Eurodollar rate loans and totaled \$175.0 million at December 31, 2016. At March 31, 2017, the Company had no revolving loan borrowings, resulting in a borrowing capacity of \$222.3 million under the 2014 credit facility.

There were \$26.0 million and \$25.4 million of capital lease obligations at December 31, 2016 and March 31, 2017, respectively. The Company’s capital lease obligations represent amounts due under leases for certain properties, computer software and equipment. Included in long-term debt and capital lease obligations as of December 31, 2016 and March 31, 2017 are deferred loan issuance costs of \$1.4 million and \$1.6 million, respectively.

Redeemable Non-Controlling Interest

As of March 31, 2017, the Company held an equity interest of approximately 84% in AlphaCare Holdings. The other shareholders of AlphaCare Holdings have the right to exercise put options requiring the Company to purchase all or any portion of the remaining shares. In addition, the Company has the right to purchase all remaining shares. Non-controlling interests with redemption features, such as put options, that are not solely within the Company’s control are considered redeemable non-controlling interests. Redeemable non-controlling interest is considered to be temporary and is therefore reported in a mezzanine level between liabilities and stockholders’ equity on the Company’s consolidated balance sheet at the greater of the initial carrying amount adjusted for the non-controlling interest’s share of net income or loss or its redemption value. The carrying value of the non-controlling interest as of December 31, 2016 and March 31, 2017 was \$4.8 million and \$4.5 million, respectively. The \$(0.3) million decrease in carrying value is a result of operating losses. The Company evaluates the redemption value on a quarterly basis. If the redemption value is greater than the carrying value, the Company adjusts the carrying amount of the non-controlling interest to equal the redemption value at the end of each reporting period. Under this method, this is viewed at the end of the reporting period as if it were also the redemption date for the non-controlling interest. The Company will reflect redemption value adjustments in the earnings per share (“EPS”) calculation if redemption value is in excess of the carrying value of the non-controlling interest. As of March 31, 2017, the carrying value of the non-controlling interest exceeded the redemption value and therefore no adjustment to the carrying value was required.

Reclassifications

Certain prior year amounts have been reclassified to conform with the current year presentation.

The Company elected to early adopt ASUs 2016-09 and 2016-18 effective for the fiscal year ended December 31, 2016 and applied them retrospectively. Adoption of these standards resulted in a net reduction to the Company’s cash flows of \$52.7 million for the three months ended March 31, 2016. In addition, as a result of the adoption of ASU 2016-09, the diluted weighted average shares outstanding as of March 31, 2016 have been adjusted. There was no impact to the net income per common share – diluted.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

NOTE B—Net Income per Common Share Attributable to Magellan Health, Inc.

The following table reconciles income attributable to common shareholders (numerator) and shares (denominator) used in the computations of net income per share attributable to common shareholders (in thousands, except per share data):

	Three Months Ended	
	March 31,	
	2016	2017
Numerator:		
Net income attributable to Magellan Health, Inc.	\$ 13,237	\$ 17,747
Denominator:		
Weighted average number of common shares outstanding—basic	23,631	23,012
Common stock equivalents—stock options (1)	253	474
Common stock equivalents—RSAs (1)	563	402
Common stock equivalents—RSUs (1)	27	81
Common stock equivalents—PSUs (1)	35	66
Common stock equivalents—employee stock purchase plan	2	3
Weighted average number of common shares outstanding—diluted (1)	24,511	24,038
Net income attributable to Magellan Health, Inc. per common share—basic	\$ 0.56	\$ 0.77
Net income attributable to Magellan Health, Inc. per common share—diluted	\$ 0.54	\$ 0.74

- 1) During 2016, the Company early adopted ASU 2016-09. As a result, the common stock equivalents and diluted weighted average common shares outstanding as of March 31, 2016 have been adjusted. There was no impact to net income per common share – diluted.

The weighted average number of common shares outstanding for the three months ended March 31, 2016 and 2017 were calculated using outstanding shares of the Company’s common stock. Common stock equivalents included in the calculation of diluted weighted average common shares outstanding for the three months ended March 31, 2016 and 2017 represent stock options to purchase shares of the Company’s common stock, RSAs, RSUs, PSUs and stock purchased under the Employee Stock Purchase Plan.

The Company had additional potential dilutive securities outstanding representing 1.5 million and 0.6 million options for the three months ended March 31, 2016 and 2017, respectively, that were not included in the computation of dilutive securities because they were anti-dilutive for the period. Had these shares not been anti-dilutive, all of these shares would not have been included in the net income attributable to common shareholder per common share calculation as the Company uses the treasury stock method of calculating diluted shares.

NOTE C—Business Segment Information

The accounting policies of the Company’s segments are the same as those described in Note A—“General.” The Company evaluates performance of its segments based on profit or loss from operations before stock compensation expense, depreciation and amortization, interest expense, interest and other income, changes in the fair value of contingent consideration recorded in relation to acquisitions, gain on sale of assets, special charges or benefits, and income taxes (“Segment Profit”). Management uses Segment Profit information for internal reporting and control purposes and considers it important in making decisions regarding the allocation of capital and other resources, risk assessment and employee compensation, among other matters. Healthcare subcontracts with Pharmacy Management to provide pharmacy benefits management services for certain of Healthcare’s customers. In addition, Pharmacy Management provides pharmacy benefits management for the Company’s employees covered under its medical plan. As such, revenue, cost of goods sold and direct service costs and other related to these arrangements are eliminated. The Company’s segments are defined in Note A—“General”.

Interest expense	1,748	4,148
Interest and other income	(683)	(949)
Segment Profit	<u>\$ 59,932</u>	<u>\$ 69,819</u>

NOTE D—Commitments and Contingencies

Legal

The Company's operating activities entail significant risks of liability. From time to time, the Company is subject to various actions and claims arising from the acts or omissions of its employees, network providers or other parties. In the normal course of business, the Company receives reports relating to deaths and other serious incidents involving patients whose care is being managed by the Company. Such incidents occasionally give rise to malpractice, professional negligence and other related actions and claims against the Company or its network providers. Many of these actions and claims received by the Company seek substantial damages and therefore require the Company to incur significant fees and costs related to their defense.

The Company is also subject to or party to certain class actions and other litigation and claims relating to its operations or business practices. In the opinion of management, the Company has recorded reserves that are adequate to cover litigation, claims or assessments that have been or may be asserted against the Company, and for which the outcome is probable and reasonably estimable. Management believes that the resolution of such litigation and claims will not have a material adverse effect on the Company's financial condition or results of operations; however, there can be no assurance in this regard.

Stock Repurchases

On October 26, 2015, the Company's board of directors approved a stock repurchase plan which authorized the Company to purchase up to \$200 million of its outstanding common stock through October 26, 2017 (the "2015 Repurchase Program"). Stock repurchases under the programs may be carried out from time to time in open market transactions (including blocks) or in privately negotiated transactions. The timing of repurchases and the actual amount purchased will depend on a variety of factors including the market price of the Company's shares, general market and economic conditions, and other corporate considerations. Repurchases may be made pursuant to plans intended to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, which could allow the Company to purchase its shares during periods when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Repurchases are expected to be funded from working capital and anticipated cash from operations. The repurchase authorization does not require the purchase of a specific number of shares and is subject to suspension or termination by the Company's board of directors at any time.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

Pursuant to the 2015 Stock Repurchase Program, the Company made purchases as follows (aggregate cost excludes broker commissions and is reflected in millions):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Aggregate Cost
October 26, 2015 - December 31, 2015	345,044	\$ 53.46	\$ 18.4
January 1, 2016 - December 31, 2016	1,828,183	58.40	106.8
	<u>2,173,227</u>		<u>\$ 125.2</u>

The Company made no repurchases from January 1, 2017 through April 21, 2017.

NOTE E—Acquisitions

Acquisition of AFSC

Pursuant to the May 15, 2016 share purchase agreement (the “AFSC Agreement”) with Armed Forces Services Corporation (“AFSC”), on July 1, 2016 the Company acquired all of the outstanding equity interests of AFSC (the “AFSC Acquisition”). AFSC has extensive experience providing and managing behavioral health and specialty services to various agencies of the federal government, including all five branches of the U.S. Armed Forces.

The base purchase price for the AFSC Acquisition per the AFSC Agreement was \$117.5 million, subject to working capital adjustments. Pursuant to the AFSC Agreement, certain members of AFSC’s management, who were also shareholders of AFSC, purchased a total of \$4.0 million in Magellan restricted common stock, which will vest over a two-year period, conditioned upon continued employment with the Company. Consideration for the AFSC Acquisition includes a net payment for the net base purchase price of \$113.5 million in cash, subject to working capital adjustments, including adjustments for cash acquired. Proceeds from the sale of restricted common stock are recorded as stock compensation expense over the requisite service period.

In addition to the base purchase price, the AFSC Agreement provides for potential contingent payments up to a maximum aggregate amount of \$10.0 million. The potential contingent payments are based on the retention of certain core business by AFSC.

The Company’s estimated fair values of AFSC assets acquired and liabilities assumed at the date of acquisition are determined based on certain valuations and analyses that have yet to be finalized, and accordingly, the assets acquired and liabilities assumed, as detailed above, are subject to adjustment once the analyses are completed. The Company will make appropriate adjustments to the purchase price allocation prior to the completion of the measurement period as required.

As of March 31, 2017, the Company established a working capital receivable of \$3.2 million that was reflected as a reduction to the transaction price.

Acquisition of Veridicus Holdings, LLC and Granite Alliance Insurance Company

Pursuant to the November 19, 2016 purchase agreements (the “Veridicus Agreements”) with Veridicus Holdings, LLC and Granite Alliance Insurance Company (collectively “Veridicus”) and Veridicus Health, LLC, on December 13, 2016 and February 7, 2017 the Company acquired all of the outstanding equity interests of Veridicus (the “Veridicus Acquisition”). Veridicus is a PBM with a unique set of clinical services and capabilities.

MAGELLAN HEALTH, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
March, 31 2017
(Unaudited)

The base purchase price for the Veridicus Acquisition per the Veridicus Agreements was \$74.5 million, subject to working capital adjustments. The Company reports the results of operations of Veridicus within its Pharmacy Management segment.

The Company's estimated fair values of Veridicus assets acquired and liabilities assumed at the date of acquisition are determined based on certain valuations and analyses that have yet to be finalized, and accordingly, the assets acquired and liabilities assumed are subject to adjustment once the analyses are completed. The Company will make appropriate adjustments to the purchase price allocation prior to the completion of the measurement period as required. During the three months ended March 31, 2017, the Company made measurement period adjustments of \$0.8 million to decrease the goodwill related to the Veridicus acquisition.

As of March 31, 2017, the Company established a working capital receivable of \$0.2 million that was reflected as a reduction to the transaction price.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of the financial condition and results of operations of Magellan and its subsidiaries should be read together with the Consolidated Financial Statements and the notes to the Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q and the Company’s Annual Report on Form 10-K for the year ended December 31, 2016, which was filed with the SEC on February 24, 2017.

Forward-Looking Statements

This Form 10-Q includes “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Although the Company believes that its plans, intentions and expectations as reflected in such forward-looking statements are reasonable, it can give no assurance that such plans, intentions or expectations will be achieved. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. Important factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include:

- the Company’s inability to renegotiate or extend expiring customer contracts, or the termination of customer contracts;
- the Company’s inability to integrate acquisitions in a timely and effective manner;
- changes in business practices of the industry, including the possibility that certain of the Company’s managed care customers could seek to provide managed healthcare services directly to their subscribers, instead of contracting with the Company for such services, particularly as a result of further consolidation in the managed care industry and especially regarding managed healthcare customers that have already done so with a portion of their membership;
- the impact of changes in the contracting model for Medicaid contracts, including certain changes in the contracting model used by states for managed healthcare services contracts relating to Medicaid lives;
- the Company’s ability to accurately predict and control healthcare costs, and to properly price the Company’s services;
- the Company’s ability to accurately underwrite and control healthcare costs associated with its expansion into clinically integrated management of special populations eligible for Medicaid and Medicare, including individuals with serious mental illness and other unique high-cost populations;
- the Company’s ability to maintain or secure cost-effective healthcare provider contracts;
- the Company’s ability to maintain relationships with key pharmacy providers, vendors and manufacturers;
- fluctuation in quarterly operating results due to seasonal and other factors;
- the Company’s dependence on government spending for managed healthcare, including changes in federal, state and local healthcare policies;
- restrictive covenants in the Company’s debt instruments;
- present or future state regulations and contractual requirements that the Company provide financial assurance of its ability to meet its obligations;
- the impact of the competitive environment in the managed healthcare services industry which may limit the Company’s ability to maintain or obtain contracts, as well as its ability to maintain or increase its rates;

Table of Contents

- the impact of healthcare reform legislation;
- the Mental Health and Substance Abuse Benefit Parity Law and Regulations;
- government regulation;
- the Company's participation in Medicare Part D is subject to government regulation;
- the unauthorized disclosure of sensitive or confidential member or other information;
- a breach or failure in the Company's operational security systems or infrastructure, or those of third parties with which we do business;
- the possible impact of additional regulatory scrutiny and liability associated with the Company's Pharmacy Management segment;
- the inability to realize the value of goodwill and intangible assets;
- pending or future actions or claims for professional liability;
- claims brought against the Company that either exceed the scope of the Company's liability coverage or result in denial of coverage;
- class action suits and other legal proceedings;
- negative publicity;
- the impact of governmental investigations;
- the impact of varying economic and market conditions on the Company's investment portfolio;
- the state of the national economy and adverse changes in economic conditions; and
- the impact to contingent consideration as a result of changes in operational forecasts and probabilities of payment.

Further discussion of factors currently known to management that could cause actual results to differ materially from those in forward-looking statements is set forth under the heading "Risk Factors" in Item 1A of Magellan's Annual Report on Form 10-K for the year ended December 31, 2016. When used in this Quarterly Report on Form 10-Q, the words "estimate," "anticipate," "expect," "believe," "should," and similar expressions are intended to be forward-looking statements. Magellan undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time, except as required by law.

Business Overview

The Company is engaged in the healthcare management business, and is focused on managing the fastest growing, most complex areas of health, including special populations, complete pharmacy benefits and other specialty areas of healthcare. The Company develops innovative solutions that combine advanced analytics, agile technology and clinical excellence to drive better decision making, positively impact health outcomes and optimize the cost of care for the members we serve. The Company provides services to health plans and other MCOs, employers, labor unions, various military and governmental agencies and TPAs. The Company's business is divided into three segments, based on the services it provides and/or the customers it serves. See Note A—"General" for more information on the Company's business segments.

[Table of Contents](#)

The following tables summarize, for the periods indicated, revenues and covered lives for Healthcare by product classification and customer type (in thousands):

	Covered lives as of March 31, 2017	
	Risk-based	ASO
Commercial		
Behavioral(1)	14,186	9,222
Specialty	8,390	16,730
Government(2)	4,029	1,051

	Revenue for the three months ended March 31, 2017		
	Risk-based	ASO	Total
Commercial			
Behavioral(1)	\$ 97,970	\$ 27,752	\$ 125,722
Specialty	116,009	17,590	133,599
Government(2)	382,361	23,694	406,055
Total	\$ 596,340	\$ 69,036	\$ 665,376

- (1) Includes revenues of \$12.0 million from EAP services provided on a risk basis to health plans and employers with 11.0 million covered lives.
- (2) Includes revenues of \$85.9 million from EAP services provided on a risk basis to federal governmental entities with 3.6 million covered lives.

During three months ended March 31, 2017, Pharmacy Management paid 7.1 million adjusted commercial network claims in its PBM business, 16.9 million adjusted PBA claims and 28.5 thousand specialty dispensing claims. Adjusted claim totals apply a multiple of three for each 90-day and traditional mail claim. As of March 31, 2017, Pharmacy Management had a generic dispensing rate of 86.9 percent within its commercial PBM business and served 1.9 million commercial PBM members, 13.7 million members in its medical pharmacy management programs, and 26 states and the District of Columbia in its PBA business.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates of the Company include, among other things, accounts receivable realization, valuation allowances for deferred tax assets, valuation of goodwill and intangible assets, medical claims payable, other medical liabilities, stock compensation assumptions, tax contingencies, legal liabilities and contingent consideration payable. Actual results could differ from those estimates. Except as noted below, the Company's critical accounting policies are summarized in the Company's Annual Report on Form 10-K, filed with the SEC on February 24, 2017.

Results of Operations

The accounting policies of the Company's segments are the same as those described in Note A—"General." The Company evaluates performance of its segments based on Segment Profit. Management uses Segment Profit information for internal reporting and control purposes and considers it important in making decisions regarding the allocation of capital and other resources, risk assessment and employee compensation, among other matters. Healthcare subcontracts with Pharmacy Management to provide pharmacy benefits management services for certain of Healthcare's customers. In addition, Pharmacy Management provides pharmacy benefits management for the Company's employees covered under its medical plan. As such, revenue, cost of goods sold and direct service costs and other related to these arrangements are eliminated. The Company's segments are defined in Note A—"General".

Segment Profit	<u>\$ 59,932</u>	<u>\$ 69,819</u>

Quarter ended March 31, 2017 (“Current Year Quarter”), compared to the quarter ended March 31, 2016 (“Prior Year Quarter”)

Healthcare

Net Revenue

Net revenue related to Healthcare increased by 7.5 percent or \$46.4 million from the Prior Year Quarter to the Current Year Quarter. The increase in revenue is mainly due to higher membership and net favorable rate changes of \$55.3 million, revenue for AFSC acquired July 1, 2016 of \$43.5 million, contracts implemented after (or during) the Prior Year Quarter of \$25.0 million, revenue for TMG acquired February 29, 2016 of \$8.5 million, favorable retroactive rate adjustments in the Current Year Quarter of \$5.8 million, retroactive profit share in the Current Year Quarter of \$3.3 million and customer settlements in the Current Year Quarter of \$2.0 million. These increases were partially offset by terminated contracts of \$35.0 million, program changes of \$30.9 million, net revenue recorded for HIF fees in the Prior Year Quarter of \$11.3 million, the revenue impact of favorable prior period medical claims development recorded in the Current Year Quarter of \$7.0 million, favorable retroactive rate adjustments in the Prior Year Quarter of \$3.3 million, a performance penalty in the Current Year Quarter of \$3.3 million and other net unfavorable variances of \$9.5 million.

Cost of Care

Cost of care increased by 5.3 percent or \$24.4 million from the Prior Year Quarter to the Current Year Quarter. The increase is mainly due to increased membership and higher care associated with net favorable rate changes of \$41.0 million, care costs for AFSC of \$40.1 million and new contracts implemented after (or during) the Prior Year Quarter of \$28.0 million. These increases were partially offset by terminated contracts of \$29.5 million, program changes of \$26.9 million, net favorable prior period medical claims development recorded in the Current Year Quarter of \$12.0 million and care trends and other net favorable variances of \$16.3 million. For our commercial contracts, cost of care as a percentage of risk revenue (excluding EAP business) was 84.5 percent which was consistent with the Prior Year Quarter. For our government contracts, cost of care decreased as a percentage of risk revenue (excluding EAP business) from 84.9 percent in the Prior Year Quarter to 81.4 percent in the Current Year Quarter, mainly due to favorable care development, care trends and business mix.

Direct Service Costs

Direct service costs increased by 10.6 percent or \$13.4 million from the Prior Year Quarter to the Current Year Quarter primarily due to costs related to TMG and AFSC, partially offset by the impact of terminated contracts and HIF fees in the Prior Year Quarter. Direct service costs increased as a percentage of revenue from 20.3 percent in the Prior Year Quarter to 20.9 percent in the Current Year Quarter, mainly due to business mix changes related to terminated contracts and the acquisition of TMG and AFSC.

Pharmacy Management

Managed Care and Other Revenue

Managed care and other revenue related to Pharmacy Management increased by 11.5 percent or \$6.6 million from the Prior Year Quarter to the Current Year Quarter. This increase is primarily due to increased rebate revenue of \$2.5 million, new contracts implemented after (or during) the Prior Year Quarter of \$1.8 million, government pharmacy revenue of \$1.4 million and revenue for Veridicus acquired on December 13, 2016 of \$1.3 million. These increases were partially offset by other net unfavorable variances of \$0.4 million.

PBM and Dispensing Revenue

PBM and dispensing revenue related to Pharmacy Management increased by 29.0 percent or \$136.5 million from the Prior Year Quarter to the Current Year Quarter. This increase is primarily due to new contracts implemented after (or during) the Prior Year Quarter of \$124.3 million, Medicare revenue of \$61.1 million, revenue for Veridicus of \$41.0 million, pharmacy MCO revenue of \$4.5 million and other net favorable variances of \$0.1 million. These

[Table of Contents](#)

favorable variances were partially offset by terminated contracts of \$92.2 million and net decreased dispensing activity from existing customers of \$2.3 million.

Cost of Goods Sold

Cost of goods sold increased by 28.8 percent or \$127.9 million from the Prior Year Quarter to the Current Year Quarter. This increase is primarily due to new contracts implemented after (or during) the Prior Year Quarter of \$122.0 million, an increase in Medicare of \$60.0 million, cost for Veridicus of \$37.1 million and an increase in pharmacy MCO of \$4.7 million. These increases were partially offset by terminated contracts of \$90.6 million, net decreased dispensing activity from existing customers of \$2.0 million and other net favorable variances of \$3.3 million. As a percentage of the portion of net revenue that relates to PBM and dispensing activity, cost of goods sold decreased from 94.4 percent in the Prior Year Quarter to 94.2 percent in the Current Year Quarter, mainly due to business mix.

Direct Service Costs

Direct service costs increased by 24.7 percent or \$15.0 million from the Prior Year Quarter to the Current Year Quarter, mainly due to the acquisition of Veridicus, contract implementation costs and ongoing costs to support new business. Direct service costs decreased as a percentage of revenue from 11.5 percent in the Prior Year Quarter to 11.3 percent in the Current Year Quarter, mainly due to an increase in revenue from business growth and acquisition activity.

Corporate and Elimination

Net expenses related to Corporate, which includes eliminations, increased by 12.7 percent or \$0.9 million, primarily due to an increase in stock and other compensation expense in the Current Year Quarter. As a percentage of revenue, corporate and elimination was 0.6 percent, which was consistent with the Prior Year.

Depreciation and Amortization

Depreciation and amortization expense increased by 7.9 percent or \$2.0 million from the Prior Year Quarter to the Current Year Quarter, primarily due to asset additions after the Prior Year Quarter and acquisition activity.

Interest Expense

Interest expense increased by \$2.4 million from the Prior Year Quarter to the Current Year Quarter primarily due to an increase in interest rates and the amount of outstanding debt.

Interest Income

Interest income increased by \$0.3 million from the Prior Year Quarter to the Current Year Quarter primarily due to higher yields.

Income Taxes

The Company's effective income tax rates were 47.3 percent and 40.3 percent for the Prior Year Quarter and Current Year Quarter, respectively. The effective income tax rate for the Current Year Quarter is lower than the Prior Year Quarter mainly due to the suspension for 2017 of the non-deductible HIF Fees.

Non-GAAP Measures

The Company reports its financial results in accordance with GAAP, however the Company's management also assesses business performance and makes business decisions regarding the Company's operations using certain non-GAAP measures. In addition to Segment Profit, as defined above, the Company also uses adjusted net income attributable to Magellan Health, Inc. ("Adjusted Net Income") and adjusted net income per common share attributable to Magellan Health, Inc. on a diluted basis ("Adjusted EPS"). Adjusted Net Income and Adjusted EPS reflect certain adjustments made for acquisitions completed after January 1, 2013 to exclude non-cash stock compensation expense resulting from restricted stock purchases by sellers, changes in the fair value of contingent consideration, as well as

[Table of Contents](#)

amortization of identified acquisition intangibles. The Company believes these non-GAAP measures provide a more useful comparison of the Company's underlying business performance from period to period and are more representative of the earnings capacity of the Company. Non-GAAP financial measures we disclose, such as Segment Profit, Adjusted Net Income and Adjusted EPS, should not be considered a substitute for, or superior to, financial measures determined or calculated in accordance with GAAP.

The following table reconciles Adjusted Net Income to net income attributable to Magellan Health, Inc. (in thousands):

	Three Months Ended	
	March 31,	
	2016	2017
Net income attributable to Magellan Health, Inc.	\$ 13,237	\$ 17,747
Adjusted for acquisitions starting in 2013		
Stock compensation expense relating to acquisitions	4,556	4,852
Changes in fair value of contingent consideration	(266)	(49)
Amortization of acquired intangibles	5,780	8,452
Tax impact	(3,878)	(4,879)
Adjusted Net Income	\$ 19,429	\$ 26,123

The following table reconciles Adjusted EPS to net income per common share attributable to Magellan Health, Inc.—diluted:

	Three Months Ended	
	March 31,	
	2016	2017
Net income per common share attributable to Magellan Health, Inc.—Diluted	\$ 0.54	\$ 0.74
Adjusted for acquisitions starting in 2013		
Stock compensation expense relating to acquisitions	0.19	0.20
Changes in fair value of contingent consideration	(0.01)	—
Amortization of acquired intangibles	0.23	0.35
Tax impact	(0.16)	(0.20)
Adjusted EPS	\$ 0.79	\$ 1.09

Outlook—Results of Operations

The Company's Segment Profit and net income are subject to significant fluctuations from period to period. These fluctuations may result from a variety of factors such as those set forth under Item 2—"Forward-Looking Statements" as well as a variety of other factors including: (i) changes in utilization levels by enrolled members of the Company's risk-based and other pharmacy contracts, including seasonal utilization patterns; (ii) contractual adjustments and settlements; (iii) retrospective membership adjustments; (iv) timing of implementation of new contracts, enrollment changes and contract terminations; (v) pricing adjustments upon contract renewals (and price competition in general); (vi) the timing of acquisitions; (vii) changes in estimates regarding medical costs and claims incurred but not reported ("IBNR"); and (viii) changes in the estimates of contingent consideration.

A portion of the Company's business is subject to rising care costs due to an increase in the number and frequency of covered members seeking healthcare services and higher costs of such services. Many of these factors are beyond the Company's control. Future results of operations will be heavily dependent on management's ability to obtain customer rate increases that are consistent with care cost increases and/or to reduce operating expenses.

Care Trends. The Company expects that same-store normalized cost of care trend for the 12 month forward outlook to be 3 to 7 percent for commercial products and 0 to 2 percent for government business.

Interest Rate Risk. Changes in interest rates affect interest income earned on the Company's cash equivalents and investments, as well as interest expense on variable interest rate borrowings under the Company's Credit Facilities. Based on the amount of cash equivalents and investments and the borrowing levels under the Credit Facilities as of

[Table of Contents](#)

March 31, 2017, a hypothetical 10 percent increase or decrease in the interest rate associated with these instruments, with all other variables held constant, would not materially affect the Company's future earnings and cash outflows.

Historical—Liquidity and Capital Resources

Operating Activities. The Company reported net cash used by operating activities of \$31.9 million and \$31.1 million for the Prior Year Quarter and Current Year Quarter, respectively. The \$0.8 million increase in operating cash flows from the Prior Year Quarter is attributable to an increase in Segment Profit offset by increased tax payments between years.

Segment Profit for the Current Year Quarter increased \$9.9 million from the Prior Year Quarter. Tax payments for the Current Year Quarter totaled \$15.6 million, which represents an increase of \$9.1 million compared to the Prior Year Quarter.

Investing Activities. The Company utilized \$15.6 million and \$10.9 million during the Prior Year Quarter and Current Year Quarter, respectively, for capital expenditures. The additions related to hard assets (equipment, furniture, and leaseholds) and capitalized software for the Prior Year Quarter were \$4.5 million and \$11.1 million, respectively, as compared to additions for the Current Year Quarter related to hard assets and capitalized software of \$2.4 million and \$8.5 million, respectively.

During the Prior Year Quarter and Current Year Quarter, the Company used net cash of \$12.1 million and \$9.6 million, respectively, for the net purchase of "available-for-sale" securities. During the Prior Year Quarter, the Company used net cash of \$16.1 million for the acquisition of TMG, partially offset by a working capital adjustment of \$0.5 million related to the acquisition of 4D Pharmacy Management Systems, Inc. During the Current Year Quarter, the Company used net cash of \$0.2 million related to the acquisition of Veridicus.

Financing Activities. During the Prior Year Quarter, the Company paid \$8.0 million for the repurchase of treasury stock under the Company's share repurchase program, \$3.1 million on debt obligations, \$1.1 million on capital lease obligations and had other net unfavorable items of \$2.0 million. In addition, the Company received \$7.8 million from the exercise of stock options.

During the Current Year Quarter, the Company paid \$181.3 million on debt obligations, \$1.4 million on capital lease obligations and had other net unfavorable items of \$1.3 million. In addition, the Company received \$200.0 million from the issuance of debt and \$4.9 million from the exercise of stock options.

Outlook—Liquidity and Capital Resources

Liquidity. During the remainder of 2017, the Company will have estimated capital expenditures of between \$54.1 million and \$64.1 million. The Company may draw on the 2014 Credit Facility or 2017 Credit Facility as required to meet working capital needs associated with the timing of receivables and payables, fund share repurchases or support acquisition activities. The Company currently expects to have adequate liquidity to satisfy its existing financial commitments over the periods in which they will become due. During the remainder of 2017, scheduled principal payments of \$18.8 million will be made under the 2014 Credit Facility, and the 2016 Credit Facility and the 2017 Credit Facility will mature on December 29, 2017. The Company currently expects to have the ability to settle its 2017 debt obligations through current unrestricted cash and investment balances and cash flows from operations in 2017, as well as borrowing capacity available under the 2014 Credit Facility in the form of revolving loans. However, the Company will likely refinance its debt during 2017. The Company plans to maintain its current investment strategy of investing in a diversified, high quality, liquid portfolio of investments and continues to closely monitor the financial markets. The Company estimates that it has no risk of any material permanent loss on its investment portfolio; however, there can be no assurance the Company will not experience any such losses in the future.

Stock Repurchases. On October 26, 2015, the Company's board of directors approved a stock repurchase plan which authorized the Company to purchase up to \$200 million of its outstanding common stock through October 26, 2017. See Note D—"Commitments and Contingencies" for more information on the Company's share repurchase program.

Off-Balance Sheet Arrangements. As of March 31, 2017, the Company has no material off-balance sheet arrangements.

[Table of Contents](#)

Credit Facilities. On July 23, 2014, the Company entered into a \$500.0 million Credit Agreement with various lenders that provides for Magellan Rx Management, Inc. (a wholly owned subsidiary of Magellan Health, Inc.) to borrow up to \$250.0 million of revolving loans, with a sublimit of up to \$70.0 million for the issuance of letters of credit for the account of the Company, and a term loan in an original aggregate principal amount of \$250.0 million. On December 2, 2015, the Company entered into an amendment to the 2014 Credit Facility under which Magellan Pharmacy Services, Inc. became a party to the \$500.0 million Credit Agreement as the borrower and assumed all of the obligations of Magellan Rx Management, Inc. The 2014 Credit Facility is guaranteed by substantially all of the non-regulated subsidiaries of the Company and will mature on July 23, 2019, however, the Company holds an option to extend the 2014 Credit Facility for an additional one year period.

On June 27, 2016, the Company entered into a Credit Agreement with various lenders that provides for a \$200.0 million term loan to Magellan Pharmacy Services, Inc. The 2016 Credit Facility is guaranteed by substantially all of the non-regulated subsidiaries of the Company and will mature on December 29, 2017.

On January 10, 2017, the Company entered into a Credit Agreement with various lenders that provides for a \$200.0 million delayed draw term loan to Magellan Pharmacy Services, Inc. (the “2017 Credit Facility”). The 2017 Credit Facility is guaranteed by substantially all of the non-regulated subsidiaries of the Company and will mature on December 29, 2017.

See Note A—“General” for more information on the Credit Facilities.

Restrictive Covenants in Debt Agreements. The Credit Facilities contain covenants that potentially limit management’s discretion in operating the Company’s business by, in certain circumstances, restricting or limiting the Company’s ability, among other things, to:

- incur or guarantee additional indebtedness or issue preferred or redeemable stock;
- pay dividends and make other distributions;
- repurchase equity interests;
- make certain advances, investments and loans;
- enter into sale and leaseback transactions;
- create liens;
- sell and otherwise dispose of assets;
- acquire or merge or consolidate with another company; and
- enter into some types of transactions with affiliates.

These restrictions could adversely affect the Company’s ability to finance future operations or capital needs or engage in other business activities that may be in the Company’s interest.

The Credit Facilities also require the Company to comply with specified financial ratios and tests. Failure to do so, unless waived by the lenders under the Credit Facilities pursuant to its terms, would result in an event of default under the Credit Facilities.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Changes in interest rates affect interest income earned on the Company’s cash equivalents and investments, as well as interest expense on variable interest rate borrowings under the Company’s Credit Facilities. Based on the amount of cash equivalents and investments and the borrowing levels under the Credit Facilities as of March 31, 2017, a hypothetical 10 percent increase or decrease in the interest rate associated with these instruments, with all other variables held constant, would not materially affect the Company’s future earnings and cash outflows.

Item 4. Controls and Procedures.

a) The Company's management evaluated, with the participation of the Company's principal executive and principal financial officers, the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) under the Exchange Act), as of March 31, 2017. Based on their evaluation, the Company's principal executive and principal financial officers concluded that the Company's disclosure controls and procedures were effective as of March 31, 2017.

b) Under the supervision and with the participation of management, including the Company's principal executive and principal financial officers, the Company has determined that there has been no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the Company's quarter ended March 31, 2017 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

The Company's operating activities entail significant risks of liability. From time to time, the Company is subject to various actions and claims arising from the acts or omissions of its employees, network providers or other parties. In the normal course of business, the Company receives reports relating to deaths and other serious incidents involving patients whose care is being managed by the Company. Such incidents occasionally give rise to malpractice, professional negligence and other related actions and claims against the Company or its network providers. Many of these actions and claims received by the Company seek substantial damages and therefore require the Company to incur significant fees and costs related to their defense.

The Company is also subject to or party to certain class actions and other litigation and claims relating to its operations or business practices. In the opinion of management, the Company has recorded reserves that are adequate to cover litigation, claims or assessments that have been or may be asserted against the Company, and for which the outcome is probable and reasonably estimable. Management believes that the resolution of such litigation and claims will not have a material adverse effect on the Company's financial condition or results of operations; however, there can be no assurance in this regard.

Item 1A. Risk Factors.

There has been no material change in our risk factors as disclosed in Part I—Item 1A—"Risk Factors" of the Company's Annual Report on Form 10-K for the year ended December 31, 2016, which was filed with the SEC on February 24, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The Company's board of directors has previously authorized a series of stock repurchase plans. Stock repurchases for each such plan could be executed through open market repurchases, privately negotiated transactions, accelerated share repurchases or other means. The board of directors authorized management to execute stock repurchase transactions from time to time and in such amounts and via such methods as management deemed appropriate. Each stock repurchase program could be limited or terminated at any time without prior notice.

On October 26, 2015, the Company's board of directors approved a stock repurchase plan which authorized the Company to purchase up to \$200 million of its outstanding common stock through October 26, 2017. The Company made no repurchases during the three months ended March 31, 2017. As of March 31, 2017, the Company had approximately \$74.8 million remaining available for future repurchases under the current plan. The Company made no share repurchases from April 1, 2017 through April 21, 2017.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.

Exhibit No.	Description

**Certification Required by Rule 13a-14(b) and 18 U.S.C. Section 1350
(as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002)**

I, Barry M. Smith, as Chief Executive Officer of Magellan Health, Inc. (the "Company"), certify, pursuant to 18 U.S.C. Section 1350 (as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002), that to my knowledge:

- (1) the accompanying Quarterly Report on Form 10-Q of the Company for the quarterly period ended March 31, 2017 (the "Report"), fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
- (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ Barry M. Smith
