

NeuroMetrix Wins SBANE New England Innovation Award

WALTHAM, Mass.--(BUSINESS WIRE)-- NeuroMetrix, Inc. (Nasdaq:NURO) announced that it was the recipient of the Smaller Businesses Association of New England (SBANE) New England Innovation Award for the development and successful launch of Quell® Wearable Pain Relief Technology™. Previous winners of this prestigious award include iRobot, Staples, Ben & Jerry's and HubSpot along with 209 other past winners since 1986.

"We are excited that our innovative technology has been recognized," said Shai N. Gozani, M.D., Ph.D., President and CEO of NeuroMetrix. "With 100 million Americans suffering pain, and a high level of consumer dissatisfaction with current treatments such as prescription opioids, Quell is an innovation that is making a meaningful difference in people's lives."

About SBANE

The Smaller Business Association of New England, Inc. (SBANE), founded in 1938, is a private not-for-profit association of approximately 600 member companies located throughout the six-state region. SBANE was established to provide a legislative voice for small business at the state and federal levels and to make practical information available to help business owners grow their companies.

About Quell

Quell is designed for millions of people suffering from chronic pain. The advanced wearable device is lightweight and can be worn during the day while active, and at night while sleeping. It has been cleared by the FDA for treatment of chronic pain without a prescription. In a recent study, 81% of Quell users reported an improvement in their chronic pain. Quell users can personalize and manage therapy discreetly via the Quell Relief app. Quell also offers advanced health tracking relevant to chronic pain sufferers including pain, sleep, activity, and gait. Quell was the winner of the 2016 SXSW (South by Southwest) Innovation Award for Best Wearable Technology. Quell is available at select healthcare professionals and retailers. Visit QuellRelief.com for more information.

About NeuroMetrix

NeuroMetrix is a commercial stage, innovation driven healthcare company combining bioelectrical and digital medicine to address chronic health conditions including chronic pain, sleep disorders, and diabetes. The company's lead product is Quell, an over-the-counter wearable therapeutic device for chronic pain. Quell is integrated into a digital health platform that helps patients optimize their therapy and decrease the impact of chronic pain on their quality of life. The company also markets DPNCheck®, a rapid point-of-care test for diabetic neuropathy, which is the most common long-term complication of Type 2 diabetes. The company maintains an active research effort and has several pipeline programs. The company is located in Waltham, Massachusetts and was founded as a spinoff from the Harvard-MIT Division of Health Sciences and Technology in 1996.
