

CORRECTING and REPLACING Power-One, Inc. to Present at Piper Jaffray's Second Annual Solar & Clean Tech Symposium

CAMARILLO, Calif.--(BUSINESS WIRE)--Feb. 14, 2007--In BW5999 issued Feb. 14, 2007: Please replace the release with the following corrected version. The day of the symposium should read February 21 and the date of the presentation and discussion should read Wednesday, February 21st (sted February 21-22 and Thursday, February 22nd, respectively).

The corrected release reads:

POWER-ONE, INC. TO PRESENT AT PIPER JAFFRAY'S SECOND ANNUAL SOLAR & CLEAN TECH SYMPOSIUM

Power-One, Inc. (Nasdaq:POWER) today announced that Dave Hage, Power-One Executive Vice President, will be presenting at the Piper Jaffray Second Annual Solar & Clean Tech Symposium held on February 21 in New York, NY. Additionally, Dr. Alex Levran, Power-One's CTO, will be participating in a panel discussion on Power Electronics.

In a presentation at 10:00 a.m. ET on Wednesday, February 21st, Mr. Hage will provide an overview of the company strategy and outlook for 2007 as well as highlight the company's recent acquisition of Magnetek's power electronic group and the increasing opportunity for alternative energy and high-efficiency power. The presentation will be followed by a short breakout session. Later that same day, Mr. Levran will be participating in the Power Electronics panel discussion at 4:30 pm ET. Interested investors may access the webcast at <http://phx.corporate-ir.net/phoenix.zhtml?p=irol-eventDetails&c=73416&eventID=1469179> (Due to its length, this URL may need to be copied/pasted into your Internet browser's address field. Remove the extra space if one exists.)

Additional Power-One, Inc. information is available at the corporate website at www.power-one.com. As the sixth largest power supply company in the world, Power-One offers one of the most technologically advanced and comprehensive product offerings in the industry. The alternative energy sector is one of the fastest growing and focus markets for Power-One. Other power conversion products are sold to OEM customers in the telecommunications and server/storage markets; as well as data communications equipment manufacturers. Power-One's high-reliability products are also used in applications such as test equipment and high-end industrial applications. Power-One, with headquarters in Camarillo, CA, has over 4,000 employees with manufacturing and/or R&D operations in the United States, Dominican Republic, Italy, Hungary, Switzerland, Slovakia, Ireland and China.
