Power-One and Mouser Electronics Sign Global Distribution Agreement

Camarillo, CA – July 22nd, 2008 – Power-One, Inc. (Nasdaq: PWER), a leading provider of power conversion and management solutions, today announced it has signed a global distribution agreement with Mouser Electronics. Mouser will stock a wide range of Power-One DC-DC converters and AC-DC power supplies.

According to Jim Crehan, Power-One's Director of Global Distribution, "We welcome Mouser as a distributor for Power-One. Mouser's focus on introducing the latest products and technologies, to over 280,000 customers in 170 countries, makes them an excellent partner to promote Power-One's comprehensive range of high-efficiency, power-conversion solutions. Mouser initiatives, such as their no-minimum-order-size policy, will increase the number of design engineers using energy-saving Power-One products in the prototyping stage of their design cycles, facilitating more design wins for Mouser and Power-One."

"We are pleased to introduce Power-One's innovative products to our customers," said Barry McConnell, Mouser's Vice President of Product Marketing. "Adding the newest high-efficiency power-conversion products is just the type of new product introductions our engineering customers expect from Mouser."

About Mouser Electronics

Mouser Electronics, Inc. is an electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers. Mouser.com features more than a million products online from more than 366 manufacturers. Mouser's 2,100+ page catalog is published every 90 days, providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 280,000 customers in 170 countries from its 432,000 square foot, state-of-the-art facility in Mansfield, Texas. For more information; please visit www.mouser.com.

About Power-One, Inc.

Power-One designs and manufactures energy-efficient power conversion and power management solutions for alternative/renewable energy, routers, data storage and servers, wireless communications, optical networking, medical diagnostics, railway controls, automated/semiconductor test equipment, and custom applications. Power-One, with headquarters in Camarillo, CA, has global sales offices, manufacturing, and R&D operations in Asia, Europe, and the Americas. Please visit <http://www.power-one.com> for more information.

Power-One products are not designed, intended for use in, or authorized for use as critical components in life support systems, equipment used in hazardous environments, or nuclear control systems without the express written consent of the respective divisional president of Power-One, Inc. The appearance of products, including safety agency certifications pictured on labels, may change depending on the date manufactured. Specifications are subject to change without notice.
