INVISIO receives SEK 30 million order from existing defense customer

INVISIO has received a follow-up order for communication and hearing protection systems from one of the company's existing defense customers. The order is worth just over SEK 30 million and delivery is planned to take place in the first half of 2018.

With INVISIO's communication system, the users get a market leading hearing protection and can communicate and maintain a state of the art situational awareness in tough environments. The systems consist of headsets and control units connected to an external team radio or a vehicle's intercom system, for example.

About INVISIO Communications AB (publ)

INVISIO develops and sells advanced communication systems with hearing protection that enable professionals in noisy and mission critical environments to communicate and operate effectively. The company combines insights in acoustics and human hearing with broad engineering know-how in software, materials technology and interface, among others. Sales are primarily via a global network of partners and resellers, as well as from the headquarters in Copenhagen and the sales offices in the USA, France and Italy. INVISIO's registered office is in Stockholm, Sweden, and the company's share is listed on Nasdaq Stockholm (IVSO). Read more at www.invisio.com.
