NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR or the transition report or portion thereof, could not be filed within the prescribed time period.

Electronics for Imaging, Inc. (the "Company" or "EFI") is in the process of completing an assessment of the timing of recognition of revenue. The assessment is related to certain transactions where a customer signed a sales contract for one or more large format printers and was invoiced, and the printer(s) were stored at a third party in-transit warehouse prior to delivery to the end user.

In addition, the Company is in the process of completing an assessment of the effectiveness of its current and historical disclosure controls and internal control over financial reporting. The Company expects to report a material weakness in internal control over financial reporting related to this matter and to report that its disclosure controls were not effective in prior periods. The Company currently expects that the total aggregate revenue for the periods under review will not be materially different from the aggregate revenue that was previously reported for those periods, taking into account any revenue from the prior periods that may be moved into the current or upcoming periods.

The Audit Committee of the Company's Board of Directors is conducting an independent review related to the matter and has retained independent professionals to assist in that review

Accordingly, the Company is not able to complete the preparation, review and filing of its Form 10-Q for the quarter ended June 30, 2017 (the "Form 10-Q") within the prescribed time period without unreasonable effort or expense.

Excluding any revenue adjustments for this quarter or any prior periods resulting from the Company's ongoing assessment of the timing of revenue recognition and the Audit Committee's independent review of that matter, the Company currently expects revenue of \$247.0 million for the three months ended June 30, 2017, up 1% compared to the previously reported second quarter 2016 revenue of \$245.7 million. The Company currently anticipates GAAP net income of \$2.8 million, down 47% compared to \$5.2 million previously reported for the same period in 2016 or \$0.06 per diluted share, down compared to \$0.11 per diluted share, previously reported for the same period in 2016. Cash flow from operating activities for the six months ended June 30, 2017, is currently anticipated to be \$39.0 million, up 22% compared to \$31.9 million previously reported during the same period in 2016.

The financial results and other financial data presented above are preliminary, based upon the Company's estimates and subject to the Company's ongoing assessment of the timing of revenue recognition, the Audit Committee's independent review of this matter, and completion of the Company's financial closing procedures and issuance of its financial statements as of and for the quarter ended June 30, 2017. The Company's final financial results and other financial data could differ materially from its preliminary financial results and other financial data. The Company's final financial results will be set forth in the Company's Form 10-Q for the second quarter of 2017.
