* Not meaningful

(A) We have revised the fourth quarter of 2011 and the first three quarters of 2012 to reflect a change in the accounting for certain promotional credits for new consumer customers. Previously, these credits were deferred and amortized as a reduction of revenue over the length of the contract with the customer, whereas they should have been recognized in the month the credits were issued. We have determined these corrections were not material to the periods affected.

(B) Pro forma results adjusts results of operations under GAAP to include the acquisition of PAETEC Holding Corp ("PAETEC"), and to exclude all merger and integration costs ("M&I") related to strategic transactions. PAETEC results include results from companies acquired by PAETEC for periods prior to those acquisitions and excludes the results of operations of the energy business acquired as part of PAETEC, which is presented as discontinued operations. For further details on these adjustments, see the Notes to Unaudited Reconciliation of Revenues and Sales, Operating Income and Capital Expenditures Under GAAP to Pro Forma Revenues and Sales, Pro Forma Adjusted OIBDA and Pro Forma Capital Expenditures.

(C) OIBDA is operating income before depreciation and amortization and merger and integration costs.

(D) Adjusted OIBDA adjusts OIBDA for the impact of restructuring charges, pension expense and share-based compensation. For further details on these adjustments, see the Notes to Unaudited Reconciliation of Revenues and Sales, Operating Income and Capital Expenditures Under GAAP to Pro Forma Revenues and Sales, Pro Forma Adjusted OIBDA and Pro Forma Capital Expenditures.

(A) Business customers include each individual business customer location to which we provide service and exclude carrier special access circuits.
(B) Enterprise customers generate $750 or more in revenue per month.
(C) Small business customers generate less than $750 in revenue per month.
(D) Carrier special access circuits are dedicated circuits purchased by telecommunication carriers to transport traffic from wireless towers, between points on their network or from their network to a customer location.
(E) Pro forma results adjusts results of operations under GAAP to include the acquisition of PAETEC Holding Corp ("PAETEC"), and to exclude all merger and integration costs ("M&I") related to strategic transactions. PAETEC results include results from companies acquired by PAETEC for periods prior to those acquisitions and excludes the results of operations of the energy business acquired as part of PAETEC, which is presented as discontinued operations. For further details on these adjustments, see the Notes to Unaudited Reconciliation of Revenues and Sales, Operating Income and Capital Expenditures Under GAAP to Pro Forma Revenues and Sales, Pro Forma Adjusted OIBDA and Pro Forma Capital Expenditures.

NOTES TO UNAUDITED RECONCILIATION OF REVENUES AND SALES, OPERATING INCOME AND CAPITAL EXPENDITURES UNDER GAAP TO PRO FORMA REVENUES AND SALES, PRO FORMA ADJUSTED OIBDA, PRO FORMA CAPITAL EXPENDITURES AND RECONCILIATION OF OPERATING INCOME UNDER GAAP TO ADJUSTED FREE CASH FLOW

Windstream Corporation ("we," "us" or "our") has entered into various transactions, including the acquisition of PAETEC Holding Corp. ("PAETEC"), that may cause results reported under Generally Accepted Accounting Principles in the United States ("GAAP") to be not necessarily indicative of future results. On November 30, 2011, we completed the acquisition of PAETEC in an all-stock transaction valued at approximately $2.4 billion. PAETEC shareholders received 0.460 shares of our stock for each PAETEC share owned at closing. We issued 70.0 million shares and assumed equity awards shares for a total transaction value of $842.0 million, based on our closing stock price on November 30, 2011, and the fair value of the equity awards assumed. We also assumed PAETEC's debt, net of cash acquired, of approximately $1,591.3 million, which includes a net premium of $113.9 million based on the fair value of the debt on November 30, 2011, and bank debt of $99.5 million that was repaid on December 1, 2011.

As disclosed in our Form 8-K furnished on February 19, 2013, we have presented in this package unaudited pro forma results, which includes results from PAETEC for periods prior to the acquisition and excludes all merger and integration costs resulting from the completed transactions discussed above. PAETEC results include results from companies acquired by PAETEC for periods prior to those acquisitions and excludes the results of operations of the energy business acquired as part of PAETEC, which has been classified as discontinued operations and was sold during the second quarter of 2012. In addition to pro forma adjustments, we have presented certain measures of our operating performance, excluding the impact of restructuring charges, pension and share-based compensation. We have made certain reclassifications and revisions to prior periods to conform with the current presentation.

Our purpose for including the results of the acquired businesses and for excluding non-recurring items, the results of the disposed operations, restructuring charges, pension and share-based compensation is to improve the comparability of results of operations for the three and twelve month periods ended December 31, 2012, to the results of operations for the same periods of 2011 in order to focus on the true earnings capacity associated with providing telecommunication services. Additionally, management believes that presenting current business measures assists investors by providing more meaningful comparisons of results from current and prior periods, and by providing information that is a better reflection of the core earnings capacity of our current businesses. We use pro forma results, including pro forma revenues and sales, pro forma OIBDA , pro forma adjusted OIBDA, pro forma capital expenditures and adjusted free cash flow as key measures of the operational performance of our business. Our management, including our chief executive officer, the chief operating decision-maker, consistently uses these measures for internal reporting and the evaluation of business objectives, opportunities and performance.

We claim the protection of the safe-harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to uncertainties that could cause actual future events and results to differ materially from those expressed in the forward-looking statements. Forward looking statements include, but are not limited to, statements about our expectation to return a significant portion of our cash flow to shareholders through our dividend, our expectation to maintain our current dividend practice at the current rate of dividend, expected levels of support from universal service funds or other government programs, expected rates of loss of voice lines or inter-carrier compensation, expected increases in high-speed Internet and business data connections, our expected ability to fund operations, expected required contributions to our pension plan, capital expenditures and certain debt maturities from cash flows from operations, expected synergies and other benefits from completed acquisitions, expected effective federal income tax rates, expected annualized savings from the management restructuring, the amounts expected to be received from the Rural Utilities Service to fund a portion of our broadband stimulus projects and the expected benefits of those projects and forecasted capital expenditure amounts. These and other forward-looking statements are based on estimates, projections, beliefs, and assumptions that we believe are reasonable but are not guarantees of future events and results. Actual future events and our results may differ materially from those expressed in these forward-looking statements as a result of a number of important factors. Factors that could cause actual results to differ materially from those contemplated in our forward-looking statements include, among others: further adverse changes in economic conditions in the markets served by us; the extent, timing and overall effects of competition in the communications business; the impact of new, emerging or competing technologies; for certain operations where we lease facilities from other carriers, adverse effects on the availability, quality of service and price of facilities and services provided by other carriers on which our services depend; the uncertainty regarding the implementation of the Federal Communications Commission's ("FCC") rules on intercarrier compensation adopted in 2011, the potential for the adoption of further rules by the FCC or Congress on intercarrier compensation and/or universal service reform proposals that result in a significant loss of revenue to us; unfavorable rulings by state public service commissions in proceedings regarding universal service funds, inter-carrier compensation or other matters that could reduce revenues or increase expenses; material changes in the communications industry that could adversely affect vendor relationships with equipment and network suppliers and customer relationships with wholesale customers; earnings on pension plan investments significantly below our expected long term rate of return for plan assets or a significant change in the discount rate; the availability and cost of financing in the corporate debt markets; the potential for adverse changes in the ratings given to our debt securities by nationally accredited ratings organizations; the risks associated with non-compliance by us with regulations or statutes applicable to government programs under which we receive material amounts of end user revenue and government subsidies, or non-compliance by us, our partners, or our subcontractors with any terms of our government contracts; the risks associated with the integration of acquired businesses or the ability to realize anticipated synergies, cost savings and growth opportunities; unfavorable results of litigation or intellectual property infringement claims asserted against us; the effects of federal and state legislation, and rules and regulations governing the communications industry; continued loss of consumer voice lines; the impact of equipment failure, natural disasters or terrorist acts; the effects of work stoppages by our employees or employees of other communications companies on whom we rely for service; and those additional factors under the caption “Risk Factors” in our Form 10-K for the year ended December 31, 2012, and in subsequent filings with the Securities and Exchange Commission at www.sec.gov.

In addition to these factors, actual future performance, outcomes and results may differ materially because of more general factors including, among others, general industry and market conditions and growth rates, economic conditions, and governmental and public policy changes. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. The foregoing review of factors that could cause our actual results to differ materially from those contemplated in the forward-looking statements should be considered in connection with information regarding risks and uncertainties that may affect our future results included in our other filings with the Securities and Exchange Commission at www.sec.gov.
