

Windstream Holdings, Inc. ("Windstream Holdings", "we", "us", "our") has presented in this package unaudited pro forma results, which excludes all merger and integration costs resulting from strategic transactions and the results of operations of the disposed data center and consumer CLEC businesses and directory publishing operations. In addition to pro forma adjustments, we have presented certain measures of our operating performance that adjusts for the impact of the annual cash rent payment due under the master lease agreement with Communications Sales & Leasing ("CS&L"), and excludes the impact of restructuring charges, pension (benefit) expense and share-based compensation. We have made certain reclassifications and revisions to prior periods to conform with the current year presentation.

Our purpose for these adjustments is to improve the comparability of results of operations for all periods presented in order to focus on the true earnings capacity associated with providing telecommunication services. Additionally, management believes that presenting pro forma measures assists investors by providing more meaningful comparisons of results from current and prior periods, and by providing information that is a better reflection of the true earnings capacity of our current operations. We use pro forma results, including pro forma OIBDA, pro forma adjusted OIBDA, pro forma adjusted OIBDAR and adjusted free cash flow as key measures of the operational performance of our business. Our management, including the chief operating decision-maker, consistently uses these measures for internal reporting and the evaluation of business objectives, opportunities and performance.

We claim the protection of the safe-harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Forward looking statements are subject to uncertainties that could cause actual future events and results to differ materially from those expressed in the forward-looking statements. Forward looking statements include, but are not limited to, statements about our expectation to return a portion of our cash flow to shareholders through our dividend, expectations regarding our "network first" strategy to improve financial performance and increase market share, expectations regarding revenue trends and improving margins in our business segments, growth in adjusted OIBDA, the amount that Windstream Services, LLC. may reduce its debt by disposing of its equity stake in CS&L and its ability to improve its debt profile and reduce interest, expected levels of support from universal service funds or other government programs, expected rates of loss of consumer households served or inter-carrier compensation, expected increases in high-speed Internet and business data connections, including increasing availability of higher Internet speeds, expectations regarding expanding IPTV and 1 Gbps services to more locations and expanding our carrier network, our expected ability to fund operations, expected required contributions to our pension plan, the completion and benefits from network investments related to the Connect America Fund to fund the deployment of broadband services and forecasted capital expenditure amounts related to these investments, anticipated benefits of Project Excel, anticipated capital expenditures and certain debt maturities from cash flows from operations, and expected effective federal income tax rates. These and other forward-looking statements are based on estimates, projections, beliefs, and assumptions that we believe are reasonable but are not guarantees of future events and results. Actual future events and our results may differ materially from those expressed in these forward-looking statements as a result of a number of important factors. Factors that could cause actual results to differ materially from those contemplated in our forward-looking statements include, among others: further adverse changes in economic conditions in the markets served by us; the extent, timing and overall effects of competition in the communications business; our election to accept state-wide offers under the Federal Communications Commission Connect America Fund, Phase 2, and the impact of such election on our future receipt of federal universal service funds and capital expenditures; the impact of new, emerging or competing technologies; for certain operations where we lease facilities from other carriers, adverse effects on the availability, quality of service and price of facilities and services provided by other carriers on which our services depend; unfavorable rulings by state public service commissions in proceedings regarding universal service funds, inter-carrier compensation or other matters that could reduce revenues or increase expenses; material changes in the communications industry that could adversely affect vendor relationships with equipment and network suppliers and customer relationships with wholesale customers; changes to our current dividend practice which is subject to our capital allocation policy and may be changed at any time at the discretion of our board of directors; our ability to make rent payments under the master lease to CS&L, which may be affected by results of operations, changes in our cash requirements, cash tax payment obligations, or overall financial position; unanticipated increases or other changes in our future cash requirements, whether caused by unanticipated increases in capital expenditures, increases in pension funding requirements, or otherwise; the availability and cost of financing in the corporate debt markets; the potential for adverse changes in the ratings given to our debt securities by nationally accredited ratings organizations; earnings on pension plan investments significantly below our expected long term rate of return for plan assets or a significant change in the discount rate or other actuarial assumptions; unfavorable results of litigation or intellectual property infringement claims asserted against us; the risks associated with non-compliance by us with regulations or statutes applicable to government programs under which we receive material amounts of end user revenue and government subsidies, or non-compliance by us, our partners, or our subcontractors with any terms of our government contracts; the effects of federal and state legislation, and rules and regulations governing the communications industry; continued loss of consumer households served and consumer high-speed Internet customers; the impact of equipment failure, natural disasters or terrorist acts; the effects of work stoppages by our employees or employees of other communications companies on whom we rely for service; and those additional factors under the caption "Risk Factors" in our Form 10-K for the year ended December 31, 2015, and in subsequent filings with the Securities and Exchange Commission at www.sec.gov.

In addition to these factors, actual future performance, outcomes and results may differ materially because of more general factors including, among others, general industry and market conditions and growth rates, economic conditions, and governmental and public policy changes. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. The foregoing review of factors that could cause our actual results to differ materially from those contemplated in the forward-looking statements should be considered in connection with information regarding risks and uncertainties that may affect our future results included in our other filings with the Securities and Exchange Commission at www.sec.gov.

- (A) Pro forma results adjust operating results under GAAP to exclude the impacts of the disposed data center and consumer CLEC businesses and directory publishing operations and all merger and integration costs related to strategic transactions.
- (B) Pro forma Adjusted OIBDAR is pro forma adjusted OIBDA before the annual cash rent payment due under the master lease agreement with CS&L assuming the lease payments began on January 1, 2015.
- (C) Pro forma Adjusted OIBDA is pro forma OIBDA before restructuring charges, pension (benefit) expense and share-based compensation.
- (D) Pro forma OIBDA is operating income before depreciation and amortization.
- (E) Margins are calculated by dividing the respective profitability measures by total revenues and sales.
- (F) Adjusted capital expenditures exclude the impacts of capital expenditures funded by CS&L and expenditures related to Project Excel, a \$250 million capital program funded entirely using a portion of the \$575 million proceeds from the sale of the data center business completed on December 18, 2015.

	Twelve					
	Months Ended					
	3/31/2016					
Pro Forma Adjusted OIBDA (per page 2)	\$ 1,357.3					
Pro forma net leverage ratio (E)	3.48					

Note: Adjusted OIBDAR and adjusted OIBDA include the results of the disposed data center and consumer CLEC businesses and directory publishing operations.

(A) Adjusted OIBDAR is adjusted OIBDA before the annual cash rent payment due under the master lease agreement with CS&L.

(B) Adjusted OIBDA is OIBDA before restructuring charges, pension (benefit) expense and share-based compensation.

(C) Adjusted capital expenditures exclude the impacts of capital expenditures funded by CS&L and expenditures related to Project Excel, a \$250 million capital program funded entirely using a portion of the \$575 million proceeds from the sale of the data center business completed on December 18, 2015.

(D) Represents fair value of CS&L common stock held by Windstream. Fair value is based upon CS&L closing stock price as of May 4, 2016. Windstream intends to dispose of all of its shares of CS&L opportunistically, subject to market conditions, to retire additional long-term debt.

(E) The pro forma net leverage ratio is computed by dividing adjusted net debt by pro forma adjusted OIBDA.
