## Lexus to offer Scout® GPS Link by Telenav in its top-selling 2017 vehicles

**Telenav's connected car and location-based services enable Lexus drivers to enjoy a seamless experience on their phones and in their cars.**

SANTA CLARA, Calif., Aug. 24, 2016 (GLOBE NEWSWIRE) -- Telenav®, Inc. (NASDAQ:TNAV), a leader in connected car and location-based services today announced that luxury vehicle brand Lexus will begin offering Scout GPS Link on its most popular and best-selling models: Lexus RX, Lexus IS, Lexus ES, Lexus NX and Lexus RC equipped with Lexus Display Audio.

Powered by the smartphone and designed for the car, Scout GPS Link is a brought-in, turn-by-turn navigation solution truly optimized and tailored for the in-vehicle experience. As a brought-in solution, the turn-by-turn navigation and location-based services features on the smartphone are transferred to the vehicle's multimedia display. The free smartphone app will soon be available on the Apple App store and Google Play. Connecting the app to the vehicle multimedia display is also a complimentary service provided to Lexus owners.

The availability of Telenav's Scout GPS Link customized for Lexus allows the company to further enhance the driver's in-car experience. The turn-by-turn navigation and search features are easily accessible via voice commands, as well as the Lexus display audio controller.

"We are delighted that Scout GPS Link is Lexus' brought-in, smartphone-based navigation service of choice," said Sal Dhanani, president of Telenav's Automotive Business Unit. "As a leader in this burgeoning world of connected mobility, connected car and location-based services, we understand and are aligned with Lexus' desire to deliver a high quality experience coupled with providing drivers the luxury of convenience and safety."

"The addition of Scout GPS Link means we are now offering turn-by-turn or embedded navigation and search features in all Lexus models, from the entry-luxury segment through the highline," said Jeff Bracken, Lexus group vice president and general manager. "We're excited to be working with Telenav to bring this connected experience to drivers of our top-selling and most awarded vehicles."

Scout GPS Link features available in select 2017 Lexus vehicles include:

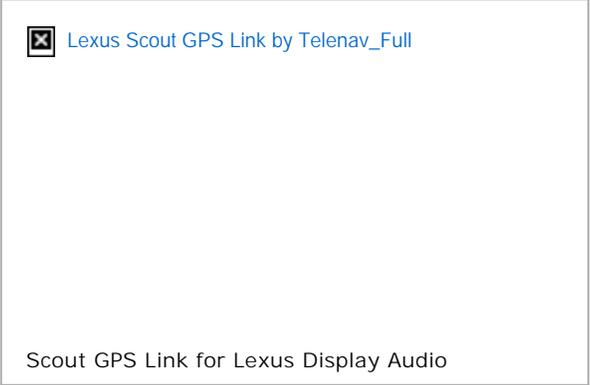

**Seamless usage between phone and car:** Scout GPS Link is fully functional outside the car with the mobile app, and transfers the experience to the car via Bluetooth® connection for a safe, drive-friendly search and turn-by-turn navigation experience.

**Simultaneous multimedia function:** Drivers can enjoy multiple functions such as taking phone calls or listening to music, without disrupting audio navigation, while keeping their eyes on the road and hands on the wheel.

**Fast and convenient:** Drivers can get on the road faster with the easy-to-use display audio controller for the Scout GPS Link home screen on the multimedia display. Search results, navigation routes, favorite locations and nearby points of interest are readily available in the car and on the go.

**Easy-to-follow directions and display:** Voice-guided navigation with easy to see turn-by-turn views, is designed to offer safer navigation without distraction.

**Enhanced search capabilities:** Drivers can find the best places to eat and shop, get gas, and more, with intelligent conversational search commands and quick access popular search categories.
