Income taxes		28.4
<b>Net Income</b>	<b>\$</b>	<b>85.2</b>

(1) Contribution Margin consists of net sales less cost of sales and royalty overrides. For China, contribution margin does not include service fees to China independent service providers. We present Contribution Margin for certain markets because management believes it provides additional information in evaluating our operating results in those markets. Contribution Margin should not be considered in isolation from or as a substitute for net income, cash flows from operating activities and other consolidated income or cash flow statement data prepared in accordance with accounting principles generally accepted in the United States. Contribution Margin, as presented, may not be comparable to similarly titled measures reported by other companies.

(2) Service fees to China independent service providers totaling \$111.6 million for the three months ended March 31, 2017 are included in selling, general and administrative expenses.
