NEW YORK--(BUSINESS WIRE)-- [HMS Holdings Corp.](#) (NASDAQ: HMSY) today announced financial results for its first quarter ended March 31, 2012.

For the first quarter of 2012, HMS reported revenue of \$107.3 million, an increase of 30.1% compared to revenue of \$82.5 million for the same period a year ago. Net income for the quarter was \$7.0 million or \$0.08 per fully diluted share compared to net income of \$9.8 million or \$0.11 per fully diluted share for the same period a year ago. Adjusted EPS increased 14.3% year over year to \$0.16.

"HMS opened the year with mixed results," said Bill Lucia, Chief Executive Officer. "We are particularly pleased with the performance of HDI, which exceeded Medicare RAC revenue targets for the quarter. Our Medicaid business, however, was impacted by temporary challenges faced by our clients and carriers in adopting several new CMS-mandated claim transaction formats. And while the Company continued to win a market-leading share of Medicaid RAC business, uncertainty surrounding the Supreme Court's review of the Affordable Care Act contributed to further delays in state decision-making relating to RAC procurements, awards and implementations."

In recognition of these factors, the Company is lowering 2012 guidance to cover a range of possible revenue and EPS outcomes. For the full year, revenue guidance is revised to \$500.0-\$515.0 million from \$520 million, and fully diluted GAAP EPS is revised to \$0.58-\$0.64 from \$0.65. Adjusted EPS is revised to \$0.91-\$0.96 from \$0.98.

Added Lucia, "HMS continues to see an abundance of opportunity for 2012 and beyond. HDI significantly extends our presence into the Medicare and commercial markets and our core Medicaid market is expanding. We believe that HMS is well-positioned with a broad set of services to help clients in all our markets address fraud, waste, and abuse in the healthcare system."

Use of Non-GAAP Financials

This press release includes presentations of earnings before interest, taxes, depreciation and amortization (EBITDA) and

adjusted EBITDA. Adjusted EBITDA represents EBITDA adjusted for share-based compensation expense. EBITDA is a measure commonly used by the capital markets to value enterprises. EBITDA is a non-GAAP financial measure and is reconciled to income before income taxes, which the Company's management believes to be the most comparable generally accepted accounting principles ("GAAP") measure. Adjusted EBITDA results are calculated by adjusting GAAP income before income taxes to exclude the effects of depreciation, amortization of intangible assets, stock-based compensation expense, and net interest expense.

This press release also includes presentations of adjusted EPS. Adjusted EPS represents EPS adjusted for stock-based compensation expense and amortization of intangibles. Adjusted EPS is a non-GAAP financial measure and is reconciled to EPS, which the Company's management believes to be the most comparable GAAP measure.

The Company uses these non-GAAP financial measures for internal management purposes, when publicly providing guidance on possible future results, and as a means to evaluate period-to-period comparisons. The Company's management believes that these non-GAAP financial measures are a common measure used by investors and analysts to evaluate its performance. These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP and reflect an additional way of viewing aspects of the Company's operations that, when viewed with GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provides a more complete understanding of the results of operations and trends affecting the Company's business. These non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, income before income taxes in accordance with GAAP.
