These forward-looking statements include comments with respect to our objectives and strategies and the results of our operations and our business. By their nature, these forward-looking statements involve numerous assumptions, uncertainties and opportunities, both general and specific. The risk exists that these statements may not be fulfilled. We caution readers of this presentation not to place undue reliance on these forward-looking statements, as a number of factors could cause future Company results to differ materially from these statements, including those factors listed under the caption, “Risk Factors,” in our Form 10-K and 10-Q filings and our registration statement as filed with the Securities and Exchange Commission (“SEC”), all of which can be found on our website, www.GladstoneCapital.com, or the SEC website, www.SEC.gov. Any results or performance implied by forward-looking statements may be influenced in particular by factors such as fluctuations in interest rates and stock indices, the effects of competition in the areas in which we operate, and changes in economic, political, regulatory, and technological conditions. We caution that the foregoing list is not exhaustive. When relying on forward-looking statements to make decisions, investors should carefully consider the aforementioned factors as well as other uncertainties and events.

Past or Present Performance Disclaimer: This presentation includes information regarding past or present performance of the Company. Please note that past or present performance is not a guarantee of future performance or future results.

Business Development Companies

- ◆ **Business Development Companies (“BDCs”)** are typically publicly traded closed-end funds that enable public investors to participate in potentially high yielding debt of private middle market businesses

- ◆ **BDCs are regulated by the Securities Exchange Commission (SEC) and have the following characteristics**
 - **Diversification:** must maintain asset diversity by industry
 - **Transparency:** required annual and quarterly SEC filings
 - **Fair Value:** all investments are marked at fair value quarterly
 - **Limited Borrowing:** borrowed debt (and preferred stock) cannot exceed net worth (maximum 50% leverage)

- ◆ **BDCs that qualify as Regulated Investment Companies (RIC) have a tax free advantage**
 - BDCs are required to distribute at least 90% of any taxable income
 - Eliminates corporate level income tax
 - Capital gains are passed through to investors (similar to a REIT)

Gladstone Capital Overview

- ◆ **The Company was one of the first BDCs focused on making loans to lower middle market U.S. businesses (\$3-15 million of EBITDA)**
- ◆ **Publicly traded funding sources**
 - Common stock (NASDAQ: GLAD)
 - Preferred stock (NASDAQ: GLADO)
- ◆ **Common stock annual distribution is currently \$0.84 per share; paid monthly at \$0.07 per share. The preferred stock's annual distribution is \$1.69 per share; paid monthly at \$0.140625 per share**
- ◆ **Target lending to growth oriented industries while maintaining a high degree of industry diversity**
- ◆ **Lend to businesses with proven cash flow, experienced management teams and backed by private equity sponsors or owner-operators with significant equity at risk**
- ◆ **Total investments of \$288 million at fair value as of December 31, 2016 with 54% in lower risk 1st lien secured loans**
- ◆ **Average loan portfolio yield of 11.3% as of December 31, 2016**

Strength of the Company

- ◆ **Limited interest rate risk** – Distributions to stockholders are supported by variable rate loans to businesses
- ◆ **Superior credit protections** – Shareholder distributions generated from a diversified portfolio of secured loans
- ◆ **Investment liquidity** – Established public equity market for common and preferred shares
- ◆ **Experienced credit managers** – Resources and experience to manage business loans through a business cycle to minimize credit losses
- ◆ **Superior returns** – Compared to other yield oriented investment alternatives, see below

(1) PowerShares Exchange-Traded Fund Trust II - Senior Loan Portfolio (BKLN) - Yield 2/10/17
 (2) S&P MLP Index Dividend Yield – 1/31/17

Strategy and Risks

◆ **Investment Strategy**

- Originate secured debt investments in lower middle market companies in stable industries, with sustainable margins and cash flows and favorable growth characteristics
- Target businesses with operating cash flow of \$3-\$15 million
- Target to make investments of \$8-\$30 million
- Focus on industries including light and specialty manufacturing, industrial products and services, business and information services, and healthcare services and avoid financial institutions, early stage or high technology companies, commodity or highly cyclical businesses

◆ **Loan Sourcing**

- Dedicated origination team in three offices to provide regional coverage of middle market private equity firms, investment banks and other loan sources
- Leverage dedicated lower middle market focus and team experience to deliver investor oriented financing solutions

◆ **Due Diligence before lending**

- Thorough multi-disciplinary equity oriented underwriting approach including: internal industry experience, onsite visits, management assessments, supplemented with third party quality of earnings reports, industry assessments, management background checks, and legal and insurance investigations
- Use a proprietary method of underwriting which uses a risk-rating system to predict the probability of default

◆ **Risk Management after lending**

- Board level participation in each business to monitor performance and proactively manage exposure
- Ongoing senior management review, quarterly external loan valuations by independent parties and Gladstone board oversight

Attraction of Lower Middle Market Businesses

- ◆ **The Company seeks to lend to lower middle market businesses because**
 - Lower middle market businesses sell for lower multiples of earnings which translate into reduced debt financing and lower borrowing levels compared to earnings
 - Provide greater diversity and consistent source of growth oriented loan opportunities
 - Better asset collateral coverage and lender protective covenants
 - Limited competition from larger funds and commercial banks provide higher average investment yields
 - More receptive to equity co-investments providing an opportunity to capitalize on anticipated equity appreciation

- ◆ **Trends Enhancing Opportunity for Non-Bank Lenders**
 - Ability to provide simple “one-stop” financing solution, as well as, follow-on capital to support a business’ growth objectives
 - Increased regulations has reduced commercial banks’ appetites and flexibility to hold leveraged investments
 - Most loan funds are focused on larger borrowers that can support larger investments to achieve investment economies of scale or for access to investment ratings or secondary market liquidity

Target Market Size

The Company seeks investments in lower middle market businesses and some larger small businesses. There are about 37,000 lower middle market and 28 million small businesses in the U.S. This target market drives a significant portion of the M&A activity in the U.S. each year. M&A transactions and private equity buyout activity in the lower middle market (\$25-100MM deal range) grew 21% in 2016 and outpaced the overall PE market activity which were down 8% on the year.

Historical Origination Activity

- ◆ **Consistent deal flow** – the Company’s dedicated focus on the lower middle market has generated approx. \$100MM of investments per year
- ◆ **Experienced credit driven management team** – has allowed the company to capitalize on shifts in credit market conditions to minimize credit risks while preserving the overall investment yields

- ❑ For the three months ending December 31, 2016, the Company invested a total of \$20.0 in 3 new investments and existing portfolio companies
- ❑ Post 12/31/16 quarter end, closings and pending transactions are expected to overcome any pacing shortfall while maintaining our current leverage and yield profile

Recent Deals Affirm Market Strategy

- ◆ **Consistent lower middle market deal flow and disciplined underwriting and deal selection as detailed below have enabled the Company to achieve:**
 - ❑ Industry diversity and investment granularity
 - ❑ Modest financial leverage at closing with significant equity support
 - ❑ Attractive yields which are accretive to what is required support existing shareholder distributions

The Strength of Gladstone Capital

- ◆ **Well established lender to lower middle market businesses**
 - ❑ Dedicated focus on this sector supported by a team of more than 60 experienced professionals
 - ❑ Less efficient lending market with more consistent loan opportunities and favorable growth outlook

- ◆ **Conservative Business Model**
 - ❑ Shareholder distributions supported by interest income from a diversified portfolio of secured loans
 - ❑ Net investment income has consistently covered 100% of common stock distributions
 - ❑ Commitment to support common stock distributions with the management fee waivers as needed
 - ❑ Paid 167 consecutive distributions; annual distribution yield of 8.9% as of December 31, 2016
 - ❑ Management owns more than 5% of the common stock

- ◆ **Growing asset base and profitability while reducing the risk profile**
 - ❑ Continuing to reduce credit risk profile with mix of lower leverage and predominately 1st lien senior loans
 - ❑ Underleveraged balance sheet can support significant asset growth which at current yields should lift NII and recent originations and deal flow support deploying much of this excess capacity over 2017
 - ❑ The Company's net interest earnings from its floating rate loan portfolio will increase with any increase in interest rates. Each .25% rise in LIBOR lifts NII by approx. \$.01/common share

Reasons to own GLAD Stock

- ◆ **Experienced lender to attractive niche within business lending market**
- ◆ **Attractive monthly distributions and shareholder returns with a history of support from management company**
- ◆ **Growing portfolio of secured loans to a highly diversified mix of borrowers and industries**
- ◆ **Conservative balance sheet with low leverage and capacity to grow portfolio and earnings**
- ◆ **Well positioned to benefit from anticipated increases in interest rates**
- ◆ **Demonstrated track record of weathering economic downturns**
