#### Fourth Fiscal Quarter 2017 Results:

Total investment income increased by 12.5% compared to the prior quarter driven by an increase in interest income and other income. Interest income increased by \$0.5 million, or 6.2%, due to a slight increase in the average investment portfolio balance as well as an increase in the weighted average yield quarter over quarter. Other income increased to \$0.6 million during the current quarter primarily due to dividend income recognized. Total expenses increased by 25.7% quarter over quarter, primarily as a result of a \$0.3 million increase in management and incentive fees, a \$0.6 million decrease in advisor fee credits, and a \$0.2 million increase in interest expenses.

Net Investment Income for the quarter ended September 30, 2017 was \$5.5 million, or \$0.21 per share, an increase of 2.0% as compared to the prior quarter.

Net Increase in Net Assets Resulting from Operations for the quarters ended September 30, 2017 and June 30, 2017 was \$5.4 million, or \$0.21 per share, compared to \$6.2 million, or \$0.24 per share, respectively. The quarter over quarter decrease was driven primarily by the realized loss of \$1.3 million recognized during the current quarter in connection with the voluntary redemption of our Series 2021 Term Preferred Stock.

#### Fiscal Year Ended 2017 Results:

Total investment income increased by 0.3% during the fiscal year ended September 30, 2017 compared to the prior year, due to an increase in interest income partially offset by a decrease in other income. Interest income increased by \$1.9 million, or 5.3%, due to an increase in the average investment portfolio balance as well as an increase in the weighted average yield year over year. Other income decreased by \$1.7 million primarily due to the large decline in repayments and associated fees received compared to the prior year. Total expenses decreased 9.3% year over year, primarily due to a \$1.5 million decrease in our net base management and incentive fees and a \$0.6 million decrease in professional and administrative costs.

Net Investment Income for the years ended September 30, 2017 and 2016, was \$21.4 million, or \$0.84 per share, and \$19.5 million, or \$0.84 per share, respectively.

Net Increase in Net Assets Resulting from Operations for the years ended September 30, 2017 and 2016, was \$17.2 million, or \$0.67 per share, compared to \$11.4 million, or \$0.49 per share, respectively. The year over year change was driven by the increase in net investment income and lower net realized and unrealized loss compared to the prior year.

**Comments from Gladstone Capital's President, Bob Marcotte:** "We closed our fiscal 2017 fourth quarter on a strong note as our investment income in the quarter surged on a combination of continued asset growth, sustained investment yields and an uptick in other income to more normal levels. With the asset growth of last year, positive net originations thus far this quarter and cost savings associated with our recent preferred stock refinancing, we are well positioned to improve on our results as we head into FY2018."
