for the Fiscal Quarter Ended December 31, 2017*

Legal Disclaimer

Forward-Looking Statements: *This presentation may include “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements may include comments with respect to our objectives and strategies, and the results of our operations and our business.*

These forward-looking statements inherently involve numerous risks, assumptions, and uncertainties, both general and specific. The risk exists that these statements may not be fulfilled. Although these statements are based on information available to us as of the date of this presentation, which we believe is reasonable, we caution readers of this presentation not to place undue reliance on these forward-looking statements as a number of known and unknown factors could cause future results to differ materially from these statements, including those factors listed under the caption “Risk Factors” in our Form 10-K and Form 10-Q filings, our registration statement, and other filings we may make with the Securities and Exchange Commission, all of which can be found on our web site at www.GladstoneCapital.com or the SEC’s web site, www.SEC.gov.

Forward-looking statements may be influenced in particular by factors such as fluctuations in interest rates and stock indices, the effects of competition in the areas in which we operate, and changes in economic, political, regulatory and technological conditions. We caution that the foregoing list is not exhaustive. When considering forward-looking statements when making decisions, investors should carefully consider the aforementioned factors as well as other uncertainties and events.

Past or Present Performance Disclaimer: **This presentation includes information regarding our past or present performance. Please note, past or present performance is not a guarantee of future performance or future results. We undertake no obligation to update the information contained herein to reflect subsequently occurring events or circumstances, except as required by applicable securities laws and regulations.**

Gladstone Capital Overview

Background:

- Founded in 2001, Gladstone Capital was one of the first business development companies focused on making loans to lower middle market U.S. businesses (\$3-15MM of EBITDA)
- Managed by Gladstone Management Corporation, an SEC registered investment adviser that manages more than \$2.1 billion in assets across four publicly traded funds
- Funding sources include publicly traded common stock (*NASDAQ:GLAD*), preferred stock (*NASDAQ:GLADN*) and a revolving credit facility
- Common stock annual distribution is currently \$0.84 per share; paid monthly at \$0.07 per share
- Preferred stock annual distribution rate is 6.00%; paid monthly at \$0.125 per share

Objective: “Delivering Distributions to Our Stockholders”

- Maintain and grow common distributions from interest income from our secured loan portfolio
- Target investments in growth oriented industries while maintaining portfolio industry diversity
- Invest in companies with proven cash flow and experienced management teams, which are backed by private equity sponsors or owner-operators with significant equity at risk

Investment Portfolio (as of December 31, 2017):

- \$392 million at fair value diversified across 51 companies and 18 different industries
- Conservative asset mix with 93.7% of investments in secured loans and 50% in lower risk 1st lien loans
- Average portfolio yield of 12.0%

What is a Business Development Company?

- **Business Development Companies (“BDCs”)** are often publicly traded closed-end funds that enable public investors to participate in potentially high yielding private U.S. middle market investments while maintaining daily liquidity
- **BDCs are regulated under the Investment Company Act of 1940 and have the following characteristics:**
 - **Diversification** – BDCs must maintain certain asset diversification criteria
 - **Transparency** – Required annual and quarterly SEC filings
 - **Fair Value** – All investments are marked at fair value quarterly
 - **Low Leverage** – Maximum debt-to-equity ratio of 1:1
- **Most BDCs operate under a regulated investment company tax structure:**
 - BDCs are required to distribute at least 90% of any taxable income
 - Eliminates corporate level income tax
 - Earnings and capital gains are passed through to investors (similar to a REIT)

Why Invest in a BDC?

- **Competitive returns** – Current yields typically exceed other yield oriented investment alternatives
- **Limited interest rate risk** – Distributions backed by floating rate loans supporting increased distributions or appreciation as interest rates rise
- **Credit protection** – Distributions generated by a diversified portfolio of secured loans
- **Investment liquidity** – Established public equity market for common stock
- **Experienced credit managers** – Experience and capital base structured to manage loan portfolio through various business cycles to minimize credit losses

Gladstone Strategy and Risk Management

Investment Strategy:

- Originate secured debt investments in lower middle market companies in stable industries, with sustainable margins/cash flows and favorable growth characteristics, which can support a leveraged capital structure
- Target companies with operating cash flow (EBITDA) of \$3-\$15 million and investments of \$8-\$30 million
- Focus on industries, including light and specialty manufacturing, industrial products and services, business and information services, added-value distribution/logistics and healthcare services, while avoiding financial institutions, early stage or high technology companies, commodity or highly cyclical businesses

Deal Sourcing:

- Dedicated origination team across 3 offices to provide regional coverage of middle market private equity firms, investment banks and other deal sources
- Leverage dedicated lower middle market focus and experienced team to deliver investor oriented financing solutions

Due Diligence:

- Thorough multi-disciplinary underwriting approach – blending internal industry experience, onsite visits and management assessments, supplemented with third party financial reviews, industry assessments, management background checks, and legal and insurance investigations, etc.

Risk Management:

- Board level participation in portfolio companies to monitor performance and proactively manage exposure
- Ongoing Gladstone senior management review, external assistance with quarterly investment valuations, and Gladstone board oversight

Attractive Lower Middle Market Dynamics

Why we target lower middle market companies

- Lower middle market companies typically sell for lower cash flow multiples, which translate into reduced debt financing requirements and lower leverage levels
- Greater industry diversity and more consistent flow of growth oriented investment opportunities
- Better asset collateral coverage and lender protective covenants
- Limited competition from larger funds and commercial banks allow for more attractive investment returns at lower relative leverage
- More receptive to equity co-investments, which typically provides Gladstone an opportunity to capitalize on the anticipated growth and equity appreciation

Trends Enhancing Opportunity for Non-Bank Lenders

- Ability to provide simplified “one-stop” financing solutions, and reduce repayment requirements or fund follow-on capital to support a company’s growth objectives
- Existing regulations have curtailed commercial bank flexibility and appetite to hold leveraged investments
- Bulk of loan funds / private debt managers focus on larger borrowers (>\$10 million EBITDA) and deal size to get larger funds deployed on timely basis

Gladstone Capital 12/31/17 Quarter Summary

Originations/Portfolio Activity:

- Closed 7 new investments totaling \$56.3 million of originations and \$0.6 million of follow-on investments
- Net originations of \$37.1 million for the period after \$19.8 million in payoffs and repayments
- Subsequent to December 31, 2017, we closed one additional investment totaling \$8.1 million
- Proprietary loan originations over the last quarter are consistent with lower middle market investment strategy of modest leverage (~3.0x EBITDA) while maintaining average yield (~10.9%)

Portfolio Yield / Net Investment Income (NII):

- Weighted Average Yield on our interest-bearing investment portfolio increased slightly to 12.0%
- Asset growth and lower average financing costs lifted our net interest margin by 7% vs the prior quarter and by 24% versus the December 31, 2016 quarter
- NII increased 1.7% to \$5.6 million or \$0.21 per common share

Portfolio Performance and Valuation:

- Maintained asset quality with secured 1st lien loans at 50% of the portfolio at fair value
- Net realized and unrealized portfolio gains totaled \$1.6 million and lifted the net increase in net assets from operations to \$0.27 per share
- Portfolio appreciation and accretive stock issuance under our ATM lifted NAV by \$0.08 to \$8.48 per common share
- Non-accrual investments fell slightly to \$5.4 million or 1.5% of asset fair value

Gladstone Capital 12/31/17 Quarter Summary

Capital Base and Liquidity

- Revolving line of credit borrowings increased by \$37.5 million to \$130.5 million and availability was \$28.9 million at December 31, 2017 under the \$170 million credit facility
- GLAD's Balance Sheet leverage has increased to approximately 80% of total capital, near the upper end of targeted levels however asset sales, pending prepayments and reactivation of our equity ATM program are expected to support additional asset growth over the near term
- We issued approximately 471 thousand common shares under our ATM issuance program raising \$4.6 million of gross proceeds at a weighted average price of \$9.69. GLAD shares closed at \$9.21 on 12/29/17, an 8.6% premium to NAV

Improving ROE

- Over the last 30 months, GLAD's portfolio performance, as measured by NII / Average Net Assets, has consistently averaged 10%
- GLAD has outpaced the average BDC return on equity (1)

(1) BDC ROE Source: Raymond James BDC Industry Weekly Newsletters

Gladstone Capital Origination Activity

- Loan originations for the first quarter of fiscal year 2018 included seven new investments and add-ons to existing investments totaling \$56.9 million, which is ahead of plan with our historic pacing of loan originations
- Subsequent to the 12/31/17 quarter end, we funded an additional \$8.1 million in a follow-on investment to a portfolio company (not included in the chart above)

Attraction of Lower Middle Market Strategy

(Consist Deal Flow at Attractive Leverage & Yields)

Gladstone Capital Portfolio Trends

- Consistent net originations over the last four quarters have resulted in stable growth of the portfolio
- Maintained prudent asset mix with first lien loans at 50% of total investments and secure debt investments at 93.7% of total investments
- Since 12/31/17, GLAD funded a senior 1st lien investment of \$8.1 million and with a number of highly probable follow-on investments pending, we currently expect this asset portfolio growth trend to continue in the near term

***Weighted average yield on interest bearing debt investments (excludes non-accruals and reserves on interest receivables)*

Portfolio Composition

Debt Interest Rate Composition as of
12/31/17 Principal Cost

GLAD is well positioned to participate in any increase in interest rates with its high floating rate asset mix

Interest Rate Sensitivity - Annual Impact

Basis Point Change	Increase Int. Income	Incr. (Dec.) in Int. Exp.	Net Interest Income Impact	Net Interest Income Impact (% Change)
Up 300 basis points	\$ 9,801	\$ 3,915	\$ 5,886	17.5%
Up 200 basis points	6,282	2,610	3,672	10.9%
Up 100 basis points	2,958	1,305	1,653	4.9%

- With expectations of increasing interest rates over the next year, the portfolio should generate a rise in net interest income available for distributions
- The weighted average LIBOR floor on these assets is 1.3%, and with only \$130 million of floating rate debt, a 100bp rise in LIBOR should generate an approximate 4.9% increase to net interest income
- The team continues to target adding floating rate loans to the portfolio to maintain upside in a rising rate environment

Note: Sensitivity Analysis above assumes no significant changes in the composition of the portfolio and the continued ability of portfolio companies to service debt obligations.

Industry and Deal Sources Are Diversified

Portfolio Diversification Across 18 Industries - At 12/31/17 Fair Value

Why Own Gladstone Capital Stock?

- **Well established lender in attractive lower middle market arena**
 - Dedicated focus on this sector supported by a team of more than 60 experienced professionals
 - Attraction of lower middle market as less competitive generating higher yields at lower leverage levels with more consistent deal flow
- **Conservative Business Model**
 - Reduced credit risk profile with mix of lower leverage and predominately 1st lien senior loans
 - Shareholder distributions supported by interest income from a diversified portfolio of secured loans
 - Paid 179 consecutive distributions; annual distribution yield of 9.1% as of December 31, 2017
 - Net investment income has consistently covered 100% of common stock distributions
 - Commitment to support the common stock distributions with the management fee credits as needed
 - Insiders own more than 5% of our common stock
- **Consistent expansion of Net Interest Margin to support the growth of NII / Distributions**
 - Delivering on a combination of strong asset growth (+36% increase in investments in past year), sustained investment yields, and reduced financing costs which increased our core net interest margin by 7.1% in the last quarter and 24.2% compared to the December 31, 2016 quarter
 - The portfolio is well positioned to benefit from any incremental increase in Fed rates, as a 100 bps rise in LIBOR should lift net interest income by approximately 4.9%

Distributions and Earnings Consistency

- Our Adviser's investment track record and commitment to supporting shareholder distributions via incentive fee credits has contributed to an uninterrupted distribution track record
- Gladstone Capital has made 179 consecutive monthly or quarterly distributions since inception. Cumulative distributions since the end of fiscal 2009 total \$152.5 million or \$6.93 per common share through the fiscal quarter ending 12/31/2017

Note: \$ presented in millions above.
