(NASDAQ:DVCR), a premier provider of long-term care services, today announced its results for the fourth quarter ended December 31, 2015. Fourth Quarter 2015 Highlights

- Net Revenue increased 4.5% to \$98.0 million in the fourth quarter of 2015 from \$93.7 million in the fourth quarter of 2014, primarily due to the 11 nursing homes acquired during 2014 and 2015. Same-store centers experienced an increase of \$0.9 million.
- General and administrative costs continued to decline as a percentage of net revenue at 6.1% of revenue as compared to 6.5% the same period a year ago.
- Operating income increased to \$2.2 million in the fourth quarter of 2015 compared to \$1.9 million in the fourth quarter of 2014.
- EPS from continuing operations improved to income of \$0.21 in the fourth quarter of 2015 as compared to \$0.11 in the fourth quarter of 2014.
- EBITDA was \$4.1 million in the fourth quarter of 2015 compared to \$3.8 million in the fourth quarter of 2014. On an annual basis, EBITDA was \$15.3 million in 2015 compared to \$13.1 million in 2014.
- As previously announced, the Company purchased a 60-bed skilled nursing facility in Fulton, Kentucky, for \$3.9 million.

CEO Remarks

Commenting on the results, Kelly Gill, Diversicare's CEO, stated, "I'm pleased that our 2015 results for the year and quarter reflect positive forward momentum with notable landmark developments achieved in the year and which builds upon the strategic plan we put in place several years ago. Our revenue and EBITDA grew solidly over 2014. However most importantly, Diversicare now has established itself among the leaders of top performing organizations under the national CMS 5 Star quality ranking system.

"Earlier this week we shared that we completed a refinancing of the Company's credit facility. This comprehensive refinancing positions us well for future growth and demonstrates our preparedness to continue our acquisition activities." Mr. Gill continued, "The Diversicare management team is focused on continuing to establish ourselves as leader in our industry. We have built a highly effective operating platform which provides us with the tools and information required in this ever increasing complexity of the modern operating environment and enables us to scale our support services in an effective manner as we seek to grow the company significantly through acquisitions. Our results for the year and the fourth quarter demonstrate balanced outcomes overall. Our group of acquired centers are accretive and contributing to our improved financial performance, margins same-store are holding strong if not improving slightly, G&A expenses are well controlled, and our quality outcomes are improving notably. Specifically, revenue for the year revenue grew \$43.4 million, or 12.6%, as a result of our 2015 acquisitions and improvement in our same store portfolio. For the fourth quarter our revenue grew by 4.5% and EBITDA grew by 10% over the year ago quarter. G&A expenses as a percent of revenue for the quarter declined to 6.1%."

Mr. Gill concluded, "We are pleased to have begun 2016 on such a positive note and look forward to sustaining the momentum we have built over the last couple of years."

Other Highlights for the Fourth Quarter 2015

The following table summarizes key revenue and census statistics for continuing operations for each period:

Three Months Ended December 31, 2014 2015 Skilled nursing occupancy 77.2% 76.8% As a percent of total census: Medicare census 12.0% 12.3% 3.7% 3.7% Managed Care census As a percent of total revenues: 27.9% 29.2% Medicare revenues 49.3% 48.1% Medicaid revenues 7.7% 7.0% Managed Care revenues Average rate per day: Medicare \$457.24 \$454.94 \$166.72 \$163.49 Medicaid \$399.00 \$391.77 Managed Care

Patient Revenues

Patient revenues were \$98.0 million in the fourth quarter of 2015 and \$93.7 million in the fourth quarter of 2014. The increase is primarily attributable to the contribution of newly leased and newly acquired centers. The following table summarizes the revenue increases attributable to our portfolio growth (in thousands):

	December 31,								
	2015	2014	Change						
Same-store revenue	\$82,767	\$81,906	\$ 861						
2014 acquisition revenue	11,725	11,843	(118)						
2015 acquisition revenue	3,485	_	3,485						
Total revenue	\$97,977	\$93,749	\$ 4,228						

The overall increase in revenue of \$4.2 million is primarily attributable the newly acquired nursing centers in Glasgow, Kentucky, Hutchinson, Kansas, and Fulton, Kentucky. These three nursing centers acquired in 2015 contributed \$3.5 million revenue during the fourth quarter.

The average Medicaid rate per patient day for same-store nursing centers in 2015 increased 1.75% compared to 2014, resulting in an increase in revenue of \$0.7 million. This average rate per day for Medicaid patients is the result of rate increases in certain states and increasing patient acuity levels. The average Medicare rate per patient day for same-store nursing centers in 2015 increased 0.9% compared to 2014, resulting in an increase in revenue of \$0.2 million also related to our ability to attract and provide care for patients with increased acuity levels.

Our total average daily census increased by approximately 4.2% compared to 2014 on a consolidated basis, but was primarily attributable to the aforementioned acquisition activity.

Expenses

Operating expense increased in the fourth quarter of 2015 to \$78.7 million compared to \$75.1 million in the fourth quarter of 2014, driven primarily by the \$3.0 million increase in operating costs attributable to the nursing centers acquired in 2015. Operating expense remained relatively flat as a percentage of revenue at 80.4% for the fourth quarter of 2015 as compared to 80.1% in the fourth quarter of 2014, demonstrating our ability to control costs at newly added nursing centers.

	Three Months Ended December 31,							
	2015	nange						
Same-store operating expenses	\$65,561	\$65,201	\$	360				
2014 acquisition operating expenses	10,220	9,887		333				

2015 acquisition operating expenses 2,956 — 2,956 Total revenue \$78,737 \$75,088 \$3,649

The largest component of operating expenses is wages. Considering the aforementioned addition of the new centers, we experienced an increase to \$46.3 million in the fourth quarter of 2015 as compared to \$43.6 million in the fourth quarter of 2014, an increase of \$2.7 million, or 6.2%. Wages as a percentage of revenue increased slightly in the fourth quarter of 2015 to 47.2% as compared to 46.5% in the fourth quarter of 2014.

Professional liability expense was \$2.0 million in the fourth quarter of 2015 compared to \$1.9 million in the fourth quarter of 2014, an increase of \$0.1 million. The increase is primarily attributable to insurance premiums paid for commercial insurance policies utilized for new acquisitions. We were engaged in 55 professional liability lawsuits as of December 31, 2015, compared to 51 as of December 31, 2014. Our quarterly cash expenditures for professional liability costs of continuing operations were less than \$0.1 million and \$1.1 million for 2015 and 2014, respectively. Professional liability expense and cash expenditures fluctuate from year to year based respectively on the results of our third-party professional liability actuarial studies, insurance premiums for commercial policies, and on the costs incurred in defending and settling existing claims.

General and administrative expense was \$6.0 million in the fourth quarter of 2015 as compared to \$6.1 million in the fourth quarter of 2014. As a percent of revenues, general and administrative expenses declined to 6.1% in 2015 as compared to 6.5% in 2014.

Receivables

Our net receivables balance increased \$2.5 million to \$43.8 million as of December 31, 2015 from \$41.3 million as of December 31, 2014. The increase is primarily attributable to \$4.3 million in receivables associated with our newly acquired facilities that are currently undergoing the Medicare and Medicaid change in ownership certification process.
