

## **QlikTech and Deloitte Join Forces to Bring QlikView Business Discovery Solutions to the U.S.**

RADNOR, Pa.--(BUSINESS WIRE)-- [QlikTech](#), (NASDAQ: QLIK) a leader in Business Discovery, user-driven Business Intelligence (BI), and Deloitte are expanding their strategic alliance to offer the QlikView Business Discovery platform to U.S.-based organizations. This software solution enables user-driven analysis designed to bridge the gap between traditional BI and standalone office productivity applications.

"The strategic relationship with QlikTech allows us to combine QlikView's analytical capability/products and services with our deep industry knowledge to deliver the data driven business and corporate performance strategies that our clients are demanding," said Casey Graves, principal, Deloitte Consulting LLP. "Additionally, it enables us to put industry relevant and user-friendly solutions in the hands of business leaders in a timely manner, allowing them to utilize the information and explore and capitalize on the data."

QlikView and Deloitte's U.S. strategic agreement calls for key members of Deloitte's Business Analytics and Information Management practice to focus on high priority industries including life sciences, health plans and health care providers. Both organizations will make investments to further customize and build out QlikView capabilities to provide specific industry-aligned solutions while training additional Deloitte professionals to become QlikView developers.

"The expansion of our strategic alliance with Deloitte in the U.S. represents an important continued expansion of our international network that complements the organization's successful track record advising companies and organizations in the areas of Business Analytics and Information Management," said Peter McQuade, VP of Global Alliances at QlikTech. "Complementing Deloitte's deep knowledge about its clients' businesses, QlikView will help facilitate a more rapid analysis of customer challenges in such areas as capital reduction, spend management, supply chain optimization and sales performance management."

### **About QlikTech**

QlikTech (NASDAQ: [QLIK](#)) is a leader in Business Discovery -- user-driven Business Intelligence (BI). QlikTech's powerful, accessible Business Discovery solution bridges the gap between traditional business intelligence solutions and standalone office productivity applications. Its QlikView Business Discovery platform enables intuitive user-driven analysis that can be implemented in days or weeks rather than months, years, or not at all. The in-memory associative search technology it pioneered allows users to explore information freely rather than being confined to a predefined path of questions. QlikView Business Discovery works with existing BI applications and adds new capabilities: insight for everyone, zero-wait analysis, mobility, an app—like model, remixability and reassembly, and a social and collaborative experience. Headquartered in Radnor, Pennsylvania, QlikTech has offices around the world serving more than 21,000 customers in over 100 countries.

QlikTech and QlikView are trademarks or registered trademarks of QlikTech or its subsidiaries in the U.S. and other countries. Other company names, product names and company logos mentioned herein are the trademarks, or registered trademarks of their respective owners.
