

CyberDefender Corporation Approved to Trade on NASDAQ Global Market; Trading Commences Wednesday, June 9, 2010 Under Existing Ticker Symbol: CYDE

Los Angeles – June 8, 2010 -- CyberDefender Corporation (OTCBB: CYDE), an award-winning provider of PC security, antispyware/antivirus software, PC optimization, PC support, and identity theft prevention solutions, today announced that it has received approval from The NASDAQ Stock Market, LLC to have its common stock traded on the NASDAQ Global Market, commencing Wednesday, June 9, 2010, under CyberDefender's existing ticker symbol: CYDE.

"Listing on the NASDAQ Global Market is a key step to taking our company to its next phase of growth," said CyberDefender CEO Gary Guseinov. "CyberDefender is the only publicly traded cyber security provider primarily focused on the direct to consumer market. We expect our NASDAQ listing will provide greater liquidity to our shareholders and will make our stock available to a broader investor community."

ABOUT CYBERDEFENDER

Based in Los Angeles, California, CyberDefender Corporation (CYDE) is a provider of Internet security technology for the consumer market. With more than 6.5 million active users of its proprietary patent pending Collaborative Internet Security Network (or the earlyNETWORK), CyberDefender is an industry leader. CyberDefender's earlyNETWORK is designed to address the "zero hour gap," which effectively reduces the risks associated with new and emerging Internet threats. By utilizing a proprietary secure peer-to-peer network, CyberDefender delivers protection to the end user faster than the traditional client-server or cloud methods. CyberDefender develops and markets PC desktop security utilities in the following categories: antispyware, antivirus, and PC optimization. In addition, CyberDefender offers the following services: identity protection and remote PC repair and optimization services. CyberDefender products are fully compatible with Microsoft's XP, Vista, and 7 Operating systems and are available at:

FORWARD LOOKING STATEMENTS

Statements in this press release that are not statements of historical or current fact, such as CyberDefender's expectation of future revenue growth and profitability and increased trading liquidity constitute "forward-looking statements." Such forward-looking statements involve known and unknown risks, uncertainties and other unknown factors that could cause CyberDefender's actual results to be materially different from the historical results or from any future results expressed or implied by such forward-looking statements. Factors that could cause CyberDefender's results to be materially different from the forward-looking statements include whether CyberDefender will be able to find financing when and as it needs it and whether CyberDefender's revenues will eventually exceed its expenses. The forward-looking statements contained herein are also subject generally to other risks and uncertainties that are described from time to time in CyberDefender's reports and registration statements filed with the Securities and Exchange Commission, which are available for review at <http://www.sec.gov/>.
