"We are pleased with the results for the second quarter delivering double digit top-line growth and continued healthy profitability. Markets like China, Italy, the UK, and Australia performed well, reflecting the significant growth potential for our product offering in both our newer and more developed markets. We also continue to make strides in improving the quality of our global store network and added net 70 new concept stores during the quarter.

The retail environment in the US remains challenging, however, our strategy has delivered a solid improvement in the performance of the concept store network. Additionally, we are rolling out a number of initiatives to strengthen our US business even further.

Our journey to become a full jewellery brand is progressing well, with revenue from Rings, Earrings and Necklaces & Pendants increasing by 23%. Meanwhile, sales of Charms and Bracelets also grew by 6% and 19% respectively.”

FINANCIAL GUIDANCE

Despite increasing headwind from currencies, PANDORA maintains FY 2017 revenue guidance of DKK 23-24 billion. EBITDA margin expectation of approximately 38% is also maintained.

FINANCIAL GUIDANCE

	FY 2017 Guidance	FY 2016 Actual
Revenue, DKK billion	23-24	20.3
EBITDA margin	Approx. 38%	39.1%
CAPEX, % share of revenue	Around 5%	5.9%
Effective tax rate	Approx. 21%	21.2%

Assuming current exchange rates, PANDORA now expects the net effect from currencies on Group revenue to be a headwind of around 2 percentage points. This compares with an expected tailwind of around 1 percentage point anticipated in February 2017 in connection with the announcement of the Annual Report 2016.

As previously communicated, the EBITDA margin is expected to be significantly higher in the second half of 2017 compared with the first half (EBITDA margin of 35.0% in H1 2017). Commodity prices are expected to impact the EBITDA margin negatively by 0-1 percentage point, and foreign exchange rates are expected to have a negative impact of around 1 percentage point.

PANDORA plans to continue the development of the store network and now expects to add more than 300 new concept stores in 2017 (compared to previously expected more than 275) of which roughly 50% are expected to be opened in EMEA, 25% in Americas and 25% in Asia Pacific. PANDORA expects around half of the concept store openings to be PANDORA owned stores, which is in line with the Company's intention to increase its owned and operated retail footprint. Roughly 25% of the new stores are expected to be opened by franchisees and 25% of 3rd party distributors.

Expectations are based on the foreign exchange rates at the time of the announcement.

STRATEGIC UPDATE

FULL JEWELLERY PRODUCT OFFERING – DISNEY TO BE LAUNCHED IN EMEA AND 4 NEW CONCEPTS PLANNED FOR LAUNCH DURING THE NEXT THREE YEARS

While keeping the focus on maintaining a market leading position in Charms and Bracelets, PANDORA continues the journey to become a full jewellery brand.

To realise this ambition PANDORA is continuously innovating the product portfolio. As part of this effort, PANDORA expanded its strategic alliance with The Walt Disney Company (Disney) in July 2017 to include the EMEA region. PANDORA will launch its Disney collection in stores in EMEA by October 2017, making the Disney inspired products available in the majority of PANDORA's markets across the globe. Furthermore, PANDORA plans to launch a new jewellery concept as part of the Spring/Summer collection in 2018 (other concepts include the PANDORA ESSENCE and PANDORA Rose collections). The launch frequency of new concepts is planned to be accelerated going forward with four new concepts in total in the coming three years. The acceleration is made possible by increased organisational focus and added competencies in PANDORA's product development functions, which includes a new function with the sole focus on developing new concepts.

Finally, to ensure alignment between consumers' preferences and PANDORA's product portfolio, the product development time has been reduced to allow for a faster reaction to new market trends. As an example, five new products in Charms and Bracelets, which were not planned at the beginning of the year, were launched in Q2 2017, with a launch time of less than three months, to ensure increased newness in the stores and fulfil an identified opportunity with PANDORA's consumers. For the remainder of the year, an additional 20 new products, are planned to be launched into the market as a result of the improved reaction time, underpinning PANDORA's ambition to continuously maintain a strong and relevant product offering across the globe.

BRANDED RETAIL EXCELLENCE – CONTINUED FOCUS ON CONCEPT STORES, SUCCESSFUL INTEGRATION OF SOUTH AFRICAN AND BELGIAN DISTRIBUTION CHANNELS

PANDORA continues to improve the quality of the global store network, and during the quarter net 70 new concept stores were added to the network, while 234 other points of sales were closed.

Furthermore, as part of the Company's overall strategy, PANDORA is expanding the PANDORA owned part of the store network. This gives the Company increased control over the brand, while also offering a strong financial rationale. PANDORA recognises the full retail revenue in PANDORA owned stores, which is roughly 2-2.5 times the revenue from a comparable franchise store. When opening new concept stores, the strategic intent is to open PANDORA owned concept stores and during the second quarter 51 new PANDORA owned concept stores were added to the network.

In line with the Company's strategy, PANDORA continues to take over distributors and franchisee stores across regions. In June 2017, the distribution network in Belgium, which included 13 concept stores, was acquired and in July 2017 the distribution in South Africa was taken over. In August 2017, PANDORA has agreed to take over the distribution in Spain, which will add 51 PANDORA owned concept stores to the network.

In Q2 2017, revenue from PANDORA owned retail increased 36% compared with Q2 2016, corresponding to 42% of Group revenue for the quarter.

BALANCED GLOBAL BUSINESS – STRONG PERFORMANCE IN ASIA PACIFIC AND AN INCREASED FOCUS ON LATIN AMERICA

Revenue in Asia Pacific for the quarter increased 35% compared with Q2 2016 and now represents 22% of Group revenue (18% in Q2 2016). Growth was mainly driven by PANDORA's expansion into China, where 17 new concept stores were added during the period. Revenue from China increased by 87% compared with the same quarter last year. Based on the continued strong development, PANDORA now expects to open around 60 concept stores in China in 2017 (from previously expected around 50).

Furthermore, following the establishment of a regional office in Panama as a hub for the Latin American region, PANDORA has increased focus on the region and plans to open around 40 stores in the region in 2017 (mainly in Mexico and Chile).

THE US – IMPROVED DEVELOPMENT FOR THE QUARTER. ADDITIONAL MEASURES TAKEN TO FURTHER STRENGTHEN PERFORMANCE

After a challenging first quarter, PANDORA's performance has improved in the US. In Q2 2017,

like-for-like sales-out growth in the US in PANDORA owned concept stores including the eSTORE was 8% (-3% in Q1 2017). The like-for-like growth was driven by an improvement in transactions compared with the latest quarter, supported by a stronger product offering, effective promotions and improved in-store execution.

The retail environment in the US remained challenging in Q2 2017, with general mall traffic down around 5% for the quarter. PANDORA's US store network is located predominantly in high-quality malls less affected by declines in footfall, but additional measures are being taken to proactively improve the store network where needed. In addition, as a future potential for the next 3-5 years, PANDORA has identified up to 100 new concept store locations in the US. The store locations include high streets and other shopping locations (such as life style centres, power centres, etc.) as well as selected A-malls.

Revenue from PANDORA eSTOREs increased 57% to DKK 298 million in Q2 2017 corresponding to 6% of total revenue (4% in Q2 2016). The positive development was mainly driven by the US, as well as the online introduction in China in Q4 2016. Revenue from other points of sale in the wholesale channel decreased 15% (-15% in local currency) compared with Q2 2016, which was mainly driven by PANDORA's planned multibranded account store closures as a part of optimising the global store network.

Please refer to note 3 for revenue in selected markets

EMEA

Revenue in EMEA was DKK 2,067 million in Q2 2017, an increase of 10% (13% in local currency) compared with Q2 2016. Growth was driven by positive performances in all main markets in the region, including UK (12% in local currency), Italy (22% in local currency), France (10% in local currency), and Germany (12% in local currency). Growth was supported by the addition of 182 new concept stores in the last 12 months, partially offset by the closure of around 800 other points of sale (corresponding to around 20% of other points of sale in the region).

AMERICAS

Revenue in the Americas was DKK 1,686 million in Q2 2017, an increase of 1% (-1% in local currency) compared with Q2 2016.

Revenue from the US, which represented 76% of revenue from the Americas for the quarter, decreased by 2% in local currency. The US like-for-like sales-out performance in the PANDORA owned concept stores was 8% for the quarter, driven by a strong eSTORE performance.

Revenue in the US was positively impacted by a one-off of around DKK 200 million related to a reversal of sales return provisions. In Q2 2017, the provision for sales returns from franchisees was updated based on the expected future sales returns, which was impacted by a planned change in product return policies in the US. This was announced to franchisees in Q4 2016 and effective from January 2017. The expected effect of the updated return policy has materialised and the sales return provision has been adjusted accordingly. The one-off related to the reversal of the return provision was offset by a negative effect of around DKK 190 million, related to closures of around 600 other points of sale in the US in Q4 2016 (DKK 40 million), a one-off shipment to Jared in Q2 2016 (DKK 60 million) and timing of shipments (DKK 90 million).

ASIA PACIFIC

Revenue in Asia Pacific was DKK 1,072 million in Q2 2017, an increase of 35% (34% in local currency) compared with Q2 2016. Revenue growth was driven by strong performance in Australia (+12% in local currency) and China (+91% in local currency). The results were supported by strong sales in existing stores and the addition of 99 new concept stores during the last 12 months, of which 67 were opened in China.

Total revenue	4,825	4,327	12%	12%	100%	9,984	9,067	10%	10%	100%

Growth for the quarter was primarily driven by Earrings (+42% in local currency) and Necklaces & Pendants (+56% in local currency), reflecting PANDORA's continued development towards becoming a full jewellery brand. Revenue from Rings increased 7% and was impacted by lower promotional activity during the quarter compared to Q2 2016.

Revenue from Charms increased 6% (5% in local currency) compared with Q2 2016. Growth in Charms was mainly driven by a continued strong development in the Asia Pacific region. Additionally, the performance of the category has improved in both EMEA and Americas compared with Q1 2017.

Revenue from Bracelets increased 19% (19% in local currency) compared with Q2 2016. All regions drove the positive development, supported by the introduction of two new and innovative silver bangles.

In Q2 2017, products launched within the last 12 months accounted for roughly half of revenue which is on par with Q2 2016.

COST OF SALES AND GROSS PROFIT

Gross profit in Q2 2017 was DKK 3,567 million corresponding to a gross margin of 73.9% compared with 75.3% in Q2 2016.

* Refer to note 12 for details related to PANDORA's commodity hedging policy

The change in gross margin compared with Q2 2016 was mainly driven by:

- Increasing share of revenue from PANDORA owned retail (approximately +1.5 percentage point)
- Change in product mix (approximately -1 percentage point), mainly related to an increasing share of revenue from the PANDORA rose collection
- Unfavourable currency rates (approximately -1 percentage point)
- Additionally, Q2 2016 was positively impacted by a positive one-off of approximately 1 percentage point related to reclaimed duties in Americas

Excluding hedging and the time lag effect from the inventory, the underlying gross margin

would have been approximately 73% based on the average gold (USD 1,257/oz) and silver (USD 17.21/oz) market prices in Q2 2017. Under these assumptions, a 10% deviation in quarterly average gold and silver prices would impact our gross margin by approximately +/- 1 percentage point.

OPERATING EXPENSES

Total operating expenses for the quarter were DKK 2,117 million, equivalent to an OPEX ratio of 43.9% (41.0% in Q2 2016).

OPERATING EXPENSES DEVELOPMENT INCLUDING DEPRECIATION AND AMORTISATION

The higher operating expenses were mainly driven by an increase in sales and distribution costs impacted by the increasing share of PANDORA owned retail revenue. However, offset by the aforementioned positive impact on the gross margin from more PANDORA owned retail revenue. Additionally, Administration expenses increased to 12% of revenue (10.9% in Q2 2016), primarily driven by an increase in IT costs mainly related to the roll-out of a global ERP platform and a new CRM system as well as improvements of PANDORA's online capabilities.

EBITDA

EBITDA was DKK 1,611 million in Q2 2017, corresponding to an EBITDA margin of 33.4% (37.2% in Q2 2016).

GROUP EBITDA

DKK million	Q2 2017	Q2 2016	Growth	EBITDA margin Q2 2017	EBITDA margin Q2 2016	H1 2017	H1 2016	Growth	EBITDA margin H1 2017	EBITDA margin H1 2016

The EBITDA margin in EMEA decreased 3.5 percentage points compared with Q2 2016 mainly driven by the decrease in the gross margin as well as higher marketing costs.

Americas' EBITDA margin decreased by 7.9 percentage points compared with Q2 2016. This was driven by a decline in the gross margin, which was temporarily impacted by the effect of the acquisition of 22 concept stores in H1 2017 where initial inventory in the stores was taken over at wholesale prices (approximately -2 percentage point) as well as the above-mentioned reclaimed duties in Q2 2016 (approximately -2.5 percentage point). Finally, profitability in the region was further impacted by increasing marketing expenses.

The EBITDA margin in Asia Pacific increased to 35.6% driven by improved leverage on costs in China and Australia. Additionally, the EBITDA margin in Q2 2016 was impacted negatively by around 3 percentage points related to the takeover of the distribution in Singapore and Macau,

where initial inventory in the stores was acquired at distributor prices.

EBIT

EBIT for Q2 2017 was DKK 1,450 million, a decrease of 3% compared with Q2 2016, resulting in an EBIT margin of 30.1% for Q2 2017 (34.4% in Q2 2016).

NET FINANCIALS

In Q2 2017, net financials amounted to a loss of DKK 63 million, (gain of DKK 57 million in Q2 2016). The development was primarily related to exchange rate losses.

INCOME TAX EXPENSES

Income tax expenses were DKK 292 million in Q2 2017. The effective tax rate in Q2 2017 was 21.1% (21.0% in Q2 2016).

NET PROFIT

Net profit in Q2 2017 was DKK 1,095 million compared with DKK 1,221 million in Q2 2016.

BALANCE SHEET AND CASH FLOW

In Q2 2017, PANDORA generated free cash flow of DKK 556 million (DKK 576 million in Q2 2016).

Operating working capital (defined as inventory and trade receivables less trade payables) at the end of Q2 2017 improved to 13.7% of the last twelve months' revenue (15.8% in Q2 2016). At the end of Q2 2017, inventory corresponded to 14.3% of the last twelve months' revenue (15.7% in Q2 2016). The decrease was mainly due to optimisation of inventories. Trade receivables at the end of Q2 2017 corresponded to 5.8% of the last twelve months' revenue (6.7% in Q2 2016). The decrease was mainly due to a higher share of revenue from PANDORA owned stores, which carries less receivables than wholesale revenue.

OPERATING WORKING CAPITAL AS A SHARE OF THE LAST 12 MONTHS' REVENUE

Share of the last 12 months' revenue	Q2 2017	Q1 2017	Q4 2016	Q3 2016	Q2 2016
Inventory	14.3%	14.0%	13.5%	16.4%	15.7%
Trade receivables	5.8%	7.2%	8.2%	10.2%	6.7%

Total	13.7%	14.2%	13.7%	19.8%	15.8%

At the end of Q2 2017, sales return and warranty provisions corresponded to around 4% of 12 months' rolling revenue value, compared with 5% for Q1 2017 and 6% for Q2 2016. The decrease in provisions was related to a lower share of revenue from the US as well as a reduction of provisions related to sales returns in the US as a result of a change in the product return policy in the US, announced to wholesalers in Q4 2016. The adjustment of sales return provisions was made in Q2 2017 to reflect the materialised changes in return patterns following the implementation of the new return policy.

CAPEX was DKK 296 million in Q2 2017 (DKK 352 million in Q2 2016). The CAPEX investments were mainly related to IT, opening of PANDORA owned stores and the crafting facilities in Thailand. In Q2 2017, CAPEX represented 6% of revenue (8% in Q2 2016).

Net interest-bearing debt (NIBD) at the end of Q2 2017 was DKK 3,943 million (DKK 3,863 million in Q2 2016) corresponding to a NIBD to EBITDA ratio of 0.5x of the last twelve months' rolling EBITDA (0.6x in Q2 2016).

NOTES

NOTE 1 – Accounting policies

This unaudited interim financial report has been prepared in accordance with IAS 34 'Interim Financial Reporting' as endorsed by the European Union and accounting policies set out in the Annual Report 2016 of PANDORA.

Furthermore, the interim financial report and Management's review are prepared in accordance with additional requirements in the Danish Financial Statements Act.

PANDORA has adopted all new or amended standards (IFRS) and interpretations (IFRIC) as adopted by the EU and which are effective for the financial year beginning on 1 January 2017. The implementation of these new or amended standards had no material impact on the financial statements for the period.

PANDORA presents financial measures in the interim financial report that are not defined according to IFRS. PANDORA believes that these non-GAAP measures provide valuable information to investors and PANDORA's management when evaluating performance. Since other companies might calculate these differently from PANDORA, they may not be comparable to the measures used by other companies. These financial measures should therefore not be considered to be a replacement for measures defined under IFRS.

The term Organic growth is used in the interim financial report. Organic growth is an alternative performance measure not defined by IFRS. Organic growth is defined as: Growth in external revenue in local currency relative to the same period last year adjusted for the acquisition/divestment of distributors and franchisee stores (the effect of converting wholesale to retail revenue and vice versa).

For definitions of other performance measures used by PANDORA, refer to note 5.6 in PANDORA's Annual Report 2016.

NOTE 2 – Significant accounting estimates and judgements

In preparing the interim financial report, Management makes various accounting estimates and assumptions, which form the basis of presentation, recognition and measurement of PANDORA's assets and liabilities.

All significant accounting estimates and judgements are consistent with the description in the Annual Report 2016. Refer to descriptions in the individual notes to the consolidated financial statement in the Annual Report 2016.

NOTE 3 – Segment information

PANDORA's activities are segmented based on geographical areas in accordance with the management reporting structure. The operating segments of the Group are divided into 3 operating segments: EMEA, Americas and Asia Pacific. Each operating segment comprises wholesale, retail and e-commerce business activities relating to the distribution and sale of PANDORA products.

The Group operates with two performance measures with EBITDA as the primary performance measure and EBIT as the secondary performance measure. Management monitors the segment profit of the operating segments separately for the purpose of making decisions about resource allocation and performance management. Segment results are measured as EBITDA, corresponding to 'operating profit' in the consolidated financial statements before depreciation, amortisation and impairment losses in respect of non-current assets. EBIT as a performance measure is only measured at Group level.

For information on revenue from the different products and sale channels reference is made to the Management Review.
