FINANCIAL GUIDANCE

The financial guidance for the full year 2016 for revenue is maintained and PANDORA continues to expect revenue above DKK 20 billion. Assuming current exchange rates, PANDORA expects a full year headwind effect from currencies on revenue of around 4% compared with 2015. This compares to an expected headwind of around 3% anticipated in August 2016 in connection with the announcement of the Q2 2016 report. EBITDA margin guidance is changed to around 39% from previously more than 38%. The revision is primarily based on a better than expected ability to cope with the increasing production complexity, as well as marginally higher than expected operating leverage.

All expectations are based on foreign exchange rates at the day of announcement.

PANDORA plans to continue to expand the store network and now expects to add more than 325 concept stores in 2016, compared to previously expected more than 300. The concept store openings are expected to be distributed with roughly 50% in EMEA, 25% in Americas and 25% Asia Pacific.

IMPORTANT EVENTS IN Q3 2016

SHARE BUYBACK PROGRAMME FOR 2016

In connection with the Annual Report 2015, PANDORA launched a share buyback programme under which PANDORA expects to buy back own shares to a maximum consideration of DKK 4.0 billion. The programme will end no later than 31 December 2016.

As of 30 September 2016, a total of 3,912,603 shares had been bought back, corresponding to a transaction value of DKK 3,391 million. As of 30 September 2016, PANDORA held a total of 4,401,293 treasury shares, corresponding to 3.8% of the share capital.

EVENTS AFTER THE REPORTING PERIOD

In October 2016, PANDORA opened its new production facility in Lamphun close to Chiang Mai in Northern Thailand. The new facility is now being ramped-up, ready to start commercial production at the start of 2017. Furthermore, as part of the already announced production capacity expansion programme in Thailand, which will run until the end of 2019, PANDORA has started the construction of an additional site in Gemopolis named Triple A.

In addition to potentially double the production capacity in Thailand by the end of 2019 compared to 2015, PANDORA also targets to shorten the general lead-time at the production facilities. PANDORA has now reduced the lead-time from 3-8 weeks to 3-6 weeks, with an ambition to reduce it to around 4 weeks on average.

Furthermore, in recognition of PANDORA's high level of investments in Thailand, the Thailand Board of Investment has granted PANDORA 8 years of tax exemptions in Thailand related to the facilities in Lamphun, as well as 8 years related to the new Triple A facility in Gemopolis. Both agreements (BOI) will be initiated from first sale. The BOIs include exemptions from Thai income tax payable by PANDORA Production Co., Ltd. and on dividends from BOI business paid by PANDORA Production Co., Ltd. to its shareholders as well as exemptions from import duties paid on certain machinery and raw materials imported into Thailand.

FINANCIAL REVIEW

REVENUE

Total revenue for Q3 2016 was DKK 4,612 million, an increase of 18% (21% in local currency) compared with Q3 2015. Growth was mainly driven by an increase in volume. As announced in connection with the Q2 2016 results, prices on earrings, necklaces and Murano charms were aligned across regions during the quarter to improve the Group's pricing structure. On average, prices on individual products towards the end-consumer were largely unchanged.

Revenue increased across all three geographical regions. Growth for the quarter was split evenly between organic growth (including all stores and eSTOREs, which have been open for more than 12 months) and expansion of the network (all new stores and eSTOREs opened in the last 12 months) including acquired stores (the net effect of converting distributor revenue to retail revenue from acquired stores in the last 12 months). The overall growth was driven by a positive reception of the Autumn collection, including the PANDORA Rose collection, launched in stores in all of EMEA during Q3 2016, as well as a continued high demand for earlier launched products. Following the PANDORA Rose collection has been launched in Asia Pacific in October. In Q3 2016, around 50% of revenue was generated by products launched within the last 12 months, which is similar to Q3 2015.

Revenue from concept stores (excluding revenue from 3rd party concept stores) increased 26% compared with Q3 2015, driven by all three regions, and represented 62% of revenue compared with 58% in Q3 2015. The increase was driven by continued growth in existing stores as well as the addition of net 272 new concept stores in the last 12 months, excluding new 3rd party concept stores. Based on data from concept stores (excluding eSTOREs), which have been operating for more than 12 months, like-for-like sales growth for the Group was 4%, driven by growth in EMEA and Asia Pacific. Including the PANDORA eSTOREs, like-for-like sales growth was 5%.

Revenue from PANDORA owned stores, including all PANDORA eSTOREs, increased by 43% to DKK 1,460 million and corresponded to 32% of total revenue compared with 26% in Q3 2015. The growth in retail revenue was driven by a continuous relevant product offering and strong in-store execution with cross selling into all jewellery categories as well as continued success of the PANDORA eSTORE. In Q3 2016, revenue from PANDORA eSTOREs increased to 3.1% of Group revenue (2.5% in Q3 2015)¹. At the end of Q3 2016 PANDORA eSTOREs were available in 15 countries compared with 10 at the end of Q3 2015. Furthermore, PANDORA has added net 120 PANDORA owned stores in the last 12 months, including net 20 concept stores and 5 shop-in-shops, converted from distributor stores, to a total of 563 concept stores and 112 shop-in-shops owned by PANDORA. For Q3 2016, the net effect of converting distributor revenue to retail revenue was approximately DKK 60 million of which approximately DKK 45 million was related to Singapore and Macau. The corresponding effect for Q3 2015 was approximately DKK 150 million.

Revenue from multibranded stores was DKK 739 million and decreased 9% compared with Q3 2015, due to the closure of net 1,330 multibranded stores in the last 12 months.

Revenue from 3rd party distributors was DKK 387 million, corresponding to an increase of 18% compared with Q3 2015. The increase was related to a positive development in a number of 3rd party distribution markets.

At the end of Q3 2016, sales return and warranty provisions corresponded to approximately 6% of 12 months' rolling revenue value, compared with 6% for both Q2 2016 and Q3 2015, respectively.

AMERICAS

Revenue for the third quarter in Americas was DKK 1,510 million, an increase of 6% (6% in local currency) compared with Q3 2015. The increase was driven by a continued positive development in the US, partially offset by a negative development in Latin America, including the Caribbean Islands.

Revenue in the US was DKK 1,141 million, an increase of 8% compared with Q3 2015 (9% in local currency). The growth was driven by the existing store network, including the continued success of the US eSTORE, as well as the addition of 31 new concept stores in the last 12 months. In the same period, PANDORA has closed a net of 404 multibranded points of sale in the US, including the 208 upgraded Jared stores, which have been upgraded to shop-in-shops. Shop-in-shop revenue in Americas increased 36% compared to Q3 2015, primarily due to the Jared upgrades.

Revenue development in Canada, which corresponded to 13% of revenue from Americas, was flat compared with Q3 2015, in both DKK and in local currency. Like-for-like sales growth was high single digit positive in Canada. Additionally, in October 2016, PANDORA launched an eSTORE in the country.

In October 2016, as part of the strategy to focus on the branded sales channel, PANDORA decided to close around 700 multibranded stores in North America (around 80% in the US and 20% in Canada). The expected revenue impact from taking back inventory from the closed multibranded stores is around DKK 150 million. The full impact on revenue and cost of sales will be accounted for as a provision in Q4 2016. Furthermore, these stores will not be generating any revenue for PANDORA in Q4 2016. In Q4 2015, revenue generated in the closed multibranded stores was around 150 million.

EMEA

Revenue in EMEA, covering Europe, Middle East and Africa, was DKK 2,220 million in Q3 2016, and increased 18% (or 25% in local currency) compared with Q3 2015.

Revenue in the UK increased 16% in local currency in Q3 2016 (decreased 3% in reported revenue due to the depreciation of the British pound), and contributed around 25% of revenue in EMEA. Growth in local currency was driven by a positive development in existing stores, as well as the expansion of the store network, including net 38 new concept stores opened since Q3 2015, to a total of 217 concept stores.

Italy and France continued to drive the growth in the region with revenue increasing approximately 70% and 35%, respectively, in the quarter. The increase was primarily driven by organic growth. Italy and France represented around 25% and 10%, respectively, of revenue in EMEA in Q3 2016.

Revenue from Germany decreased 13% compared to Q3 2015. As a consequence of the planned optimisation of the network in Germany, revenue in Q3 2016 was negatively impacted by a provision for returned goods of DKK 20 million, while the same quarter last year was positively impacted by a reversed provision, of around DKK 20 million. Excluding provisions, revenue in Germany increased 6% for the quarter, driven by like-for-like sales growth, partially offset by the closing of 255 multibranded stores in the last 12 months. Like-for-like sales growth in EMEA excluding concept stores in distributor markets (including Russia, which continued to experience double digit negative like-for-like growth) was around 10%.

ASIA PACIFIC

Revenue in Asia Pacific was DKK 882 million in Q3 2016, an increase of 46% (47% in local currency) compared with Q3 2015. Growth was primarily driven by a continued strong development in China and Australia.

Revenue in Australia increased 32% compared with Q3 2015 (27% in local currency), and represented around 30% of revenue from Asia Pacific. The growth was primarily driven by a like-for-like sales growth, as well as net 12 new concept stores opened since Q3 2015, to a total of 109 concept stores in Australia.

Revenue in China represented around 30% of revenue from Asia Pacific and increased 120% compared to Q3 2015. REVENUE BREAKDOWN BY PRODUCT CATEGORY

Revenue from Charms was DKK 2,661 million in Q3 2016, an increase of 10% compared with Q3 2015. Growth in revenue from Charms in the US was slightly negative, primarily due to lower revenue from the Disney collection, which primarily consists of charms. Revenue from Charms in Asia Pacific increased around 40%, whereas Charms in EMEA increased 10%, negatively impacted by provisions in Germany and the depreciation of the British pound. Revenue from Bracelets increased 35%. The two categories represented 75% of total revenue in Q3 2016 compared with 77% in Q3 2015.

Revenue from Rings was DKK 686 million, an increase of 11% compared with Q3 2015. The category was driven by a strong development in EMEA and Asia Pacific, partially offset by a negative impact on sell-in in Americas, related to the decision not to repeat a rings campaign in North America in October 2016 and instead focus on Earrings. The Rings category represented 15% of total revenue in Q3 2016, compared with 16% in Q3 2015.

Revenue from Other jewellery was DKK 488 million, an increase of 67% compared with Q3 2015. From 2016, PANDORA has increased the focus on earrings, and as a result revenue from Earrings increased by around 100% compared with Q3 2015 and contributed with 6% of Group revenue. Revenue from Necklaces and pendants continued to perform well and increased 40%. Other jewellery represented 11% of total revenue in Q3 2016 compared with 7% in Q3 2015.

During the quarter the PANDORA rose collection was launched in all markets in EMEA, whereas the collection was launched during October in Asia Pacific. Revenue from the collection increased significantly compared to the same quarter last year, when it was available only in the UK and North America.

COSTS AND GROSS PROFIT

Total costs in Q3 2016, including depreciation and amortisation, were DKK 2,893 million, an increase of 12% compared with Q3 2015. Total costs corresponded to 62.7% of revenue in Q3 2016 compared with 65.8% in Q3 2015.

Cost development

DKK million	Q3 2016	Q3 2015	Growth	Share of total revenue Q3 2016	Share of total revenue Q3 2015
Cost of sales	-1,148	-1,018	13%	-24.9%	-26.0%

Total costs	-2,893	-2,572	12%	-62.7%	-65.8%

Gross profit in Q3 2016 was DKK 3,464 million corresponding to a gross margin of 75.1% compared with 74.0% in Q3 2015. The increase was mainly driven by tailwind from more favourable raw material prices (approximately 1 percentage point) and an increase in share of revenue from PANDORA owned stores (approximately 1 percentage point). This was partially offset by unfavourable currency rates (approximately 0.5 percentage point) as well as increased production complexity (approximately 0.5 percentage point). Furthermore, the gross margin in Q3 2015 was impacted with approximately minus 1 percentage point due to the takeover of the distribution in China, as initial inventory in the stores was taken over by PANDORA at distributor prices.

COMMODITY HEDGING

It is PANDORA's policy to hedge approximately 100%, 80%, 60% and 40%, respectively, of expected gold and silver consumption in the following four quarters. The hedged prices for the following four quarters for gold are USD 1,176/oz, USD 1,234/oz, USD 1,313/oz USD 1,343/oz and for silver USD 16.54/oz, USD 16.37/oz, USD 18.08/oz USD 19.40/oz. However, current inventory means a delayed impact of the hedged prices on cost of sales.

The average realised purchase price in Q3 2016 was USD 1,145/oz for gold and USD 15.55/oz for silver.

Excluding hedging and the time lag effect from the inventory, the underlying gross margin would have been approximately 73% based on the average gold (USD 1,335/oz) and silver (USD 19.61/oz) market prices in Q3 2016. Under these assumptions, a 10% deviation in quarterly average gold and silver prices would impact PANDORA's gross margin by

approximately +/- 1 percentage point.

OPERATING EXPENSES

Operating expenses in Q3 2016 were DKK 1,745 million compared with DKK 1,554 million in Q3 2015, representing 37.8% of revenue in Q3 2016 compared with 39.7% in Q3 2015.

Sales and distribution expenses were DKK 934 million in Q3 2016, an increase of 16% compared with Q3 2015, and corresponding to 20.3% of revenue compared with 20.6% in Q3 2015. The nominal increase in sales and distribution expenses was mainly driven by higher revenue, as well as an increase in the number of PANDORA owned stores (from 555 in Q3 2015 to 675 in Q3 2016). The sales and distribution costs related to the increasing number of PANDORA owned stores, mainly related to property and employee expenses, had a negative impact of around 2 percentage points on sales and distribution costs as a percentage of revenue compared with Q3 2015. Operational leverage from the existing network more than offset the higher costs particularly driven by Southern Europe and China.

Marketing expenses were DKK 360 million in Q3 2016 compared with DKK 360 million in Q3 2015, corresponding to 7.8% of revenue, compared with 9.2% in Q3 2015.

Administrative expenses in Q3 2016 increased by 17% to DKK 451 million, representing 9.8% of revenue, compared with 9.9% of Q3 2015 revenue. The nominal increase was primarily due to ongoing higher IT expenses as well as an increase in head count, particularly in IT.

EBITDA

EBITDA for Q3 2016 increased by 27% to DKK 1,842 million resulting in an EBITDA margin of 39.9% compared with 37.2% in Q3 2015.

Regional EBITDA

DKK million	Q3 2016	Q3 2015	Growth	EBITDA margin Q3 2016	EBITDA margin Q3 2015
Americas	539	497	8%	35.7%	34.8%
EMEA	974	777	25%	43.9%	41.4%
Asia Pacific	329	180	83%	37.3%	29.9%
Group	1,842	1,454	27%	39.9%	37.2%

The EBITDA margin for Americas increased to 35.7% in Q3 2016 compared with 34.8% in Q3 2015. The increase was primarily driven by a higher gross margin due to lower commodity prices.

The EBITDA margin for EMEA increased to 43.9% in Q3 2016 compared with 41.4% in Q3 2015. The increase was primarily driven by a higher gross margin due to lower commodity prices supported by operating leverage in the region due to the higher revenue.

The EBITDA margin for the Asia Pacific region increased to 37.3% compared with 29.9% in Q3 2015. The increase was driven by operational leverage particularly in China, which improved the EBITDA margin with around 2 percentage points. Additionally, the EBITDA margin for Q3 2015 was negatively impacted by roughly 5 percentage points due to the takeover of the distribution in China, where initial inventory in the stores was taken over at distributor prices.

EBIT

EBIT for Q3 2016 increased to DKK 1,719 million, an increase of 28% compared with Q3 2015, resulting in an EBIT margin of 37.3% for Q3 2016 compared with 34.2% in Q3 2015.

NET FINANCIALS

In Q3 2016, net financials amounted to a gain of DKK 60 million, compared with a net financial loss of DKK 35 million in Q3 2015. The development was primarily related to exchange rate gains including gains on foreign exchange contracts.

INCOME TAX EXPENSES

Income tax expenses were DKK 374 million in Q3 2016. The effective tax rate in Q3 2016 was 21.0% compared with 22.9% for Q3 2015. The effective tax rate for the quarter was in line with the estimated effective tax rate for the full year.

NET PROFIT

Net profit in Q3 2016 increased to DKK 1,405 million from DKK 1,006 million in Q3 2015.

BALANCE SHEET AND CASH FLOW

In Q3 2016, PANDORA generated free cash flow of DKK 577 million compared with DKK 263 million in Q3 2015. The increase was primarily due to the increase in profits.

Operating working capital (defined as inventory and trade receivables less trade payables) at the end of Q3 2016 corresponded to 19.8% of the last twelve months' revenue, compared with 19.6% at the end of Q3 2015 and 15.8% at the end of Q2 2016.

Operating working capital as a percentage of revenue

	Q3 2016	Q2 2016	Q1 2016	Q4 2015	Q3 2015
Inventory	16.4%	15.7%	13.8%	14.1%	17.2%
Trade receivables	10.2%	6.7%	7.6%	8.1%	9.3%
Trade payables	6.8%	6.6%	7.0%	7.9%	6.9%
Operating working capital	19.8%	15.8%	14.4%	14.3%	19.6%

Inventory relative to preceding 12 months' revenue decreased to 16.4% in Q3 2016, from 17.2% in Q3 2015. Nominally, inventory increased to DKK 3,166 million in Q3 2016 from DKK 2,584 million in Q3 2015. The nominal increase was mainly due to higher activity in the Group and more inventory in PANDORA owned and operated stores, driven by an increase in the number of owned and operated stores. Compared with Q3 2015, gold and silver prices affected inventory value with a decrease of approximately 12%, partially offset by a 3% increase from foreign exchange. The relative and nominal increase compared to Q2 2016 is related to inventory build-up ahead of the launch of the Christmas collection.

Trade receivables increased to DKK 1,976 million at the end of Q3 2016 (10.2% of preceding 12 months' revenue) compared with DKK 1,392 million at the end of Q3 2015 (9.3% of the preceding 12 months' revenue). The increase compared to Q2 2016 is primarily due to revenue in the third quarter being skewed towards the end of the quarter, as well as extended credit terms ahead of Christmas in some markets. The increase compared to Q3 2015, was primarily related to an increasing share of revenue from Italy, which is one of the countries where PANDORA allows extended credit terms ahead of Christmas.

Trade payables at the end of the quarter were DKK 1,309 million compared with DKK 1,036

million at the end of Q3 2015 and DKK 1,239 million at the end of Q2 2016. The nominal increase in trade payables compared to Q3 2015 was impacted by increased activity in the Group.

CAPEX was DKK 324 million in Q3 2016 compared with DKK 384 million in Q3 2015. The CAPEX investments were primarily related to IT, openings of PANDORA owned stores and the production facilities in Thailand. In Q3 2016, CAPEX represented 7% of revenue.

Total interest-bearing debt was DKK 4,770 million at the end of Q3 2016, compared with DKK 2,723 million at the end of Q3 2015, and cash amounted to DKK 438 million compared with DKK 548 million at the end of Q3 2015. Net interest-bearing debt (NIBD) at the end of Q3 2016 was DKK 4,332 million corresponding to a NIBD to EBITDA ratio of 0.6x of the last twelve months EBITDA, compared with DKK 2,175 million at the end of Q3 2015 corresponding to a NIBD to EBITDA ratio of 0.4x.

This unaudited interim financial report has been prepared in accordance with IAS 34 'Interim Financial Reporting' as endorsed by the European Union and accounting policies set out in the Annual Report 2015 of PANDORA.

Furthermore, the interim financial report and Management's review are prepared in accordance with Danish disclosure requirements for listed companies.

PANDORA has adopted all new or amended standards (IFRS) and interpretations (IFRIC) as adopted by the EU and which are effective for the financial year beginning on 1 January 2016. The implementation of these new or amended standards had no material impact on the financial statements for Q3 2016.

NOTE 2 – Significant accounting estimates and judgements

In preparing the consolidated financial statements, Management makes various accounting estimates and assumptions, which form the basis of presentation, recognition and measurement of PANDORA's assets and liabilities.

All significant accounting estimates and judgements are consistent with the description in the Annual Report 2015. See descriptions in the individual notes to the consolidated financial statement in the Annual Report 2015.

NOTE 3 - Segment information

PANDORA's activities are segmented on the basis of geographical areas in accordance with the management reporting structure. In determining reporting segments, a number of segments have been aggregated. All segments derive their revenue from the types of products specified in Company Announcement no. 290.

The Group operates with two performance measures with EBITDA as the primary performance measure and EBIT as the secondary performance measure. Management monitors the segment profit of the operating segments separately for the purpose of making decisions about resource allocation and performance management. Segment results are measured as EBITDA, corresponding to 'operating profit' in the consolidated financial statements before depreciation, amortisation and impairment losses in respect of non-current assets. EBIT as a performance measure is only measured at Group level.

For information on revenue from the different products and sale channels reference is made to the Management Review.
