FINANCIAL REVIEW

REVENUE

Total revenue for Q2 2016 was DKK 4,327 million, an increase of 20% (25% in local currency) compared with Q2 2015. Growth was mainly driven by an increase in volume. In general, prices on individual products towards the end-consumer were unchanged.

Revenue increased across all three geographical regions. One third of the growth was organic (including all stores and eSTOREs, which have been open for more than 12 months) and the remaining two thirds were driven by expansion of the network (all new stores and eSTOREs opened in the last 12 months) including acquired stores (the net effect of converting distributor revenue to retail revenue from acquired stores in the last 12 months). The overall growth was driven by a positive reception of the Mother's Day and the High Summer collection, launched in stores during Q2 2016, as well as a continued high demand for earlier launched products. In Q2 2016, around 50% of revenue was generated by products launched within the last 12 months, which is similar to Q2 2015.

Revenue from concept stores (excluding revenue from 3rd party concept stores) increased 39% compared with Q2 2015, driven by all three regions, and represented 63% of revenue compared with 54% in Q2 2015. The increase was driven by continued growth in existing stores as well as the addition of net 321 new concept stores in the last 12 months, excluding new 3rd party concept stores. Based on data from concept stores (excluding eSTOREs), which have been operating for more than 12 months, like-for-like sales for the Group increased 7%, driven by growth in EMEA and Asia Pacific, partly offset by negative growth in Americas. Excluding 3rd party concept stores, like-for-like sales increased 9%.

Revenue from PANDORA owned stores, including all PANDORA eSTOREs, increased by 65% to DKK 1,467 million and corresponded to 34% of total revenue compared with 25% in Q2 2015. The growth in retail revenue was driven by a continuous relevant product offering and strong

in-store execution with cross selling into all jewellery categories as well as continued success of the PANDORA eSTORE. In Q2 2016, revenue from PANDORA's eSTOREs corresponded to around 4% of Group revenue, an increase from around 2.5% in Q2 2015. At the end of Q2 2016 eSTOREs were available in 14 countries compared with 9 at the end of Q2 2015. Furthermore, PANDORA has added net 192 PANDORA owned stores in the last 12 months, including net 46 concept stores and 24 shop-in-shops, converted from distributor stores, to a total of 525 concept stores and 118 shop-in-shops owned by PANDORA. For Q2 2016, the net effect of converting distributor revenue to retail revenue was approximately DKK 115 million, with China contributing approximately DKK 65 million and Singapore and Macau approximately DKK 45 million. The corresponding effect for Q2 2015 was approximately DKK 80 million.

Revenue from multibranded stores was DKK 703 million and decreased 1% compared with Q2 2015, due to the closure of net 1,261 multibranded stores in the last 12 months.

Revenue from 3rd party distributors was DKK 282 million, corresponding to a decrease of 24% compared with Q2 2015. Revenue from 3rd party distributors was impacted by PANDORA's take-over of distribution in China, Singapore and Macau. Excluding the three countries, revenue from 3rd party distributors decreased 5% compared with Q2 2015. The underlying decline was primarily due to the continued challenging business environment in Russia.

At the end of Q2 2016, sales return and warranty provisions corresponded to approximately 6% of 12 months' rolling revenue value, compared with 6% for Q1 2016 and 7% for Q2 2015.

Please refer to note 10 for a detailed overview of concept stores per country.

In Q2 2016, PANDORA opened net 161 new shop-in-shops of which 98 stores was related to a collaboration with Jared in the US, which is in the process of upgrading more than 200 multibranded locations to shop-in-shops.

In Q2 2016, 38% of revenue was generated in Americas (44% in Q2 2015), 43% in EMEA (41% in Q2 2015) and 18% in Asia Pacific (15% in Q2 2015).

AMERICAS

Revenue for the second quarter in Americas was DKK 1,662 million, an increase of 5% (10% in local currency) compared with Q2 2015. The increase was primarily driven by revenue from concept stores in the region, which increased 22% compared with Q2 2015. Revenue in the US was DKK 1,268 million, an increase of 8% compared with Q2 2015 (11% in local currency). The growth was driven by network expansion, as well as continued success of the US eSTORE launched in April 2015. Rings and Earrings performed very well in US while growth in revenue from Charms was flat in local currency (or single digit negative in DKK), as revenue from Charms in Q2 2015 was positively impacted by the strong initial reception of PANDORA's Disney collection as well as launch of the collection in shop-in-shops and multibranded stores in April 2015. During the last 12 months, the US has closed a net of 388 multibranded points of sale, including the 98 upgraded Jared stores, which are now reported as shop-in-Shops. Initial sell-in to Jared as a part of the planned upgrade of multibranded stores to shop-in-shops had a one-off sell-in effect of approximately DKK 60 million reported as shop-in-shop revenue. Shop-in-shop revenue in Americas declined 4% in the quarter, primarily due to the Disney collection sell-in in Q2 2015.

Revenue in Canada, which corresponded to around 10% of revenue from Americas, decreased 5% compared with Q2 2015 (or increased 3% in local currency), primarily due to less traffic in the stores. In the second half of 2016, an eSTORE is scheduled to be launched in Canada, which is expected to have insignificant revenue impact for 2016. Revenue from Brazil increased 4% (22% in local currency) compared with Q2 2015, despite being negatively impacted by the economic and political situation in the country. Growth was primarily driven by network expansion, including the addition of net 24 new concept stores in the last 12 months. Brazil corresponded to around 5% of revenue from Americas for the quarter. Revenue from the Caribbean Islands decreased with double digits compared with Q2 2015, primarily due to the economic situation in Puerto Rico. Revenue from the Caribbean Islands represented close to 5% of revenue from Americas.

Like-for-like sales growth in concept stores (excluding eSTOREs) in Americas in Q2 2016 was -1%, impacted by negative like-for-like sales development in Brazil, Canada and the Caribbean (primarily in Puerto Rico). Like-for-like sales growth in the US was 2%, in spite the effects of launching an eSTORE in Q2 last year and a difficult retail environment. Like-for-like growth in all major regions in the US was flat to positive.

EMEA

Revenue in EMEA, covering Europe, Middle East and Africa, was DKK 1,873 million in Q2 2016, and increased 28% (or 32% in local currency) compared with Q2 2015. Revenue growth was driven by all store types, including 38% growth in revenue from concept stores.

Revenue in the UK increased 7% in Q2 2016 (17% in local currency), and contributed around 25% of revenue in EMEA. Growth was driven by a positive development in existing stores, as well as the expansion of the store network, including net 36 new concept stores opened since Q2 2015, to a total of 205 concept stores. The PANDORA Rose collection continued to perform well in the UK with meaningful revenue contribution. Revenue in local currency in the UK during the quarter was not impacted by the UK EU referendum vote. Italy and France continued to drive the growth in the region with revenue increasing approximately 40% and 70%, respectively, in the quarter. Italy and France represented close to 25% and 15%, respectively, of revenue in EMEA in Q2 2016. Revenue from Germany increased around 70%, primarily driven by the addition of net 33 new concept stores in the last 12 months, as well as continued positive like-for-like growth. The 49 PANDORA owned concept stores opened during H1 2015 in Germany performed well and in line with the expectations. Furthermore, Q2 2015 was negatively impacted by a provision for returned goods of DKK 53 million related to the closure of a number of multibranded accounts. Revenue from Germany represented around 10% of revenue from EMEA.

Like-for-like sales growth in concept stores (excluding eSTOREs) in EMEA in Q2 2016 was 10%. Growth was driven by strong development in most markets in the region, including low

double digit growth in UK and Germany and high double digit growth in Italy and France. Like-for-like sales growth in EMEA adjusted for concept stores in distributor markets (including Russia, which continued to experience double digit negative like-for-like growth), was around 20%.

ASIA PACIFIC

Revenue in Asia Pacific was DKK 792 million in Q2 2016, an increase of 43% (51% in local currency) compared with Q2 2015. Growth was mainly driven by a positive development in Australia as well as revenue from PANDORA owned stores, which increased 175% compared with Q2 2015. The increase in revenue from PANDORA owned stores was primarily driven by a strong development in China, as well as the conversion effect of DKK 110 million from the take-over of the distribution in China, Singapore and Macau. Excluding the positive one-off effect from converting distributor revenue to retail revenue in China, Singapore and Macau, total revenue from Asia Pacific increased 24% compared with Q2 2015. The performance of the Disney collection continued its encouraging start, and contributed with meaningful revenue in the region.

Revenue in Australia increased around 30% compared with Q2 2015 (almost 40% in local currency), and represented around 40% of revenue from Asia Pacific. The growth was primarily driven by a continued strong like-for-like sales growth, as well as net 9 new concept stores opened since Q2 2015, to a total of 105 concept stores in Australia. Revenue in China represented around 25% of revenue from Asia Pacific and increased around 340% compared to Q2 2015 (or approximately 200% excluding the impact of converting distributor revenue to retail revenue of around DKK 65 million). Like-for-like sales in China continued to increase with high double digit growth rates, and during the last 12 months 37 new concept stores had been added to a total of 67 in China. Year to date 14 new concept stores have been added in China, and based on the latest estimates, PANDORA now expects to open around 40 concept stores annually in China in 2016, 2017 and 2018 (compared to previously communicated around 30, 25 and 25 concept stores for 2016, 2017 and 2018, respectively). Furthermore, a PANDORA eSTORE is scheduled to be launched in China in Q4 2016, which is expected to have an insignificant impact on revenue for 2016. Revenue in Hong Kong increased 6%, (around 10% in local currency), primarily driven by expansion of the store network and since Q2 2015, 6 new concept stores have been opened to a total of 26 concept stores in Hong Kong. Revenue from Hong Kong represented close to 15% of revenue from Asia Pacific.

Like-for-like sales growth in concept stores (excluding eSTOREs) in Asia Pacific in Q2 2016 was 16%, and primarily driven by high double digit growth in China and Australia. Like-for-like in Hong Kong continues to be low double-digit negative, impacted by the economic environment in the market as well as the increase in retail footprint in the last 12 months. However, total sales-out growth in Hong Kong continues to be positive.

Revenue from Charms was DKK 2,697 million in Q2 2016, an increase of 10% compared with Q2 2015. Growth in revenue from Charms in Americas was single digit negative, as Americas revenue in Q2 2015 was positively impacted by launch of the Disney collection in shop-in-shops and multibranded stores, which primarily consisted of charms. Revenue from Charms in EMEA and Asia Pacific increased around 20% and 50% respectively. Revenue from Bracelets increased 34% driven by the Moments and ESSENCE collections. The increase in Bracelets was primarily due to 9 new bracelets introduced during 2016, as well as successful Bracelet promotions in selected markets. The two categories represented 79% of total revenue in Q2 2016 compared with 84% in Q2 2015.

Revenue from Rings was DKK 544 million, an increase of 42% compared with Q2 2015. The category continued to do well, driven by continued use of revenue generating initiatives including emphasis on rings in staff training, improved in-store focus, as well as successful promotions across all regions. The Rings category represented 13% of total revenue in Q2 2016, compared with 11% in Q2 2015.

Revenue from Other jewellery was DKK 350 million, an increase of 67% compared with Q2 2015. From January 2016, PANDORA has increased the focus on earrings, and as a result revenue from Earrings increased by more than 80% compared with Q2 2015 and contributed with around 4% of Group revenue. Revenue from Necklaces continued to perform well and increased close to 60%. Other jewellery represented 8% of total revenue in Q2 2016 compared with 6% in Q2 2015.

GROSS PROFIT

Gross profit in Q2 2016 was DKK 3,260 million corresponding to a gross margin of 75.3% compared with 71.5% in Q2 2015. The increase was mainly driven by tailwind from more favourable raw material prices (approximately 1.5 percentage points) and an increase in revenue from PANDORA owned stores (approximately 1.5 percentage points). An increase in production complexity had a negative impact of approximately 1 percentage points. Additionally, as a positive one off, PANDORA reclaimed duties regarding prior years in the Americas region (approximately 1 percentage point).

COMMODITY HEDGING

It is PANDORA's policy to hedge approximately 100%, 80%, 60% and 40%, respectively, of expected gold and silver consumption in the following four quarters. The hedged prices for the following four quarters for gold are USD 1,161/oz, USD 1,172/oz, USD 1,197/oz and USD 1,274/oz and for silver USD 14.91/oz, USD 15.94/oz, USD 15.44/oz and USD 17.82/oz. However, inventory will delay impact of the hedged prices on cost of sales.

The average realised purchase price in Q2 2016 was USD 1,228/oz for gold and USD 15.81/oz for silver.

Excluding hedging and the time lag effect from the inventory, the underlying gross margin would have been approximately 75% based on the average gold (USD 1,260/oz) and silver (USD 16.78/oz) market prices in Q2 2016. Under these assumptions, a 10% deviation in quarterly average gold and silver prices would impact the gross margin by approximately +/- 1 percentage point.

OPERATING EXPENSES

Operating expenses in Q2 2016 were DKK 1,772 million compared with DKK 1,338 million in Q2 2015, representing 41.0% of revenue in Q2 2016 compared with 37.2% in Q2 2015.

Sales and distribution expenses were DKK 894 million in Q2 2016, an increase of 35% compared with Q2 2015, and corresponding to 20.7% of revenue compared with 18.4% in Q2 2015. The increase in sales and distribution expenses was mainly driven by higher revenue, as well as an increase in the number of PANDORA owned stores (from 451 in Q2 2015 to 643 in Q2 2016). The higher costs in PANDORA owned stores was mainly related to property and employee expenses, having a negative impact of around 3 percentage points compared with Q2 2015. Furthermore, sales and distribution expenses were impacted by an increase in depreciation and amortisation primarily related to the acquisition of store leases in Germany. In Q2 2016, depreciation and amortisation related to sales and distribution costs was DKK 70 million compared with DKK 41 million in Q2 2015.

Marketing expenses were DKK 405 million in Q2 2016 compared with DKK 319 million in Q2

2015, corresponding to 9.4% of revenue, compared with 8.9% in Q2 2015. The increase in marketing expenses was primarily driven by an increase in PR and media costs.

Administrative expenses in Q2 2016 increased by 32% to DKK 473 million, representing 10.9% of revenue, compared with 9.9% of Q2 2015 revenue. The increase was primarily due to ongoing higher IT expenses and one-off costs related to the transition into a new IT service provider (approximately 1 percentage point).

EBITDA

EBITDA for Q2 2016 increased by 23% to DKK 1,609 million resulting in an EBITDA margin of 37.2% compared with 36.4% in Q2 2015.

Regional EBITDA

DKK million	Q2 2016	Q2 2015	Growth	EBITDA	EBITDA
				margin	margin
				Q2 2016	Q2 2015
Americas	670	604	11%	40.3%	38.3%
EMEA	683	459	49%	36.5%	31.3%
Asia Pacific	256	248	3%	32.3%	44.9%
Group	1,609	1,311	23%	37.2%	36.4%

The EBITDA margin for Americas increased to 40.3% in Q2 2016 compared with 38.3% in Q2 2015. The increase was primarily due to an improved gross margin due to lower commodity prices and a one-off related to reclaimed duties regarding prior years in the Americas region (approximately 2.5 percentage points). The increase in gross margin was partially offset by channel mix.

The EBITDA margin for EMEA increased to 36.5% in Q2 2016 compared with 31.3% in Q2 2015. The increase was primarily driven by a higher gross margin due to lower commodity prices supported by operating leverage in the region due to the higher revenue. Additionally, Q2 2015 was negatively impacted by a sales return provision in Germany (approximately 3 percentage points).

The EBITDA margin for the Asia Pacific region decreased to 32.3% compared with 44.9% in Q2 2015. The decrease was due to channel mix changes primarily related to the expansion in China, Japan and Singapore, which had a negative impact of around 13 percentage points for the region in the quarter. This includes an impact of around 3 percentage points on the gross margin for Asia Pacific due to the takeover of the distribution in Singapore and Macau, where initial inventory in the stores was taken over at distributor prices.

EBIT

EBIT for Q2 2016 increased to DKK 1,488 million, an increase of 20% compared with Q2 2015, resulting in an EBIT margin of 34.4% for Q2 2016 compared with 34.3% in Q2 2015.

NET FINANCIALS

In Q2 2016, net financials amounted to a gain of DKK 57 million, compared with a net financial loss of DKK 69 million in Q2 2015. Of the total amount, DKK 67 million was related to exchange rate gains including gains on foreign exchange contracts.

INCOME TAX EXPENSES

Income tax expenses were DKK 324 million in Q2 2016. The effective tax rate in Q2 2016 was 21.0% compared with 22.0% for Q2 2015. The effective tax rate for the quarter was in line with the estimated effective tax rate for the full year.

NET PROFIT

Net profit in Q2 2016 increased to DKK 1,221 million from DKK 910 million in Q2 2015. The increase was primarily due to an increase in EBIT and a gain on net financials in Q2 2016.

BALANCE SHEET AND CASH FLOW

In Q2 2016, PANDORA generated free cash flow of DKK 576 million compared with DKK -268 million in Q2 2015. The increase was primarily due to an increase in profits as well as Q2 2015 being negatively impacted by DKK 642 million related to a settlement with the Danish tax authorities.

Operating working capital (defined as inventory and trade receivables less trade payables) at the end of Q2 2016 corresponded to 15.8% of the last twelve months revenue, compared with 15.7% at the end of Q2 2015 and 14.4% at the end of Q1 2016.

Operating working capital as a percentage of revenue

	Q2 2016	Q1 2016	Q4 2015	Q3 2015	Q2 2015
Inventory	15.7%	13.8%	14.1%	17.2%	15.5%
Trade receivables	6.7%	7.6%	8.1%	9.3%	7.2%
Trade payables	6.6%	7.0%	7.9%	6.9%	7.0%
Operating working capital	15.8%	14.4%	14.3%	19.6%	15.7%

Inventory was DKK 2,929 million at the end of Q2 2016, corresponding to 15.7% of preceding 12 months revenue compared with DKK 2,161 million in Q2 2015 corresponding to 15.5% of revenue. The nominal increase since Q2 2015 was mainly due to higher activity. Compared with Q2 2015, gold and silver prices affected inventory value with a decrease of approximately 14%, partially offset by a 6% increase from foreign exchange. The relative and nominal increase compared to Q1 2016 is related to inventory build-up ahead of the launch of the Autumn/Winter collection.

Trade receivables increased to DKK 1,253 million at the end of Q2 2016 (6.7% of preceding 12 months revenue) compared with DKK 1,009 million at the end of Q2 2015 (7.2% of the preceding 12 months revenue). The relative decrease in trade receivables was primarily due to a continued strong cash collection, as well as an increase in share of retail revenue.

Trade payables at the end of the quarter were DKK 1,239 million compared with DKK 979 million at the end of Q2 2015 and DKK 1,259 million at the end of Q1 2016. The nominal increase in trade payables compared to Q2 2015 was impacted by increased activity in the Group, specifically in China, Singapore and Macau.

CAPEX was DKK 352 million in Q2 2016 compared with DKK 239 million in Q2 2015. The CAPEX investments were mainly related to IT, new HQ in Copenhagen, openings of PANDORA owned stores and the production facilities in Thailand. In Q2 2016, CAPEX represented 8.1% of revenue.

During the quarter, a total of DKK 1,466 million was used to purchase own shares related to

the share buyback programme for 2016. As of 30 June 2016, PANDORA held a total of 2,922,883 treasury shares, corresponding to 2.5% of the share capital.

Net interest-bearing debt (NIBD) at the end of Q2 2016 was DKK 3,654 million corresponding to a NIBD to EBITDA ratio of 0.5x of the last twelve months EBITDA, compared with DKK 1,030 million at the end of Q2 2015 corresponding to a NIBD to EBITDA ratio of 0.2x.

NOTES

NOTE 1 – Accounting policies

This unaudited interim financial report has been prepared in accordance with IAS 34 'Interim Financial Reporting' as endorsed by the European Union and accounting policies set out in the Annual Report 2015 of PANDORA.

Furthermore, the interim financial report and Management's review are prepared in accordance with Danish disclosure requirements for listed companies.

PANDORA has adopted all new or amended standards (IFRS) and interpretations (IFRIC) as adopted by the EU and which are effective for the financial year beginning on 1 January 2016. The implementation of these new or amended standards had no material impact on the financial statements for Q2 2016.

NOTE 2 – Significant accounting estimates and judgements

In preparing the consolidated financial statements, Management makes various accounting estimates and assumptions, which form the basis of presentation, recognition and measurement of PANDORA's assets and liabilities.

All significant accounting estimates and judgements are consistent with the description in the Annual Report 2015. See descriptions in the individual notes to the consolidated financial statement in the Annual Report 2015.

NOTE 3 - Operating segment information

PANDORA's activities are segmented on the basis of geographical areas in accordance with the management reporting structure. In determining reporting segments, a number of segments have been aggregated. All segments derive their revenue from the types of products specified in Company Announcement no. 290.

The Group operates with two performance measures with EBITDA as the primary performance measure and EBIT as the secondary performance measure. Management monitors the segment profit of the operating segments separately for the purpose of making decisions about resource allocation and performance management. Segment results are measured as EBITDA, corresponding to 'operating profit' in the consolidated financial statements before depreciation, amortisation and impairment losses in respect of non-current assets. EBIT as a performance measure is only measured at Group level.

For information on revenue from the different products and sale channels reference is made to the Management Review.

Acquisitions in 2016

On 1 January 2016, PANDORA acquired the PANDORA store network in Singapore and Macau from Norbreeze Group (Norbreeze). The distribution agreements with Norbreeze for distributing PANDORA jewellery in Singapore, Macau and the Philippines was expired on 31 December 2015. Distribution in the Philippines continues under a new agreement with the existing distributor, whereas the distribution in Singapore and Macau remain with PANDORA. On 1 January 2016, PANDORA established a local office in Singapore for the Singapore operation, whereas Macau and the Philippines are operated out of PANDORA's office in Hong Kong.

According to the purchase price allocation, the purchase price of DKK 167 million was primarily related to non-current assets and inventories related to the acquired stores. Goodwill was DKK 102 million mainly related to the opportunity to enter Singapore and Macau directly and to add 15 PANDORA concept stores and 5 shop-in-shops located in these two markets to PANDORA's retail chain.

In June 2016, purchase consideration in amount of DKK 150 million has been transferred to Norbreeze. DKK 7 million was prepaid in 2015. The remaining DKK 10 million will be transferred in Q3 2016. Transaction cost of DKK 3 million was recognised in the income statement as administrative expenses. None of the goodwill recognised is deductible for income tax purposes.

Contribution from acquisitions in 2016 to Group revenue and net earnings for the period 1 January – June 2016 was insignificant.
