Because there is no minimum offering amount, the actual offering amount, placement agent fees and proceeds to us, if any, are not presently determinable and may be substantially less than the maximum amounts set forth above.

No action is being taken in any jurisdiction outside the United States to permit an offering of the common stock or possession or distribution of this prospectus supplement or the accompanying base prospectus in that jurisdiction. Persons who come into possession of this prospectus supplement or the accompanying base prospectus in jurisdictions outside the United States are required to inform themselves about and to observe any restrictions as to this offering and the distribution of this prospectus supplement and the accompanying base prospectus applicable to that jurisdiction.

ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement and the accompanying base prospectus are part of a registration statement on Form S-3 (File No. 333-207466) that we filed with the Securities and Exchange Commission (the “SEC”) using a “shelf” registration process. Under this “shelf” registration process, we may from time to time sell any combination of securities described in the accompanying base prospectus in one or more offerings up to a total of \$50 million.

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering of common stock and warrants, including the price, the number of shares of common stock and warrants being offered, the risks relating to an investment in our common stock and the placement agent arrangements, and also adds to and updates information contained in the accompanying base prospectus and the documents incorporated by reference into the prospectus supplement and the accompanying base prospectus. The second part is the accompanying base prospectus, which gives more general information, some of which, such as the descriptions of unissued securities other than our common stock and warrants, do not apply to this offering.

If the description of the offering varies between this prospectus supplement and the accompanying base prospectus, you should rely on the information contained in this prospectus supplement. However, if any statement in one of these documents is inconsistent with a statement in another document having a later date — for example, a document incorporated by reference in this prospectus supplement and the accompanying base prospectus — the statement in the document having the later date modifies or supersedes the earlier statement. We are not incorporating by reference any information submitted under Item 2.02 or Item 7.01 of any Current Report on Form 8-K into any filing under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act of 1934, as amended (the “Exchange Act”), or into this prospectus supplement or the accompanying base prospectus.

Any statement contained in a document incorporated by reference, or deemed to be incorporated by reference, into this prospectus supplement or the accompanying base prospectus will be deemed to be modified or superseded for purposes of this prospectus supplement or the accompanying base prospectus to the extent that a statement contained herein, therein or in any other subsequently filed document which also is incorporated by reference in this prospectus supplement or the accompanying prospectus modifies or supersedes that statement. Any such statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this prospectus supplement or the accompanying base prospectus.

We further note that the representations, warranties and covenants made by us in any agreement that is filed as an exhibit to any document that is incorporated by reference in this prospectus supplement and the accompanying base prospectus were made solely for the benefit of the parties to such agreement, including, in some cases, for the purpose of allocating risk among the parties to such agreements, and should not be deemed to be a representation, warranty or covenant to you. Moreover, such representations, warranties or covenants were accurate only as of the date when made. Accordingly, such representations, warranties and covenants should not be relied on as accurately representing the current state of our affairs.

Our Business

We are a holding company that conducts our primary businesses through our PRC subsidiaries and operating entities (the “VIEs”). We primarily operate a one-stop services for our clients on our integrated service platform, primarily including Omni-channel precision advertising and marketing platform, CloudX with a data analysis management system. Our CloudX omni-channel precision advertising and marketing artificial intelligence platform, primarily consists of digital advertising and marketing portals, include internet and mobile, and our other non-digital advertising units, such as TV. We provide and monitor varieties of advertising and marketing campaigns through this service system which generates effective sales leads through the combination of the Internet, mobile, content and others, including TV and schemes, while coordinating search engine marketing services through this platform to maximize market exposure and effectiveness for our clients. Our data analysis management system is an information and data analysis portal for small and medium-sized enterprises (“SMEs”) or entrepreneurs who plan to start their own business, helping them for a higher survival and faster deal closing rate. It is built to further expand our service and data-link to assist our clients in developing their sales both online and offline, so that the overall service platform can create a traceable looped online to offline (O2O) ecosystem for our clients in their ground sales expansion throughout the cities in the PRC. During the past few years, we have been developing our SMEs intelligent operation and marketing data service applications, which consists of several online cloud technology based advertising and marketing, lead management, elite store management, client membership management and other administrative operational management tools specifically designed for small business in China to match their simplicity. We are intending to use these applications to create social community-based consumption ecosystem, by deploying our Big Data technologies and analyze both online and offline businesses’ operational and customers’ consumption data to help the SMEs improve their marketing efficiency and sales effectiveness with their target customers.

We derive our revenue principally by:

- selling internet advertising space on our web portals and providing related data service and other value-added services to our clients through the internet advertising management systems and platforms developed and managed by us;
- selling effective sales lead information;
- providing search engine marketing services to increase the sales lead conversion rate for our clients' business promotion on both mobile and PC searches; and
- selling advertising time slots on our television shows.

In order to concentrate all resources on our core business, which is internet advertising, online to offline (O2O) sales channel expansion, precision marketing and the related data services, in the 4th quarter of 2015, we decided to exit our bank kiosk advertising and brand management and sales channel building services. During that time, we also committed to a plan to sell our internet advertising and marketing business operated under www.liansuo.com ("liansuo.com"), which is primarily aimed to serve larger SMEs through membership fees to continue the expansion of our core business as discussed above. We terminated our plan to sell liansuo.com in February 2017.

Excluding revenues generated and net loss incurred from discontinued operations for the years ended December 31, 2016 and 2015, we generated total revenues of US\$34.8 million for the year ended December 31, 2016, compared with US\$32.3 million in 2015, and incurred a net loss from continuing operations (before allocation to the non-controlling interest shareholders) of US\$6.3 million in 2016, compared with a net loss from continuing operations (before allocation to the non-controlling interest shareholders) of US\$7.7 million in 2015. Excluding approximately US\$1.9 million and US\$1.8 million of share-based compensation expenses recognized in relation to the restricted common stock and common stock purchase options granted to our management, employees and directors in September 2015 and December 2014, our adjusted net loss from continuing operations (before allocation to the non-controlling interest shareholders) was US\$4.4 million and US\$5.9 million, respectively, for the years ended December 31, 2016 and 2015, respectively. Loss from discontinued operations (i.e. brand management and sale channel building channel business segment) was approximately US\$0.06 million and US\$1.47 million for the years ended December 31, 2016 and 2015, respectively.

Intellectual Property

As of the date hereof, we have twenty-four software copyright certificates issued by the State Copyright Office of the PRC (“SCO”), including, but not limited to, software systems covering monitoring and management platforms on internet advertising effects, analysis systems on internet traffic statistics and internet user behavior, analysis systems on log-based visit hotspot and browsing trails and analysis systems on search engine marketing.

With this intellectual property, we provide value-added services that are in demand by our clients and track end users to help our clients assess and adjust their marketing strategies and enhance the effectiveness and efficiency of their advertisements placed through our multi-channel advertising and marketing service platforms on both PC and mobile devices.

We increased, and plan to continue increasing, expenditures to enhance the safety of our hardware and server which we depend on to support our network and manage and monitor programs on the network. We also increased, and plan to continue increasing, investment in research and development as we continue to expand, optimize and enhance the technologies of our portal website, upgrade our advertising and internet management software and develop our cloud-computing and mobile based operational management tools for our SMEs clients.

Corporate Structure

We operate our business in the PRC through certain contractual agreements between Rise King Century Technology Development (Beijing) Co., Ltd. (“Rise King WFOE”) and Business Opportunity Online (Beijing) Network Technology Co., Ltd. (“Business Opportunity Online”) and Beijing CNET Online Advertising Co., Ltd. (“Beijing CNET Online”). Rise King WFOE is our indirect wholly-owned subsidiary that is a registered wholly foreign-owned enterprise in the PRC. Business Opportunity Online and Beijing CNET Online are based in Beijing, PRC and owned by three Chinese citizens, including Mr. Handong Cheng, our chairman and chief executive officer, who owns a 46% equity interest in both Business Opportunity Online and Beijing CNET Online.

Recent Developments

On January 2, 2018, we formed a strategic partnership with Wuxi Jingtum Network Technology, a People’s Republic of China company (“Jingtum” or “Jingtum Technology”), which is a blockchain ecology builder, and expanded our business into the blockchain industry and its related technology. Through this partnership, both companies will utilize their respective advantages and collaborate to jointly develop blockchain applications to build a credible, highly secured blockchain and transparent platform for business opportunities and transactions. To support this new partnership and advance our expansion into blockchain, on January 11, 2018, we appointed Mr. Zhongyi Liu as Chief Strategy Officer to head our blockchain strategy plan and related business development. We have been exploring the potential of blockchain for over a year and Mr. Liu has been advising us on blockchain for the past four months.

Through the contribution of underlying technologies in the blockchain, Jingtum Technology aims to develop a new generation of value-based internet technologies in China helping to upgrade from an information-based network to a value-based exchange network, establishing a credible ecology and promoting preparation as Chinese enterprises enter a new era of digital assets. Jingtum's system is a decentralized and ecologically interactive internet trading network based on blockchain technology. The system addresses data trust issues through cryptography and distributed coherency mechanisms while maintaining rich transactional and contractual features.

We believe that blockchain technology enjoys extremely large demand in applications for small and medium-sized enterprises including product traceability, product certification, disintermediation, customer identification, and brand communication. We believe that the most fundamental value and significance is that the enterprise brand and reputation can be converted into digital form and can help SMEs across the world build a new business ecosystem based on algorithmic trust and enter the global digital asset trading market for transactions and circulation.

RISK FACTORS

The following is a summary of certain risks that should be carefully considered along with the other information contained or incorporated by reference in this prospectus supplement and the accompanying base prospectus. You should carefully consider the risk factors incorporated by reference to our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, Quarterly Report on Form 10-Q for the quarter ended June 30, 2017, Quarterly Report on Form 10-Q for the quarter ended September 30, 2017 and our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 and the other information contained in this prospectus supplement and accompanying base prospectus, as updated by our subsequent filings under the Exchange Act. The occurrence of any of these risks might cause you to lose all or part of your investment in the offered securities. If any other material risks of which we are unaware later occur or become material, our business, financial condition, and operating results, and the price of and trading market for our stock, could be materially harmed. The risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in these forward-looking statements. See “Forward-Looking Statements.”

Risks Related to Our Entry into BlockChain Business

We have an evolving business model.

As blockchain technologies become more widely available, we expect the services and products associated with them to evolve. As a result, to stay current with the industry, our business model may need to evolve as well. From time to time, we may modify aspects of our business model relating to our product mix and service offerings. We cannot offer any assurance that these or any other modifications will be successful or will not result in harm to the business. We may not be able to manage growth effectively, which could damage our reputation, limit our growth and negatively affect our operating results.

Risks Related to this Offering

There is no minimum aggregate offering amount required as a condition to the closing of this offering and the actual amount of net proceeds we receive may be lower than we anticipate, which may have a material adverse effect on our business.

There is no minimum aggregate offering amount required as a condition to the closing of this offering. Accordingly, the actual amount of securities we sell may be less, and perhaps substantially less, than the maximum amount set forth on the cover page of this prospectus supplement. Likewise, the actual amount of net proceeds we receive may be substantially less than the amount set forth in this prospectus supplement under the caption “Use of Proceeds,” which is based upon an assumption that we sell the maximum amount of securities offered hereby. Any substantial shortfall in the amount of securities we sell in this offering compared to the maximum amount offered hereby could have a material adverse effect on our financial condition and liquidity.

Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.

Although we plan to use all of the net proceeds from this offering for working capital and general corporate purposes, our management still has broad discretion as to the application of the net proceeds from this offering and could use them for purposes other than those contemplated at the time of this offering. Our stockholders may not agree with the manner in which our management chooses to allocate and spend the net proceeds. Moreover, our management may use the net proceeds for corporate purposes that may not increase our profitability or market value.

You will experience immediate dilution in the book value per share of the common stock you purchase.

Because the price per share of our common stock being offered is substantially higher than the book value per share of our common stock, you will suffer substantial dilution in the net tangible book value of the common stock you purchase in this offering. Based on an offering price of \$5.15 per share, after deducting estimated offering commissions and expenses, the net tangible book value of the common stock per share as of September 30, 2017 would have been \$1.25 per share. If you purchase shares of common stock in this offering, you will suffer dilution of \$3.90 per share in the net tangible book value of the common stock.

A large number of shares may be sold in the market following this offering, which may depress the market price of our common stock.

Sales of a substantial number of shares of our common stock in the public market following this offering could cause the market price of our common stock to decline. If there are more shares of common stock offered for sale than buyers are willing to purchase, then the market price of our common stock may decline to a market price at which buyers are willing to purchase the offered shares of common stock and sellers remain willing to sell the shares. All of the shares sold in this offering will be freely tradable without restriction or further registration under the Securities Act.

After the completion of this offering, one stockholder will continue to own a large percentage of our outstanding stock and could significantly influence the outcome of our corporate matters.

Mr. Handong Cheng, our chairman, chief executive officer and president, through Rise King WFOE, which he controls, currently beneficially owns approximately 31.9% of our issued and outstanding common stock. Upon the completion of this offering, his ownership interest will decrease to approximately 26.6%. As a result, he, together with other major shareholders, will continue to maintain control over substantially all corporate actions and decisions that require stockholder approval, including the election of directors and approval of significant corporate transactions, such as mergers, consolidations or the sale of substantially all of our assets.

There may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock.

We are not generally restricted from issuing additional common stock, or any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. The issuance of any additional common stock or preferred stock or securities convertible into, exchangeable for, or that represent the right to receive, common stock, or the exercise of such securities, could be substantially dilutive to holders of our common stock. The market price of our common stock could decline as a result of this offering, sales of our common stock made after this offering or the perception that such sales could occur. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of future offerings. Thus, our stockholders bear the risk of future offerings reducing the market price of our common stock and diluting their shareholdings in us.

We do not anticipate paying cash dividends on our common stock and investors in this offering may never obtain a return on their investment.

You should not rely on an investment in our common stock to provide dividend income, as we have not paid any cash dividends on our common stock to date, and do not plan to pay any cash dividends in the foreseeable future. Accordingly, investors must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any return on their investment.

Our common stock may be affected by limited trading volume and may fluctuate significantly.

Our common stock is traded on the NASDAQ Capital Market. Although an active trading market exists for our common stock, there can be no assurance that an active trading market for our common stock will be sustained. Failure to maintain an active trading market for our common stock may adversely affect our shareholders' ability to sell our common stock in short time periods, or at all. Our common stock has experienced, and may experience in the future, significant price and volume fluctuations, which could adversely affect the market price of our common stock.

The price of our common stock may be volatile or may decline, which may make it difficult for investors to resell shares of our common stock at prices they find attractive.

The trading price of our common stock may fluctuate widely as a result of a number of factors, many of which are outside our control. In addition, the stock market is subject to fluctuations in the share prices and trading volumes that affect the market prices of the shares of many companies. These broad market fluctuations could adversely affect the market price of our common stock. Among the factors that could affect our stock price are:

- actual or anticipated quarterly fluctuations in our operating results and financial condition, and, in particular, further deterioration of asset quality;
- changes in revenue or earnings estimates or publication of research reports and recommendations by financial analysts;
- failure to meet analysts' revenue or earnings estimates;
- speculation in the press or investment community;
- strategic actions by us or our competitors, such as acquisitions or restructurings;
- actions by institutional shareholders;
- fluctuations in the stock price and operating results of our competitors;
- general market conditions and, in particular, developments related to market conditions for the financial services industry;
- proposed or adopted regulatory changes or developments;
- anticipated or pending investigations, proceedings or litigation that involve or affect us; or
- domestic and international economic factors unrelated to our performance.

The stock market has experienced significant volatility recently. As a result, the market price of our common stock may be volatile. In addition, the trading volume in our common stock may fluctuate more than usual and cause significant price variations to occur. The trading price of the shares of our common stock and the value of our other securities will depend on many factors, which may change from time to time, including, without limitation, our financial condition, performance, creditworthiness and prospects, future sales of our equity or equity related securities, and other factors identified below in “Forward-Looking Statements.”

Accordingly, the shares of our common stock that an investor purchases, whether in this offering or in the secondary market, may trade at a price lower than that at which they were purchased, and, similarly, the value of our other securities may decline. Current levels of market volatility are unprecedented. The capital and credit markets have been experiencing volatility and disruption for more than a year. In some cases, the markets have produced downward pressure on stock prices and credit availability for certain issuers without regard to those issuers’ underlying financial strength.

A significant decline in our stock price could result in substantial losses for individual shareholders and could lead to costly and disruptive securities litigation.

There is no public market for the warrants.

There is no established public trading market for the warrants being offered in this offering and we do not expect a market to develop. In addition, we do not intend to apply for listing of the warrants on any securities exchange or automated quotation system. Without an active market, investors in this offering may be unable to readily sell the warrants.

The exercise price of the warrants exceeds the market price of our common stock.

Each warrant will have an exercise price of \$6.60 per share of our common stock, which exceeds the current market price of one share of our common stock. If the market price of our common stock does not exceed the exercise price of the warrants during the period in which the warrants are exercisable, the warrants may not have any value.

The warrants may be dilutive to holders of our common stock.

The ownership interest of the existing holders of our common stock will be diluted to the extent the warrants are exercised. The shares of our common stock underlying the warrants represented approximately 3.8% of our common stock outstanding as of January 8, 2018 (assuming that the total shares of common stock outstanding includes the 2,150,001 offered pursuant to this prospectus supplement and the 645,000 shares of common stock issuable upon exercise of the warrants).

FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying base prospectus, including the documents that we incorporate by reference, may contain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Forward-looking statements include those that express plans, anticipation, intent, contingencies, goals, targets or future development and/or otherwise are not statements of historical fact. Any forward-looking statements are based on our current expectations and projections about future events and are subject to risks and uncertainties, known and unknown, that could cause actual results and developments to differ materially from those expressed or implied in such statements.

In some cases, you can identify forward-looking statements by terminology, such as “expects,” “anticipates,” “intends,” “estimates,” “plans,” “believes,” “seeks,” “may,” “should,” “could” or the negative of such terms or other similar expressions. Accordingly, these statements involve estimates, assumptions and uncertainties that could cause actual results to differ materially from those expressed in such forward-looking statements. Any forward-looking statements are qualified in their entirety by reference to the risk factors described herein and those incorporated by reference in this prospectus supplement and the accompanying base prospectus or in any document incorporated by reference into this prospectus.

You should read this prospectus supplement and the accompanying base prospectus and the documents that we have incorporated by reference completely and with the understanding that our actual future results may be materially different from what we currently expect. You should assume that the information appearing in this prospectus supplement and the accompanying base prospectus and any document incorporated herein or therein by reference is accurate as of its date only. Because the risk factors referred to above and in our most recent Annual Report on Form 10-K for the fiscal year ended December 31, 2016 could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. We qualify all of the information presented in this prospectus supplement and the accompanying base prospectus supplement and any document incorporated herein by reference, and particularly our forward-looking statements, by these cautionary statements.

USE OF PROCEEDS

Assuming the maximum offering is completed, we estimate that the net proceeds from this offering will be approximately \$10,296,005 after deducting the placement agent fees and estimated offering expenses.

We intend to use the net proceeds from this offering for working capital and general corporate purposes.

Dividend Policy

We have never paid any dividends and we plan to retain earnings, if any, for use in the development of our business.

Under current PRC regulations, wholly foreign-owned enterprises and Sino-foreign equity joint ventures in the PRC may pay dividends only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. Additionally, these foreign-invested enterprises are required to set aside certain amounts of their accumulated profits each year, if any, to fund certain reserve funds. These reserves are not distributable as cash dividends. Payment of future dividends, if any, will be at the discretion of our board of directors after taking into account various factors, including current financial condition, operating results and current and anticipated cash needs.

DESCRIPTION OF SECURITIES

We are offering to certain institutional investors, pursuant to this prospectus supplement and the accompanying prospectus, up to an aggregate of 2,150,001 shares of our common stock, together with the warrants. The purchase price for each share of common stock and the related warrants is \$5.15. Each warrant has an exercise price of \$6.60 per share. The common stock and the warrants will be issued separately but will be purchased together in the offering. This prospectus supplement also relates to the offering of shares of common stock upon the exercise, if any, of the warrants issued in this offering.

Common Stock

The material terms and provisions of our common stock are described in the section entitled “Description of the Securities We May Offer” in the accompanying prospectus. The shares of common stock issued in this offering will be, when issued and paid for in accordance with the securities purchase agreement, duly and validly authorized, issued and fully paid and non-assessable.

Warrants

The material terms and provisions of the warrants being offered pursuant to this prospectus supplement and the accompanying prospectus are summarized below. This summary is subject to, and qualified in its entirety by, the form of warrant, which will be provided to the investors in this offering and will be filed as an exhibit to a Current Report on Form 8-K that we will file with the SEC in connection with the consummation of this offering.

The warrants to be issued in this offering represent the right to purchase up to an aggregate of 2,150,001 shares of our common stock. Each warrant entitles the investor to purchase 0.30 shares of our common stock for every share of common stock purchased by such investor in the offering. The warrants are exercisable at the option of the holder for a thirty (30) month period following the closing date of this offering. Each warrant has an exercise price of \$6.60 per share.

The exercise price of the warrants will be subject to adjustment in the case of stock splits, stock dividends, combinations of shares and similar recapitalization transactions. The holder will not have the right to exercise any portion of a warrant if the holder, together with its affiliates, would, subject to limited exceptions, beneficially own in excess of 4.99% of the number of shares of our common stock outstanding immediately after the exercise. The holder may elect to decrease or increase this beneficial ownership limitation up to 9.99% upon 61 days’ prior written notice to us. The warrants also contain “full ratchet” price protection in the event of subsequent issuances below the applicable exercise price.

The warrant holders must surrender payment in cash of the exercise price of the shares being acquired upon exercise of the warrants. If, however, we are unable to offer and sell the shares underlying the warrants pursuant to this prospectus supplement due to the ineffectiveness of the registration statement of which this prospectus supplement is a part, then the warrants may be exercised on a “cashless” basis.

DILUTION

If you invest in our common stock and warrants in this offering, your interest will be diluted immediately to the extent of the difference between the offering price per share of common stock you will pay in this offering and the as adjusted net tangible book value per share of our common stock after giving effect to this offering. Our historical net tangible book value as of September 30, 2017 was \$7,830,000, or \$0.63 per share of common stock. Historical net tangible book value per share represents the amount of our total tangible assets less total liabilities, divided by the number of shares of our common stock outstanding on September 30, 2017.

After giving effect to the assumed sale of our common stock in the aggregate amount of \$11,072,505 in this offering at an assumed offering price of \$5.15 per share, and after deducting estimated offering commissions and expenses payable by us, our net tangible book value as of September 30, 2017 would have been approximately \$18,128,155, or \$1.25 per share. This represents an immediate increase in as adjusted net tangible book value per share of \$0.62 to existing stockholders and immediate dilution of \$3.90 in as adjusted net tangible book value per share to new investors participating in this offering. The following table illustrates this per share dilution to investors participating in this offering:

Offering price per share		\$	5.15
Net tangible book value per share as of September 30, 2017	\$	0.63	
Increase attributable to new investors	\$	<u>0.62</u>	
As adjusted net tangible book value per share after this offering		\$	1.25
Dilution per share to new investors		\$	<u><u>3.90</u></u>

The above discussion and table are based on 12,340,542 shares of our common stock outstanding as of September 30, 2017 and excludes:

- 835,216 shares of our common stock issuable upon the exercise of stock options outstanding as of September 30, 2017, at a weighted average exercise price of \$ 2.49 per share;
- 4,145,522 shares of common stock reserved for future issuance under our ChinaNet Online Holdings, Inc. 2015 Equity Incentive Plan as of September 30, 2017; and
- 645,000 shares underlying the warrants issuable in the offering.

To the extent that any options are exercised, new options are issued under our 2015 Equity Incentive Plan or we otherwise issue additional shares of common stock in the future at a price less than the offering price, there may be further dilution to new investors purchasing common stock in this offering.

PLAN OF DISTRIBUTION

We have entered into a placement agency agreement, dated January 8, 2018, with FT Global Capital, Inc., pursuant to which FT Global Capital, Inc. agreed to act as our exclusive placement agent in connection with this offering. The placement agent is not purchasing or selling any other securities offered by this prospectus supplement and the accompanying prospectus, nor is the placement agent required to arrange for the purchase or sale of any other specific number or dollar amount of securities, but has agreed to use its best efforts to arrange for the sale of all other securities being offered in this offering. We will enter into a securities purchase agreement directly with investors in connection with this offering.

We currently anticipate that the closing of this offering will take place on or about January 17, 2018. On the closing date, the following will occur:

- we will receive funds in the amount of the aggregate purchase price of the shares of common stock and related warrants sold;
- we will irrevocably instruct the transfer agent to deliver the shares of common stock, and we will deliver the warrants, to the investors; and
- the placement agent will receive the placement agent fees in accordance with the terms of the placement agency agreement.

We have agreed to pay the placement agent an aggregate fee equal to six percent (6%) of the gross proceeds from the sale of the shares of common stock and related warrants in this offering. We have also agreed to reimburse the placement agent for certain expenses, including \$15,000 for fees and expenses related to “blue sky” counsel and \$25,000 for additional legal expenses.

We have agreed to issue to the placement agent a warrant to purchase a number of shares of common stock equal to 6.0% of the aggregate number of shares of common stock sold in this offering, which warrant will have an exercise price of \$6.60 per share and will terminate on the three-year anniversary of the effective date of the offering. The placement agent warrants will have substantially the same terms as the warrants being sold in the offering. Pursuant to FINRA Rule 5110(g), the placement agent warrants and any shares issued upon exercise of the placement agent warrants shall not be sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put or call transaction that would result in the effective economic disposition of the securities by any person for a period of 180 days immediately following the date of effectiveness or commencement of sales of this offering, except the transfer of any security: (i) by operation of law or by reason of our reorganization; (ii) to any FINRA member firm participating in the offering and the officers or partners thereof, if all securities so transferred remain subject to the lock-up restriction set forth above for the remainder of the time period; (iii) if the aggregate amount of our securities held by the placement agent or related persons do not exceed 1% of the securities being offered; (iv) that is beneficially owned on a pro-rata basis by all equity owners of an investment fund, provided that no participating member manages or otherwise directs investments by the fund and the participating members in the aggregate do not own more than 10% of the equity in the fund; or (v) the exercise or conversion of any security, if all securities remain subject to the lock-up restriction set forth above for the remainder of the time period. In addition, the placement agent warrants shall not be exercisable for a period of six months and one day after the closing date of this offering.

We have also agreed to a 6-month tail fee equal to the cash compensation in this offering if any investor either introduced to us during the term of its engagement or that participated in the offering provides us with further capital during such 6-month period following termination of our engagement with the placement agent.

The estimated offering expenses payable by us, in addition to the aggregate fees and expenses of approximately \$704,350 due to the placement agent, are approximately \$70,000.

We have agreed to indemnify the placement agent and certain other persons against certain liabilities relating to or arising out of the placement agent's activities under the placement agency agreement. We have also agreed to contribute to payments the placement agent may be required to make in respect of such liabilities.

The transfer agent for our common stock is Empire Stock Transfer, Inc.

Our common stock is traded on The NASDAQ Capital Market under the symbol "CNET." The warrants are not eligible for trading on any market.

The purchase price per share of common stock and the exercise price for the warrants were determined based on negotiations with the investors and discussions with the placement agent.

The placement agency agreement and the securities purchase agreement will be included as exhibits to our Current Report on Form 8-K that we will file with the SEC in connection with the consummation of this offering.

Pending use of the net proceeds, we intend to invest the proceeds in investment-grade, interest-bearing securities.

If required, we will set forth in a prospectus supplement the following information regarding any material dilution of the equity interests of investors purchasing securities in an offering under this prospectus:

- the net tangible book value per share of our equity securities before and after the offering;
- the amount of the increase in such net tangible book value per share attributable to the cash payments made by purchasers in the offering; and
- the amount of the immediate dilution from the public offering price which will be absorbed by such purchasers.

DESCRIPTION OF COMMON STOCK AND PREFERRED STOCK

The following description of our common stock and preferred stock, together with any additional information we include in any applicable prospectus supplement or any related free writing prospectus, summarizes the material terms and provisions of our common stock and the preferred stock that we may offer under this prospectus. While the terms we have summarized below will apply generally to any future common stock or preferred stock that we may offer, we will describe the particular terms of any class or series of these securities in more detail in the applicable prospectus supplement. For the complete terms of our common stock and preferred stock, please refer to our articles of incorporation and our bylaws, as amended, that are incorporated by reference into the registration statement of which this prospectus is a part or may be incorporated by reference in this prospectus or any applicable prospectus supplement. The terms of these securities may also be affected by Nevada law. The summary below and that contained in any applicable prospectus supplement or any related free writing prospectus are qualified in their entirety by reference to our articles of incorporation and bylaws, as in effect at the time of any offering of securities under this prospectus. For information on how to obtain copies of our articles of incorporation and bylaws, see “Where You Can Find More Information.”

We have 50,000,000 authorized shares of common stock, \$.001 par value per share, of which 13,982,542 shares of common stock are issued and outstanding as of the date of this prospectus. Each holder of shares of common stock is entitled to one vote per share at stockholders’ meetings. Our articles of incorporation do not provide for cumulative voting for the election of directors. Holders of shares of common stock are entitled to receive, pro rata, such dividends as may be declared by the board of directors out of funds legally available therefor, and are also entitled to share, pro rata, in any other distributions to the stockholders. Upon any liquidation, dissolution or winding-up, holders of shares of common stock are entitled to share ratably in all assets remaining after payment of liabilities. Holders of shares of common stock do not have any preemptive rights or other rights to subscribe for additional shares. The outstanding shares of common stock are paid for, fully paid and non-assessable.

Securities Exchange Listing

Our common stock is listed on The Nasdaq Capital Market under the symbol "CNET."

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Empire Stock Transfer.

Preferred Stock

As of the date of this prospectus, our articles of incorporation authorize us to issue 20,000,000 shares of preferred stock, par value \$0.001 per share, none of which is currently designated or outstanding. Pursuant to our articles of incorporation, our board of directors has the authority to provide for the issuance, in one or more series, of our authorized preferred stock and to fix or alter the rights, preferences, privileges and restrictions granted to or imposed upon any series of our preferred stock. The rights, privileges, preferences and restrictions of any such series of our preferred stock may be subordinated to, pari passu with (including, without limitation, inclusion in provisions with respect to liquidation and acquisition preferences, redemption or approval of matters by vote or written consent), or senior to any of those of any present or future class or series of preferred stock or common stock. The issuance of preferred stock may have the effect of decreasing the market price of our common stock and may adversely affect the voting power of holders of our common stock and reduce the likelihood that holders of our common stock will receive dividend payments and payments upon liquidation.

The particular terms of each class or series of preferred stock that we may offer under this prospectus, including redemption privileges, liquidation preferences, voting rights, dividend rights and/or conversion rights, will be more fully described in the applicable prospectus supplement relating to the preferred stock offered thereby. The rights, preferences, privileges and restrictions of any series of preferred stock that we may offer under this prospectus will be set forth in the particular articles supplementary that we would file with the State of Nevada. We will file as an exhibit to the registration statement of which this prospectus is a part, or will incorporate by reference from another report we file with the SEC, the form of any articles supplementary that describe the terms of the series of preferred stock we may offer before the issuance of the related series of preferred stock. The applicable prospectus supplement will specify the terms of the series of preferred stock we may offer, including, but not limited to:

- the distinctive designation and the maximum number of shares in the series;
- the number of shares we are offering and purchase price per share;
- the liquidation preference, if any;
- the terms on which dividends, if any, will be paid;
- the voting rights, if any, of the shares of the series;
- the terms and conditions, if any, on which the shares of the series shall be convertible into, or exchangeable for, shares of any other class or classes of capital stock;
- the terms on which the shares may be redeemed, if at all;
- any listing of the preferred stock on any securities exchange or market;
- a discussion of any material United States federal income tax considerations applicable to the preferred stock; and
- any or all other preferences, rights, restrictions, including restrictions on transferability, and qualifications of shares of the series.

The description of preferred stock above and the description of the terms of a particular series of preferred stock in any applicable prospectus supplement are not complete. You should refer to the applicable articles supplementary for complete information.

DESCRIPTION OF WARRANTS

General

We may issue warrants for the purchase of common stock or preferred stock. Warrants may be offered independently or together with common stock or preferred stock offered by any prospectus supplement and may be attached to or separate from those securities. While the terms we have summarized below will apply generally to any warrants that we may offer under this prospectus, we will describe in particular the terms of any series of warrants that we may offer in more detail in the applicable prospectus supplement and any applicable free writing prospectus. The terms of any warrants offered under a prospectus supplement may differ from the terms described below.

We will file as an exhibit to the registration statement of which this prospectus is a part, or will incorporate by reference from another report that we file with the SEC, the form of warrant and/or warrant agreement, which may include a form of warrant certificate, as applicable, that describes the terms of the particular series of warrants we may offer before the issuance of the related series of warrants. We may issue the warrants under a warrant agreement that we will enter into with a warrant agent to be selected by us. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any registered holders of warrants or beneficial owners of warrants. The following summary of material provisions of the warrants and warrant agreements is subject to, and qualified in its entirety by reference to, all the provisions of the form of warrant and/or warrant agreement and warrant certificate applicable to a particular series of warrants. We urge you to read the applicable prospectus supplement and any related free writing prospectus, as well as the complete form of warrant and/or the warrant agreement and warrant certificate, as applicable, that contain the terms of the warrants.

The particular terms of any issue of warrants will be described in the prospectus supplement relating to the issue. Those terms may include:

- the title of such warrants;
- the aggregate number of such warrants;
- the price or prices at which such warrants will be issued;
- the currency or currencies (including composite currencies) in which the price of such warrants may be payable;
- the terms of the securities purchasable upon exercise of such warrants and the procedures and conditions relating to the exercise of such warrants;
- the price at which the securities purchasable upon exercise of such warrants may be purchased;
- the date on which the right to exercise such warrants will commence and the date on which such right shall expire;
- any provisions for adjustment of the number or amount of securities receivable upon exercise of the warrants or the exercise price of the warrants;
- if applicable, the minimum or maximum amount of such warrants that may be exercised at any one time;
- if applicable, the designation and terms of the securities with which such warrants are issued and the number of such warrants issued with each such security;
- if applicable, the date on and after which such warrants and the related securities will be separately transferable;
- information with respect to book-entry procedures, if any;
- the terms of any rights to redeem or call the warrants;
- United States federal income tax consequences of holding or exercising the warrants, if material; and
- any other terms of such warrants, including terms, procedures and limitations relating to the exchange or exercise of such warrants.

Each warrant will entitle its holder to purchase the number of shares of common stock or preferred stock at the exercise price set forth in, or calculable as set forth in, the applicable prospectus supplement. The warrants may be exercised as set forth in the prospectus supplement relating to the warrants offered. Unless we otherwise specify in the applicable prospectus supplement, warrants may be exercised at any time up to the close of business on the expiration date set forth in the prospectus supplement relating to the warrants offered thereby. After the close of business on the expiration date, unexercised warrants will become void.

We will specify the place or places where, and the manner in which, warrants may be exercised in the form of warrant, warrant agreement or warrant certificate and applicable prospectus supplement. Upon receipt of payment and the warrant or warrant certificate, as applicable, properly completed and duly executed at the corporate trust office of the warrant agent, if any, or any other office, including ours, indicated in the prospectus supplement, we will, as soon as practicable, issue and deliver the securities purchasable upon such exercise. If less than all of the warrants (or the warrants represented by such warrant certificate) are exercised, a new warrant or a new warrant certificate, as applicable, will be issued for the remaining amount of warrants. If we so indicate in the applicable prospectus supplement, holders of the warrants may surrender securities as all or part of the exercise price for warrants.

Prior to the exercise of any warrants to purchase common stock or preferred stock, holders of the warrants will not have any of the rights of holders of the common stock or preferred stock purchasable upon exercise, including the right to vote or to receive any payments of dividends or payments upon our liquidation, dissolution or winding up on the common stock or preferred stock purchasable upon exercise, if any.

Outstanding Warrants

As of the date of this prospectus, there were no outstanding warrants to purchase shares of our common stock.

DESCRIPTION OF UNITS

The following description, together with the additional information we may include in any applicable prospectus supplement, summarizes the material terms and provisions of the units that we may offer under this prospectus. While the terms we have summarized below will apply generally to any units that we may offer under this prospectus, we will describe the particular terms of any series of units in more detail in the applicable prospectus supplement and any related free writing prospectus. The terms of any units offered under a prospectus supplement may differ from the terms described below. However, no prospectus supplement will fundamentally change the terms that are set forth in this prospectus or offer a security that is not registered and described in this prospectus at the time of its effectiveness.

We will file as an exhibit to the registration statement of which this prospectus is a part, or will incorporate by reference from another report we file with the SEC, the form of unit agreement that describes the terms of the series of units we may offer under this prospectus, and any supplemental agreements, before the issuance of the related series of units. The following summaries of material terms and provisions of the units are subject to, and qualified in their entirety by reference to, all the provisions of the unit agreement and any supplemental agreements applicable to a particular series of units. We urge you to read the applicable prospectus supplement and any related free writing prospectus, as well as the complete unit agreement and any supplemental agreements that contain the terms of the units.

General

We may issue units comprised of shares of common stock or preferred stock and warrants in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

We will describe in the applicable prospectus supplement the terms of the series of units, including, but not limited to:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any provisions of the governing unit agreement that differ from those described below; and
- any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units.

The provisions described in this section, as well as those described under “Description of Common Stock and Preferred Stock” and “Description of Warrants” will apply to each unit and to any common stock, preferred stock or warrant included in each unit, respectively.

Issuance in Series

We may issue units in such amounts and in numerous distinct series as we determine.

Enforceability of Rights by Holders of Units

We may enter into unit agreements with a unit agent. Each unit agent will act solely as our agent under the applicable unit agreement and will not assume any obligation or relationship of agency or trust with any holder of any unit. A single bank or trust company may act as unit agent for more than one series of units. A unit agent will have no duty or responsibility in case of any default by us under the applicable unit agreement or unit, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a unit may, without the consent of the related unit agent or the holder of any other unit, enforce by appropriate legal action its rights as holder under any security included in the unit.

We, the unit agents and any of their agents may treat the registered holder of any unit certificate as an absolute owner of the units evidenced by that certificate for any purpose and as the person entitled to exercise the rights attaching to the units so requested, despite any notice to the contrary.

PLAN OF DISTRIBUTION

We may sell our securities in any one or more of the following ways from time to time:

- through agents;
- to or through underwriters;
- through brokers or dealers;
- in “at the market offerings” within the meaning of Rule 415(a)(4) under the Securities Act, to or through a market maker or into an existing trading market, on an exchange or otherwise;
- directly by us to purchasers, including through a specific bidding, auction or other process; or
- through a combination of any of these methods of sale.

The applicable prospectus supplement will contain the terms of the transaction, the name or names of any underwriters, dealers, agents and the respective amounts of securities underwritten or purchased by them, the initial public offering price of the securities, and the applicable agent’s commission, dealer’s purchase price or underwriter’s discount. Any dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and compensation received by them on resale of the securities may be deemed to be underwriting discounts.

Any initial offering price, dealer purchase price, discount or commission may be changed from time to time.

The securities may be distributed from time to time in one or more transactions, at negotiated prices, at a fixed price or fixed prices (that may be subject to change), at market prices prevailing at the time of sale, at various prices determined at the time of sale or at prices related to prevailing market prices.

Offers to purchase securities may be solicited directly by us or by agents designated by us from time to time. Unless otherwise indicated in the prospectus supplement, any such agent will use its commercially reasonable efforts to solicit purchases for the period of its appointment or to sell securities on a continuing basis. Agents may receive compensation in the form of commissions, discounts or concessions from us. Agents may also receive compensation from the purchasers of the securities for whom they sell as principals. Each particular agent will receive compensation in amounts negotiated in connection with the sale, which might be in excess of customary commissions. Any such agent may be deemed to be an underwriter, as that term is defined in the Securities Act, of the securities so offered and sold. Accordingly, any commission, discount or concession received by them and any profit on the resale of the securities purchased by them may be deemed to be underwriting discounts or commissions under the Securities Act. We have not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of their securities. As of the date of this prospectus, there are no special selling arrangements between any broker-dealer or other person and us. No period of time has been fixed within which the securities will be offered and sold.

If underwriters are utilized in the sale of any securities in respect of which this prospectus is being delivered, such securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at fixed public offering prices or at varying prices determined by the underwriters at the time of sale. Securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more underwriters. If any underwriter or underwriters are utilized in the sale of securities, unless otherwise indicated in the applicable prospectus supplement, the obligations of the underwriters are subject to certain conditions precedent, and the underwriters will be obligated to purchase all such securities if they purchase any of them.

If a dealer is utilized in the sale of the securities in respect of which this prospectus is delivered, we will sell such securities to the dealer as principal. The dealer may then resell such securities to the public at varying prices to be determined by such dealer at the time of resale. Transactions through brokers or dealers may include block trades in which brokers or dealers will attempt to sell shares as agent but may position and resell as principal to facilitate the transaction or in cross trades, in which the same broker or dealer acts as agent on both sides of the trade. Any such dealer may be deemed to be an underwriter, as such term is defined in the Securities Act, of the securities so offered and sold.

Offers to purchase securities may be solicited directly by us, and the sale thereof may be made by us, directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale thereof.

Agents, underwriters and dealers may be entitled under relevant agreements with us to indemnification by us against certain liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which such agents, underwriters and dealers may be required to make in respect thereof. The terms and conditions of any indemnification or contribution will be described in the applicable prospectus supplement.

Underwriters, broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from us. Underwriters, broker-dealers or agents may also receive compensation from the purchasers of shares for whom they act as agents or to whom they sell as principals, or both. Compensation as to a particular underwriter, broker-dealer or agent will be in amounts to be negotiated in connection with transactions involving shares and might be in excess of customary commissions. In effecting sales, broker-dealers engaged by us may arrange for other broker-dealers to participate in the resales.

Any securities offered other than common stock will be a new issue and, other than the common stock, which is listed on The Nasdaq Capital Market, will have no established trading market. We may elect to list any series of securities on an exchange, and in the case of the common stock, on any additional exchange, but, unless otherwise specified in the applicable prospectus supplement and/or other offering material, we shall not be obligated to do so. It is possible that one or more underwriters may make a market in a class or series of securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of, or the trading market for, any of the securities.

Agents, underwriters and dealers may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of business.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. An underwriter may carry out these transactions on The Nasdaq Capital Market, in the over-the-counter market or otherwise.

The place and time of delivery for securities will be set forth in the accompanying prospectus supplement.

LEGAL MATTERS

The validity of the securities being offered by this prospectus will be passed upon for us by Loeb & Loeb LLP, New York, New York. If the validity of any securities is also passed upon by counsel for any underwriters, dealers or agents, that counsel will be named in the prospectus supplement relating to that specific offering.
