<sup>1</sup> This announcement contains currency conversions of certain Renminbi (RMB) amounts into U.S. dollars (US\$) at specified rates solely for the convenience of the reader. Unless otherwise noted, all translations from RMB to U.S. dollars are made at a rate of RMB6.943 to US\$1.00, the effective noon buying rate as of December 30, 2016 in The City of New York for cable transfers of RMB as set forth in H.10 weekly statistical release of the Federal Reserve Board.

<sup>2</sup> "Marketing expenses" are defined as expenses related to marketing activities aimed at promoting sales and gaining market share. Such expenses are included in selling expenses in the Company's unaudited condensed consolidated statement of income and comprehensive income attached hereto. The marketing expenses were mainly related to P&C insurance business during 2016, which we expect to significantly decrease in 2017 while we intend to increase commissions paid to sales agents for P&C insurance business in 2017.

Commenting on the fourth quarter and 2016 financial results, Mr. Chunlin Wang, Chief Executive Officer of Fanhua, stated, "We had exceptional growth in 2016, during which our insurance premiums increased by 49.7% year-over-year to RMB14.6 billion and net revenues increased by 66.2% year-over-year to RMB4.7 billion. We generated positive operating income for two consecutive quarters in the second half of 2016, which boosted total operating income in 2016 to RMB14.0 million. These positive results were primarily due to the significant growth of our life insurance business, effective cost controls and the substantial progress we have made in implementing multiple strategic initiatives, including the expansion of our sales network, enhanced cross-selling efforts, the upgrade and promotion of CNpad and the initiation of several marketing campaigns."

"The outstanding performance in 2016 shows the success of our business strategies. In 2017, we plan to further increase our profitability by investing more on our life insurance business. We remain optimistic about our growth momentum, and expect to generate no less than RMB180 million of operating income in 2017."

#### **Financial Results for the Fourth quarter of 2016**

**Total net revenues** were RMB 1.5 billion (US\$ 221.0 million) for the fourth quarter of 2016, representing an increase of 78.4 % from RMB 860.0 million for the corresponding period in 2015.

- **Net revenues for the insurance agency business** were RMB 1.2 billion (US\$ 175.7 million) for the fourth quarter of 2016, representing an increase of 82.5 % from RMB 668.4 million for the corresponding period in 2015. The increase was primarily driven by a 52.8 % increase in net revenues derived from the P&C insurance agency business, from RMB 561.1 million for the fourth quarter of 2015 to RMB 857.4 million (US\$ 123.5 million) for the fourth quarter of 2016, and a 237.9 % increase in net revenues derived from the life insurance agency business, from RMB 107.2 million for the fourth quarter of 2015 to RMB 362.3 million (US\$ 52.2 million) for the fourth quarter of 2016. The growth of the P&C insurance agency business was primarily due to a 38.6 % growth in insurance premiums as a result of enhanced marketing efforts. The increase in net revenues generated from the life insurance agency business was primarily due to a 284.8 % increase in commissions derived from new long-term life insurance policy sales, primarily driven by the successful implementation of our cross-selling strategy and industry growth. Revenues generated from the insurance agency business accounted for 79.5 % of total net revenues in the fourth quarter of 2016.
- **Net revenues for the insurance brokerage business** were RMB 211.1 million (US\$ 30.4 million) for the fourth quarter of 2016, representing an increase of 122.1 % from RMB 95.0 million for the corresponding period in 2015. Revenues generated from the insurance brokerage business accounted for 13.8 % of total net revenues in the fourth quarter of 2016.
- **Net revenues for the claims adjusting business** were RMB 103.7 million (US\$ 14.9 million) for the fourth quarter of 2016, representing an increase of 7.3 % from RMB 96.6 million for the corresponding period in 2015. Revenues generated from the claims adjusting business accounted for 6.7 % of total net revenues in the fourth quarter of 2016.

**Total operating costs and expenses** were RMB 1.5 billion (US\$ 216.0 million) for the fourth quarter of 2016, representing an increase of 81.3 % from RMB 827.2 million for the corresponding period in 2015.

- **Total operating costs** were RMB 1.2 billion (US\$ 168.4 million) for the fourth quarter of 2016, representing an increase of 81.9 % from RMB 642.7 million for the corresponding period in 2015. The increase was primarily due to sales growth.
  - **Costs of insurance agency business** were RMB 932.6 million (US\$ 134.3 million) for the fourth quarter of 2016, representing an increase of 81.3 % from RMB 514.4 million for the corresponding period in 2015, primarily driven by a 53.4 % increase in costs for the P&C insurance agency business to RMB 687.5 million (US\$ 99.0 million) for the fourth quarter of 2016, and a 269.9 % increase in costs for the life insurance agency business to RMB 245.1 million (US\$ 35.3 million) for the fourth quarter of 2016. The increase in costs for the P&C insurance agency business was primarily driven by sales growth and increased commissions paid to sales agents in the highly competitive auto insurance market. The increase in the costs for the life insurance agency business was generally in line with the increase in revenues in that business in the fourth quarter of 2016. Costs incurred by the insurance agency business accounted for 79.8 % of total operating costs in the fourth quarter of 2016.
  - **Costs of insurance brokerage business** were RMB 179.5 million (US\$ 25.8 million) for the fourth quarter of 2016, representing an increase of 137.3 % from RMB 75.6 million for the corresponding period in 2016. The increase was primarily due to sales growth. Costs incurred by the insurance brokerage business accounted for 15.3 % of total operating costs in the fourth quarter of 2016.
  - **Costs of claims adjusting business** were RMB 57.3 million (US\$ 8.2 million) for the fourth quarter of 2016, representing an increase of 8.7 % from RMB 52.7 million for the corresponding period in 2015. Costs incurred by the claims adjusting business accounted for 4.9 % of total operating costs in the fourth quarter of 2016.
- **Selling expenses** were RMB 185.2 million (US\$ 26.7 million) for the fourth quarter of 2016, representing an increase of 227.2 % from RMB 56.6 million for the corresponding period in 2015, primarily attributable to RMB 134.7 million (US\$ 19.4 million) in marketing expenses in the fourth quarter of the year.
- **General and administrative expenses** were RMB 145.3 million (US\$ 20.9 million) for the fourth quarter of 2016, representing an increase of 13.6 % from RMB 127.9 million for the corresponding period in 2015. The increase was primarily due to increases in payroll and rental expenses, partially offset by declines in share-based compensation expense and depreciation expenses.

As a result of the preceding factors, we had an **operating income** of RMB 34.7 million (US\$ 5.0 million) for the fourth quarter of 2016, representing an increase of 5.7% from RMB 32.8 million for the corresponding period in 2015.

**Operating margin** was 2.3 % for the fourth quarter of 2016, compared to 3.8 % for the corresponding period in 2015. The decrease in operating margin for the fourth quarter of 2016 was mainly due to enhanced marketing efforts to develop market shares in 2016.

**Investment income** was RMB 53.8 million (US\$ 7.8 million) for the fourth quarter of 2016, representing an increase of 157.8% from RMB 20.9 million for the corresponding period in 2015. The investment income represented yields from short-term investments in financial products which mainly consist of inter-bank deposits or collective trust products with a term of half a year to two years, which pay interest on a quarterly, semi-annual or annual basis. Our investment income fluctuates from quarter to quarter because these investments are classified as available for sales and investment income is recognized when received.

**Interest income** was RMB 0.4 million (US\$ 0.1 million) for the fourth quarter of 2016, representing a decrease of 96.1 % from RMB 9.2 million for the corresponding period in 2015. The decrease in interest income was primarily due to decreases in term deposits as a result of an increase in short-term investments.

**Income tax expense** was RMB 20.5 million (US\$3 .0 million) for the fourth quarter of 2016, representing an increase of 131.1 % from RMB 8.9 million for the corresponding period in 2015. The increase was primarily due to an increase in investment income. The effective tax rate for the fourth quarter of 2016 was 23.2 % compared with 13.1 % for the corresponding period in 2015.

**Share of income of affiliates** was RMB13 .9 million (US\$ 2.0 million) for the fourth quarter of 2016, representing an increase of 460.3% from RMB 2.5 million for the corresponding period in 2015, mainly attributable to an increase of profits from Sincere Fame International Limited, in which the Company owns 20.6% of the equity interests.

**Net income attributable to the Company's shareholders** was RMB74.6 million (US\$10.7 million) for the fourth quarter of 2016, representing an increase of 35.4% from RMB 55.1 million for the corresponding period in 2015.

**Net margin** was 4.9 % for the fourth quarter of 2016 compared with 6.4 % for the corresponding period in 2015. The decrease in net margin for the fourth quarter of 2016 was mainly due to enhanced marketing efforts to increase market shares in 2016.

**Basic and diluted net income per ADS** were RMB 1.28 (US\$ 0.18) and RMB 1.23 (US\$ 0.18) for the fourth quarter of 2016, respectively, representing increases of 34.1% and 34.6% from RMB 0.96 and RMB 0.91 for the corresponding period in 2015.

The increase was primarily driven by (i) a 50.2 % increase in net revenues derived from the P&C insurance agency business, from RMB 1.8 billion for 2015 to RMB 2.8 billion (US\$ 396.9 million) for the year of 2016, and (ii) a 209.6 % increase in net revenues derived from the life insurance agency business, from RMB 319.9 million for 2015 to RMB 990.5 million (US\$ 142.7 million) for 2016. The growth of the P&C insurance agency business was primarily due to a 41.4 % growth in insurance premiums as a result of enhanced marketing efforts. The increase in net revenues generated from the life insurance agency business was primarily due to a 244.1 % increase in commissions derived from new long-term life insurance policy sales, which was primarily driven by the successful implementation of our cross-selling strategy and overall industry growth. **Costs of insurance agency business** were RMB 2.9 billion (US\$ 418.7 million) for fiscal year 2016, representing an increase of 73.5 % from RMB 1.7 billion in fiscal year 2015, primarily driven by an increase of 51.9 % in costs for the P&C insurance agency business, and an increase of 227.9% in costs for the life insurance agency business, largely in line with the growth in net revenues of the P&C and life insurance agency businesses. Costs incurred by the insurance agency business accounted for 80.5 % of total operating costs in 2016.

**Operating margin** was 0.3 % for fiscal year 2016, compared with 2.8 % in fiscal year 2015. The decrease in operating margin for fiscal year 2016 was mainly due to enhanced marketing efforts to increase market shares in 2016.

**Interest income** was RMB 6.9 million (US\$ 1.0 million) for fiscal year 2016, representing a decrease of 87.9 % from RMB 57.2 million in fiscal year 2015. The decrease in interest income was primarily due to decreases in term deposits as a result of an increase in short-term investments.

The effective tax rate for fiscal year 2016 was 19.2 % compared with 12.1 % in fiscal year 2015. The increase in effective tax rate was primarily due to preferential tax treatment enjoyed by one of our subsidiaries in 2015, which was not available in 2016.

**Share of income of affiliates** was RMB 48.3 million (US\$7.0 million) for fiscal year 2016, representing an increase of 79.4% from RMB 26.9 million in fiscal year 2015, mainly attributable to an increase of profits from Sincere Fame International Limited, in which the Company owns 20.6% of the equity interests.

**Net income attributable to the Company's shareholders** was RMB 157.0 million (US\$ 22.6 million) for fiscal year 2016, representing a decrease of 25.2 % from RMB 210.1 million in fiscal year 2015.
