

Strongbridge Biopharma plc Announces Closing of \$35 Million Equity Financing and \$40 Million Credit Facility

Dublin, Ireland and Treviso, Pa., December 29, 2016 – Strongbridge Biopharma plc, (Nasdaq: SBBP), a global commercial-stage biopharmaceutical company focused on the development and commercialization of therapies for rare diseases with significant unmet needs, today announced that it closed its previously announced \$35 million equity financing and \$40 million credit facility transactions.

Strongbridge entered into a senior credit facility with Oxford Finance LLC and Horizon Technology Finance. The credit facility consists of \$20 million borrowed initially with access to two additional tranches of \$10 million each. The additional tranches would be available to the Company subject to the achievement of certain specified milestones.

The credit facility matures after 48 months, provides interest-only payments initially for the first 18 months of the loan followed by an amortization period of 30 months, provides for a final payment fee equal to 8% of the amount borrowed, and bears interest at a rate equal to the sum of 8.22% plus the greater of 0.53% or the 30-day US LIBOR rate. If the Company satisfies certain milestones and borrows the final \$10 million tranche, the interest-only period would be extended by an additional six months and the amortization period would be 24 months. The Company has granted a security interest in substantially all of its existing and after-acquired assets, including intellectual property. The credit facility contains facility and prepayment fees, customary affirmative and negative covenants, and events of default. The Company has issued ten-year warrants to the lenders to purchase an aggregate of 428,571 ordinary shares at an exercise price of \$2.45 per share.

About Strongbridge Biopharma

Strongbridge Biopharma is a global commercial-stage biopharmaceutical company focused on the development and commercialization of therapies for rare diseases with significant unmet needs. Strongbridge's first commercial product is KEVEYIS® (dichlorphenamide), the first and only FDA-approved treatment for hyperkalemic, hypokalemic, and related variants of Primary Periodic Paralysis. KEVEYIS has orphan drug exclusivity status in the U.S. through August 7, 2022. In addition to establishing this neuromuscular disease franchise, the Company has a clinical-stage pipeline of therapies for rare endocrine diseases. Strongbridge's lead compounds include COR-003 (levoketoconazole), a cortisol synthesis inhibitor currently being studied for the treatment of endogenous Cushing's syndrome, and COR-005, a next-generation somatostatin analog (SSA) being investigated for the treatment of acromegaly, with potential additional applications in Cushing's syndrome and neuroendocrine tumors. Both COR-003 and COR-005 have received orphan designation from the U.S. Food and Drug Administration and the European Medicines Agency. For more information, visit www.strongbridgebio.com.

About Oxford Finance LLC
