RigNet is Awarded a Systems Integration Contract For Expansion of a Large Scale Midstream Energy Facility

HOUSTON, June 20, 2017 (GLOBE NEWSWIRE) -- RigNet, Inc. (NASDAQ:RNET), announced today that it was awarded a multi-million dollar contract to provide communications infrastructure for the expansion of a large midstream energy facility in North America.

RigNet's scope of work includes the engineering, procurement and construction for communication infrastructure including radio communication, Local Area Network (LAN), Closed Circuit Television (CCTV), and Public Address and General Alarm (PAGA).

This contract draws on the considerable experience of RigNet's System Integration and Automation (SI&A) team of engineers responsible for developing robust and resilient infrastructures for "inside the fence" communication.

"We are very pleased to participate in the expansion of this key energy facility, and are committed to demonstrating RigNet's ability to provide customized and intelligent communication infrastructure to operators in the midstream market," said Steven Pickett, RigNet's CEO and president.

About RigNet

RigNet (NASDAQ:RNET) is a leading global provider of customized systems and solutions serving customers with complex data networking and operational requirements. RigNet provides solutions ranging from fully-managed voice and data networks to more advanced applications that include video conferencing, crew welfare, asset monitoring and real-time data services.
