## Appendix 4C Quarter Ended 30 September 2017

**San Diego, California and Sydney, Australia** (Tuesday, 31 October, 2017, AEST) – REVA Medical, Inc. (ASX: RVA) (“REVA” or the “Company”), a leader in bioresorbable polymer technologies for vascular medical applications, is providing the attached Appendix 4C Quarterly Report for the quarter ended 30 September 2017. The Appendix 4C is unaudited.

### Third Quarter 2017 Highlights

During the third quarter of 2017, the Company initiated commercial sales of the *Fantom*® bioresorbable scaffold (“BRS”). Product shipments included a combination of new customer orders and reorders from existing customers.

Highlights from the quarter include:

- Commercial Sales Leader - Carmelo Mastrandrea joined REVA as the Vice President, Europe. Mr. Mastrandrea has been working to build out the commercial team and we are pleased that our first two sales managers will start on November 1, 2017. We are in active discussions with three additional candidates that we anticipate will join REVA in the first quarter of 2018. The commercial team will focus on building product utilization and opening new accounts in Germany, Switzerland, Austria, Belgium, Netherlands, Luxembourg and Denmark, which are the initial countries identified as part of REVA’s targeted launch. The Company plans to broaden its commercial team as it expands sales in Europe.
- Commercial Sales – The Company’s commercial launch continues as planned with sales in Germany and recent expansion into Switzerland. The first implant of *Fantom* in Switzerland was conducted at Kantonsspital Baselland in Liestal, Switzerland by Dr. Gregor Leibundgut.
- Clinical Data - The Company is scheduled to release new data on the *Fantom* BRS, the only bioresorbable scaffold made from Tyrocore™, REVA’s proprietary tyrosine-derived polymer designed specifically for vascular scaffold applications. 24-month data on a subset of patients from the FANTOM II clinical trial will be presented by trial investigator, Dr. Ricardo A. Costa, from Institute Dante Pazzanese of Cardiology in Sao Paulo, Brazil, and Dr. James B. Hermiller Jr., from the Heart Center of Indiana in Indianapolis, Indiana at the Transcatheter Cardiovascular Therapeutics Conference on 31 October 2017.

### Appendix 4C

As of 30 September 2017, the Company’s cash balance was US \$22.6 million. The current quarter-end cash balance is a decrease of US \$6.5 million from the 30 June 2017 balance of US \$29.1 million primarily reflecting US \$4.9 million in disbursements related to normal operating activities, purchases of US \$1.5 million in investment securities and US \$0.2 million of capital equipment, offset slightly by US \$0.1 million in cash receipts from option exercises and US \$41,000 in receipts from customers. As of 30 September 2017, the Company also had \$1.5 million in investment securities.

The Company currently plans to file its Form 10-Q Quarterly Report with the U.S. Securities and Exchange Commission and with the Australian Securities Exchange on or before the due date of 9 November 2017. The

Quarterly Report provides financial statements, along with Management's Discussion and Analysis of Financial Condition and Results of Operations for the quarter ended 30 September 2017.

### **About Fantom**

*Fantom* is a sirolimus-eluting bioresorbable scaffold (BRS) developed as an alternative to metallic stents for the treatment of coronary artery disease. Scaffolds provide restoration of blood flow, support the artery through the healing process, and then disappear (or "resorb") from the body over a period of time. This resorption is intended to allow the return of natural movement and function of the artery. *Fantom* is the only bioresorbable scaffold made from Tyrocore™, REVA's proprietary tyrosine-derived polymer designed specifically for vascular scaffold applications. Tyrocore is inherently radiopaque, making *Fantom* the first and only BRS that is visible under fluoroscopy. *Fantom* is designed with thin struts while maintaining strength and with distinct ease-of-use features such as expansion with one continuous inflation.

### **About REVA Medical**

REVA Medical is a medical device company focused on the development and commercialization of bioresorbable polymer technologies for vascular applications. The Company's lead product, the *Fantom* bioresorbable scaffold, received European CE Mark on April 3, 2017 for the treatment of coronary artery disease. REVA is located in San Diego, California, USA and employs over 50 people in the U.S. and Europe.

### **Forward-Looking Statements**

*This announcement contains or may contain forward-looking statements that are based on management's beliefs, assumptions, and expectations and on information currently available to management. All statements that are not statements of historical fact, including those statements that address future operating plans or performance and events or developments that may occur in the future, are forward-looking statements, such as those statements regarding the projections and timing surrounding commercial operations and sales, clinical trials, pipeline product development, and future financings. No undue reliance should be placed on forward-looking statements. Although management believes forward-looking statements are reasonable as and when made, forward-looking statements are subject to a number of risks and uncertainties that may cause actual results to vary materially from those expressed in forward-looking statements, including the risks and uncertainties that are described in the "Risk Factors" section of our Annual Report on Form 10-K filed with the US Securities and Exchange Commission (the "SEC") on February 28, 2017, and as updated in our periodic reports thereafter. Any forward-looking statements in this announcement speak only as of the date when made. REVA does not assume any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.*

### Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
