- (1) Based on weighted-average number of shares outstanding for the period.
- (2) Total return based on market value is based on the change in market price per share between the opening and ending market values per share in the period. Total return based on net asset value is based upon the change in net asset value per share between the opening and ending net asset values per share.
- (3) Financial Highlights for periods of less than one year are annualized and the ratios of operating expenses to average net assets and net investment loss to average net assets are adjusted accordingly. Non-recurring expenses are not annualized. For each of the three months ended March 31, 2017 and 2016, the Company did not incur any non-recurring expenses. Because the ratios are calculated for the Company's common stock taken as a whole, an individual investor's ratios may vary from these ratios.
