MediaCorp Deploys Envivio Solution for SEA Games Coverage

Market-Leading Muse(TM) Software-Based Encoders Enable Toggle, MediaCorp's OTT Service, to Deliver High Quality Video to Any Device for the SEA Games

SAN FRANCISCO, CA -- (Marketwired) -- 06/04/15 -- [Envivio](#) (NASDAQ: ENVI), a leading provider of software-based video processing and delivery solutions, today announced that Envivio Muse™ encoders have been deployed by MediaCorp for the SEA Games 2015 for its Toggle service delivering over-the-top (OTT) TV to viewers in Singapore.

The Southeast Asian (SEA) Games are held every two years and host participants from 11 countries. This year, the popular event will boast coverage of 36 sports in 402 events, from aquatics to wushu martial arts.

"MediaCorp is delivering a digital 28th SEA Games to audiences in Singapore," said Joe Igoe, chief technology officer of MediaCorp. "To deliver a high quality viewing experience, MediaCorp is implementing Envivio, the market leader for any-screen TV services."

"We are delighted to be selected by one of our global media partners to innovate coverage of a major, live sporting event," said Julien Signes, CEO, Envivio. "We strive every day to improve the video experience and our technology will help MediaCorp satisfy sports fans across Southeast Asia. With our advanced video processing and delivery software solutions, we are able to provide partners like MediaCorp the best possible video quality on any screen and at any time."

Envivio Muse video compression software allows content providers to deliver traditional and live TV programs to consumers over IPTV broadcast networks, cable and satellite feeds. Providers around the globe use the software to deliver programming in standard or high definition, and to prepare their businesses for Ultra HD delivery.

More than 300 content and service providers around the globe have selected Envivio to power their multi-screen and Pay TV services. Visit www.envivio.com to learn more about TV without boundaries.
