

ACI Worldwide Powers Digital Banking for MB Financial

Leading commercial bank utilizes ACI's cloud-based Universal Online Banker to meet the needs of corporate banking customers

NAPLES, FLA, Oct. 17, 2017 (GLOBE NEWSWIRE) -- [ACI Worldwide](#) (NASDAQ: ACIW), a leading global provider of real-time [electronic payment and banking solutions](#), today announced that MB Financial Bank is utilizing ACI's Universal Online Banker solution for its corporate banking customers.

With approximately \$20 billion in assets, Chicago-based commercial bank MB Financial has been serving the financial needs of businesses for more than 100 years. The bank was looking for both a modern [digital cash management solution](#) to meet the sophisticated needs of its large corporate customers and a proven partner able to deliver on rapidly evolving banking innovations. MB ultimately selected ACI's Universal Online Banker as its digital cash management replacement, successfully migrating thousands of existing commercial customers to the advanced digital banking platform.

"Digital channel conversions are extremely complex and it's critical to select a partner that can deliver on its commitments," said Shawn Griffin, senior vice president, treasury management, MB Financial Bank. "After successfully migrating to ACI's cloud-based Universal Online Banker, they met our expectations around performance, speed to market and intuitive user experience for our customers. ACI understands the marketplace—and has a forward-looking approach to digital banking."

"As the banking landscape becomes increasingly competitive, it's imperative for financial institutions such as MB Financial to provide best-in-class solutions for its corporate customers," said Mike Braatz, senior vice president, ACI Worldwide. "We are proud that MB placed its trust in ACI—and that financial institutions are turning to Universal Online Banker for a competitive advantage in digital banking."

Universal Online Banker is a cloud-based, award winning [digital banking platform](#). The strength of Universal Online Banker lies in its powerful features built within a user interface designed especially for ease-of-use and a technology platform with easy integration, flexibility and scalability. The feature-rich functionality offers user-driven balance and transaction reporting, sophisticated entitlements and approval capabilities, extensive payment types including NACHA, domestic and international wires, and federal and state tax. Universal Online Banker is built on the UP framework that provides easy integration to back office systems, third parties and end users through ACI's extensive API library.
