## **Allot to Exhibit Full Suite of Network-Based Security Solutions for Communications Service Providers at Mobile World Congress Americas**

**Allot to demonstrate mobile security solution currently protecting millions of subscribers across the globe, and will showcase solutions for multilayer DDoS and IoT protection**

SAN FRANCISCO, September 12, 2017 /PRNewswire/ --

[Allot Communications Ltd.](#) (NASDAQ: ALLT, TASE: ALLT), a leading global provider of innovative network intelligence and security solutions for service providers worldwide, will be exhibiting at Mobile World Congress Americas in San Francisco and showcasing its industry leading security solutions for communications service providers (CSPs).

At the event, Allot representatives will:

- 1 Provide a live demo of Allot's mobile security solution, [WebSafe Personal](#), which powers Vodafone's Secure Net services to millions of subscribers in Europe who choose to pay for the secure service.
- 1 Present Allot's network-based [multilayer DDoS and IoT threat protection solutions](#), for real time inbound and outbound traffic anomaly detection and attack mitigation.
- 1 Demonstrate Allot's leading solutions for [network intelligence and control](#), utilizing the AWS Amazon Cloud services.
- 1 Exhibit Allot's [virtual service delivery framework](#) for NFV deployments, connecting and coordinating data and control plane functions to enable end-to-end multiservice delivery in virtual and hybrid environments.

"With the proliferation of connected devices and increase in frequency and scale of DDoS attacks, effective protection must include measures to protect the network from inside as well as from external attacks." Commented Vered Zur, Allot's VP Marketing. "Allot has successfully demonstrated the effectiveness of its technology in combating various DDoS and IoT-based attacks."

"As security and privacy concerns grow in tandem with the volume of connected devices, service providers are in a unique position to provide consumers and small businesses with network-based protection." Added **Erez Antebi, CEO of Allot**. "Network-based security provides hassle-free protection, making it easy for subscribers to adopt and use. It has already proven to attract very high penetration rates of between 30% and 40%."

Allot representatives will be on hand to discuss and demo Allot's network-based security solutions at [Allot's booth S.256](#) (South Hall) at the upcoming [Mobile World Congress Americas](#), taking place on **September 12-14 in San Francisco, California**.

### **Safe Harbor Statement**

This release contains forward-looking statements, which express the current beliefs and expectations of Company management. Such statements involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements set forth in such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to: our ability to compete successfully with other companies offering competing technologies; the loss of one or more significant customers; consolidation of, and strategic alliances by, our competitors, government regulation; the timing of completion of key project milestones which impact the timing of our revenue recognition; lower demand for key value-added services; our ability to keep pace with advances in technology and to add new features and value-added services; managing lengthy sales cycles; operational risks associated with large projects; our dependence on third party channel partners for a material portion of our revenues; and other factors discussed under the heading "Risk Factors" in the Company's annual report on Form 20-F filed with the Securities and Exchange Commission. Forward-looking statements in this release are made pursuant to the safe harbor provisions contained in the Private Securities Litigation Reform Act of 1995. These forward-

looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
