

Analogic Corporation Appoints Jim Ryan Vice President of Global Operations

PEABODY, Mass.--(BUSINESS WIRE)--Dec. 8, 2008--Jim Green, President and Chief Executive Officer of Analogic Corporation (NASDAQ: ALOG), announced today that Jim Ryan will join the Company as Vice President, Global Operations, on December 15, 2008. Ryan will be responsible for manufacturing operations and the supply chain worldwide.

Mr. Ryan joins Analogic from Booz & Company, a former subsidiary of Booz Allen Hamilton, where he served in several capacities over nine years. As a principal there, Ryan played a lead role in the firm's Operations Strategy Group. He has extensive experience in operations management, including manufacturing strategy, supply chain and overhead optimization, functional effectiveness, and acquisition integration. Ryan also brings a track record of driving growth and profitability across a broad range of clients and industries.

Analogic President and CEO Jim Green said, "Jim's experience, ranging from hands-on direct leadership to strategic operational planning with numerous complex operating models, will be invaluable as we optimize worldwide. Jim will be responsible for streamlining operations -- including supply chain management -- across the entire Company, including all subsidiaries, our recent Copley acquisition, and our new China Operations. His objective will be a more efficient and productive company, well positioned for profitable growth."

Mr. Ryan's education includes a Bachelor of Science in Engineering from Lehigh University, a Master of Science in Engineering from the Massachusetts Institute of Technology (MIT), and a Master of Business Administration (MBA) from MIT.

Analogic Corporation is a leading designer and manufacturer of advanced health and security systems and subsystems sold primarily to Original Equipment Manufacturers (OEMs). The Company is recognized worldwide for advancing the state of the art in Automatic Explosives Detection, Computed Tomography (CT), Digital Radiography (DR), Ultrasound, Magnetic Resonance Imaging (MRI), Patient Monitoring, and Advanced Signal Processing.
