

Analogic Corporation Appoints Mervat Faltas President of Anrad Corporation

PEABODY, Mass.--(BUSINESS WIRE)--Jan. 5, 2006--John Wood, President and CEO of Analogic Corporation (NASDAQ: ALOG), announced today that Mervat Faltas, Vice President of Operations for Anrad Corporation, Analogic's Quebec, Canada, subsidiary, has been named President of Anrad.

Mrs. Faltas joined Anrad in July 2005, as Vice President of Operations with responsibility for all operational activities, including manufacturing, sourcing, and financing. She holds a Bachelor of Science degree in chemistry/physics from the American University of Cairo, along with extensive experience in materials science, semiconductor devices, cleanroom processes, enterprise resource planning, and operations. Prior to joining Anrad, Mrs. Faltas served as President and CEO of ITF Optical Technologies, a designer and manufacturer of advanced photonics solutions.

"We are very pleased that Mervat has joined Analogic's executive team as President of Anrad," said Wood. "In the relatively short time that she has been with Anrad, Mervat has used her considerable knowledge and experience in high-performance, technology-intensive operations to make a very positive impact on the Company and its operations."

As President of Anrad, effective January 1, 2006, Mervat succeeds Sorin Marcovici, a longtime Vice President of Analogic who has been with the Company for 30 years. Sorin held a number of executive positions within Analogic before taking on the role of President of Anrad in January 2000, shortly after Anrad was founded, and is returning to the Company headquarters in Peabody.

Anrad Corporation, a wholly owned subsidiary of Analogic Corporation, develops, manufactures, and integrates a broad series of direct-conversion X-ray detectors and their associated electronics subsystems for the most advanced digital radiography machines. The Company is a leading supplier of amorphous Selenium-based direct-conversion detectors and subsystems for digital X-ray applications.

Analogic Corporation is a leading designer and manufacturer of advanced health and security systems and subsystems sold primarily to Original Equipment Manufacturers (OEMs). The Company is recognized worldwide for advancing the state of the art in Computed Tomography (CT), Digital Radiography (DR), Ultrasound, Magnetic Resonance Imaging (MRI), Patient Monitoring, and Embedded Multiprocessing.
