

## **Analogic Corporation Joins Security Manufacturers Coalition**

### **Coalition to Facilitate Efficiencies in the Implementation of Next-Generation Screening Technologies**

PEABODY, Mass., Sept. 14, 2011 (GLOBE NEWSWIRE) -- Analogic Corporation (Nasdaq:ALOG) announced today that it has joined the newly formed Security Manufacturers Coalition. Organized under the Airport Consultants Council (ACC), the coalition will serve as the unified voice of companies that manufacture security screening technology, focusing on aviation and intermodal security issues worldwide.

The coalition intends to address issues that most affect security technology companies, such as: partnering with government to create strategic plans for the deployment of screening technologies; partnering with government to define requirements to better drive research and development investments; advocating for efficient and equitable acquisition strategies and processes; and providing attention to ongoing harmonization of international standards and regulations.

Jim Green, Analogic president and CEO, commented, "Analogic is proud to be a founding member of this new coalition. For more than a decade, we have been developing explosives detection systems and subsystems with advanced multi-slice CT technology for airports around the world. We look forward to partnering with the government to devise technology roadmaps and working with our coalition partners to streamline the process of bringing new technologies to market to secure air travel."

Members of the coalition include manufacturers of security screening technology that is tested and certified to meet internationally recognized standards. Member companies provide security-screening equipment to a large number of public and private organizations worldwide. Other founding members include American Science and Engineering, L-3 Security & Detection Systems, Morpho Detection, Rapiscan Systems, Reveal Imaging Technologies, Inc., and Smiths Detection.

### **About Analogic**

Analogic (Nasdaq:ALOG), headquartered in Peabody, Mass., is a high-technology company that designs and manufactures advanced medical imaging and security systems and subsystems sold to original equipment manufacturers (OEMs) and end users in the healthcare and homeland security markets. We are recognized worldwide for advancing state-of-the-art technology in the areas of computed tomography (CT), magnetic resonance imaging (MRI), digital radiography, ultrasound, and automatic explosives detection for airport security. Our OEM customers incorporate our technology into systems that they in turn sell for various medical and security applications. We also sell our ultrasound products directly to clinical end-user markets through our direct worldwide sales force under the brand name BK Medical.
