New High-Speed Checked Baggage Scanner Incorporating Analogic's CT Technology Unveiled by Smiths Detection

PEABODY, Mass., May 30, 2012 (GLOBE NEWSWIRE) -- Analogic Corporation (Nasdaq:ALOG), enabling the world's medical imaging and aviation security technology, today announced that Smiths Detection has unveiled its next generation HI-SCAN 10080 XCT checked-baggage threat detection system at an investor day in London. This new system, which incorporates Analogic's computed tomography (CT) technology, is the result of a cooperative development effort between the two companies. More information on the new HI-SCAN 10080 XCT system and the Smiths announcement can be found at http://www.smithsdetection.com/1025_6434.php.

About Analogic

Analogic (Nasdaq:ALOG) provides leading-edge healthcare and security technology solutions to advance the practice of medicine and save lives. We are recognized around the world for advanced imaging systems and technology that enable computed tomography, ultrasound, digital mammography, and magnetic resonance imaging (MRI), as well as automated threat detection for aviation security. Our CT, MRI, digital mammography, and ultrasound transducer products are sold to original equipment manufacturers (OEMs), providing state-of-the-art capability and enabling them to enter new markets and expand their existing market presence. Our market-leading BK Medical branded ultrasound systems, used in procedure-driven markets such as urology, surgery, and anesthesia, are sold to clinical end users through our direct sales force. For over 40 years we've enabled customers to thrive, improving the health and enhancing the safety of people around the world. Analogic is headquartered just north of Boston, Massachusetts.
