Lightbridge CEO to Speak on a Panel at Bloomberg's The Future of Energy Summit in Shanghai on November 28th

RESTON, Va., Nov. 17, 2017 (GLOBE NEWSWIRE) -- [Lightbridge Corporation](#) (NASDAQ:LTBR), a nuclear fuel technology development company, today announced that Seth Grae, its President and CEO, will speak on Tuesday, November 28th at 3:00 pm CST on a panel titled '*Technologies: Nuclear- the next stage of expansion*' at Bloomberg's The Future of Energy Summit in Shanghai. For more information please visit <https://about.bnef.com/summit/event/shanghai/shanghai-agenda/>.

The Future of Energy Summit is the premier invitation-only forum at the nexus of energy markets, industry, finance, and policy. It is a year-round, global experience powered by Bloomberg New Energy Finance's cutting-edge research team, as it explores the shifting forces in the energy system and defines the implications for the energy community.

Since its inception in 2008, the Future of Energy Summit has featured a unique convergence of the old and the new, traditional players and advanced-energy leaders. It continues to create an environment for making new connections, and serves as a forum to discuss the critical energy issues of today and the next decade.

About Lightbridge Corporation

Lightbridge (NASDAQ:LTBR) is a nuclear fuel technology development company based in Reston, Virginia, USA. The Company develops proprietary next generation nuclear fuel technologies for current and future reactors. The technology significantly enhances the economics and safety of nuclear power, operating about 1000° C cooler than standard fuel. Lightbridge invented, patented and has independently validated the technology, including successful demonstration of the fuel in a research reactor with near-term plans to demonstrate the fuel under commercial reactor conditions. The Company has assembled a world class development team including veterans of leading global fuel manufacturers. Four large electric utilities that generate about half the nuclear power in the US already advise Lightbridge on fuel development and deployment. Lightbridge also provides comprehensive advisory services for established and emerging nuclear programs based on a philosophy of transparency, non-proliferation, safety and operational excellence.
