## **Lightbridge CEO to Appear on Varney & Co. on Fox Business to Discuss New Joint Venture with Framatome to Commercialize Innovative Nuclear Fuel**

RESTON, Va., Jan. 25, 2018 (GLOBE NEWSWIRE) -- [Lightbridge Corporation](#) (NASDAQ:LTBR), a nuclear fuel technology company, today announced that Seth Grae, CEO of Lightbridge will appear as a guest on Varney & Co on Fox Business, this morning to discuss the launch of Enfission, a new 50-50 joint venture company with Framatome to develop, license and sell nuclear fuel assemblies based on Lightbridge-designed metallic fuel technology and other advanced nuclear fuel intellectual property. Framatome is a leader in designing, building, servicing, and fueling today's reactor fleet and advancing nuclear energy.

The interview is expected to occur at approximately 11:50 AM Eastern, and can be viewed online at <http://www.foxbusiness.com/> and a replay will be available after the interview at: <http://www.foxbusiness.com/shows/varney-co.html>.

Varney & Co. is a daily morning news/talk program hosted by British-American economic and political commentator Stuart Varney on Fox Business on weekdays 9 AM - 12 PM ET. The show includes market coverage, current events coverage, and interviews and commentary with Wall Street experts.

### **About Lightbridge Corporation**

Lightbridge (NASDAQ:LTBR) is a nuclear fuel technology development company based in Reston, Virginia, USA. The Company develops proprietary next generation nuclear fuel technologies for current and future reactors. The technology significantly enhances the economics and safety of nuclear power, operating about 1000° C cooler than standard fuel. Lightbridge invented, patented and has independently validated the technology, including successful demonstration of the fuel in a research reactor with near-term plans to demonstrate the fuel under commercial reactor conditions. The Company has assembled a world class development team including veterans of leading global fuel manufacturers. Four large electric utilities that generate about half the nuclear power in the US already advise Lightbridge on fuel development and deployment. The Company operates under a licensing and royalty model, independently validated and based on the increased power generated by Lightbridge-designed fuel and high ROI for operators of existing and new reactors. The economic benefits are further enhanced by anticipated carbon credits available under the Clean Power Plan. Lightbridge also provides comprehensive advisory services for established and emerging nuclear programs based on a philosophy of transparency, non-proliferation, safety and operational excellence.
