PROXY STATEMENT
2015 ANNUAL MEETING OF STOCKHOLDERS

GENERAL INFORMATION

The accompanying proxy is solicited on behalf of the Board of Directors of Capital Bank Financial Corp. Our 2015 Annual Meeting of Stockholders will be held at the DoubleTree Suites by Hilton Hotel, 6300 Morrison Blvd, Charlotte, NC 28211 at 10:00 a.m. Eastern Time on June 15, 2015.

All stockholders of record of our Common Stock at the close of business on April 23, 2015 are entitled to notice of and to vote at the Annual Meeting. There were 30,078,235 shares of our Class A common stock outstanding and entitled to vote on such date, and each share is entitled to one vote. Shares of our Class B non-voting common stock are not entitled to vote. In this Proxy Statement, references to our “common stock” refer to our Class A common stock and our Class B non-voting common stock, collectively. There are no cumulative voting rights.

As permitted by rules recently adopted by the SEC, we are making this Proxy Statement and our 2014 Annual Report available at www.proxyvote.com and <http://investor.capitalbank-us.com>. If you received a separate notice by mail informing you of the availability of these materials on this Internet site, you will not receive a printed copy of the proxy materials in the mail unless you request to receive these materials. Instead, the notice instructs you how to access and review all of the important information in the Proxy Statement and 2014 Annual Report. The notice also instructs you how to submit your vote over the Internet, by mail or telephone. If you received a notice by mail and would like to receive a printed copy of our proxy materials, you should follow the instructions for requesting such materials in the notice.

Stockholders have a choice of voting by proxy over the Internet, by using a toll-free telephone number or by completing a proxy card and mailing it in the postage-paid envelope provided. Please refer to your proxy card or the information forwarded by your bank, broker or other holder of record to see which options are available to you. The Internet and telephone voting facilities for stockholders of record will close at 11:59 p.m. Eastern Time on June 14, 2015.

When you vote by proxy, your shares will be voted according to your instructions. You can revoke your proxy at any time before it is exercised by written notice to our Secretary, timely delivery of a properly executed, later-dated proxy (including an Internet or telephone vote) or voting by ballot at the Annual Meeting. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote at the Annual Meeting.

We will pay the expense of soliciting these proxies. In addition to using the mail and the Internet, our officers, directors and employees may solicit proxies personally, by telephone or by facsimile. We will reimburse brokers and others holding shares in their names, or in the names of nominees, for their expenses in sending proxy material to the beneficial owners of such shares and obtaining their proxies.

If you received a printed copy of the proxy materials, the Company offers the opportunity to electronically receive future proxy statements and annual reports over the Internet. By using these services, you are not only able to access these materials more quickly, but you are helping the Company reduce printing and postage costs and helping to preserve environmental resources. Online services are available to our registered and beneficial stockholders who have active email accounts and Internet access. Registered stockholders maintain shares in their own names. Beneficial stockholders have shares deposited with a bank or brokerage firm.

Our principal executive offices are located at 121 Alhambra Plaza, Suite 1601, Coral Gables, Florida 33134.

Unless the context otherwise requires, the terms “we”, “our”, “us” and “the Company” as used in this Proxy Statement refer to Capital Bank Financial Corp. References to “Capital Bank” or “Capital Bank, N.A.” refer to Capital Bank, National Association, our wholly-owned banking subsidiary.

VOTE REQUIRED FOR APPROVAL

The presence, in person or by proxy, of the holders of a majority of the shares of Class A common stock entitled to vote generally in the election of directors is necessary to constitute a quorum. Withheld votes, abstentions and broker “non-votes”, if any, are counted as present and entitled to vote for purposes of constituting a quorum. A broker “non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner.

If you are a beneficial stockholder and your broker holds your shares in its name, under the rules of the NASDAQ, your broker cannot vote your shares on the proposals in this Proxy Statement if you do not timely provide instructions for voting your shares.

For Proposal 1, the eight nominees for director receiving a plurality of the votes cast at the Annual Meeting in person or by proxy shall be elected. This means that the director nominee with the most votes for a particular slot is elected for that slot. Only votes “for” affect the outcome.

Proposal 2, the advisory proposal on the compensation of our named executive officers, will be approved if a majority of the shares of our Class A common stock present at the Annual Meeting and entitled to vote cast their votes “for” the proposal. Abstentions will be counted as votes present and entitled to vote and will have the same effect as votes “against” this proposal. Broker “non-votes” are not considered to be entitled to vote and therefore, will have no effect on the voting results for this proposal.

PROPOSALS TO STOCKHOLDERS

1. ELECTION OF DIRECTORS

One of the purposes of the Annual Meeting is the election of directors to hold office until the next annual meeting of stockholders in 2016 and until their respective successors are elected and qualified. The number of directors is set by the Board and is currently eight. The eight nominees for election as a director are named on the following pages. All of them are currently directors.

All nominees have indicated that they are willing to serve as directors if elected. If any nominee should be unable or unwilling to serve, the proxies will be voted for the election of such person as may be designated by our Board of Directors to replace such nominee.

The Board recommends that you vote FOR the election of these nominees for director.

OTHER NOMINEES

Under our By-Laws, nominations of persons for election to the Board of Directors may be made at an annual meeting of stockholders by any stockholder who was a stockholder of record at the time of giving the notice described below, who is entitled to vote at such meeting and who complies with the notice procedures set forth in the By-Laws.

For a nomination to be properly brought before an annual meeting of stockholders, the stockholder must have given timely notice thereof in writing to our Secretary. To be timely, the stockholder's notice must have been sent to, and received by, our Secretary at our principal executive offices generally not less than 90 nor more than 120 days prior to the first anniversary of the preceding year's annual meeting. For the 2016 Annual Meeting, such notice must be received between February 16, 2016 and March 17, 2016. Each such notice must include among other things:

- the name, age, and principal occupation or employment of each proposed nominee and a brief description of any arrangement or understanding between the nominee and others relating to why he or she was selected as a nominee, in addition to any other information required by the SEC's proxy regulations;
- the proposed nominee's written consent to serve as a director if elected;
- the name and address of the stockholder proposing the nominee as well as any affiliates or associates acting in concert with such stockholder;
- the number of shares of each class of Company stock owned by such stockholders; and
- a description of all ownership interests in the shares identified, including derivative securities, hedged positions and other economic and voting interests.

No person nominated by a stockholder at the Annual Meeting is eligible for election as a director unless nominated in accordance with the procedures contained in the By-Laws.

2. ADVISORY VOTE ON COMPENSATION OF NAMED EXECUTIVE OFFICERS

The Company seeks your advisory vote on the following resolution to approve the compensation of our named executive officers, as disclosed pursuant to Item 402 of Regulation S-K:

“Resolved, that the stockholders hereby approve, on an advisory basis, the compensation paid to the Company's named executive officers, as disclosed, pursuant to Item 402 of Regulation S-K, in this Proxy Statement, including the Compensation Discussion and Analysis, compensation tables and narrative discussion.”

Because your vote is advisory, it will not be binding on the Board or the Company. However, the Board will review the voting results and take them into consideration when making future decisions regarding executive compensation.

During the past five years, the Company has successfully closed and integrated seven acquisitions. As of December 31, 2014, the Company had grown to \$6.8 billion in assets, 162 branches and approximately 1,500 employees. During 2014, the Company continued to improve its operational performance as demonstrated by its record net income of \$50.9 million (up 31% from 2013) and record new loans of \$1.6 billion (up 27% from 2013). During the year, the Company also improved its efficiency ratio and core efficiency ratio to 72.0% and 71.2%, respectively. The Company believes it is well positioned to achieve its goal of becoming a leading regional bank in the Southeast.

As is discussed in the Compensation Discussion and Analysis, we believe that our executive compensation programs are designed to support our Company's business objectives and to attract and retain highly experienced and successful management team to execute on the Company's strategy.

- Our compensation programs are linked to our key business objectives and the drivers of stockholder value.
- We believe our executive compensation programs are competitive with those of companies of a similar size and complexity.

The Board of Directors recommends a vote “FOR” the resolution to approve the Company's compensation of our named executive officers as disclosed pursuant to Item 402 of Regulation S-K in this Proxy Statement.

3. OTHER MATTERS

Our Board of Directors knows of no other matters that may properly be presented to the Annual Meeting. If any other matters do properly come before the Annual Meeting, however, the persons appointed in the accompanying proxy intend to vote the shares represented by such proxy in accordance with their best judgment.

GOVERNANCE OF THE COMPANY

Pursuant to Delaware General Corporation Law and our By-Laws, our business is managed under the direction of our Board of Directors. Members of the Board are kept informed of our business through discussions with the Chairman and Chief Executive Officer and other officers, through visits to our locations, by reviewing materials provided to them and by participating in meetings of the Board and its committees. In addition, to promote open discussion among our non-management directors, those directors meet in regularly scheduled executive sessions without management participation.

Corporate Governance

Our Board of Directors has a strong commitment to sound and effective corporate governance practices. Our Corporate Governance Guidelines address a number of important governance issues including director independence, qualifications for Board membership, mandatory retirement, Board self-assessment and succession planning. In addition, the Board has in place formal charters setting forth the powers and responsibilities of each of its standing committees, which are described below.

Governance Documents

We maintain a corporate governance page (investor.capitalbank-us.com/governance.cfm) on our Internet site that includes key information about our corporate governance initiatives, including our Corporate Governance Guidelines, current copies of the charters for our standing committees and our Code of Business Conduct and Ethics.

Board of Directors

Our Board of Directors currently consists of eight members, Messrs. Taylor, DeMartini, Foss, Hodges, Oken and Keller, Ms. Bachman and Dr. Ward.

Our Board of Directors held five meetings in 2014. All directors, except Mr. Oken, attended 75% or more of the aggregate of the number of Board of Director meetings and meetings of the committees of the Board on which they served.

Ms. Bachman, Dr. Ward and Mr. Taylor attended our 2014 annual meeting of stockholders. We do not have a policy requiring Directors to attend the annual meeting of stockholders, although directors are encouraged to attend the meeting.

Director Independence

All of the directors other than Mr. Taylor qualify as independent directors under the corporate governance standards of NASDAQ.

Leadership Structure

As is stated in the Board of Directors Corporate Governance Guidelines, the Board has no policy with respect to the separation of the offices of Chairman and Chief Executive Officer. As is described in its Corporate Governance Guidelines, the Board believes that this issue is part of the succession planning process and recognizes that there may be circumstances that would lead to the separation of these offices. The Board believes it is in the best interests of the Company for the Board to make such a determination when it considers the selection of a new Chief Executive Officer or at such other times as it deems appropriate.

Mr. Taylor has served as Chairman and Chief Executive Officer of the Company since its formation. The Company believes Mr. Taylor's serving as both Chairman and Chief Executive Officer is the optimal leadership structure at this time because it allows the Company to utilize Mr. Taylor's skills and decades of experience to more nimbly react to market opportunities and execute on the Company's plan to become a leading regional bank in the Southeast, while permitting the full involvement and oversight of the independent members of the Board. While the Company does not have a "lead" independent director, the Board consists of seven independent directors, as defined by NASDAQ standards. Further, to promote open discussion among our non-management directors, those directors meet in regularly scheduled executive sessions without management participation. The Board believes that the current leadership structure has served the Company well and that it is the best leadership structure for the Company under the present circumstances.

Committees of Our Board of Directors

Audit Committee

The members of the Audit Committee are Messrs. Foss and Oken and Dr. Ward, each of whom is an “independent” member of our Board of Directors as defined under the NASDAQ rules and Rule 10A-3 of the Exchange Act. Mr. Foss is the chairperson of our Audit Committee. Messrs. Code of Business Conduct and Ethics

Our Board of Directors has adopted a code of business conduct and ethics (which we refer to as the “Code of Ethics”) that applies to all of our directors, officers and employees, including our principal executive officer, principal financial officer and accounting officer and persons performing similar functions. The Code of Ethics is available on our website listed above and also free of charge upon written request to Secretary, Capital Bank Financial Corp., 121 Alhambra Plaza, Suite 1601, Coral Gables, Florida 33134. If we amend or grant any waiver from a provision of our Code of Ethics that applies to our executive officers, we will publicly disclose such amendment or waiver on our website and as required by applicable law, including by filing a Current Report on Form 8-K.

Director Nominations and Qualifications

Our Board of Directors is responsible for nominating members of the Board and for filling vacancies on the Board that may exist between annual meetings of stockholders. The Board has delegated the screening process for new directors to the Nominating and Governance Committee.

Our Corporate Governance Guidelines state that Nominating and Governance Committee and the Board shall take into account the following:

- At least a majority of the Board must be comprised of independent directors.
- Candidates should be capable of working in a collegial manner with persons of different educational, business and cultural backgrounds and should possess skills and expertise that complement the attributes of the existing directors.
- Candidates should represent a diversity of viewpoints, backgrounds, experiences, and other demographics.

- Candidates should demonstrate notable or significant achievement and possess senior-level business, management or regulatory experience that would benefit the Company.
- Candidates should be individuals of the highest character and integrity.
- Candidates shall be free from any conflict of interest that would interfere with their ability to properly discharge their duties as a director or would violate any applicable law or regulation.
- Candidates shall be capable of devoting the necessary time to discharge their duties, taking into account memberships on other Boards and other responsibilities.
- Candidates shall have the desire to represent the interests of all stockholders.

Our current Board members share certain characteristics and attributes that are critical to effective board membership, including: sound and mature business judgment essential to intelligent decision-making; experience at the policy-making level at a business or other relevant organization; integrity and honesty; and the ability to collaborate in an effective manner at the board level. In addition, our directors have specific employment and leadership experiences, knowledge and skills that qualify them for service on our Board, as are described in their biographies in this Proxy Statement under the caption “Nominees for Election and Their Qualifications.”

When a vacancy exists on the Board, or when the Board determines to add an additional director, the Nominating and Governance Committee, in consultation with the Chairman, will identify and evaluate individual candidates for their qualifications to become directors. The Nominating and Governance Committee considers matters of diversity (including diversity in professional experience and diversity in terms of race, gender, age and background) in evaluating nominees for election as directors, although it does not have a formal policy. The Nominating and Governance Committee considers all candidates in the context of the qualifications enumerated above, as well as their complementary experiences, backgrounds and skills, in an effort to maintain a strong and effective Board of Directors.

The Nominating and Governance Committee does not have a formal policy on the consideration of director candidates recommended by stockholders. Recommendations may be made by contacting the Nominating and Governance Committee at the address set forth in “Communications with Directors” below. The Board of Directors believes that such a formal policy is unnecessary and that the issue is more appropriately dealt with on a case-by-case basis.

Under our By-Laws, nominations of persons for election to the Board of Directors may be made at an annual meeting of stockholders by any stockholder who has complied with the advance notice provisions of our By-Laws. These advance notice provisions are discussed elsewhere in this proxy statement under the caption “Election of Directors—Other Nominees”.

The Board’s Role in the Risk Management Process

As noted above, the Board has formed a Risk Committee for the purpose of assisting the Board in fulfilling its oversight role with respect to management’s identification, evaluation and management of the Company’s major risk exposures. The Risk Committee consists of three independent directors and Mr. Taylor. In addition, the Company’s wholly-owned banking subsidiary, Capital Bank, N.A., has its own Risk Committee that was formed to oversee risks at the operational level of the bank, including credit risk, market risk, liquidity risk, operational risk, legal/compliance risk, reputation and strategic/business risk. As part of its enterprise risk management program (“ERM”), management of the Company, in conjunction with an outside consultant, identifies and assesses the universe of enterprise risks that may threaten the Company’s ability to achieve its strategic goals and help ensure that effective monitoring procedures and controls in place to mitigate those risks. The Company has appointed a senior level executive to be the ERM leader.

While management is responsible for developing and managing the Company’s ERM program, the Board provides oversight and review of the process. The Board has delegated oversight of the ERM program to the Risk Committee, with the exception of risk relating to internal control over financial reporting which is the oversight responsibility of the Audit Committee. The CEO and the senior executive management team are part of the review, analysis and identification of risk. The Company’s and Capital Bank, N.A.’s Risk Committees report regularly to their respective boards of directors. The Board’s role in risk oversight did not impact the Company’s leadership structure. The Compensation Committee, as described in the Compensation Discussion and Analysis, also considered the Company’s risks in concluding that the Company’s executive compensation program does not encourage our management to take unreasonable risks relating to the Company’s business.

Communications with Directors

Stockholders or other interested parties who wish to communicate with our Board of Directors, the Nominating and Governance Committee, our non-management directors as a group or any individual director can do so by writing to them, c/o Secretary, Capital Bank Financial Corp., 121 Alhambra Plaza, Suite 1601, Coral Gables, Florida 33134. Our Secretary has been instructed by the Board to promptly forward communications so received to the addressee or addressees.

Stock Ownership

Effective April 17, 2014, the Company adopted stock ownership guidelines for its named executive officers who hold the Company title of Executive Vice President, or above. The guidelines specify that the Chief Executive Officer own Company stock of at least three times his base salary, while Executive Vice Presidents are required to own Company stock of at least two times his or her base salary. The executives must accumulate and hold the required shares within five years of receipt of any equity award which qualifies for ownership under the guidelines. Unexercised stock options and unvested performance-based restricted stock do not count toward satisfying these ownership guidelines.

Audit Committee Pre-Approval Services

The Audit Committee of our Board of Directors must review and pre-approve all audit and non-audit services performed by our independent registered certified public accounting firm. In conducting such reviews, the Audit Committee will determine whether the provision of non-audit services would impair the firm’s independence.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member or members to whom such authority is delegated must report any pre-approval decisions to the Audit Committee at its next scheduled meeting. Other than for tax compliance and consulting services less than \$100,000, the Audit Committee does not delegate to management its responsibilities to pre-approve services performed by the independent certified registered public accounting firm.

AUDIT COMMITTEE REPORT

The Audit Committee is appointed annually by the Board of Directors to assist it in its oversight function by monitoring the integrity of the Company’s consolidated financial statements, the qualifications and independence of the independent registered certified public accounting firm, the performance of the internal audit function and independent registered certified public accounting firm and compliance with legal and regulatory requirements. The Audit Committee has the sole authority and responsibility to select, determine the compensation of, evaluate and, when appropriate, replace the independent registered certified public accounting firm.

Management is responsible for the financial reporting process, including the system of internal controls, for the preparation of consolidated financial statements in accordance with generally accepted accounting principles and for the report on internal control over financial reporting. The independent registered certified public accounting firm is responsible for auditing those financial statements and expressing an opinion as to their conformity with generally accepted accounting principles. In addition, that firm is responsible for attesting to the effectiveness of the Company’s internal control over financial reporting, to the extent such an attestation is required by applicable regulations.

In this context, the Audit Committee has met and held discussions with management and the independent registered certified public accounting firm. Management represented to the Audit Committee that the Company’s consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent registered public accounting firm. The independent registered certified public accounting firm discussed with the Audit Committee the matters required to be discussed pursuant to the Public Company Accounting Oversight Board Auditing Standard No. 16 “Communications with Audit Committee”.

In addition, the Audit Committee received the written disclosures and the letter from the independent registered certified public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered certified public accountant communications with the Audit Committee concerning independence, and discussed with the independent registered certified public accounting firm its independence from the Company and its management. The Audit Committee also considered whether the provision of non-audit services to the Company is compatible

with maintaining the firm's independence. The Audit Committee has concluded that the independent registered certified public accounting firm is independent from the Company and its management.

The Audit Committee discussed with the Company's internal auditors and independent registered certified public accounting firm the overall scope and plans for their respective audits. The Audit Committee meets with the internal auditors and independent registered certified public accounting firm, with and without management present, to discuss the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, for filing with the Securities and Exchange Commission. The Audit Committee has not yet appointed the Company's independent registered certified public accounting firm for the year 2015 and intends to do so prior to the date of the Annual Meeting.

Compensation Discussion and Analysis

Executive Compensation

The following Compensation Discussion and Analysis provides information regarding the objectives and elements of our compensation philosophy, policies and practices with respect to the compensation of our executive officers who appear in the “Summary Compensation Table” below (who we refer to collectively throughout this section as our “named executive officers”). Our named executive officers for the fiscal year ended December 31, 2014 were:

- R. Eugene Taylor, President and Chief Executive Officer;
- Christopher G. Marshall, Chief Financial Officer;
- R. Bruce Singletary, Chief Credit Officer;
- Kenneth A. Posner, Chief of Strategic Planning and Investor Relations; and
- Kenneth J. Kavanagh, Consumer Banking Executive.

Executive management and the Compensation Committee of our Board of Directors work together to establish, review and evaluate our compensation plans, policies and programs. The Compensation Committee is comprised entirely of independent directors and administers the executive compensation program in a manner consistent with our compensation philosophy. The Compensation Committee, which is generally responsible for the design and administration of our executive compensation program, acts independently, yet in conjunction with the Board of Directors and executive management, and maintains a philosophy that encompasses both long-term and short-term objectives while discouraging excessive risk taking.

Executive Summary of Corporate Performance

We exceeded our financial plan in 2014 despite the challenges of persistent low interest rates, slow economic growth and intense competition. Below are some of the highlights of our 2014 financial performance:

- We had record new loans of \$1.6 billion, up 27% over 2013, and grew the loan portfolio by 10%.
- We achieved record GAAP net income of \$50.9 million or \$1.02 per share, an increase of 31% over the prior year.
- We improved our efficiency ratio to 72%.
- Our legacy credit expenses declined 47% from 2013 as we continued to resolve legacy loans and reduce the size of the Special Assets portfolio.
- We grew non-interest bearing deposits by 14% during the year through a focus on sales processes in the branches.
- The credit performance of the new loan portfolio was extremely strong throughout 2014.
- Our tangible book value per share increased to \$19.28, up \$0.73.
- Our share price appreciated 18% during 2014.

As described in detail later in this discussion, we achieved target and above target results on our two annual incentive bonus metrics, Core Net Income and Core Return on Average Assets. This financial performance, coupled with a qualitative review of the named executive officer’s performance during the year, resulted in payouts at target (100%) for the annual incentive bonus.

Objectives of Our Executive Compensation Program

The primary objective of our compensation program is the same objective that we have for our overall operations: to create long-term value for our stockholders. The guiding principles that support this philosophy are:

- Align executive compensation with the creation of stockholder value.* Within our overall compensation strategy, we utilize equity compensation tools to align the financial interests and objectives of our named executive officers with those of our stockholders. We believe that our executive compensation program appropriately balances risk with maximizing long-term stockholder value.

- *Attract, retain and motivate high-performing executive talent.* We operate in a competitive employment environment and our employees, led by our named executive officers, are essential to our success. The compensation of our named executive officers is designed to maximize company performance and be competitive with bank holding companies with which we compete for talent.
- *Link pay to performance.* Our compensation program is designed to provide a strong correlation between the performance of the named executive officers and the compensation they receive. Our plans deliver compensation to our named executive officers according to the performance of the Company and the individual executive.

Compensation Mix

The compensation arrangements offered to our named executive officers are designed to deliver balanced packages that provide adequate and competitive compensation for the individual named executive officer's position in the Company. The mix of compensation elements is intended to provide the named executive officers with a steady source of income, encourage and reward achievement of short-term and long-term performance objectives, align executives' interests with those of stockholders and promote retention. In 2014, approximately 50% of pay was delivered in base salary and 50% was delivered in annual incentive compensation for the named executive officers, except for Mr. Kavanagh who received about 66% in base salary and 34% in annual incentive compensation. We do not currently have a policy regarding the percentage of total target compensation that is delivered through base salary, annual bonus or long-term incentives.

Setting Executive Compensation

Determination of Executive Compensation

While our stockholders showed support (with approximately 99% of the votes cast in favor during last year's vote on executive pay) for our executive compensation program, the Compensation Committee is committed to continuing to review and evolve programs and practices to ensure alignment with our compensation philosophy and regulatory guidelines.

Executive management and the Compensation Committee of our Board of Directors work together to establish, review and evaluate our compensation plans, policies and programs.

The compensation of our named executive officers, except for Mr. Kavanagh, was largely based on arrangements that were negotiated at the time of our private placements. The founding members of the executive management team (Messrs. Taylor, Marshall, Singletary and Posner) directly negotiated the terms of their compensation with the investors at that time. The foundation for the total compensation packages offered to the founding members of the executive management team was based on an assessment of each executive officer's individual responsibilities, contributions to our performance and success in reaching our strategic goals. Compensation paid in the financial sector generally, and in bank holding companies in particular, is considered by the Compensation Committee in determining compensation for our named executive officers. Mr. Kavanagh was hired in late 2011 to lead the Company's consumer banking operations, which, as of December 31, 2014, consisted of 162 locations, all under a common brand, the residential mortgage division and wealth management. Mr. Kavanagh's compensation was determined after reviewing compensation offered by banks with which we compete for talent.

Role of Compensation Committee

The Compensation Committee operates under a written charter that establishes its responsibilities. A copy of the Compensation Committee Charter can be found on the Company's website at www.capitalbank-us.com. The Compensation Committee reviews the charter annually to ensure that the scope of the charter is consistent with the Compensation Committee's expected role. Under the charter, the Compensation Committee is charged with general responsibility for the oversight and administration of our compensation program. The charter vests in the Compensation Committee the sole responsibility for determining the compensation of the CEO based on the Compensation Committee's evaluation of his performance. The charter also authorizes the Compensation Committee to engage consultants and other professionals without management approval to the extent deemed necessary to discharge its responsibilities.

The Compensation Committee is responsible for setting compensation for our named executive officers. While some of the key terms of each named executive officer's compensation, except for Mr. Kavanagh, were determined at the time of our private placements, the Compensation Committee sets performance goals for our named executive officers and reviews all other compensation and benefits for the named executive officers on an annual basis.

None of the members of the Compensation Committee in 2014 has at any time been an officer or employee of the Company.

Role of Management

In setting base salaries for the named executive officers, the Compensation Committee relies on external market data provided by its independent compensation consultant and considers other factors including compensation philosophy, Company performance and business strategy. The CEO may be asked to provide input regarding the compensation of his direct reports for consideration by the Compensation Committee. The CEO is not present during any voting or deliberations regarding his compensation.

Executive management also provides input to our strategic goals for future performance periods. These goals may be used in the annual incentive program. The Compensation Committee carefully reviews the recommended performance goals before giving its final approval to such strategic goals. The combination of the proposal from executive management and the Compensation Committee's review is essential in order to ensure that the goals are challenging but motivating and obtainable.

Role of Compensation Consultant

Pearl Meyer & Partners, LLC ("PM&P") currently serves as the Compensation Committee's independent compensation consultant. PM&P provides executive and director compensation market data to the Compensation Committee and conducts reviews of the proxy statements of peer companies to evaluate current practices and trends within the banking industry. In 2014, PM&P conducted a review of director compensation and provided an analysis of the risk of the Company's significant compensation plans to the Compensation Committee. PM&P conducted an extensive review of executive compensation in late 2013 and, therefore, did not benchmark executive compensation levels in 2014. Both projects were performed under the direction of the Compensation Committee. Other than serving as independent compensation consultant to the Compensation Committee and providing advice on these projects, PM&P has provided no other services to the Board, its committees or to the Company since it has been engaged by the Company. The Compensation Committee has reviewed and considered information provided to the Compensation Committee by PM&P, the Compensation Committee members and the Company's executive officers. Based on its review and such factors as it deemed relevant, the Compensation Committee concluded that PM&P's advice and work for the Compensation Committee was objective and that PM&P's work did not raise any conflict of interest pursuant to the guidance provided under the Dodd Frank Act, the SEC and the NASDAQ.

Benchmarking

Our Compensation Committee reviewed benchmarking information prepared by its compensation consultant in 2013, with the purpose of expanding its knowledge of current compensation levels and practices at other private equity-owned and public banks. The outcome of the review resulted in base salary adjustments for the named executive officers in 2014, which is described below. A primary data source used in the benchmarking for the named executive officers is the information publicly disclosed by a peer group of publicly traded banks. A peer group was developed by PM&P and reviewed and approved by the Compensation Committee. The peer group was developed using objective parameters reflecting our strategy for growth, complexity of our business and private equity ownership. The following banks comprise the peer group used by the Compensation Committee in 2014.

Astoria Financial Corporation	Hancock Holding Company
BancorpSouth, Inc.	IBERIABANK Corporation
BankUnited, Inc.	International Bancshares Corporation
CapitalSource Inc.	Investors Bancorp, Inc. (MHC)
Commerce Bancshares, Inc.	National Bank Holdings Corporation
Cullen/Frost Bankers, Inc.	Signature Bank
First Horizon National Corporation	Susquehanna Bancshares, Inc.
First Niagara Financial Group, Inc.	Synovus Financial Corp.
First Republic Bank	UMB Financial Corporation
FNB United Corp.	Valley National Bancorp
Fulton Financial Corporation	Webster Financial Corporation

In addition to the peer group data, the consultant reviewed practices at four banks with significant private equity ownership: First Republic Bank, Bank United, Inc., National Bank Holdings Corporation and FNB United Corporation. PM&P used several other sources of data to identify general compensation trends including published industry compensation surveys such as the Pearl Meyer & Partners, National Banking Compensation Survey Report and additional proprietary survey sources.

Principal Components of Compensation

The principal components of our executive compensation program applicable to our named executive officers for the fiscal year ended December 31, 2014 were as follows:

Base Salary

Base salaries for our named executive officers are designed to compensate the executive for their scope of responsibilities and consideration is given to the experience, education, personal qualities and other qualifications of that individual that are essential for the specific role the executive serves. Consistent with most companies, our Chief Executive Officer's annual salary is greater than the salary of our other named executive officers because he has responsibility for the performance of the entire Company while the other named executive officers have responsibility for a specific business or function. The role requires a different level of knowledge, experience and capability.

Annual Bonus Programs

Our named executive officers participated in the 2014 Annual Incentive Program (the "Program"). The Program is designed to reward performance as well as motivate and retain qualified individuals who have the capability to influence our results and enhance stockholder value. The philosophy of the program is to provide competitive awards when annual performance objectives are achieved while reduced or no awards are paid when the objectives are not achieved. Under the Program, 70% of an executive officer's potential bonus was tied to financial goals set early in the year, while 30% of the potential bonus was based on a qualitative review of factors as described below.

An individual's annual bonus program target under the Program is expressed as a percentage of salary. For 2014, the target bonus for all of our named executive officers, except for Mr. Kavanagh, was 100% of annual base salary. Mr. Kavanagh's target bonus was 50% of his annual base salary. Annual incentive payments, for the named executive officers can range from 0% to 150% of target, based on the level of performance against the predefined goals. This percentage range is based on the analysis of the market data to ensure that our annual incentive compensation remains competitive.

All named executive officers are subject to a clawback policy. In the event that the Company is required to prepare an accounting restatement due to error, omission or fraud (as determined by the members of the Board of Directors), the named executive officers are required to reimburse the Company for part or the entire incentive award made to them on the basis of having met or exceeded specific targets for performance periods. The Company may seek to reclaim incentives within a three-year period of the incentive payout.

Long-Term Incentive Plan

At the 2013 Annual Meeting of Stockholders, our stockholders approved of the Capital Bank Financial Corp. 2013 Omnibus Compensation Plan (the "Plan"). The Plan replaced the 2010 Equity Incentive Plan as the primary equity plan for the Company. While no equity grants were issued under the Plan in 2014, the Compensation Committee anticipates that stock options and shares of restricted stock will be granted under the Plan in the future to provide key employees, including the Chief Executive Officer and other named executive officers, with long-term incentives for profitable growth and to further align the interests of our named executive officers with the interests of our stockholders. These equity awards will be structured to be long-term rewards, thereby increasing the performance and retention of our named executive officers.

Stock Compensation Grant and Award Practices; Timing Issues

The Compensation Committee considers whether to make equity awards on an annual basis and in connection with new hires and promotions. The Compensation Committee considers the recommendations of our Chief Executive Officer and other executive officers with respect to awards contemplated for their subordinates. The Compensation Committee also consults with PM&P to ensure our equity award program is competitive with market. The Compensation Committee is solely responsible for the development of the schedule of equity awards made to our Chief Executive Officer and the other named executive officers.

As a general matter, the Compensation Committee's process is independent of any consideration of the timing of the release of material non-public information, including with respect to the determination of grant dates or stock option exercise prices. Similarly, we have never timed the release of material non-public information to affect the value of executive compensation. In general, the release of such information reflects long-established timetables for the disclosure of material non-public information such as earnings reports or, with respect to other events reportable under federal securities laws, the applicable requirements of such laws with respect to timing of disclosure. The Compensation Committee's decisions are reviewed and ratified by the full Board of Directors.

In accordance with our equity plan, the Compensation Committee may grant stock options only at or above fair market value, which is defined as the closing sales price of our common stock on the NASDAQ on the date of grant.

Benefits

Our named executive officers are not entitled to any perquisites. Named executive officers are provided with benefits, including participation in our 401(k) defined contribution program and insurance benefit programs that are offered to other eligible employees.

2014 Compensation for Our Named Executive Officers

Base Salary

At the January 2014 Compensation Committee meeting, the Compensation Committee granted base salary increases to our named executive officers effective January 1, 2014. The decision to raise base salaries was based on Company performance and to recognize that the base salaries for the founding members of the executive management team had been unchanged since 2010. The table below shows the 2014 base salaries for our named executive officers.

Named Executive Officer	2013 Base Salary (\$)	2014 Base Salary (\$)	% of Increase
R. Eugene Taylor	650,000	700,000	7.7%
Christopher G. Marshall	438,000	480,000	9.6%
R. Bruce Singletary	300,000	330,000	10.0%
Kenneth A. Posner	225,000	275,000	22.2%
Kenneth J. Kavanagh	270,000	300,000	11.1%

Annual Cash Bonuses

Under the Program, performance is measured based on the three goals; Core Net Income (40%), Core Return on Average Assets (30%) and qualitative performance (30%). Core Net Income is defined as net income under generally accepted accounting principles excluding the effects of mergers and acquisitions and adjusted for securities gains and losses. Such exclusions include conversion and merger related expenses, merger related severance, stock compensation, extinguishment of debt, payments or accruals associated with contingent value rights and other items that the Committee deems are not a core indicator of Company operations. Core Return on Average Assets is determined by dividing Core Net Income by the average assets for the period. For 2014, the Compensation Committee decreased the qualitative component from 40% to 30% in an effort to increase the emphasis on objective financial performance. In addition, the Compensation Committee changed one of the financial metrics from Tangible Book Value Per Share to Core Return on Average Assets. While both of these metrics measure profitability, the Compensation Committee felt that Core Return on Average Assets was a more transparent and a better indicator of organic performance than Tangible Book Value Per Share. The Compensation Committee believed that the current metrics were critical to achieving our strategic plan and to enhancing stockholder value. The qualitative performance is assessed based upon the actions and results of the named executive officers that support value creation for stockholders, acquisitions and/or integration, organic growth, risk management, corporate governance, legal and regulatory compliance, talent upgrades and culture. The actual target financial performance levels and the threshold and the breakthrough for the financial metrics under the Program are set forth below.

Financial Metrics under the Program	Performance Levels			
	Percentage	Threshold	Target	Breakthrough
Core Net Income	40%	\$42.4	\$53.0	\$58.0
Core Return on Average Assets	30%	68 bps	78 bps	85 bps
Qualitative Performance	30%	N/A	N/A	N/A

At the January 2015 meeting, the Compensation Committee reviewed our 2014 financial results. As defined by the plan, 2014 Core Net Income was \$53 million which was at Target. Core Return on Average Assets was 83 bps for the fourth quarter of 2014, which was between Target and Breakthrough under the Program.

In addition to the financial objectives used to determine the Program payout, the qualitative performance was evaluated. The qualitative performance criteria was discussed, reviewed and approved by the Compensation Committee at the beginning of the plan year. Executive management provided written feedback to the Compensation Committee on the achievement of the qualitative performance for 2014. While assessing the qualitative performance, the Compensation Committee took the written feedback from management into consideration in determining the payout under the Program. Qualitative criteria included acquisition activity, steps taken to optimize the capital structure and regulatory compliance and risk management results.

Based on the financial and qualitative performance, the Compensation Committee approved incentive payments at target for Messrs. Taylor, Marshall, Singletary, Posner and Kavanagh under the Program.

Named Executive Officer	2014 Target Incentive (\$)	2014 Actual Incentive (\$)	% of Target
R. Eugene Taylor	700,000	700,000	100%
Christopher G. Marshall	480,000	480,000	100%
R. Bruce Singletary	330,000	330,000	100%
Kenneth A. Posner	275,000	275,000	100%
Kenneth J. Kavanagh	150,000	150,000	100%

Equity Compensation Plan Information — Long-Term Incentive-Based Compensation

The Company did not grant any equity awards to the named executive officers in 2014.

Employment Agreements

Effective December 22, 2009, we entered into an employment agreement with Mr. Taylor. The employment agreement, which is more fully described in “—Employment Agreements with Named Executive Officers” below, provides for an annual base salary, annual bonus opportunity (subject to the limitations of the registration rights agreement described in “Certain Relationships and Related Party Transactions—Registration Rights Agreement”), terms relating to his initial equity grants and severance. Upon a termination of employment without “cause” (as defined below), resignation for “good reason” (as defined below) or termination of employment due to death or disability, Mr. Taylor is entitled to two times the sum of his annual base salary and the greater of his target annual incentive award and the annual incentive award paid in the prior year. Mr. Taylor’s severance provisions are more fully described in “—Potential Payments upon Termination or Change-in-Control” below.

In August 2012, Messrs. Marshall, Singletary and Posner each entered into employment agreements that, among other things, provide for cash severance benefits equal to 1.5 times the executive’s base salary and target bonus and 18 months of welfare benefits continuation upon a qualifying termination of employment and contain a golden parachute excise tax gross-up provision and restrictive covenants, including non-competition and solicitation restrictions with respect to customers, employees and certain other parties with business relationships with us, similar to those under Mr. Taylor’s agreement.

Impact of Accounting and Tax on the Form of Compensation

The Compensation Committee and management consider the accounting and tax (individual and corporate) consequences of the compensation plans prior to making changes to the plans.

The Compensation Committee has considered the impact of the Financial Accounting Standards Board ASC Topic 718 (formerly known as FASB Statement 123R), on the Company’s use of equity incentives as a key retention tool.

Section 162(m) of the Internal Revenue Code of 1986 limits the Company's ability to deduct compensation paid to certain of the named executive officers over \$1,000,000, except to the extent that compensation qualifies as objectively determined performance-based compensation under Section 162 (m). Although the Compensation Committee has structured the current compensation program based on various performance criteria as described above, certain aspects of the annual incentive program do not comply with the other requirements of Section 162(m). The Compensation Committee has determined that it is essential in achieving the compensation objectives discussed above to retain the flexibility to exercise subjective judgment in assessing an executive's performance. The Compensation Committee believes that the achievement of the Company's general compensation policies and objectives that are currently in place best serves shareholder interests.

Compensation Risk Oversight

While our Compensation Committee is responsible for the oversight of our compensation of employees and directors, our Risk Committee is responsible for our risk management, including risk as it relates to compensation. In addition, we are subject to regulatory oversight and reviews, whereby our compensation practices are subject to the review of our regulators and any restrictions or requirements that may be imposed upon us. Based on a review by the Risk Committee and our Board of Directors, we do not believe that our overall compensation policies and practices create risks that are reasonably likely to have a material adverse effect on us. In addition, PM&P, at the direction of the Compensation Committee, conducted a risk assessment of the Company's compensation programs on behalf of the Committee. PM&P reviewed two plans in depth that presented the highest potential for risk: the Company's Holding Company Executive 2014 Annual Incentive Program and the Bank's Commercial Banking Incentive Program. PM&P concluded that the incentive plans and administrative processes for plan payouts do not promote unnecessary or excessive risk.

Employment Agreements with Named Executive Officers

Mr. Taylor's Employment Agreement

Effective December 22, 2009, we entered into a three-year employment agreement with Mr. Taylor, our Chief Executive Officer, that automatically renews for one-year periods after each anniversary after the initial three-year period, unless either party provides a notice of non-renewal 90 days prior to the expiration of the initial term or any subsequent term. The employment agreement provides that Mr. Taylor will receive an annual base salary of no less than \$650,000, an annual bonus with a target opportunity of 100% of his annual base salary, the actual amount of which is to be determined by the Compensation Committee and Mr. Taylor will participate in the same benefit programs as our other employees. In the event of the termination of Mr. Taylor's employment by us without "cause", by Mr. Taylor for "good reason" or due to death or disability, Mr. Taylor would be entitled to severance and accelerated vesting of certain equity awards. Mr. Taylor's employment agreement also provides that Mr. Taylor will be subject

to restrictive covenants, including non-competition and non-solicitation of employees, customers and certain other parties with business relationships with us, while employed by us and for the one-year period following his termination of employment with us. The severance provisions of Mr. Taylor's employment agreement are more fully described in "—Potential Payments upon Termination or Change-in-Control" below.

Employment Agreements with Other Named Executive Officers

In August 2012, Messrs. Marshall, Singletary and Posner each entered into employment agreements that, among other things, provide for cash severance benefits equal to 1.5 times the executive's base salary and target bonus and 18 months of welfare benefits continuation upon a qualifying termination of employment and contain a golden parachute excise tax gross-up provision and restrictive covenants, including non-competition and solicitation restrictions with respect to customers, employees and certain other parties with business relationships with us, similar to those under Mr. Taylor's agreement. The severance provisions of these named executive officers are more fully described in "—Potential Payments upon Termination or Change-in-Control" below.

Potential Payments upon Termination or Change-in-Control

Termination of Employment

Severance Under Mr. Taylor's Employment Agreement.

If Mr. Taylor's employment is terminated (1) by us without "cause" or due to "disability" (as defined below), (2) by Mr. Taylor for "good reason" (as defined below), or (3) upon Mr. Taylor's death during the employment period, subject to his execution (other than upon his death) and nonrevocation of a release of claims against us and our affiliated entities, Mr. Taylor will be entitled to be paid any earned but unpaid base salary and bonuses and a lump sum cash amount equal to the sum of (a) two times his annual base salary immediately prior to the date of the qualifying termination and (b) two times the higher of his target annual bonus for the year of termination and the annual bonus paid or payable to Mr. Taylor in respect of the year prior to the year of the qualifying termination. In addition, upon a qualifying termination, 50% of each tranche of unvested performance shares granted under his employment agreement will immediately vest. The remaining portion of the unvested performance shares granted under Mr. Taylor's employment agreement will remain outstanding and continue to be eligible to vest based on the achievement of the performance goals pursuant to the current vesting schedule.

Mr. Taylor is subject to non-competition and non-solicitation restrictions while employed by us and for one year following a termination of his employment and is subject to a standard, ongoing confidentiality obligation.

In addition, Mr. Taylor may be entitled to a golden parachute excise tax gross-up payment in certain cases. However, in the event that the total parachute payments made to Mr. Taylor do not exceed a certain threshold (110% of his base amount (as defined in Section 280G of the Internal Revenue Code)), payment to him will be cut back so that no excise tax is imposed.

Severance for Certain Other Named Executive Officers.

In August 2012, each of Messrs. Marshall, Singletary and Posner entered into employment agreements that, among other things, provide for cash severance benefits equal to 1.5 times the executive's base salary and target bonus and 18 months of welfare benefits continuation upon a qualifying termination of employment and contain a golden parachute excise tax gross-up provision and restrictive covenants, including non-competition and solicitation restrictions with respect to customers, employees and certain other parties with business relationships with us, similar to those under Mr. Taylor's agreement.

Vesting of Equity Awards Held by Named Executive Officers under the 2010 Equity Incentive Plan. The employment agreement with Mr. Taylor provides that upon a termination of employment by us without "cause," a resignation of employment by him for "good reason" or termination of employment due to death or disability, all of the 50% of each tranche of unvested performance shares granted under his employment agreement will immediately vest. The remaining portion of the unvested performance shares granted to Mr. Taylor will remain outstanding and continue to be eligible to vest based on the achievement of the performance goals pursuant to the current vesting schedule. Pursuant to the terms of the equity award agreements with Messrs. Marshall, Singletary, Posner and Kavanagh, upon a termination of employment for any reason, equity awards that have not vested prior to the date of termination will be forfeited.

For the purposes of Mr. Taylor's employment agreement, "good reason" generally means (1) material diminution of annual base salary or target incentive payment, (2) material diminution in position, authority, duties or responsibilities, (3) any material failure by us to comply with the compensation related provisions of the employment agreement, (4) any relocation of the executive's principal place of business to a location more than 30 miles from the executive's principal place of business immediately prior to the move other than the initial relocation in connection with the establishment of our headquarters or (5) any material breach of the employment agreement.

For the purposes of Mr. Taylor's employment agreement, "cause" generally means the executive's (1) willful misconduct or willful neglect in the performance of his duties, (2) willful failure to adhere materially to the clear directions of the Board of Directors, (3) conviction of or formal admission to or plea of guilty or *nolo contendere* to a charge of commission or a felony or (4) willful breach of any material term of the employment agreement.

For the purposes of Mr. Taylor's employment agreement, "disability" generally means the inability of the executive to perform his duties with us on a full-time basis as a result of incapacity due to mental or physical illness, which inability exists for 180 days during any rolling 12-month period, as determined by a physician selected by us or our insurers and acceptable to the executive or the executive's legal representative.

Change in Control

We have not entered into individual agreements or arrangement with our named executive officers that provide for enhanced severance or benefits upon a change in control of the Company, other than the golden parachute excise tax gross-up payment that each of Messrs. Taylor, Marshall, Singletary and Posner are entitled to under certain circumstances pursuant to the terms of their employment agreement.

Upon a “change in control” (as defined below) of the Company, the unvested stock options held by the named executive officers immediately vest and become exercisable and unvested performance shares held by the named executive officers will vest based on performance, as determined by the Compensation Committee.

A change in control is generally deemed to occur under the 2010 Equity Incentive Plan upon:

- the acquisition by any individual, entity or group of “beneficial ownership” (pursuant to the meaning given in Rule 13d-3 under the Exchange Act) of 51% or more (on a fully diluted basis) of either (a) the outstanding shares of our common stock, taking into account as outstanding for this purpose each common stock issuable upon the exercise of options or warrants, the conversion of convertible stock or debt and the exercise or settlement of any similar right to acquire such common stock, or (b) combined voting power of our then outstanding voting securities entitled to vote generally in the election of directors, with each of clauses (a) and (b) subject to certain customary exceptions;
- a majority of the directors who constituted the Board of Directors at the time the 2010 Equity Incentive Plan was adopted (or any person becoming a director subsequent to that date, whose election or nomination for election was approved by a vote of at least two-thirds of the incumbent directors then on the Board of Directors) cease for any reason to constitute at least a majority of the Board of Directors;
- approval by our stockholders of our complete dissolution or liquidation; or
- the consummation of a merger, consolidation, statutory share exchange, a sale or other disposition of all or substantially all of our assets or similar form of corporate transaction involving us that requires the approval of our stockholders (each, a “Business Combination”), whether for such transaction or the issuance of securities in the transaction, in each case, unless immediately following the Business Combination: (a) more than 50% of the total voting power of the entity resulting from such Business Combination or, if applicable, the ultimate parent corporation that directly or indirectly has beneficial ownership of sufficient voting securities eligible to elect a majority of the directors of the surviving company is represented by the outstanding company voting securities that were outstanding immediately prior to such Business Combination, and such voting power among the holders thereof is in substantially the same proportion as the voting power of the outstanding company voting securities among the holders thereof immediately prior to the Business Combination, (b) no person (other than any employee benefit plan sponsored or maintained by the surviving company) is or becomes the “beneficial owner”, directly or indirectly, of 51% or more of the total voting power of the outstanding voting securities eligible to elect directors of the parent company (or, if there is no parent company, the surviving company) and (c) at least two-thirds of the members of the board of directors of the parent company (or, if there is no parent company, the surviving company) following the consummation of the Business Combination were members of the Board of Directors at the time of the Board of Director’s approval of the execution of the initial agreement providing for the Business Combination.

The following table reflects the estimated payments to our named executive officers that may be made in connection with a change in control. The estimated payments in the table are calculated based on the assumption that the hypothetical termination of employment and/or the hypothetical change in control each occurred on December 31, 2014 (assuming a per share price of Company stock equal to \$26.80, the closing market price of our common stock on that date).

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In addition to the director and executive officer compensation arrangements discussed above under “Management—Compensation Discussion and Analysis,” the following is a summary of material provisions of various transactions between us and our executive officers, directors (including nominees), 5% or greater stockholders and any of their immediate family members or entities affiliated with them since January 1, 2014, the beginning of our last fiscal year. We believe the terms and conditions set forth in such agreements are reasonable and customary for transactions of this type.

Arrangements with Crestview-NAFH, LLC and Affiliates of Oak Hill Advisors, L.P.

Crestview-NAFH purchased for aggregate consideration of \$224.7 million approximately 10% of our shares of Class A common stock and 35.0% of our shares of Class B non-voting common stock, both of which were purchased in or concurrently with our private placements in 2009 and 2010. Crestview-NAFH has the right to designate one nominee to our Board of Directors and, if elected, to have such director serve on the Nominating and Governance and Compensation Committees of our Board of Directors. Crestview-NAFH’s nominating right will terminate at such time as it and its affiliates collectively own less than 33% of the

original number of shares of common stock purchased by Crestview-NAFH in our private placements. As of March 1, 2015, Crestview-NAFH owns approximately 100% of these shares of common stock and, in total, owns shares of our Class A common stock consisting of approximately 9% of our Class A common stock and 41% of our Class B non-voting common stock. Mr. DeMartini currently serves as the Crestview-NAFH's representative on our Board of Directors. See "Management—Executive Officer and Directors—Board of Directors—Richard M. DeMartini" for Mr. DeMartini's biography.

Crestview Advisors, LLC, an affiliate and general partner of Crestview-NAFH, receives \$25,000 each quarter as a director's fee related to Mr. DeMartini's service on our Board of Directors.

Oak Hill purchased for aggregate consideration of \$89.3 million approximately 5% of our shares of Class A common stock and 13% of our shares of Class B non-voting common stock, both of which were purchased in or concurrently with our private placements in 2009 and 2010. Oak Hill also has the right to designate one nominee to our Board of Directors and, if elected, to have such director serve on the Nominating and Governance and Compensation Committees of our Board of Directors. Oak Hill's nominating right will terminate at such time as Oak Hill affiliates own less than 33% of the original number of shares of common stock purchased by Oak Hill in our private placements. As of March 1, 2015, Oak Hill continues to own in excess of 33% of the original number of shares of common stock purchased in our private placements. Oak Hill currently has not designated a nominee for election to our Board of Directors.

Registration Rights Agreement

Concurrently with the consummation of our December 2009 private placement, we entered into a registration rights agreement for the benefit of our stockholders, including Crestview-NAFH, FBR Capital Markets & Co. and Messrs. Taylor, Marshall, Singletary and Posner, with respect to our common stock sold in our private placements. Pursuant to the registration rights agreement, we have filed with the SEC a shelf registration statement to allow certain stockholders to resell their shares of common stock acquired in our private placements.

Policy Regarding Transactions with Related Persons

Transactions by us with related parties are subject to a formal written policy, as well as regulatory requirements and restrictions. These requirements and restrictions include Sections 23A and 23B of the Federal Reserve Act (which govern certain transactions by us with our affiliates) and the Federal Reserve's Regulation O (which governs certain loans by us to our executive officers, directors and principal stockholders). We have adopted policies to comply with these regulatory requirements and restrictions.

In connection with our initial public offering, we adopted a written policy that complies with all applicable requirements of the SEC and NASDAQ concerning related party transactions. Pursuant to this policy, our directors and director nominees, executive officers and holders of more than five percent of our common stock, including their immediate family members, will not be permitted to enter into a related party transaction with us, as discussed below, without the consent of our Audit Committee. Any request for us to enter into a transaction in which the amount involved exceeds \$120,000 and any such party has a direct or indirect material interest, subject to certain exceptions, will be required to be presented to our Audit Committee for review, consideration and approval or ratification. Management will be required to report to our Audit Committee any such related party transaction and such related party transaction will be reviewed, approved, ratified or disapproved by the disinterested members of our Audit Committee.

Other Relationships

Certain of our executive officers and directors and our principal stockholders and affiliates of such persons have, from time to time, engaged in banking transactions with Capital Bank and are expected to continue such relationships in the future. All loans or other extensions of credit made by Capital Bank to such individuals were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unaffiliated third parties and did not involve more than the normal risk of collectability or present other unfavorable features. These banking relationships have been approved or ratified under our Policy Regarding Transactions with Related Parties discussed above.
