Radius Health to Announce Second Quarter 2017 Financial Results, Host Conference Call and Live Webcast on August 3, 2017

WALTHAM, Mass., July 07, 2017 (GLOBE NEWSWIRE) -- Radius Health (Nasdaq:RDUS) a fully integrated science-driven biopharmaceutical company that is committed to developing innovative therapeutics in the areas of osteoporosis, oncology and endocrine diseases, announced today that it will release its second quarter financial results on Thursday, August 3, 2017.

In connection with the earnings release, Radius Health will host a conference call and live audio webcast at 4:30 p.m. ET on Thursday, August 3, 2017 to discuss the results and provide a company update.

Conference Call Information:

Date: Thursday, August 3, 2017

Time: 4:30 p.m. ET

Domestic Dial-in Number: (866) 323-7965

International Dial-in Number: (346) 406-0961

Conference ID: 44592313

Live webcast: <http://edge.media-server.com/m/p/jn39azn4>

For those unable to participate in the conference call or webcast, a replay will be available beginning August 3, 2017 at 7:00 p.m. ET until August 17, 2017 at 11:59 p.m. ET. To access the replay, dial (855) 859-2056 for U.S. or (404) 537-3406 for International. The replay pin number is 44592313.

A live audio webcast of the call can be accessed from the Investors section of the Company's website, www.radiuspharm.com, where a webcast replay will be also available for 14 days. The full text of the announcement and financial results will also be available on the Company's website.

About Radius

Radius is a science-driven fully integrated biopharmaceutical company that is committed to developing and commercializing innovative therapeutics in the areas of osteoporosis, oncology and endocrine diseases. Radius' lead product, TYMLOS™ (abaloparatide) injection, was approved by the U.S. Food and Drug Administration for the treatment of postmenopausal women with osteoporosis at high risk for fracture. Radius' Marketing Authorisation Application (MAA) for abaloparatide-SC for the treatment of postmenopausal women with osteoporosis is under regulatory review in Europe. The Radius clinical pipeline includes an investigational abaloparatide transdermal patch for potential use in osteoporosis and the investigational drug elacestrant (RAD1901) for potential use in hormone-driven and/or hormone-resistant breast cancer, and vasomotor symptoms in postmenopausal women. Radius' RAD140, a non-steroidal, selective androgen receptor modulator (SARM), is under investigation for potential use in hormone receptor positive breast cancer.
