Now Shipping! ClearOne's New Entry-Level Audio-Video Encoder And Decoder Provide Broader Access to Network Media Streaming

New Encoder Provides Dual-Channel Features for Single-Input Applications; New Decoder Delivers Scalable, Flexible, Price-to-Performance Value at ISE 2017

SALT LAKE CITY, Feb. 1, 2017 /PRNewswire/ -- ClearOne [NASDAQ: CLRO], the leading global provider of audio and visual communication solutions, is broadening the market reach of [Networked Media Streaming](#) with the latest streamlined, affordable additions to its industry-leading VIEW[®] Pro family of solutions. The new multimedia streaming components provide more flexibility in creating a mesh-network streaming infrastructure that can grow as an organization grows.

Designed for single-media input settings, ClearOne's VIEW[®] Pro E110 Encoder delivers high-quality video featuring:

- | configurable 4:4:4 and 4:2:0 color sampling;
- | standards-based streaming formats;
- | 1080p60, H.264-based, high-profile encoding with lossless compression;
- | very low end-to-end latency; and
- | full HDCP support.

The VIEW Pro D310 Decoder incorporates all of the basic functionality to satisfy simple applications, while delivering superb price-to-performance value. The D310 Decoder's small footprint means it is easy to mount behind any display. Features include:

- | full-screen, single-image video;
- | high-quality video with 4:2:0 video color sampling; and
- | 1080p60, H.264-based high-profile decoding with lossless compression.

Integrators will love ClearOne's VIEW[®] CONSOLE configuration management software because it provides a comprehensive platform designed around a modern, easy-to-use interface from which to configure, manage, monitor, and control VIEW system installation. This new software replaces existing Dealer Setup Software and integrates seamlessly across ClearOne's full VIEW/VIEW Pro product line.

> *Let ClearOne Open Your World to New Solutions at [ISE17](#), Feb. 7-10, Stand 3-C98.*
