ClearOne Introduces UNITE® 150 Professional PTZ USB Camera

Lowest-Priced, Highest-Quality for PC-Based Applications in Small and Large Conference Rooms

SALT LAKE CITY, June 8, 2017 /PRNewswire/ -- ClearOne [NASDAQ: CLRO], the leading global provider of audio and visual communication solutions, introduces the ClearOne UNITE 150 PTZ, a full high-definition, USB camera that transforms any meeting room into a professional-grade video collaboration room. Plan to see the new UNITE 150 at InfoComm (Booth 3421), June 14-16 in Orlando.

"The UNITE 150 USB camera fits a wide variety of meeting room applications at a price significantly lower than competitive models," ClearOne Senior Director of Product Line Management for UC and Media Collaboration Bala Krishnamoorthy said. "Businesses increasingly are seeking PC-based video and web conferencing applications for meeting rooms — and the solution is the UNITE 150 USB camera, for its optimum quality and enterprise-class video at an unbeatable price."

Krishnamoorthy noted that ClearOne's UNITE 150 is ideal for PC-based applications in meeting rooms, such as Cisco® Jabber® and WebEx®, GoToMeeting®, Google® Hangouts™, Microsoft® Skype® for Business, ClearOne's Spontania™, and more. The camera rounds out the UNITE line, providing the balance of high-end PTZ features with an economical USB-only interface for PC-based conferencing applications.

Compatible with both USB 3.0 and USB 2.0, the UNITE 150 not only features full-HD 1080p video resolution; but delivers superbly sharp images with super-high SNR and advanced 2D & 3D noise reduction. The 12x optical zoom provides close-ups of incredible clarity, while the 73° wide-angle view enables UNITE 150 to capture all participants in a meeting room for both small and large meeting spaces.

The new UNITE 150 PTZ is available and shipping now for US MSRP \$1,199.
