The following Management's Discussion and Analysis (MD&A) dated November 7, 2017 for KP Tissue Inc. (KPT) and Kruger Products L.P. (KPLP) is intended to assist the readers in understanding the business environment, strategies, performance and risk factors relating to KPT and KPLP. It should be read in conjunction with the unaudited condensed financial statements of KPT for the 3-month periods ended September 24, 2017 and September 25, 2016, respectively, and the 9-month periods ended September 24, 2017 and September 25, 2016, respectively, and the unaudited condensed consolidated financial statements of KPLP for the 3-month periods ended September 24, 2017 (Q3 2017) and September 25, 2016 (Q3 2016), respectively, and the 9-month periods ended September 24, 2017 (YTD 2017) and September 25, 2016 (YTD 2016) respectively. The 3-month periods ended September 24, 2017 and September 25, 2016 each consist of 91 days, and the 9-month periods ended September 24, 2017 and September 25, 2016 consist of 267 days and 269 days, respectively.

About KP Tissue Inc.

KPT was created to acquire, and its business is limited to holding, a limited partnership interest in KPLP, which is accounted for as an investment in an associate using the equity method of accounting. KPT currently holds a 16.0% interest in KPLP (16.0% as of September 24, 2017). The following MD&A provides discussion and analysis related to KPT to the extent necessary to understand the equity method of accounting. However, the majority of the discussion and analysis relates to KPLP and to KPT's investment in KPLP.

CAUTIONARY FORWARD LOOKING STATEMENT

Certain statements in this MD&A about KPT's and KPLP's current and future plans, expectations and intentions, results, levels of activity, performance, goals or achievements or any other future events or developments constitute forward-looking statements. The words "may", "will", "would", "should", "could", "expects", "plans", "intends", "trends", "indications", "anticipates", "believes", "estimates", "predicts", "likely" or "potential" or the negative or other variations of these words or other comparable words or phrases, are intended to identify forward-looking statements. The forward-looking information is based on certain key expectations and assumptions made by KPT or KPLP, including continued growth of the U.S. private label market and demand for TAD products in the U.S., orders for the TAD machine's products, the timing of the TAD paper machine reaching full production capacity, the demand and timing of distributions made by KPLP, and Kruger Inc.'s cash requirements. Although KPT and KPLP believe that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information since no assurance can be given that such expectations and assumptions will prove to be correct.

Many factors could cause KPLP's actual results, level of activity, performance or achievements or future events or developments (which could in turn affect the economic benefits derived from KPT's economic interest in KPLP) to differ materially from those expressed or implied by the forward-looking statements, including, without limitation, the following factors, which are discussed in greater detail in the "Risk Factors – Risks Related to KPLP's Business" section of the KPT Annual Information Form dated March 9, 2017 available on SEDAR at www.sedar.com (the Annual Information Form): Kruger Inc.'s influence over KPLP; KPLP's reliance on Kruger Inc.; consequences of an event of insolvency relating to Kruger Inc.; risks associated with the Memphis TAD Machine; operational risks; Gatineau Plant land lease; significant increases in input costs; reduction in supply of fibre; increased pricing pressure and intense competition; KPLP's inability to innovate effectively; adverse economic conditions; dependence on key retail trade customers; damage to the reputation of KPLP or KPLP's brands; KPLP's sales being less than anticipated; KPLP's failure to implement its business and operating strategies; KPLP's obligation to make regular capital expenditures; KPLP's entering into unsuccessful acquisitions; KPLP's dependence on key personnel; KPLP's inability to retain its existing customers or obtain new customers; KPLP's loss of key suppliers; KPLP's failure to adequately protect its intellectual property rights; KPLP's reliance on third party intellectual property licenses; adverse litigation and other claims affecting KPLP; material expenditures due to comprehensive environmental regulation affecting KPLP's cash flow; KPLP's pension obligations are significant and can be materially higher than predicted if KPLP Management's underlying assumptions are incorrect; labour disputes adversely affecting KPLP's cost structure and KPLP's ability to run its plants; exchange rate and U.S. competitors; KPLP's inability to service all of its indebtedness; exposure to potential consumer product liability; covenant compliance; interest rate and refinancing risk; information technology; cyber-security; insurance; internal controls; and trade related risk.

These factors are not intended to represent a complete list of the factors that could affect KPT and/or KPLP; however, these factors should be considered carefully, and readers should not place undue reliance on forward-looking statements made herein or in the documents reproduced herein.

To the extent any forward-looking information in this MD&A constitutes future-oriented financial information or financial outlooks within the meaning of securities laws, such information is being provided to demonstrate the potential benefits and readers are cautioned that this information may not be appropriate for any other purpose. Future-oriented financial information and financial outlooks, including expected cost-savings related to the restructuring activities, are, without limitation, based on the assumptions and subject to the risks set out above.

The forward-looking information contained herein is expressly qualified in its entirety by this cautionary statement. The forward-looking information contained herein is made as of the date of this MD&A and KPT and KPLP undertake no obligation to publicly update such forward-looking information to reflect new information, subsequent or otherwise, unless required by applicable securities laws.

OVERVIEW

Business Overview

KPLP is Canada's leading tissue products supplier by overall market share. It produces, distributes, markets and sells a wide range of products, including bathroom tissue, facial tissue, paper towels and napkins, for both the Consumer and the Away-From-Home (AFH) market (in each case, as defined below). In addition to leading the Canadian consumer-branded tissue products market, KPLP is also a leader in the Canadian AFH market and is increasing its business in the U.S. in the consumer private label tissue market and through the expansion of the White Cloud brand to additional U.S. retailers. The Consumer segment consists of well recognized brands such as *Cashmere*, *Purex*, *Scotties*, *SpongeTowels*, and *White Swan* in Canada and *White Cloud* in the U.S.

KPLP is headquartered in Mississauga, Ontario and has approximately 2,500 employees across North America. KPLP's Canadian manufacturing facilities, consisting of four tissue plants in Québec, two plants in Ontario, and one plant in British Columbia, have a combined annual tissue production capacity of approximately 246,000 metric tonnes.

KPLP's U.S. manufacturing facility held through K.T.G. (USA) Inc. (KTG) and located in Memphis, Tennessee consists of two paper machines with an aggregate annual capacity of 57,000 metric tonnes, and one adjacent Through-Air-Dried (TAD) tissue machine (Memphis TAD Machine) with an aggregate annual capacity of 55,000 metric tonnes.

Pursuant to its Articles, KPT's business is limited to (i) the investment in, holding of and disposition of limited partnership interests, units, shares or other securities of KPLP and its general partner, KPGP Inc. (KPGP) (or any successor entity of either KPLP or KPGP), (ii) the acquisition of, holding, operation and disposition of any assets, liabilities, operations or business of such entities, and (iii) all activities related, incidental or ancillary to any of the foregoing. As of the date of the MD&A and following the participation by the partners in the Dividend Reinvestment Plan (DRIP) on October 16, 2017, KPT held 16.0% of the KPLP Partnership Units (KPLP Units).

Basis of Presentation

The unaudited condensed consolidated financial statements of KPLP presented for Q3 2017, Q3 2016, YTD 2017 and YTD 2016 have been prepared in accordance with IFRS (International Financial Reporting Standards) for interim financial statements, including IAS 34, Interim Financial Reporting. The unaudited condensed financial statements of KPT for the 3-month and 9-month periods ended September 24, 2017 and September 25, 2016, have also been prepared in accordance with IFRS for interim financial statements.

Accounting Periods

This MD&A, the unaudited condensed consolidated financial statements of KPLP and accompanying notes thereto include financial information for Q3 2017, Q3 2016, YTD 2017 and YTD 2016.

Financial Measures and Key Indicators

This MD&A refers to “Adjusted EBITDA”, a measure which does not have a standardized meaning prescribed by IFRS and therefore may not be comparable to similarly titled measures presented by other companies.

“Adjusted EBITDA” is calculated by KPLP as net income (loss) before (i) interest expense, (ii) income taxes, (iii) depreciation, (iv) amortization, (v) impairment (gain on sale) of non-financial assets, (vi) loss (gain) on disposal of property, plant and equipment, (vii) foreign exchange loss (gain), (viii) costs related to restructuring activities, (ix) changes in amortized cost of Partnership units liability, and (x) one-time costs due to pension revaluations related to past service. We use “Adjusted EBITDA” to evaluate the performance of our business as it reflects its ongoing profitability. This MD&A contains a reconciliation of Adjusted EBITDA to net income, the most comparable IFRS measure, on page 4.

Outlook

KPLP is committed to building great consumer brands and developing winning products for its retail and commercial customers. KPLP’s strategy is to maintain its leadership position in the Canadian market. Though the Canadian tissue market is expected to remain competitive, KPLP believes that its brands and products are well positioned for continued growth. KPLP will aim to sustain its consumer and AFH leadership position in the Canadian tissue industry by driving marketing and sales excellence, extending product lines, continuing to leverage product development and manufacturing technology to drive product superiority and cost savings, and emphasizing manufacturing quality and efficiency.

In the U.S., KPLP expects to continue to grow by leveraging its TAD product capabilities and focusing on the high-end private label business in the U.S. market. KPLP’s U.S. strategy also includes the expansion of the White Cloud brand to additional U.S. retailers.

BUSINESS HIGHLIGHTS

Paper Machine Project

On July 25, 2016, KPLP announced a paper machine investment of \$55 million at its Crabtree, Québec plant (PM8). The project will increase the plant’s overall production by approximately 20,000 metric tonnes annually. To finance the acquisition, relocation and installation of the paper machine, KPLP entered into a credit facility for a maximum amount of \$39.5 million from Investissement Québec. The paper machine was commissioned and in production by mid Q3 2017, and is ramping-up to produce tissue products primarily for the AFH market.

Results of Operations Q3 2017 compared to Q3 2016

Revenue

Revenue was \$336.3 million in Q3 2017 compared to \$312.8 million in Q3 2016, an increase of \$23.5 million or 7.5%. The increase in revenue was primarily due to increased sales volume and sales mix, partially offset by the unfavourable impact of foreign exchange fluctuations (USD average 1.26 in Q3 2017 compared to 1.30 in Q3 2016). From a geographic perspective, revenue in Canada increased \$14.1 million, or 7.2%, while revenue in the U.S. increased \$8.1 million, or 7.7%, and revenue in Mexico increased \$1.3 million or 10.5%.

Cost of Sales

Cost of sales was \$290.8 million in Q3 2017 compared to \$256.8 million in Q3 2016, an increase of \$34.0 million or 13.2%. Manufacturing costs increased primarily due to increased sales volume and significantly higher commodity costs, particularly for pulp and sorted office waste. These cost increases were partially offset by the favourable impact of foreign exchange fluctuations on USD denominated costs (USD average 1.26 in Q3 2017 compared to 1.30 in Q3 2016). Freight costs increased primarily due to higher sales volume and related inventory transfers, and the impact of higher rates as a result of the hurricanes in the southern U.S. Start-up costs incurred for PM8 in Crabtree were also part of the cost of sales increase. As a percentage of revenue, cost of sales were 86.5% in Q3 2017 compared to 82.1% in Q3 2016.

Selling, General and Administrative Expenses

Selling, general and administrative (SG&A) expenses were \$20.7 million in Q3 2017 compared to \$22.7 million in Q3 2016, a decrease of \$2.0 million or 8.8%. The decrease was primarily due to the timing of spend and cost reduction initiatives. As a percentage of revenue, SG&A expenses were 6.2% in Q3 2017 compared to 7.3% in Q3 2016.

Adjusted EBITDA

Adjusted EBITDA was \$39.4 million in Q3 2017 compared to \$45.6 million in Q3 2016, a decrease of \$6.2 million or 13.6%. The decrease was primarily due to higher fibre costs, increased freight and warehousing costs and start-up costs. These were partially offset by increased sales volume and lower SG&A expenses.

Interest Expense

Interest expense was \$10.5 million in Q3 2017 compared to \$11.2 million in Q3 2016, a decrease of \$0.7 million. The decrease was primarily related to the Credit Facility and the favourable impact of foreign exchange.

Other Income (Expense)

Other income was \$2.1 million in Q3 2017 compared to other expense of \$0.8 million in Q3 2016. Other income in Q3 2017 was primarily related to a foreign exchange gain of \$1.2 million (Q3 2016 – loss of \$0.8 million) and income resulting from the change in amortized cost of Partnership units liability of \$0.9 million (Q3 2016 – nil), resulting from a true-up of the Partnership units liability in Q3 2017 to reflect Management's best estimate of the current year taxable income of KPLP.

Income Taxes

An income tax expense of \$0.1 million was recorded in Q3 2017 compared to \$0.1 million in Q3 2016. KPLP is not directly taxable on its Canadian business. The income tax expense resulted primarily from operating income related to the U.S. entities. Income tax expense in partner's hands was \$4.2 million in Q3 2017 compared to \$5.1 million in Q3 2016.

Net Income

Net income was \$16.5 million in Q3 2017 compared to \$21.6 million in Q3 2016, a decrease of \$5.1 million. The decrease was primarily due to lower Adjusted EBITDA of \$6.2 million, higher depreciation expense of \$2.3 million and a gain in non-financial assets of \$0.4 million in Q3 2016 compared to nil in Q3 2017. These items were partially offset by a foreign exchange gain of \$1.2 million in Q3 2017 compared to a loss of \$0.8 million in Q3 2016, income resulting from the change in amortized cost of Partnership units liability of \$0.9 million (Q3 2016 – nil) and a decrease in interest expense of \$0.7 million.

Results of Operations YTD 2017 compared to YTD 2016

Revenue

Revenue was \$939.9 million in YTD 2017 compared to \$888.3 million in YTD 2016, an increase of \$51.6 million or 5.8%. The increase in revenue was primarily due to increased sales volume. From a geographic perspective, revenue in

Canada increased \$31.7 million, or 5.9%, while revenue in the U.S increased \$21.1 million, or 6.8%, and revenue in Mexico decreased \$1.2 million or 3.3%.

Cost of Sales

Cost of sales was \$802.1 million in YTD 2017 compared to \$747.4 million in YTD 2016, an increase of \$54.7 million or 7.3%. Manufacturing costs increased primarily due to increased sales volume and also significantly higher commodity costs, particularly pulp and sorted office waste. These cost increases were partially offset by the benefits from cost reduction initiatives and capital projects. Freight and warehousing costs increased compared to YTD 2016 primarily due to increased sales volume and related inventory transfers. As a percentage of revenue, cost of sales were 85.3% in YTD 2017 compared to 84.1% in YTD 2016.

Selling, General and Administrative Expenses

Selling, general and administrative (SG&A) expenses were \$66.4 million in YTD 2017 compared to \$66.3 million in YTD 2016. As a percentage of revenue, SG&A expenses were 7.1% in YTD 2017 compared to 7.5% in YTD 2016.

Adjusted EBITDA

Adjusted EBITDA was \$110.6 million in YTD 2017 compared to \$109.6 million in YTD 2016, an increase of \$1.0 million or 0.9%. The increase was primarily due to increased sales volume and benefits from cost reduction initiatives and capital projects. These increases were partially offset by higher commodity costs, including significantly higher fibre costs.

Interest Expense

Interest expense was \$31.5 million in YTD 2017 compared to \$33.3 million in YTD 2016, a decrease of \$1.8 million. The decrease was primarily due to lower U.S. interest expense.

Other Income (Expense)

Other expense was \$1.9 million in YTD 2017 compared to other income of \$0.3 million in YTD 2016. Other expense in YTD 2017 was primarily related to the change in amortized cost of Partnership units liability of \$4.2 million (YTD 2016 – \$1.2 million), resulting from a true-up of the Partnership units liability in Q3 2017 to reflect Management's best estimate of the current year taxable income of KPLP. This was partially offset by a foreign exchange gain of \$2.3 million (YTD 2016 – \$1.2 million).

Income Taxes

An income tax expense of \$5.0 million was recorded in YTD 2017 compared to \$1.6 million in YTD 2016, a change of \$3.4 million. KPLP is not directly taxable on its Canadian business. The income tax expense resulted primarily from operating income related to the U.S. entities. Income tax expense in partner's hands was \$6.9 million in YTD 2017 compared to \$9.6 million in YTD 2016.

Net Income

Net income was \$33.3 million in YTD 2017 compared to \$40.0 million in YTD 2016, a decrease of \$6.7 million. The decrease was primarily due to higher depreciation expense of \$4.5 million, an increase in tax expense of \$3.4 million and an increase in the change in amortized cost of Partnership units liability of \$3.0 million. These items were partially offset by a decrease in interest expense of \$1.8 million, a change in the foreign exchange gain of \$1.1 million, higher Adjusted EBITDA of \$1.0 million and a decrease in restructuring costs of \$0.6 million.

Results of Operations of KPT

(C\$ millions, unless otherwise noted)	3-month period ended <u>September 24, 2017</u>	3-month period ended <u>September 25, 2016</u>	9-month period ended <u>September 24, 2017</u>	9-month period ended <u>September 25, 2016</u>
Statement of Operations Data:				
Share of income	2.6	3.5	5.4	6.5
Depreciation of fair value increments	(1.4)	(1.5)	(4.4)	(4.4)
Equity income	1.2	2.0	1.0	2.1
Dilution gain	-	0.1	0.1	0.1
Income before income taxes	1.2	2.1	1.1	2.2
Income taxes:				
Current tax (expense) recovery	0.2	(1.0)	(0.1)	(1.3)
Deferred tax expense	(1.5)	(0.3)	(2.2)	(2.2)
Income taxes	(1.3)	(1.3)	(2.3)	(3.5)
Net income (loss)	(0.1)	0.8	(1.2)	(1.3)
Basic earnings (loss) per share (dollars)	(0.01)	0.08	(0.13)	(0.15)

The financial information presented above is based on KPT's interest in KPLP for the 3-month and 9-month periods ended September 24, 2017 and September 25, 2016. The share of income (loss) relates to KPT's share of income of KPLP. Refer to Results of Operations of KPLP above for an explanation of the results. The depreciation of fair value increments relates to adjustments to the carrying amount of certain assets of KPLP on its acquisition by KPT. Refer to note 5 in KPT's financial statements for additional information.

The current income tax (expense) recovery is based on KPT's share of the taxable income (loss) of KPLP for the same periods. The deferred tax expense is a result of changes in the temporary differences of KPLP's assets and liabilities since acquisition and the difference between the accounting and tax basis for KPT's investment in KPLP. Refer to note 6 in KPT's financial statements for additional information.

Pursuant to the Tax Distribution as defined in the Partnership Agreement, on February 28, 2017, the Partnership declared a Tax Distribution of \$8.6 million, of which \$1.4 million was used to settle the advances to KPT and pay the final tax instalment on behalf of KPT. The remaining \$7.2 million was used to settle Kruger Inc.'s and KPGP's respective advances, with the balance paid to Kruger Inc. and KPGP. KPT received an advance from KPLP of \$0.4 million during the 9-month period ended September 24, 2017 to pay the fiscal 2017 monthly tax instalments. The advance is non-interest bearing and non-recourse in nature and is settled when the Tax Distribution is declared annually.

Otherwise, the discussion and analysis provided above for the results of operations of KPLP applies on a proportionate basis to KPT's results of operations.

SEGMENT INFORMATION

Segment Operating Income

Segment operating income is the earnings (loss) for each such segment before (i) interest expense, (ii) income taxes, (iii) depreciation, (iv) amortization, (v) impairment (gain on sale) of non-financial assets, (vi) loss (gain) on disposal of property, plant and equipment, (vii) foreign exchange loss (gain), (viii) costs related to restructuring activities, (ix) changes in amortized cost of Partnership units liability, and (x) one-time costs due to pension revaluations related to past service. "Consumer Segment Adjusted EBITDA", "AFH Segment Adjusted EBITDA", and "Other Segment Adjusted EBITDA" means in each case the Segment operating income for the referring respective segment of KPLP.

Consumer Segment

Q3 2017 compared to Q3 2016

Consumer segment revenue was \$272.9 million in Q3 2017 compared to \$248.8 million in Q3 2016, an increase of \$24.1 million or 9.7%, due primarily to increased sales volume in Canada and the U.S., partially offset by the unfavourable impact of foreign exchange fluctuations on U.S. sales (USD average 1.26 in Q3 2017 compared to 1.30 in Q3 2016).

Consumer Segment Adjusted EBITDA was \$38.1 million in Q3 2017 compared to \$42.9 million in Q3 2016, a decrease of \$4.8 million. The decrease was primarily due to significantly higher pulp costs and also increased freight costs, partially offset by increased sales volume and lower SG&A expenses.

YTD 2017 compared to YTD 2016

Consumer segment revenue was \$764.0 million in YTD 2017 compared to \$708.9 million in YTD 2016, an increase of \$55.1 million or 7.8%, due primarily to increased sales volume in Canada and the U.S.

Consumer Segment Adjusted EBITDA was \$106.0 million in YTD 2017 compared to \$104.4 million in YTD 2016, an increase of \$1.6 million. The increase was primarily due to increased revenue, partially offset by higher commodity, freight and warehousing costs.

AFH Segment

Q3 2017 compared to Q3 2016

AFH segment revenue was \$62.5 million in Q3 2017 compared to \$59.4 million in Q3 2016, an increase of \$3.1 million or 5.2%, due primarily to increased sales volume and sales mix, partially offset by the unfavourable impact of foreign exchange fluctuations on U.S. sales (USD average 1.26 in Q3 2017 compared to 1.30 in Q3 2016). AFH segment revenue increased in both Canada and the U.S.

AFH Segment Adjusted EBITDA was \$1.8 million in Q3 2017 compared to \$2.4 million in Q3 2016, a decrease of \$0.6 million. This decrease was due primarily to higher fibre and warehousing costs and higher SG&A costs, partially offset by increased sales volume.

YTD 2017 compared to YTD 2016

AFH segment revenue was \$171.0 million in YTD 2017 compared to \$167.5 million in YTD 2016, an increase of \$3.5 million or 2.1%, due primarily to increased sales volume. AFH segment revenue increased in Canada, and decreased in the U.S.

AFH Segment Adjusted EBITDA was \$4.8 million in YTD 2017 compared to \$4.2 million in YTD 2016, an increase of \$0.6 million. This increase was due primarily to increased sales volume, improved manufacturing efficiency, lower freight costs and the benefit from capital projects, partially offset by higher fibre and warehousing costs.

Other Segment

Q3 2017 compared to Q3 2016

Other segment revenue was \$0.9 million in Q3 2017 compared to \$4.6 million in Q3 2016, a decrease of \$3.7 million due to lower parent roll sales in the quarter.

Other Segment Adjusted EBITDA was a loss of \$0.5 million in Q3 2017 compared to income of \$0.3 million in Q3 2016, a decrease of \$0.8 million primarily due to start-up costs related to the PM8 project in Crabtree.

YTD 2017 compared to YTD 2016

Other segment revenue was \$4.9 million in YTD 2017 compared to \$11.9 million in YTD 2016, a decrease of \$7.0 million due to lower parent roll sales.

Other Segment Adjusted EBITDA was a loss of \$0.2 million in YTD 2017 compared to income of \$1.0 million in YTD 2016, a decrease of \$1.2 million primarily due to lower parent roll sales, and start-up costs related to the PM8 project in Crabtree.

LIQUIDITY AND CAPITAL RESOURCES

Overview

KPLP's principal uses of funds are for operating costs, working capital, capital expenditures and pension contributions (together, the Funding Requirements). To date, KPLP has met the Funding Requirements by using cash generated from operating activities and from borrowings under its various debt facilities. The registered defined benefit pension plans (RDBPP) sponsored by KPLP are currently in a solvency deficiency position, requiring KPLP to make funding contributions over the next ten years. KPLP Management believes that cash generated from operations, together with amounts available under the various debt facilities will be sufficient to meet its future funding requirements. However, KPLP's ability to fund future requirements and its ability to make scheduled payments of interest and principal on its debt facilities and to satisfy any of its other present or future debt obligations will depend on its future operating performance, which will be affected by general economic, financial and other factors including factors beyond its control. KPLP Management reviews investment opportunities in the normal course of its business and may, if suitable opportunities arise, make selected investments to implement KPLP's business strategy. Historically, the funding for any such investments has come from cash flow from operations and/or additional debt.

Typically, approximately \$25 million of the annual capital expenditures are related to maintenance projects and the remaining expenditures are focused on growth projects aimed at reducing costs or increasing production capacity. Regular growth projects focused on performance improvement generally have a 3 to 4 year payback. Capital expenditures were \$51.2 million in YTD 2017, and are expected to be approximately \$80 million in fiscal 2017. Approximately half of the capital expenditures in YTD 2017 relate to PM8.

As of September 24, 2017, KPLP was in compliance with all of its financial covenants under all of its outstanding credit facilities. As of September 24, 2017, KPLP had drawn \$199.0 million from the \$300.0 million committed amount under the Senior Credit Facility, and had \$25.9 million of letters of credit outstanding, resulting in \$75.1 million available from the credit line, subject to covenant limitations. As of September 24, 2017, KPLP had total liquidity of \$76.0 million (December 31, 2016 - \$103.5 million) representing cash and cash equivalents and availability under the credit line within the covenant limitations.

The tissue industry is generally characterized by high sales volume and rapid turnover of inventories and accounts receivable. In general, accounts receivable and inventories are readily convertible into cash. Investment in working capital may be affected by fluctuations in the prices of pulp and other supply costs, vendor terms and timing of collection of accounts receivable.

Cash Flows

(C\$ millions, unless otherwise stated)	YTD 2017	YTD 2016	\$ Change
			YTD 2017 vs. YTD 2016
Net cash flows from operating activities	77.0	90.1	(13.1)
Net cash flows used in investing activities	(46.2)	(55.6)	9.4
Net cash flows used in financing activities	(29.3)	(39.0)	9.7
Effect of exchange rate changes on cash and cash equivalents held in foreign currency	(2.0)	(1.5)	(0.5)
Decrease in cash and cash equivalents	(0.5)	(6.0)	5.5
Beginning cash and cash equivalents	27.5	25.5	2.0
Ending cash and cash equivalents	27.0	19.5	7.5

Net Cash Flows from Operating Activities

Net cash from operating activities was \$77.0 million in YTD 2017 compared to \$90.1 million in YTD 2016. Cash from operating activities in YTD 2017 was primarily driven by Adjusted EBITDA of \$110.6 million, partially offset primarily by higher funds required for working capital, funding of pension and post-retirement benefit plans and income tax payments.

Net Cash Flows used in Investing Activities

Net cash used in investing activities was \$46.2 million in YTD 2017 compared to \$55.6 million in YTD 2016. Cash used in investing activities related primarily to capital expenditures (including purchases of software) of \$51.2 million in YTD 2017 compared to \$58.7 million in YTD 2016. In addition, government assistance of \$3.9 million was received in YTD 2017 compared to \$1.2 million in YTD 2016.

Net Cash Flows used in Financing Activities

Net cash used in financing activities was \$29.3 million in YTD 2017 compared to cash used of \$39.0 million in YTD 2016. Net cash used in financing activities in YTD 2017 was primarily due to distributions and advances paid of \$26.0 million (net of DRIP proceeds), interest paid of \$18.9 million and repayment of long-term debt of \$5.3 million. This was partially offset by proceeds from long-term debt of \$20.9 million.

Contractual Obligations

KPLP's contractual obligations consist of long-term debt (principal repayments and interest payments), operating leases for the rental of property, equipment and automobiles, partnership units liability and pensions. There have been no significant changes to the contractual obligations from those disclosed in the 2016 Annual MD&A.

KPLP's cash pension contribution for defined benefit pension arrangements in YTD 2017 was \$9.2 million, and its post-retirement benefits contribution was \$2.2 million. In addition, as of September 24, 2017, KPLP had \$25.5 million of letters of credit related to pensions outstanding. Pension and post-retirement contributions for the year ended December 31, 2017 are expected to be \$16.4 million.

Indebtedness

As of September 24, 2017, the Caisse Facility, which matures on August 16, 2018, has been classified as short-term debt, resulting in a working capital deficit. Management expects to refinance all or part of the indebtedness, prior to the maturity date and is currently exploring various refinancing alternatives. KPLP believes it will have sufficient capital to meet current and future working capital requirements.

There can be no assurance that refinancing can be obtained. Refer to the "Risk Factors" section of the 2016 Annual Information Form dated March 9, 2017 available on SEDAR at www.sedar.com.

For additional details related to KPLP's indebtedness, refer to the 2016 Annual MD&A available on SEDAR at www.sedar.com.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

Currency Risk

Currency risk is the risk that KPLP's earnings may fluctuate due to changes in Canadian to U.S. dollar exchange rates, as the financial results are reported in Canadian dollars. KPLP sells certain of its products in U.S. dollars at prevailing U.S. dollar prices. The currency exposure is more than offset by U.S. dollar expenses and the U.S. dollar denominated debt. KPLP at different times during the year can be a net buyer or net seller of U.S. dollars.

As of September 24, 2017, KPLP had net liabilities denominated in U.S. dollars of \$24.8 million (December 31, 2016 – \$33.0 million). Assuming the Canadian dollar strengthened (weakened) by 5% against the U.S. dollar, with all other variables held constant, the result on net income before tax in Q3 2017 would have been an increase (decrease) of \$1.2 million (Q3 2016 – \$1.7 million). KPLP continuously monitors foreign exchange risk and to manage this foreign exchange risk occasionally enters into foreign currency forward contracts and swap contracts, and may continue to do so going forward. KPLP had foreign currency forward contracts of \$43.9 million and swap contracts of \$22.9 million outstanding as of September 24, 2017.

Interest Rate Risk

KPLP's interest rate risk arises from its variable rate debt related to the revolving credit facility. As of September 24, 2017, KPLP had variable rate debts of \$198.0 million (December 31, 2016 – \$196.7 million). This facility bears interest at a base rate of Canadian prime rate, U.S. base rate, banker's acceptance rates or LIBOR plus the applicable margins. The applicable margin on the loans ranges between 0.20% and 2.375%.

A 100 basis point increase (decrease) in the market rate of interest would result in a decrease (increase) in net income before tax of \$2.0 million.

From time to time, KPLP uses interest rate swaps to manage part of its exposure to movements in interest rates on its credit facilities. KPLP had no interest rate swaps or interest rate derivatives outstanding as of September 24, 2017.

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. KPLP's financial instruments exposed to credit risk as of September 24, 2017 included cash and cash equivalents, trade and other receivables, receivables from related parties and advances to partners. KPLP places its cash and cash equivalents with financial institutions of high creditworthiness.

KPLP sells its products to a variety of customers under certain credit terms and therefore is exposed to credit risks. Normal trade receivables are due in 30 days from the invoice date and amounts in excess of 90 days past the invoice date are considered delinquent. KPLP routinely assesses the financial strength of its customers and mitigates against identified exposure primarily by lowering credit limits with high risk accounts. KPLP's customers are well established companies and accordingly, KPLP has experienced limited financial loss with respect to credit risk. As a result, KPLP believes that its exposure to credit risk is limited.

Liquidity Risk

The purpose of liquidity risk management is to maintain sufficient cash and cash equivalents and to ensure KPLP has sufficient authorized credit facilities to maintain liquidity and meet its future obligations as they come due. As of September 24, 2017, KPLP had drawn \$199.0 million from the \$300.0 million committed amount under the Senior Credit Facility entered into on September 28, 2015, maturing in September 2020. KPLP had \$25.9 million of letters of credit outstanding, resulting in \$75.1 million available from the credit line, subject to covenant limitations. As of September 24, 2017, KPLP had total liquidity of \$76.0 million (December 31, 2016 - \$103.5 million) representing cash and cash

equivalents and availability under the credit line within the covenant limitations. KPLP prepares projections to ensure it has sufficient funds to fulfill its obligations. The ability to pay its obligations relies on KPLP collecting its trade receivables in a timely manner and by maintaining sufficient cash and cash equivalents in excess of anticipated needs. KPLP's trade and other payables of \$196.5 million as of September 24, 2017 (December 31, 2016 – \$201.5 million) are all due for payment within twelve months of the dates of the consolidated statements of financial position.

KPLP believes its cash flows generated from operations combined with its available cash and credit facilities provide sufficient funding to meet its obligations.

As of September 24, 2017, the Caisse Facility, which matures on August 16, 2018, has been classified as short-term debt, resulting in a working capital deficit. Management expects to refinance all or part of the indebtedness, prior to the maturity date and is currently exploring various refinancing alternatives. KPLP believes it will have sufficient capital to meet current and future working capital requirements.

There can be no assurance that refinancing can be obtained. Refer to the “Risk Factors” section of the 2016 Annual Information Form dated March 9, 2017 available on SEDAR at www.sedar.com.

Commodity Price Risk

Commodity price risk is the risk that future cash flows associated with purchasing required raw materials will fluctuate due to changes in commodity prices, which can be affected by foreign exchange and other trade related risks. KPLP is subject to commodity price fluctuations since KPLP's main raw material is fibre, which changes price due to market conditions, and therefore can result in periodic earnings volatility in the short term. Historically, the industry has generally been able to mitigate its exposure to commodity price risk over the medium term by passing increases in its supply costs onto its customers through incremental price increases, depending on the supply and demand balance. From time to time, KPLP enters into futures contracts to manage its commodity risk. No such contracts were outstanding as of September 24, 2017.

TRANSACTIONS WITH RELATED PARTIES

Kruger provides certain management and support services to KPLP, including corporate management and administrative support; accounting and tax support; corporate financing support; corporate treasury support; benefits and human resources support; corporate legal and secretarial, corporate insurance; corporate procurement support; and corporate engineering support. Such services are provided pursuant to a Management Services Agreement. KPLP pays Kruger an annual management fee of \$4.3 million (2016 - \$4.2 million).

KPLP also leases warehouses located in Laval, Québec and Vancouver, British Columbia from an entity of which an affiliate of Kruger is a 50% owner.

KPLP purchases certain supplies and services from Kruger and its affiliates, including fibre and small quantities of pulp and packaging. These transactions generally take place on arm's-length terms. KPLP also has the ability to procure these goods and services from third party suppliers.

Sales of goods to Kruger during YTD 2017 were \$0.6 million (YTD 2016 – \$0.6 million). Goods are sold based on the price lists in force and terms that would be available to third parties.

Purchases of goods and services from Kruger during YTD 2017 were \$27.3 million (YTD 2016 - \$24.5 million). Purchases of goods and services from subsidiaries of Kruger during YTD 2017 were \$7.2 million (YTD 2016 - \$6.2 million). Goods are purchased from Kruger and related parties under normal commercial terms and conditions. These purchases of goods and services are included within cost of sales and SG&A expenses. During YTD 2017, management fees of \$3.2 million (YTD 2016 - \$3.2 million) were paid to Kruger Inc. for management services provided to KPLP.

OFF BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

KPLP has entered into operating lease commitments related to land, buildings, IT services, vehicles and other machines and equipment. Contractual obligations including these operating leases are described in the “Contractual Obligations” subsection under the “Liquidity and Capital Resources” section of this MD&A and the 2016 MD&A available on SEDAR at www.sedar.com.

There have been no significant changes in contractual obligations during YTD 2017. Refer to the 2016 Annual MD&A for further details available on SEDAR at www.sedar.com.

CRITICAL ACCOUNTING ESTIMATES

The preparation of the unaudited condensed consolidated financial statements is in accordance with IFRS, which requires KPLP Management to make estimates and assumptions that affect the reported amounts and disclosures made in the KPLP and KPT financial statements and accompanying notes. KPLP Management continually evaluates the estimates and assumptions it uses. These estimates and assumptions are based on KPLP Management’s historical experience, best knowledge of current events and conditions and activities that KPLP and KPT may undertake in the future. Actual results could differ materially from these estimates. The estimates and assumptions described in this section depend upon subjective or complex judgment that may be uncertain and changes in these estimates and assumptions could materially impact the financial statements.

Pension and Post-Retirement Benefit Obligations

The cost and accrued benefit plan obligations of KPLP’s pension plans, consisting of the RDBPP, supplementary retirement arrangements and the Annuity Arrangement and other benefit plans are accrued based on actuarial valuations that are dependent on assumptions determined by KPLP Management. These assumptions include the discount rate, the expected growth rate of health care costs, the rate of compensation increase, and retirement ages and mortality rates. These assumptions are reviewed quarterly by KPLP Management and KPLP’s actuaries. The discount rate (based on market rates), and the expected growth rate in health care costs represent the most significant assumptions.

Partnership Units

On December 13, 2012, in connection with the issuance of Partnership units to KPT, the Limited Partnership Agreement was amended to require KPLP, subject to compliance with contractual obligations and applicable law, to make distributions to its partners in such amounts as would enable KPT to discharge its obligation to pay federal and provincial income taxes (the Tax Distribution). Each partner is entitled to its share of the Tax Distribution made in respect of any given year. KPLP determined that it was appropriate to reclassify a portion of its equity to Partnership units liability, since the Tax Distribution represents a contractual obligation to deliver cash and, as such, meets the definition of a financial liability for accounting purposes under IFRS. The liability is based on management’s best estimate of expected future Tax Distributions. Projections of tax payable are based on additional assumptions including estimates of taxable income and tax rates. Taxable income can differ significantly from accounting income as a result of both timing and permanent tax differences based on enacted tax legislation and therefore changes in the Partnership units obligation are not necessarily indicative of a change in the expected future profitability of KPLP.

As of September 24, 2017, \$141.5 million was recorded as a liability in respect of this obligation (December 31, 2016 - \$145.9 million). The Partnership units liability was adjusted during YTD 2017 to reflect the current year advances made to the partners required to allow KPT to make tax installment payments. The change in amortized cost of Partnership units liability of \$4.2 million recorded during YTD 2017 has been included in Other income (expense).

Equity Method of Accounting

The equity method of accounting is being applied by KPT as it relates to its investment in KPLP. The conclusion to account for an investment using the equity method, particularly when the percentage of ownership is below 20%, is based on an assessment of several facts and circumstances and ultimately requires significant judgment in reaching a conclusion. Management has reviewed the agreements and made an assessment of the rights of KPT. Based on KPT having three of

nine seats on the board of directors of KPGP, management has concluded that KPT has the ability to exercise significant influence over KPLP.

Impairment Tests

KPLP performs an annual impairment test for goodwill and indefinite lived trademarks. KPT is required to perform an impairment test on its investment in KPLP if there is objective evidence that the investment may be impaired. Under IFRS, KPT and KPLP did not perform an impairment test at September 24, 2017, as there were no events or changes in circumstances to indicate that the assets may be impaired.

Income Taxes

The Partnership computes its income taxes in each jurisdiction in which its subsidiaries operate. Estimation of income taxes includes evaluating the recoverability of the deferred tax assets based on an assessment of the ability to use the underlying tax deductions and credits against future taxable income. The assessment requires an estimate of future taxable income compared to the net operating loss carry forwards and US State tax credits. To the extent estimates differ from the final tax return, earnings would be affected in a subsequent period. There has been no change in the assessment related to the recoverability of the deferred tax assets since December 31, 2016.

KPT has not recognized at the date of acquisition the deferred tax assets and liabilities related to the differences between the accounting and tax basis of KPLP's assets and liabilities. Accordingly, KPT is tracking temporary differences that are subject to the initial recognition exemption and recognizes newly created temporary differences as they arise. The determination of the temporary differences that are subject to the initial recognition exemption requires significant judgment. KPT has not recognized the deferred tax asset related to its Investment in KPLP.

ACCOUNTING CHANGES AND FUTURE ACCOUNTING STANDARDS

Accounting Standards Implemented for the 9-month Period Ended September 24, 2017

IAS 7, Statement of Cash Flows. In January 2016, the IASB issued an amendment to require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. Other than the aforementioned additional disclosures, which will be included in the annual consolidated financial statements, the application of the amendments to IAS 7 did not result in any changes to the presentation of the unaudited condensed consolidated statement of cash flows.

IAS 12, Income Taxes – Deferred Tax. In February 2016, the IASB issued an amendment to clarify the requirements for recognizing deferred tax assets on unrealized losses. The amendment clarifies the accounting for deferred tax where an asset is measured at fair value and that fair value is below the asset's tax base. Certain other aspects of accounting for deferred tax assets are also clarified. The adoption of this standard had no impact on the unaudited condensed consolidated financial statements.

In December 2016, the IASB issued an amendment clarifying the scope of IFRS 12, Disclosure of Interests in Other Entities. The amendment clarified that the disclosures requirement of IFRS 12 are applicable to interest in entities classified as held for sale, except for summarized financial information. The adoption of this standard had no impact on the unaudited condensed consolidated financial statements.

Future Accounting Standards

In addition to the new and amended standards not yet effective, as disclosed in the 2016 MD&A, the following revised standards and amendments are effective for annual periods beginning on or after January 1, 2018, and with earlier application permitted. KPLP and KPT Management are in the process of assessing the impact of these standards and amendments, and have determined that the standards and amendments will not be early adopted.

IFRS 15, Revenue from Contracts with Customers, was issued by the IASB in May 2014. The standard specifies how and when to recognize revenue as well as requiring entities to provide users of financial statements with some informative, relevant disclosures. The standard supersedes IAS 18, Revenue, IAS 11, Construction Contracts, and a

number of revenue-related interpretations. Application of the standard is mandatory for all IFRS reporters and it applies to nearly all contracts with customers: the main exceptions being leases, financial instruments and insurance contracts. In September 2015, the IASB issued an amendment to defer the mandatory effective date to interim periods beginning on or after January 1, 2018, with early adoption permitted. In April 2016, the IASB issued an amendment to clarify the guidance on identifying performance obligations, licences of intellectual property and principal versus agent, and to provide additional practical expedients on transition. The amendment is effective for annual periods beginning on or after January 1, 2018.

Management has performed a preliminary assessment of IFRS 15 adoption and does not expect a significant impact on the consolidated financial statements. It is expected that the application of IFRS 15 will result in a change in the revenue recognition related to Other long term assets. Management expects to adopt IFRS 15 using the modified retrospective approach. A transitional adjustment to reduce the balance related to the dispensers currently recorded in Other long term assets is expected to be recognized in retained earnings (deficit) on the date of initial application, January 1, 2018, and is expected to be approximately \$6 million.

IFRS 9, Financial Instruments. In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments, bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 Financial Instruments: Recognition and Measurement. The mandatory effective date of IFRS 9 would be annual periods beginning on or after January 1, 2018, with early adoption permitted. Management is evaluating the estimated impact of the new standard on the consolidated financial statements. Additional details are expected to be disclosed in the annual consolidated financial statements.

IFRS 16, Leases. In January 2016, the IASB issued IFRS 16, Leases which replaces the current guidance in IAS 17, Leases. IFRS 16 requires lessees to recognize a right-of-use asset and a lease liability reflecting future lease payments for virtually all lease contracts. IFRS 16 must be applied to an entity's first annual IFRS financial statements for periods beginning on or after January 1, 2019, with early adoption permitted. Management can elect to adopt IFRS 16 using either the full retrospective approach or the modified retrospective approach.

Management has performed a preliminary assessment of IFRS 16 adoption and expects a significant impact on the consolidated financial statements. The right-of-use asset and lease liability are expected to be material to the consolidated statement of financial position. There is expected to be a change in presentation on the consolidated statement of comprehensive income and a significant impact on Adjusted EBITDA. IFRS 16 replaces operating lease expense (recorded in Cost of sales and Selling, general and administrative expenses) with a depreciation charge for right-of-use assets and interest expense on lease liabilities. The amount related to the depreciation charge and interest expense will differ from the previous operating lease expense. Both the depreciation charge and interest expense are excluded from the calculation of Adjusted EBITDA, while the operating lease expense was previously included in the calculation. Changes to systems and processes are expected to be required, in order to collect the new data requirements.

Management is evaluating the potential implications on data systems, internal controls over financial reporting, information technology, business processes, and financing and compensation arrangements. Management is also evaluating the transition approach it will apply and whether it will use the optional exemptions or practical expedients under the standard. Additional details, including the transition approach, practical expedients elected and estimated quantitative impact on the consolidated financial statements are expected to be disclosed before the adoption of IFRS 16.

IFRIC 23, Uncertainty over income tax treatments. In June 2017, the IFRS Interpretation Committee issued an interpretation which clarifies how the recognition and measurement requirements of IAS 12 Income taxes, are applied where there is uncertainty over income tax treatments. The interpretation is effective for annual periods beginning on or after January 1, 2019. Management is evaluating the amended standard and has not yet determined the impact on the consolidated financial statements.

SELECTED QUARTERLY FINANCIAL INFORMATION

The following table provides selected financial information for KPT and KPLP:

(C\$ millions, unless otherwise stated)	September 24, 2017	December 31, 2016
KPT Financial Information		
Total assets	107.3	119.4
Total liabilities	4.7	4.3
KPLP Financial Information		
Total assets	1,308.7	1,337.0
Total liabilities	957.4	954.3

The following table summarizes quarterly financial results for KPLP for the last eight quarters:

Quarterly Financial Information

(C\$ millions, unless otherwise stated)	2017			2016				2015
	Q3	Q2	Q1	Q4	Q3	Q2	Q1	Q4
Number of days in the period	91	91	85	97	91	91	87	95
Revenue	336.3	314.4	289.3	339.6	312.8	295.8	279.7	300.6
Net income (loss) for the period	16.5	9.9	6.9	(4.5)	21.6	12.0	6.4	(0.5)
Reconciliation of Net income to Adjusted EBITDA								
Net income (loss)	16.5	9.9	6.9	(4.5)	21.6	12.0	6.4	(0.5)
Interest expense	10.5	10.8	10.3	10.7	11.2	10.9	11.2	10.0

Restructuring costs, net	(0.2)	-	-	0.2	-	0.4	-	0.9
Adjusted EBITDA	39.4	37.3	33.8	42.9	45.6	35.9	28.1	30.3

SHARE INFORMATION

KPT's authorized share capital consists of an unlimited number of Common Shares. As of November 7, 2017, there were 9,212,913 Common Shares issued and outstanding. Pursuant to the Exchange Agreement, Kruger has the right to exchange KPLP Units it holds from time to time for Common Shares on the basis of one KPLP Unit for one Common Share, subject to adjustment as set out in the Exchange Agreement. If Kruger were to exchange all KPLP Units held by it as of November 7, 2017 for Common Shares, it would hold approximately 84.0% of the issued and outstanding Common Shares. As of November 7, 2017, there were no potentially dilutive instruments outstanding.

Pursuant to the Limited Partnership Agreement, KPLP may issue an unlimited number of KPLP Units. As of November 7, 2017, there were 57,675,039 KPLP Units issued and outstanding.

RISK FACTORS

For a detailed description of risk factors associated with KPT and KPLP, refer to the "Risk Factors" section of the 2016 Annual Information Form dated March 9, 2017 available on SEDAR at www.sedar.com. KPLP Management is not aware of any significant changes to the risk factors associated with KPT and KPLP from those disclosed at that time.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures and Internal Control over Financial Reporting

Disclosure controls and procedures within KPT and KPLP (collectively, the Corporations) have been designed to provide reasonable assurance that all relevant information is identified to its Chief Executive Officer (CEO), its Chief Financial Officer (CFO) and its Disclosure Policy Committee to ensure appropriate and timely decisions are made regarding public disclosure.

Internal controls over financial reporting have been designed by management, under the supervision of, and with the participation of the Corporations' CEO and CFO, to provide reasonable assurance regarding the reliability of the Corporations' financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

In the Corporations' 2016 filings, the Corporations' CEO and CFO certified, as required by National Instrument 52-109, the appropriateness of the financial disclosure, the design and effectiveness of the Corporations' disclosure controls and procedures and the design and effectiveness of internal controls over financial reporting.

In the Corporations' Q3 2017 filings, the Corporations' CEO and CFO certified, as required by National Instrument 52-109, the appropriateness of the financial disclosure, the design of the Corporations' disclosure controls and procedures and the design of internal controls over financial reporting.

The Corporations' Audit Committees reviewed this MD&A and the unaudited condensed financial statements and notes of KPT and the unaudited condensed consolidated financial statements and notes of KPLP, and the Corporations' Boards of Directors approved these documents prior to their release.

Changes in Internal Controls over Financial Reporting

There have been no changes to the Corporations' internal controls over financial reporting during Q3 2017 that have materially affected, or are reasonably expected to materially affect, its internal controls over financial reporting.

ADDITIONAL INFORMATION

Additional information relating to KPT and KPLP, including the Annual Information Form, is available on SEDAR at www.sedar.com.
