McLean, Virginia; May 30, 2012—Booz Allen Hamilton Holding Corporation (NYSE:BAH), the parent company of management and technology consulting firm Booz Allen Hamilton Inc., today announced preliminary results for the fourth quarter and full year of its fiscal 2012 with revenue and earnings growth over the prior year. Booz Allen also reported strong backlog of \$10.8 billion as of March 31, 2012. Booz Allen's fiscal year runs from April 1 to March 31, with the fourth quarter of fiscal 2012 ending March 31, 2012.

Revenue in the fourth quarter of fiscal 2012 was \$1.54 billion, compared with \$1.49 billion in the prior year period, an increase of 3.2 percent. In fiscal year 2012, revenue was \$5.86 billion, compared with \$5.59 billion in the prior year period, an increase of 4.8 percent. During fiscal 2012, Booz Allen continued to grow revenue organically across all major markets.

In the fourth quarter of fiscal 2012, net income increased to \$50.6 million from \$18.1 million in the prior year period, and Adjusted Net Income increased to \$62.2 million from \$50.5 million in the prior year period. Diluted Earnings per Share (EPS) and Adjusted Diluted EPS in the fourth quarter of fiscal 2012 were \$0.36 and \$0.44, respectively, compared with \$0.13 and \$0.36 in the prior year period.

In fiscal 2012, net income increased to \$240.0 million from \$84.7 million in fiscal 2011, and Adjusted Net Income increased to \$227.2 million from \$157.5 million in fiscal 2011. Diluted EPS and Adjusted Diluted EPS in fiscal 2012 were \$1.70 and \$1.61, respectively, compared with \$0.66 and \$1.24 in fiscal 2011.

On May 29, 2012, Booz Allen's Board of Directors authorized and declared a cash dividend in the amount of \$0.09 per share, the second regular quarterly cash dividend issued by the Company. Additionally, the Board declared a special cash dividend of \$1.50 per share. Both the quarterly and special dividend are payable on June 29, 2012, to stockholders of record on June 11, 2012.

Ralph W. Shrader, Booz Allen's Chairman, Chief Executive Officer, and President, said "We continued to grow revenue organically in all of our major government markets—defense, intelligence, and civil—and we expanded our commercial and international business this year following the expiration of the non-compete agreement with our spin-off company on July 31, 2011. We grew net income, EBITDA, and earnings per share, demonstrating our ability to manage our business well despite a challenging market environment."

"Booz Allen is committed to being essential and differentiated. We believe our success comes from superbly serving our clients in their core missions, bringing innovative thinking to bear on client problems and opportunities, and developing the solutions to help clients deliver more and better services to citizens and customers. In areas ranging from cyber and cloud-based services to health, finance, infrastructure, and intelligence-surveillance-reconnaissance, we are seeing continued demand for our services."

"We are dedicated to delivering value to our current and future stockholders. This is evidenced by our margin improvements and strong cash flow—and by the regular and special dividends just declared by our Board. We will continue to look at the full range of opportunities to strengthen Booz Allen's strategic position and to evaluate our use of cash," Shrader said.

Financial Review

Fourth Quarter 2012— Booz Allen's 3.2 percent increase in revenue in the fourth quarter of fiscal 2012 over the prior year period was primarily the result of improved deployment of direct consulting staff against funded backlog under existing contracts and funded backlog under new contracts in all markets, as well as increased other direct costs.

In the fourth quarter of fiscal 2012, operating income increased to \$97.5 million from \$83.7 million in the prior year period and Adjusted Operating Income increased to \$115.4 million from \$101.9 million in the prior year period. The improvement in Adjusted Operating Income was primarily driven by growth in revenue and increased profitability resulting from decreases in incentive compensation costs, partially offset by unbillable staff compensation costs and unrecoverable expenses. Adjusted Operating Income excludes a restructuring charge of \$11.2 million, net of related revenues, associated with one-time termination benefits paid to departing employees as part of a plan to reduce certain personnel and infrastructure costs.

In the fourth quarter of fiscal 2012, net income increased to \$50.6 million from \$18.1 million in the prior year period, and Adjusted Net Income increased to \$62.2 million from \$50.5 million in the prior year period. Adjusted EBITDA increased 12.9 percent to \$130.6 million in the fourth quarter of fiscal 2012, compared with \$115.6 million in the prior year period. Adjusted Net Income and Adjusted EBITDA exclude the net restructuring charge of \$11.2 million discussed above. In the fourth quarter of fiscal 2012, diluted EPS increased to \$0.36 per share from \$0.13 per share in the prior year period, while Adjusted Diluted EPS increased to \$0.44 per share compared to \$0.36 per share in the prior year period.

During the fourth quarter, the Company recorded an adjustment to revenue associated with the recovery of allowable state income tax expense that in the aggregate increased revenue and operating income by approximately \$10.1 million (\$6.1 million net of taxes), which should have been allocated to the prior quarters of fiscal 2012 in which the expense was incurred. This operating income figure does not take into account a partially offsetting effect related to incentive compensation expense. The amount of the adjustment allocable to each prior quarter is not material to any of those prior quarters' financial statements, and the aggregate adjustment is not material to the fourth quarter, therefore the Company recorded the correction of this error in the fourth quarter of fiscal 2012.

Full Fiscal Year 2012— Booz Allen's 4.8 percent increase in revenue in fiscal 2012 over the prior year was primarily driven by improved deployment of direct consulting staff against funded backlog under existing contracts and funded backlog under new contracts in all markets, as well as other direct costs. We continued to grow revenue despite budget decreases and procurement delays by the U.S. federal government.

In fiscal 2012, operating income increased to \$387.4 million from \$319.4 million in fiscal 2011, and Adjusted Operating Income increased to \$429.2 million from \$392.5 million in fiscal 2011. The increase in Adjusted Operating Income was primarily driven by growth in revenue and increased profitability resulting from a decrease in incentive compensation costs. These increases were partially offset by unbillable staff compensation costs and unrecoverable expenses. As discussed above related to fourth quarter results, full year Adjusted Operating Income excludes the net restructuring charge of \$11.2 million associated with one-time termination benefits paid to departing employees as part of a plan to reduce certain personnel and infrastructure costs.

In fiscal 2012, net income increased to \$240.0 million from \$84.7 million in fiscal 2011, and Adjusted Net Income increased to \$227.2 million from \$157.5 million in fiscal 2011. Adjusted EBITDA increased 9.8 percent to \$488.1 million in fiscal 2012 compared with \$444.4 million in fiscal 2011, primarily as a result of the growth in Adjusted Operating Income. As discussed above related to fourth quarter results, full year Adjusted

Operating Income and Adjusted EBITDA exclude a net restructuring charge of \$11.2 million. In fiscal 2012, diluted EPS increased to \$1.70 per share from \$0.66 per share in fiscal 2011. In fiscal 2012, Adjusted Diluted EPS increased to \$1.61 per share from \$1.24 per share in fiscal 2011. Adjusted Diluted EPS for fiscal 2012 excludes the effects of a \$0.25 per share benefit related to the reversal of tax reserves during fiscal 2012, as compared to a benefit of \$0.09 per share excluded from Adjusted Diluted EPS for fiscal 2011.

Net cash provided by operating activities in fiscal 2012 was \$360.0 million compared to \$296.3 million in fiscal 2011. Free Cash Flow was \$283.1 million in fiscal 2012, compared to \$207.6 in fiscal 2011. Free Cash Flow in fiscal 2012 benefitted from a significant reduction in interest cost, and was offset by an increase in income tax payments.

Funded backlog as of March 31, 2012, was \$2.90 billion, compared to \$2.39 billion as of March 31, 2011. Booz Allen's total backlog as of March 31, 2012, was \$10.80 billion, compared to \$10.92 billion as of March 31, 2011.

Financial Outlook

Given the uncertainty in the second half of Booz Allen's fiscal year, which coincides with the beginning of a new government fiscal year, we are currently providing top-line guidance for only the first half of our fiscal year, which we expect to have revenue growth that is relatively flat to low-single digits. At the bottom line, for the full year, we are forecasting diluted EPS to be in the range of \$1.62 to \$1.72, and Adjusted Diluted EPS on the order of \$1.71 to \$1.81 per share, maintaining our prior guidance. Our overall EPS outlook reflects our confidence in our ability to manage our business with agility and precision, as illustrated by the cost restructuring actions taken in the fourth quarter of fiscal 2012, which we believe will continue to translate into improvements in operating margins.

These EPS estimates are based on fiscal year 2013 estimated average diluted shares outstanding of approximately 144.4 million shares.

Non-GAAP Financial Information

“Adjusted Operating Income” represents Operating Income before (i) certain stock option-based and other equity-based compensation expenses, (ii) adjustments related to the amortization of intangible assets, and (iii) any extraordinary, unusual, or non-recurring items. Booz Allen prepares Adjusted Operating Income to eliminate the impact of items it does not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary or non-recurring nature or because they result from an event of a similar nature.

“Adjusted EBITDA” represents net income before income taxes, net interest and other expense and depreciation and amortization and before certain other items, including: (i) certain stock option-based and other equity-based compensation expenses, (ii) transaction costs, fees, losses, and expenses, including fees associated with debt prepayments, and (iii) any extraordinary, unusual or non-recurring items. Booz Allen prepares Adjusted EBITDA to eliminate the impact of items it does not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary or non-recurring nature or because they result from an event of a similar nature.

“Adjusted Net Income” represents net income before: (i) certain stock option-based and other equity-based compensation expenses, (ii) transaction costs, fees, losses, and expenses, including fees associated with debt prepayments, (iii) adjustments related to the amortization of intangible assets, (iv) amortization or write-off of debt issuance costs and write-off of original issue discount and (v) any extraordinary, unusual or non-recurring items, in each case net of the tax effect calculated using an assumed effective tax rate. Booz Allen prepares Adjusted Net Income to eliminate the impact of items, net of taxes, it does not consider indicative of ongoing operating performance due to their inherent unusual, extraordinary or non-recurring nature or because they result from an event of a similar nature.

“Adjusted Diluted EPS” represents diluted EPS calculated using Adjusted Net Income as opposed to Net Income.

“Free Cash Flow” represents the net cash generated from operating activities less the impact of purchases of property and equipment.

Booz Allen utilizes and discusses in this release Adjusted Operating Income, Adjusted EBITDA, Adjusted Net Income, and Adjusted Diluted EPS because management uses these measures for business planning purposes, including managing its business against internal projected results of operations and measuring its performance. Management views Adjusted Operating Income, Adjusted EBITDA, Adjusted Net Income, and Adjusted Diluted EPS as measures of the core operating business, which exclude the impact of the items detailed in the supplemental exhibits, as these items are generally not operational in nature. These supplemental performance measures also provide another basis for comparing period to period results by excluding potential differences caused by non-operational and unusual or non-recurring items. Booz Allen also utilizes and discusses Free Cash Flow in this release because management uses this measure for business planning purposes, measuring the cash generating ability of the operating business and measuring liquidity generally. Booz Allen presents these supplemental measures because it believes that these measures provide investors and securities analysts with important supplemental information with which to evaluate Booz Allen's performance, long term earnings potential, or liquidity, as applicable, and to enable them to assess Booz Allen's performance on the same basis as management. These supplemental performance measurements may vary from and may not be comparable to similarly titled measures by other companies in Booz Allen's industry. Adjusted Operating Income, Adjusted EBITDA, Adjusted Net Income, Adjusted Diluted EPS, and Free Cash Flow are not recognized measurements under GAAP and when analyzing Booz Allen's performance or liquidity, as applicable, investors should (i) evaluate each adjustment in our reconciliation of Operating and Net Income to Adjusted Operating Income, Adjusted EBITDA and Adjusted Net Income, and cash flows to Free Cash Flows and the explanatory footnotes regarding those adjustments, (ii) use Adjusted Operating Income, Adjusted EBITDA, Adjusted Net Income, and Adjusted Diluted EPS in addition to, and not as an alternative to Operating Income, Net Income or Diluted EPS as a measure of operating results, each as defined under GAAP, and (iii) use Free Cash Flows, in addition to, and not as an alternative to, Net Cash Provided by Operating Activities as a measure of liquidity, each as defined under GAAP. Exhibit 6 includes a reconciliation of Adjusted Operating Income, Adjusted EBITDA, Adjusted Net Income, Adjusted Diluted EPS, and Free Cash Flow to the most directly comparable financial measure calculated and presented in accordance with GAAP.

No reconciliation of the forecasted range for Adjusted Diluted EPS to Diluted EPS for fiscal 2012 is included in this release because we are unable to quantify certain amounts that would be required to be included in the GAAP measure without unreasonable efforts and we believe such reconciliations would imply a degree of precision that would be confusing or misleading to investors.
