The Company

We are a leading provider of management and technology consulting services to the U.S. government in the defense, intelligence, and civil markets. We are further developing the scope and scale of our engineering services capabilities that we provide to our U.S. government clients. Additionally, we provide our management and technology consulting services to major corporations, institutions, and not-for-profit organizations.

We are a well-known, trusted and long-term partner to our clients, who seek our expertise and objective advice to address their most important and complex problems. Leveraging our 99-year consulting heritage and a talent base of approximately 23,000 people, we deploy our deep domain knowledge, functional expertise, and experience to help our clients achieve their objectives. We have a collaborative culture, supported by our operating model, which helps our professionals identify and respond to emerging trends across the markets we serve and deliver enduring results for our clients.

We were founded in 1914 by Edwin Booz, one of the pioneers of management consulting. In 1940, we began serving the U.S. government by advising the Secretary of the Navy in preparation for World War II. As the needs of our clients have grown more complex, we have expanded beyond our management consulting foundation to develop deep expertise in technology, engineering, and analytics. Today, we serve substantially all of the cabinet-level departments of the U.S. government. Our major clients include the Department of Defense, all branches of the U.S. military, the U.S. Intelligence Community, and civil agencies such as the Department of Homeland Security, the Department of Energy, the Department of Health and Human Services, the Department of the Treasury, and the Environmental Protection Agency. We support these clients in addressing complex and pressing challenges such as combating global terrorism, improving cyber capabilities, transforming the healthcare system, improving efficiency and managing change within the government, and protecting the environment. In the commercial sector, we serve U.S. clients primarily in the financial services, healthcare, and energy markets, and international clients, primarily in the Middle East.

We have strong and longstanding relationships with a diverse group of clients at all levels of the U.S. government. During fiscal 2013, we derived 99% of our revenue from services under more than 5,700 contracts and task orders. The single largest entity that we served in fiscal 2013 was the U.S. Army, which represented approximately 16% of our revenue in that period. We derived 91% of our revenue in fiscal 2013 from engagements for which we acted as the prime contractor. Also during fiscal 2013, we achieved an overall win rate of 56% on new contracts and task orders for which we competed and a win rate of more than 89% on re-competed contracts and task orders for existing or related business. As of March 31, 2013, our total backlog, including funded, unfunded, and priced options, was \$11.5 billion, an increase of 6.8% in total backlog with a 13% decrease in funded backlog compared to March 31, 2012.

We attribute the strength of our client relationships, the commitment of our people, and our strong financial position to our management consulting heritage and collaborative culture, which instills our relentless focus on delivering value and enduring results to our clients. We operate our business as a single profit center, which drives our ability to collaborate internally and compete externally. Our operating model is built on (1) our

dedication to client service, which focuses on leveraging our experience and knowledge to provide differentiated insights, (2) our partnership-style culture and compensation system, which fosters collaboration and the efficient allocation of our people across markets, clients, and opportunities, (3) our career progression and people development model, which reinforces the alignment of our people with our collaborative culture, core values, and ethics, and (4) our approach to the market, which leverages our matrix of deep domain expertise in the defense, intelligence, and civil government markets and commercial markets with our strong functional capabilities spanning management consulting and mission operations and technology and engineering.

We believe that the U.S. government is the world's largest consumer of management and technology consulting services. The U.S. government's budget for the fiscal year ended September 30, 2012 was close to \$4 trillion, excluding authorizations from Overseas Contingency Operations and supplemental funding for the Department of Defense. Of this amount, \$1 trillion was for discretionary budget authority, including \$531 billion for the Department of Defense and U.S. Intelligence Community and \$549 billion for civil agencies. Based on data from the Federal Procurement Data System, approximately \$513 billion of the U.S. government fiscal year 2012 discretionary outlays were for non-American Recovery and Reinvestment Act of 2009 and non-intelligence agency funding-related products and services procured from private contractors. We estimate that \$102 billion of the spending directed towards private contractors in U.S. government fiscal year 2012 was for management and technology consulting services, with \$62 billion spent by the Department of Defense and \$41 billion spent by civil agencies. The agencies of the U.S. Intelligence Community that we serve represent an additional market.

RISK FACTORS

Investment in our Class A common stock involves risks. You should carefully consider the risks and uncertainties described in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein or therein, including risk factors described in our most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K we file after the date of this prospectus supplement, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended, or the Exchange Act. The occurrence of any of these risks might cause you to lose all or part of your investment in the offered securities.

Risks Related to this Offering and Our Common Stock

This offering will result in a substantial amount of previously unregistered shares of our Class A common stock being registered, which may depress the market price of our Class A common stock.

Of the 142,293,208 shares of our Class A common stock issued and outstanding as of November 1, 2013, approximately 67% were owned by the selling stockholder and approximately 29% were freely tradable on the NYSE without restriction or further registration under the Securities Act of 1933, as amended, or the Securities Act, unless purchased by our “affiliates” as that term is defined in Rule 144 under the Securities Act, or Rule 144. The shares of Class A common stock being sold in this offering were not freely tradable on the NYSE prior to the completion of this offering and the sale by the selling stockholder of the shares of Class A common stock in this offering will increase the number of shares of our Class A common stock eligible to be traded on the NYSE, which could depress the market price of our Class A common stock. Sales of a substantial portion of our Class A common stock into the market in this offering and in the future could cause the market price of our Class A common stock to drop significantly.

Sales of substantial amounts of our Class A common stock, or the possibility of such sales, may adversely affect the price of our Class A common stock.

Sales of substantial amounts of our Class A common stock in the public market after this offering, or the perception that such sales will occur, could adversely affect the market price of our Class A common stock and make it difficult for us to raise funds through securities offerings in the future. As of November 1, 2013, 142,293,208 shares of our Class A common stock were issued and outstanding, of which all of the 16,100,000 shares sold in registered offerings prior to this offering are, and the 10,000,000 shares to be sold in this offering (or 11,500,000 shares if the underwriters fully exercise their option to purchase additional shares) will be, freely transferable without restriction or further registration under the Securities Act, unless acquired by our “affiliates” as that term is defined in Rule 144 under the Securities Act.

As of November 1, 2013, 3,574,076 shares of our Class A common stock, which are held by directors and executive officers, are restricted securities within the meaning of Rule 144 and eligible for resale in the public market subject to volume, manner of sale and holding period limitations under Rule 144. In addition, as of November 1, 2013, (1) 1,912,541 shares of our Class A common stock are issuable upon transfer of our Class B non-voting common stock and Class C restricted common stock, (2) 4,424,293 shares of our Class A common stock are issuable upon the exercise of outstanding stock options granted under our Officers’ Rollover Stock Plan relating to our outstanding Class E special voting common stock and (3) 16,770,792 shares of our Class A common stock underlying options that are either subject to the terms of our Equity Incentive Plan or reserved for future issuance under our Equity Incentive Plan are eligible for sale in the public market to the extent permitted by the provisions of various option agreements and, to the extent held by affiliates, the volume and manner of sale restrictions of Rule 144. If these additional shares are sold, or if it is perceived that they will be sold, into the public market, the price of our Class A common stock could decline substantially.

Table of Contents

We, certain of our directors and our executive officers and the selling stockholder have agreed to a “lock-up,” meaning that, subject to certain exceptions, neither we nor they will sell any shares of our Class A common stock or securities convertible into or exchangeable for our common stock during the 75-day period following the date of this prospectus supplement without the prior consent of Barclays Capital Inc. and Credit Suisse Securities (USA) LLC. Following the expiration of this 75-day lock-up period, all of these shares of Class A common stock will be eligible for future sale, subject to the applicable volume, manner of sale, holding period and other limitations of Rule 144. Barclays Capital Inc. and Credit Suisse Securities (USA) LLC may, in their discretion, permit those who are subject to these lockups and the selling stockholder to sell shares prior to the expiration of the 75-day lockup period. In addition, the selling stockholder has the right under certain circumstances to require that we register their remaining shares for resale. As of the date of this prospectus supplement, these registration rights apply to the approximately 85,660,000 shares of our outstanding Class A common stock owned by the selling stockholder that are not being sold in this offering (or approximately 84,160,000 shares if the underwriters fully exercise their option to purchase additional shares). See the section entitled “Description of Capital Stock” in the accompanying prospectus for a description of the shares of Class A common stock that may be sold into the public market in the future.

We cannot assure you that we will pay special or regular dividends on our stock in the future, and investors in this offering will not be entitled to receive the most recently declared regular quarterly cash dividend or special cash dividend.

Our board of directors authorized and declared a regular quarterly cash dividend for each of the eight fiscal quarters ended September 30, 2013. The board of directors also authorized and declared a special cash dividend on May 29, 2012 and July 30, 2012, respectively. On October 29, 2013, our board of directors declared a regular quarterly cash dividend in the amount of \$0.10 per share of Class A common stock and a special cash dividend in the amount of \$1.00 per share of Class A common stock. The quarterly cash dividend and the special cash dividend are payable to stockholders of record on November 11, 2013, which record date precedes the expected consummation date of this offering. Therefore, investors in this offering will not be entitled to receive any payments or distributions in connection with these dividends. The declaration of any future dividends and the establishment of the per share amount, record dates and payment dates for an such future dividends are subject to the discretion of the board of directors taking into account future earnings, cash flows, financial requirements and other factors. There can be no assurance that the board of directors will declare any dividends in the future. To the extent that expectations by market participants regarding the potential payment, or amount, of any special or regular dividend prove to be incorrect, the price of our common stock may be materially and negatively affected and investors that bought shares of our common stock based on those expectations may suffer a loss on their investment. Further, to the extent that we declare a regular or special dividend at a time when market participants hold no such expectations or the amount of any such dividend exceeds current expectations, the price of our common stock may increase and investors that sold shares of our common stock prior to the record date for any such dividend may forego potential gains on their investment.

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a discussion of the material U.S. federal income tax considerations relating to the purchase, ownership and disposition of our common stock by Non-U.S. Holders (as defined below) that purchase our common stock pursuant to this offering and hold such common stock as a capital asset. This discussion is based on the Internal Revenue Code of 1986, as amended, or the Code, U.S. Treasury regulations thereunder, and administrative and judicial interpretations thereof, all as in effect on the date of this prospectus supplement and all of which are subject to change, possibly with retroactive effect, or to different interpretation. This discussion does not address all of the U.S. federal tax considerations that may be relevant to Non-U.S. Holders in light of their particular circumstances or to Non-U.S. Holders subject to special treatment under U.S. federal income tax law (such as banks, insurance companies, dealers in securities or other Non-U.S. Holders that mark their securities to market for U.S. federal income tax purposes, foreign governments, international organizations, controlled foreign corporations, passive foreign investment companies, tax-exempt entities, certain former citizens or residents of the United States, or Non-U.S. Holders who hold our common stock as part of a straddle, hedge, conversion or other integrated transaction). This discussion does not address any U.S. state or local or non-U.S. tax considerations or any U.S. federal estate, gift or alternative minimum tax considerations.

As used in this discussion, the term “Non-U.S. Holder” means a beneficial owner of our common stock that is for U.S. federal income tax purposes:

- an individual who is neither a citizen nor a resident of the United States;
- a corporation that is not created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;
- an estate that is not subject to U.S. federal income tax on income from non-U.S. sources which is not effectively connected with the conduct of a trade or business within the United States; or
- a trust unless (i) it is subject to the primary supervision of a court within the United States and one or more “United States persons” (within the meaning of section 7701(a)(30) of the Code) have the authority to control all of its substantial decisions or (ii) it has in effect a valid election under applicable U.S. Treasury regulations to be treated as a United States person.

If an entity treated as a partnership for U.S. federal income tax purposes invests in our common stock, the U.S. federal income tax considerations relating to such investment will depend in part upon the status and activities of such entity and the particular partner. Any such entity (and any partner in such entity) should consult its own tax adviser regarding the U.S. federal tax considerations applicable to it and its partners of the purchase, ownership and disposition of our common stock.

PERSONS CONSIDERING AN INVESTMENT IN OUR COMMON STOCK SHOULD CONSULT THEIR OWN TAX ADVISORS REGARDING THE U.S. FEDERAL, STATE AND LOCAL AND NON-U.S. INCOME, ESTATE AND OTHER TAX CONSIDERATIONS RELATING TO THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES.

Distributions on Common Stock

Subject to the discussion below under “—Payments to Foreign Financial Institutions and Non-financial Foreign Entities” and “—Information Reporting and Backup Withholding,” if we make a distribution of cash or other property (other than certain *pro rata* distributions of our common stock) in respect of a share of our common stock, the distribution will be treated as a dividend to the extent it is paid from our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). If the amount of a distribution exceeds our current and accumulated earnings and profits, such excess generally will be treated first as a tax-free return of capital to the extent of the Non-U.S. Holder’s tax basis in such share of our common stock,

Table of Contents

and then as gain realized on the sale or other disposition of our common stock and will be treated as described below under “—Sale, Exchange or Other Disposition of Common Stock.” Distributions treated as dividends on our common stock that are paid to or for the account of a Non-U.S. Holder generally will be subject to U.S. federal withholding tax at a rate of 30%, or at a lower rate if provided by an applicable tax treaty and the Non-U.S. Holder provides the documentation (generally, Internal Revenue Service, or IRS, Form W-8BEN) required to claim benefits under such tax treaty to the applicable withholding agent.

If, however, a dividend is effectively connected with the conduct of a trade or business in the United States by a Non-U.S. Holder, the dividend generally will not be subject to the 30% U.S. federal withholding tax if the Non-U.S. Holder provides the appropriate documentation (generally, IRS Form W-8ECI) to the applicable withholding agent. Instead, the Non-U.S. Holder generally will be subject to U.S. federal income tax in respect of such dividend on a net income basis at regular graduated U.S. federal income tax rates (except as provided by an applicable tax treaty). Dividends that are effectively connected with the conduct of a trade or business in the United States by a corporate Non-U.S. Holder may also be subject to a branch profits tax at the rate of 30% (or a lower rate if provided by an applicable tax treaty).

Sale, Exchange or Other Disposition of Common Stock

Subject to the discussion below under “—Payments to Foreign Financial Institutions and Non-financial Foreign Entities” and “—Information Reporting and Backup Withholding,” a Non-U.S. Holder generally will not be subject to U.S. federal income tax on gain recognized on the sale, exchange or other disposition of our common stock unless:

- we are or have been a “United States real property holding corporation” for U.S. federal income tax purposes at any time during the shorter of (i) the five year period ending on the date of such sale, exchange or disposition and (ii) such Non-U.S. Holder’s holding period with respect to our common stock, and certain other conditions are met;
- such gain is effectively connected with the conduct of a trade or business in the United States by such Non-U.S. Holder, in which event such Non-U.S. Holder generally will be subject to U.S. federal income tax on a net income basis in substantially the same manner as a U.S. holder (except as provided by an applicable tax treaty) and, if it is a corporation, may also be subject to a branch profits tax at the rate of 30% (or a lower rate if provided by an applicable tax treaty); or
- such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of such sale, exchange or disposition and certain other conditions are met.

Generally, a corporation is a “United States real property holding corporation” if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business (all as determined for U.S. federal income tax purposes). We do not believe that we are, and we do not presently anticipate that we will become, a United States real property holding corporation.

Gains described in the second bullet point above will generally be subject to U.S. federal income tax on a net income basis at regular graduated U.S. federal income tax rates. A Non-U.S. Holder that is a foreign corporation also may be subject to branch profits tax at the rate of 30% (or a lower rate if provided by an applicable tax treaty) on such effectively connected gain.

Gains described in the third bullet point above will be subject to U.S. federal income tax at a rate of 30% (or a lower rate if provided by an applicable tax treaty), which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

Payments to Foreign Financial Institutions and Non-financial Foreign Entities

Under the Code provisions commonly known as the Foreign Account Tax Compliance Act, or FATCA, withholding taxes may be imposed on any dividend on, or any gross proceeds from the sale, exchange or other disposition of, our common stock paid to a Non-U.S. Holder that is a “foreign financial institution” or a “non-financial foreign entity” (to the extent such dividend or gain from such sale, exchange or disposition is not effectively connected with the conduct of a trade or business in the United States by such Non-U.S. Holder) at the rate of 30% unless such Non-U.S. Holder complies with certain additional U.S. reporting requirements.

For this purpose, a foreign financial institution includes, among others, a non-U.S. entity that (i) is a bank, (ii) holds, as a substantial portion of its business, financial assets for the account for others or (iii) is engaged primarily in the business of investing, reinvesting or trading in securities, partnership interests, commodities or any interest in securities, partnership interests or commodities. A foreign financial institution generally will be subject to this 30% U.S. federal withholding tax unless it (i) enters into an agreement with the IRS pursuant to which such financial institution agrees (x) to comply with certain information, verification, due diligence, reporting, and other procedures established by the IRS with respect to “United States accounts” (generally financial accounts maintained by a financial institution (as well as non-traded debt or equity interests in such financial institution) held by one or more specified U.S. persons or foreign entities with a specified level of U.S. ownership) and (y) to withhold on its account holders that fail to comply with reasonable information requests or that are foreign financial institutions that do not enter into such an agreement with the IRS or (ii) is exempted by the IRS. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

A non-financial foreign entity generally will be subject to this 30% U.S. federal withholding tax unless such entity provides the applicable withholding agent with either (i) a certification that such entity does not have any substantial U.S. owners or (ii) information regarding the name, address and taxpayer identification number of each substantial U.S. owner of such entity. These reporting requirements generally will not apply to a non-financial foreign entity that is a corporation the stock of which is regularly traded on an established securities market or certain affiliated corporations or to certain other specified types of entities.

Under the applicable Treasury Regulations and IRS guidance, withholding under FATCA generally will apply to payments of dividends on our common stock made on or after July 1, 2014 and to payments of gross proceeds from the sale or other disposition of such stock on or after January 1, 2017.

Non-U.S. Holders should consult their own tax advisor regarding the application of these withholding and reporting rules.

Information Reporting and Backup Withholding

Generally, the amount of dividends on our common stock paid to a Non-U.S. Holder and the amount of any tax withheld from such dividends must be reported annually to the IRS and to the Non-U.S. Holder.

The backup withholding rules that apply to payments to certain U.S. persons generally will not apply to payments with respect to our common stock to a Non-U.S. Holder if such Non-U.S. Holder certifies under penalties of perjury that it is not a United States person (generally by providing an IRS Form W-8BEN) or otherwise establishes an exemption.

Proceeds from the sale, exchange or other disposition of our common stock by a Non-U.S. Holder effected through a non-U.S. office of a U.S. broker or of a non-U.S. broker with certain specified U.S. connections generally will be subject to information reporting (but not backup withholding) unless such Non-U.S. Holder certifies under penalties of perjury that it is not a United States person (generally by providing an IRS Form W-8BEN) or otherwise establishes an exemption. Proceeds from the sale, exchange or other disposition of our common stock by

a Non-U.S. Holder effected through a U.S. office of a broker generally will be subject to information reporting and backup withholding, unless such Non-U.S. Holder certifies under penalties of perjury that it is not a United States person (generally by providing an IRS Form W-8BEN) or otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules generally will be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability if the required information is furnished by such Non-U.S. Holder on a timely basis to the IRS.

The expenses of the offering that are payable by us are estimated to be approximately \$ (excluding underwriting discounts and commissions and any transfer taxes incurred by the selling stockholder in disposing of the shares). We have also agreed to reimburse the underwriters for certain of their expenses in connection with this offering including their expenses relating to required reviews by FINRA.

Option to Purchase Additional Shares

The selling stockholder has granted the underwriters an option exercisable for 30 days after the date of this prospectus supplement to purchase, from time to time, in whole or in part, up to an aggregate of 1,500,000 shares from the selling stockholder at the public offering price less underwriting discounts and commissions. To the extent that this option is exercised, each underwriter will be obligated, subject to certain conditions, to purchase its pro rata portion of these additional shares based on the underwriters' underwriting commitment in the offering as indicated in the table at the beginning of this section.

whether any such transaction described above is to be settled by delivery of Class A common stock or such other securities, in cash or otherwise.

The 75-day restricted period described in the preceding paragraph will be extended if any of the underwriters are unable to publish or distribute research reports on us pursuant to Rule 139 under the Securities Act and/or Rule 2711 of the National Association of Securities Dealers, and:

- during the last 17 days of the 75-day restricted period we issue an earnings release, or material news or a material event relating to us occurs; or
- prior to the expiration of the 75-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 75-day restricted period,

(vi) the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of Class A common stock; provided that such plan does not provide for the transfer of shares of Class A common stock during the restricted period and no filing or other public announcement shall be required or shall be voluntarily made during the restricted period (as the same may be extended as provided herein) by the restricted party or us as a result of the establishment of any such plan;

(ix) cashless exercises of options pursuant to the Company’s Officers’ Rollover Stock Plan or Amended and Restated Equity Incentive Plan, provided that the shares of Class A common stock issued to and retained by the restricted party as a result thereof shall be subject to the restrictions described in this section “—Lock-Up Agreements”; and

Indemnification

We and the selling stockholder have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization, Short Positions and Penalty Bids

The underwriters may engage in stabilizing transactions, short sales and purchases to cover positions created by short sales, and penalty bids or purchases for the purpose of pegging, fixing or maintaining the price of the Class A common stock, in accordance with Regulation M under the Exchange Act:

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Table of Contents

- A short position involves a sale by an underwriter of shares in excess of the number of shares such underwriter is obligated to purchase in the offering, which creates the syndicate short position. This short position may be either a covered short position or a naked short position. In a covered short position, the number of shares involved in the sales made by such underwriter in excess of the number of shares it is obligated to purchase is not greater than the number of shares that it may purchase by exercising its option to purchase additional shares. In a naked short position, the number of shares involved is greater than the number of shares in their option to purchase additional shares. An underwriter may close out any short position by either exercising its option to purchase additional shares and/or purchasing shares in the open market. In determining the source of shares to close out the short position, an underwriter will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which it may purchase shares through its option to purchase additional shares. A naked short position is more likely to be created if an underwriter is concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.
- Syndicate covering transactions involve purchases of the Class A common stock in the open market after the distribution has been completed in order to cover syndicate short positions.
- Penalty bids permit an underwriter to reclaim a selling concession from a syndicate member when the Class A common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our Class A common stock or preventing or retarding a decline in the market price of the Class A common stock. As a result, the price of the Class A common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

Neither we nor any underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Class A common stock. In addition, neither we nor any underwriter make any representation that any underwriter will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Electronic Distribution

A prospectus in electronic format may be made available on the Internet sites or through other online services maintained by an underwriter or by its affiliates. In those cases, prospective investors may view offering terms online and prospective investors may be allowed to place orders online. The representatives, on behalf of the underwriters may agree with us to allocate a specific number of shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by such underwriter on the same basis as other allocations.

Other than the prospectus in electronic format, the information on any underwriter's web site and any information contained in any other web site maintained by any underwriter is not part of the prospectus or the Registration Statement of which this prospectus supplement forms a part, has not been approved and/or endorsed by us or any underwriter in their capacity as underwriter and should not be relied upon by investors.

The Company

We are a leading provider of management and technology consulting services to the U.S. government in the defense, intelligence, and civil markets. We are further developing the scope and scale of our engineering services capabilities that we provide to our U.S. government clients. Additionally, we provide our management and technology consulting services to major corporations, institutions, and not-for-profit organizations.

We are a well-known, trusted and long-term partner to our clients, who seek our expertise and objective advice to address their most important and complex problems. Leveraging our 99-year consulting heritage and a talent base of more than 23,000 people, we deploy our deep domain knowledge, functional expertise, and experience to help our clients achieve their objectives. We have a collaborative culture, supported by our operating model, which helps our professionals identify and respond to emerging trends across the markets we serve and deliver enduring results for our clients.

We were founded in 1914 by Edwin Booz, one of the pioneers of management consulting. In 1940, we began serving the U.S. government by advising the Secretary of the Navy in preparation for World War II. As the needs of our clients have grown more complex, we have expanded beyond our management consulting foundation to develop deep expertise in technology, engineering, and analytics. Today, we serve substantially all of the cabinet-level departments of the U.S. government. Our major clients include the Department of Defense, all branches of the U.S. military, the U.S. Intelligence Community, and civil agencies such as the Department of Homeland Security, the Department of Energy, the Department of Health and Human Services, the Department of the Treasury, and the Environmental Protection Agency. We support these clients in addressing complex and pressing challenges such as combating global terrorism, improving cyber capabilities, transforming the healthcare system, improving efficiency and managing change within the government, and protecting the environment. In the commercial sector, we serve U.S. clients primarily in the financial services, healthcare, and energy markets, and international clients, primarily in the Middle East.

We have strong and longstanding relationships with a diverse group of clients at all levels of the U.S. government. During fiscal 2013, we derived 99% of our revenue from services under more than 5,700 contracts and task orders. The single largest entity that we served in fiscal 2013 was the U.S. Army, which represented approximately 16% of our revenue in that period. We derived 91% of our revenue in fiscal 2013 from engagements for which we acted as the prime contractor. Also during fiscal 2013, we achieved an overall win rate of 56% on new contracts and task orders for which we competed and a win rate of more than 89% on re-competed contracts and task orders for existing or related business. As of March 31, 2013, our total backlog, including funded, unfunded, and priced options, was \$11.8 billion, an increase of 9.5% in total backlog with a 13% decrease in funded backlog over March 31, 2012.

We attribute the strength of our client relationships, the commitment of our people, and our strong financial position to our management consulting heritage and collaborative culture, which instills our relentless focus on delivering value and enduring results to our clients. We operate our business as a single profit center, which drives our ability to collaborate internally and compete externally. Our operating model is built on (1) our dedication to client service, which focuses on leveraging our experience and knowledge to provide differentiated insights, (2) our partnership-style culture and compensation system, which fosters collaboration and the efficient allocation of our people across markets, clients, and opportunities, (3) our career progression and people development model, which reinforces the alignment of our people with our collaborative culture, core values, and ethics, and (4) our approach to the market, which leverages our matrix of deep domain expertise in the defense, intelligence, and civil government markets and commercial markets with our strong functional capabilities spanning management consulting and mission operations and technology and engineering.

We believe that the U.S. government is the world's largest consumer of management and technology consulting services. The U.S. government's budget for the fiscal year ended September 30, 2012 was close to \$4 trillion, excluding authorizations from Overseas Contingency Operations and supplemental funding for the

Table of Contents

Department of Defense. Of this amount, \$1 trillion was for discretionary budget authority, including \$531 billion for the Department of Defense and U.S. Intelligence Community and \$549 billion for civil agencies. Based on data from the Federal Procurement Data System, approximately \$513 billion of the U.S. government fiscal year 2012 discretionary outlays were for non-American Recovery and Reinvestment Act of 2009 and non-intelligence agency funding-related products and services procured from private contractors. We estimate that \$102 billion of the spending directed towards private contractors in U.S. government fiscal year 2012 was for management and technology consulting services, with \$62 billion spent by the Department of Defense and \$41 billion spent by civil agencies. The agencies of the U.S. Intelligence Community that we serve represent an additional market.

Our principal executive offices are located at 8283 Greensboro Drive, McLean, Virginia 22102, Telephone: (703) 902-5000.

Description of Capital Stock

The following descriptions of our capital stock and provisions of our second amended and restated certificate of incorporation, which we refer to as our amended and restated certificate of incorporation and second amended and restated bylaws, which we refer to as our amended and restated bylaws, are summaries of their material terms and provisions. This description is summarized from, and qualified in its entirety by reference to, our amended and restated certificate of incorporation and amended and restated bylaws, which have been publicly filed with the SEC. See “Where You Can Find More Information; Incorporation by Reference.”

Common Stock

Our amended and restated certificate of incorporation authorizes the issuance of 646,000,000 shares of common stock, which includes:

- 600,000,000 shares of Class A common stock, par value \$0.01 per share;
- 16,000,000 shares of Class B non-voting common stock, par value \$0.01 per share;
- 5,000,000 shares of Class C restricted common stock, par value \$0.01 per share; and
- 25,000,000 shares of Class E special voting common stock, par value \$0.003 per share.

Shares of Class B non-voting common stock were issued to certain commercial partners in exchange for stock in Booz Allen Hamilton in connection with an investment in our company by affiliates of The Carlyle Group, which we refer to as Carlyle.

Shares of Class C restricted common stock were issued in connection with Carlyle’s investment in our company to certain officers in exchange for stock rights with an exercise date in 2008 under the Booz Allen Hamilton stock plan. Class C restricted common stock is restricted in that a record holder’s shares vest as set forth in the Officers’ Rollover Stock Plan, a program established in connection with Carlyle’s investment in our company that issues Officers certain shares of common stock and options.

Shares of Class E special voting common stock were issued pursuant to the Officers’ Rollover Stock Plan in connection with the exchange of stock and options in Booz Allen Hamilton for stock and options in Booz Allen Holding as part of the acquisition. The number of shares of Class E special voting stock issued in the exchanges equaled the number of Rollover options to purchase Class A stock also exchanged. For each Rollover option exercised by an individual, a Class E special voting common stock will be repurchased by our company at par value and retired. The Officers’ Rollover Stock Plan has a fixed vesting and exercise schedule to comply with Internal Revenue Code Section 409(a). In addition, a small number of shares of Class E special voting common stock that are not related to Rollover options have been issued pursuant to the original stockholders agreement subsequent to the acquisition in connection with certain estate planning transfers.

Holders of Class A common stock, Class C restricted common stock and Class E special voting common stock are entitled to one vote for each share on all matters to be voted on by stockholders. Except as otherwise provided by the Delaware General Corporation Law, or the DGCL, the holders of the voting common stock, as such, shall vote together as a single class. Except as required by the DGCL, the holders of Class B non-voting common stock will have no voting rights of any nature whatsoever.

Each share of common stock, except for Class E special voting common stock, is entitled to participate equally, when and if declared by the Board from time to time, in such dividends and other distributions in cash, stock, or property from our company’s assets or funds as may become legally available for such purposes subject to any dividend preferences that may be attributable to preferred stock that may be authorized and outstanding. In the event of our liquidation, dissolution or winding up, holders of our common stock, except for Class E special voting common stock (other than to the extent of its par value), will be entitled to receive proportionately any of

Table of Contents

our assets remaining after the payment of liabilities and subject to the prior rights of any outstanding preferred stock. Because we are a holding company, our ability to pay dividends is subject to our subsidiaries' ability to pay dividends to us, which is in turn subject to the restrictions set forth in our credit facilities.

Upon the transfer of any shares of Class B non-voting common stock or Class C restricted common stock, such shares will be automatically converted into shares of Class A common stock. Shares of our Class A common stock and Class E special voting common stock are not convertible into any other series or class of securities. However, shares of our Class E special voting stock are required to be repurchased by our company once the related options convert into Class A common stock. The rights and privileges of holders of our common stock are subject to any series of preferred stock that we may issue in the future.

Preferred Stock

Our amended and restated certificate of incorporation authorizes us to issue 54,000,000 shares of preferred stock, \$0.01 par value per share, the terms and conditions of which are determined by the Board upon issuance. The rights, preferences and privileges of holders of common stock are subject to, and may be adversely affected by, the rights of holders of any shares of preferred stock that our company may designate and issue in the future. At June 30, 2013 there were no shares of preferred stock outstanding. We have no present plans to issue any shares of preferred stock.

In addition, our amended and restated certificate of incorporation provides our Board with the authority, without any further vote or action by our stockholders, to designate and issue one or more series of preferred stock at their sole discretion and to fix the number of shares and the preferences, limitations and relative rights of the shares constituting any series. This provision makes it possible for our Board to issue preferred stock with super voting, special approval, dividend or other rights or preferences which could impede any attempt to acquire us. These and other provisions may have the effect of deferring, delaying or discouraging hostile takeovers or changes in control or management of our company, discouraging bids for the Class A common stock at a premium over the market price of the Class A common stock and may adversely affect the market price of, and the voting and other rights of the holder of, Class A common stock.

Amended and Restated Stockholders Agreement

In connection with the acquisition of Booz Allen Hamilton by Carlyle on July 31, 2008, Booz Allen Holding, Explorer Coinvest LLC ("Coinvest"), an entity controlled by Carlyle, certain members of the management of Booz Allen Holding and certain other stockholders of Booz Allen Holding entered into the stockholders agreement. Effective November 16, 2010, the stockholders agreement was amended and restated and, on June 12, 2012, the amended and restated stockholders agreement was further amended. Under the amended and restated stockholders agreement, as amended, subject to certain conditions and restrictions, a maximum of three of the nominees for election to our Board, who may be full-time employees of Carlyle, are to be designated by Carlyle, through Coinvest, and a maximum of two members of the Board, who must be full-time employees of Booz Allen Hamilton, are to be designated by Booz Allen Holding's Chief Executive Officer. Carlyle and our executive officers will be required to vote the voting shares over which they have voting control in favor of Carlyle's and the Chief Executive Officers' designees. At such time as Carlyle, through Coinvest, ceases to own at least 40% of the economic interests in Booz Allen Holding represented by its issued and outstanding common stock, Carlyle and our executive officers will use commercially reasonable efforts to amend the Board representation provisions of the amended and restated stockholders agreement, as amended, consistent with the reduced ownership position of Carlyle at that time.

Under the amended and restated stockholders agreement, as amended, in the event of any sale of shares of Class B non-voting common stock or Class C restricted common stock pursuant to the exercise of bring-along rights by Carlyle, certain transfers following an initial public offering or pursuant to the exercise of registration rights (discussed below), such shares will be converted into shares of Class A common stock.

Table of Contents

In addition to certain bring-along rights, Carlyle has registration rights with respect to 95,660,000 shares of Class A common stock that it controlled as of March 31, 2013 and, in certain circumstances, other stockholders of Booz Allen Holding who are a party to the amended and restated stockholders agreement, as amended, may have the right, subject to certain exceptions, to request that certain securities (including shares of Class A common stock held by such stockholders and shares of Class A common stock issuable upon exercise of options or upon conversion from Class B or Class C common stock) be registered. To the extent that Carlyle acquires shares of Class B or Class C common stock or options exercisable for shares of Class A common stock, it would have registration rights with respect to the shares of Class A common stock issuable upon conversion or exercise thereof. Booz Allen Holding has agreed to indemnify the stockholders that are a party to the amended and restated stockholders agreement, as amended, and their affiliates from liabilities resulting from the registration of securities of Booz Allen Holding pursuant to the amended and restated stockholders agreement, as amended.

The amended and restated stockholders agreement, as amended, will terminate upon a sale or change of control of Booz Allen Holding or such time as more than 60% of its equity securities have been sold to the public.

Corporate Opportunities

Our amended and restated certificate of incorporation provides that Carlyle has no obligation to offer us an opportunity to participate in business opportunities presented to Carlyle or its affiliates, including its respective officers, directors, agents, members, partners and affiliates even if the opportunity is one that we might reasonably have pursued, and that neither Carlyle nor its respective officers, directors, agents, members, partners or affiliates is liable to us or our stockholders for breach of any duty by reason of any such activities unless, in the case of any person who is a director or officer of our company, such business opportunity is expressly offered to such director or officer in writing solely in his or her capacity as an officer or director of our company. Stockholders will be deemed to have notice of and consented to this provision of our amended and restated certificate of incorporation.

Change of Control Related Provisions of Our Amended and Restated Certificate of Incorporation, Amended and Restated Bylaws and Delaware Law

Provisions in our amended and restated certificate of incorporation and amended and restated bylaws, and in the DGCL, may make it difficult, expensive and time-consuming for a third party to pursue a takeover attempt even if a change in control of our company would be beneficial to the interests of our stockholders. Any provision of our amended and restated certificate of incorporation or amended and restated bylaws or Delaware law that has the effect of delaying or deterring a change in control could limit the opportunity for our stockholders to receive a premium for their shares of our common stock, and could also affect the price that some investors are willing to pay for our common stock. These provisions are intended to:

- enhance the likelihood of continuity and stability in the composition of our Board;
- discourage some types of transactions that may involve an actual or threatened change in control of our company;
- discourage certain tactics that may be used in proxy fights;
- ensure that our Board will have sufficient time to act in what our Board believes to be the best interests of us and our stockholders; and
- encourage persons seeking to acquire control of our company to first consult with our Board to negotiate the terms of any proposed business combination or offer.

Delaware Takeover Statute

In our amended and restated certificate of incorporation, we elected not to be governed by Section 203, as permitted under and pursuant to subsection (b)(3) of Section 203, until the first date that Coinvest and its affiliates no longer beneficially own more than 20% of our outstanding voting shares. After such date, we will be governed by Section 203. Section 203 of the DGCL, with specified exceptions, prohibits a Delaware corporation from engaging in any “business combination” with any “interested stockholder” for a period of three years following the time that the stockholder became an interested stockholder unless:

- before that time, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned by persons who are directors and also officers and by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- at or after that time, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the vote of at least 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 defines “business combination” to include the following:

- any merger or consolidation of the corporation with the interested stockholder;
- any sale, lease, exchange, mortgage, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;
- subject to specified exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;
- any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or
- any receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

Section 203 defines an “interested stockholder” as:

- any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation; and
- any entity or person affiliated with or controlling or controlled by the entity or person.

Section 203 may make it difficult and expensive for a third party to pursue a takeover attempt that we do not approve, even if a change in control would be beneficial to the interests of our stockholders.

Classified Board; Vacancies and Removal of Directors

Our amended and restated certificate of incorporation and amended and restated bylaws provide that our Board will be divided into three classes whose members will serve three-year terms expiring in successive years. Any effort to obtain control of our Board by causing the election of a majority of the Board may require more time than would be required without such a staggered election structure.

Our amended and restated certificate of incorporation and amended and restated bylaws provide that directors may be removed with or without cause at any time upon the affirmative vote of holders of at least a

Table of Contents

majority of the votes to which all the stockholders would be entitled to cast until a “group,” as defined under Section 13(d)(3) of the Exchange Act, no longer beneficially owns more than 50% of the outstanding shares of our voting common stock. After such time, directors may only be removed from office for cause upon the affirmative vote of holders of at least a majority of the votes which all the stockholders would be entitled to cast. Our amended and restated certificate of incorporation and amended and restated bylaws provide that vacancies in our Board may be filled only by our Board. Any director elected to fill a vacancy will hold office for the remainder of the full term of the class of directors in which the vacancy occurred (including a vacancy created by increasing the size of the Board) and until such director’s successor shall have been duly elected and qualified. No decrease in the number of directors will shorten the term of any incumbent director. The number of directors shall be fixed and modified, but not reduced to less than three, from time to time by resolution of our Board.

These provisions may have the effect of slowing or impeding a third party from initiating a proxy contest, making a tender offer or otherwise attempting a change in the membership of our Board that would effect a change of control.

Advance Notice Provisions for Stockholder Nominations of Directors and Stockholder Proposals

Our amended and restated bylaws establish an advance notice procedure for stockholders to make nominations of candidates for election as director or to bring other business before an annual meeting of our stockholders. This procedure provides that, except as otherwise required by applicable law, only persons who are nominated by the Board, a committee appointed by the Board, or by a stockholder who has given timely written notice to our secretary prior to the meeting, will be eligible for election as directors, and only business that has been brought before an annual meeting by the Board, any committee appointed by the Board, or by a stockholder who has given timely written notice to our secretary prior to the meeting, may be conducted. Under the procedure, to be timely, notice must be received by the secretary at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the annual meeting of the preceding year. In addition, a stockholder’s notice proposing to nominate a person for election as director must contain specific information about the nominating stockholder and the proposed nominee, and a stockholder’s notice relating to the conduct of business other than the nomination of directors must contain specific information about the business and the proposing stockholder.

Requiring advance notice of nominations by stockholders allows our Board an opportunity to consider the qualifications of the proposed nominees and also provides a more orderly procedure for conducting annual meetings of stockholders. It also provides the Board with the opportunity to inform stockholders of proposed business prior to the meeting, so that stockholders can better decide whether to attend the meeting or to grant a proxy regarding the disposition of the business. These provisions may also have the effect of precluding a contest for the election of directors or the consideration of stockholder proposals and of discouraging or deterring a third party from conducting a solicitation of proxies to elect its own slate of directors or to approve its own proposal without regard to whether consideration of the nominees or proposals might be harmful or beneficial to us or our stockholders.

Calling Special Stockholder Meetings; Stockholder Action by Written Consent

Our amended and restated certificate of incorporation and amended and restated bylaws provide that a special meeting of stockholders may only be called by our Board. Our amended and restated bylaws allow for stockholder actions by written consent until no “group,” as defined under Section 13(d)(3) of the Exchange Act, owns more than 50% of the outstanding shares of our voting common stock. After such time, any action taken by the stockholders must be effected at a duly called annual or special meeting, which may be called only by the Board.

These provisions make it procedurally more difficult for a stockholder to take action without a meeting and therefore may reduce the likelihood that a stockholder will seek to take independent action with respect to matters that are not supported by management.

Table of Contents

Limitation of Liability of Directors; Indemnification of Directors and Officers

Our amended and restated certificate of incorporation contains provisions permitted under DGCL relating to the liability of directors. These provisions eliminate a director's personal liability for monetary damages resulting from a breach of fiduciary duty, except in circumstances involving:

- any breach of the director's duty of loyalty;
- acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of the law;
- under Section 174 of the DGCL (unlawful dividends); or
- any transaction from which the director derives an improper personal benefit.

The principal effect of the limitation on liability provision is that a stockholder will be unable to prosecute an action for monetary damages against a director unless the stockholder can demonstrate a basis for liability for which indemnification is not available under the DGCL. These provisions, however, should not limit or eliminate our rights or any stockholder's rights to seek non-monetary relief, such as an injunction or rescission, in the event of a breach of director's fiduciary duty. These provisions will not alter a director's liability under federal securities laws. The inclusion of this provision in our certificate of incorporation may discourage or deter stockholders or management from bringing a lawsuit against directors for a breach of their fiduciary duties, even though such an action, if successful, might otherwise have benefited us and our stockholders.

Our amended and restated bylaws require us to indemnify and advance expenses to our directors and officers to the fullest extent not prohibited by the DGCL and other applicable law, except in the case of a proceeding instituted by the director without the approval of our Board. Our amended and restated bylaws provide that we are required to indemnify our directors and officers, to the fullest extent permitted by law, for all judgments, fines, settlements, legal fees and other expenses incurred in connection with pending or threatened legal proceedings because of the director's or officer's positions with us or another entity that the director or officer serves at our request, subject to various conditions, and to advance funds to our directors and officers to enable them to defend against such proceedings. To receive indemnification, the director or officer must have been successful in the legal proceeding or have acted in good faith and in what was reasonably believed to be a lawful manner in our best interest and, with respect to any criminal proceeding, had no reasonable cause to believe his or her conduct was unlawful.

We have entered into an indemnification agreement with each of our directors and certain of our officers. The indemnification agreements provide our directors and certain of our officers with contractual rights to the indemnification and expense advancement rights provided under our amended and restated bylaws, as well as contractual rights to additional indemnification as provided in the indemnification agreement.

Supermajority Voting Requirements for Amendment of Certain Provisions of Our Amended and Restated Bylaws

Our amended and restated bylaws provide that our bylaws may be amended, altered or repealed at any regular or special meeting of the stockholders only if the amendment is approved by the vote of holders of at least two-thirds of the shares then entitled to vote at a general election of directors. In addition, amendments may be instituted by resolutions adopted by a majority of the Board at any special or regular meeting of the Board. These provisions make it more difficult for stockholders to remove or amend any provisions that may have an anti-takeover effect.

otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

If indicated in the applicable prospectus supplement, underwriters or other persons acting as agents may be authorized to solicit offers by institutions or other suitable purchasers to purchase the securities at the public offering price set forth in the prospectus supplement, pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. The specific terms of any lock-up provisions in respect of any given offering will be described in the applicable prospectus supplement.
