About Sophiris

Sophiris Bio Inc. is a biopharmaceutical company developing topsalysin, a clinical-stage, targeted therapy for the treatment of urological diseases. Topsalysin has successfully completed a Phase 2a clinical trial for the treatment of localized low to intermediate risk prostate cancer. Topsalysin has also successfully completed a Phase 3 clinical study for the treatment of the symptoms of benign prostatic hyperplasia (BPH), and is designed to be as efficacious as pharmaceuticals, less invasive than the surgical interventions, and without the sexual side effects seen with existing treatments.
