## MoneyGram MobilePass™ Significantly Expands to 35,000+ U.S. Locations

DALLAS, Sept. 7, 2017 /PRNewswire/ -- [MoneyGram](#) (NASDAQ: MGI) announces the significant expansion of its award-winning MoneyGram MobilePass service to thousands of U.S. agent locations. In addition to the company's other digital solutions, including kiosks, [moneygram.com](#), and send to account, MoneyGram MobilePass provides customers with another choice to make sending money easier.

MoneyGram MobilePass was initially launched as a pilot program inside more than 3,000 U.S. agent locations in 2016. The product allows customers to initiate a transaction on their mobile device or online and complete the transaction at any one of MoneyGram's agent locations in the U.S.

"We are excited to extend our MoneyGram MobilePass service to our entire MoneyGram network in the U.S. which gives our customers convenience and flexibility to send money however they choose and whenever they want - it's truly MoneyGram their way," said Pete Ohser, MoneyGram's head of revenue for the Americas and Europe. "Innovation is at the core of our business and the ability to fuse digital solutions with a strong physical network of agent locations around the world sets MoneyGram apart from our competitors. MoneyGram MobilePass is another example of our commitment to connecting friends and family around the world in any way that is convenient for them."

The MoneyGram MobilePass app in English is available for Apple® devices. It is also available in both English and Spanish for Android™ devices. The product was named "Best Cash Innovation" in the industry at the 2017 [PYMNTS.com](#) Innovation Awards.

MoneyGram MobilePass is just one of many digital solutions offered in the company's multi-channelled approach to money transfers and supports the company's mission to make money transfers easier for consumers.
